

harbour storage, seating, & tables

harbour hybrid storage, seating and tables product information

In a world where the workday moves as fluidly as you do, Harbour offers a moment of stillness. Thoughtfully designed by Alyssa Coletti and inspired by the modern hybrid professional - untethered, agile, and always in motion. Harbour brings together modular seating, storage, and work surfaces to create flexible, multi-functional environments that support work, collaboration, and touchdown applications.

Whether you're in for a few hours or staying all day, integrated storage lockers keep essentials close and clutter out of sight, helping you step into focus without the weight of worry.
