flotte

Enrich executive spaces with Flotte, a premium seating solution introduced in partnership with Okamura. Refined and elegant by design, Flotte befits private office suites, meeting spaces, and conference rooms. The chair's minimal, flowing silhouette echoes a philosophy of intention and rigor, in which every line serves a purpose. Its sculptural profile is bisected by a signature gap between the backrest and seat, creating an architectural lightness. Upholstered in a selection of luxurious full grain leathers and performance alternatives, Flotte brings bespoke style and a distinctly elevated presence.
