COLLECTIONS

LOUIS KAHN

The Louis Kahn Collection from IKONstudio brings forward a deeply considered body of furniture derived from the architect's early and mid-career works. The IKONstudio collection was created from Kahn's archival drawings, and represents the first time these designs have been realized.

SOM

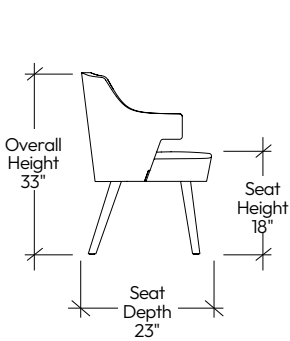

The SOM Collection from IKONstudio presents a selection of historically significant furniture designs created by Skidmore, Owings & Merrill. Originally conceived as extensions of architecture itself, these pieces embody the firm's modernist ethos, defined by material integrity and refined restraint.

LK53 RADBILL TABLES

LK53 Radbill Table (Cubbies)
(IKNA)

LK53 Radbill Table (Framed Bevel)
(IKNB)

FEATURES

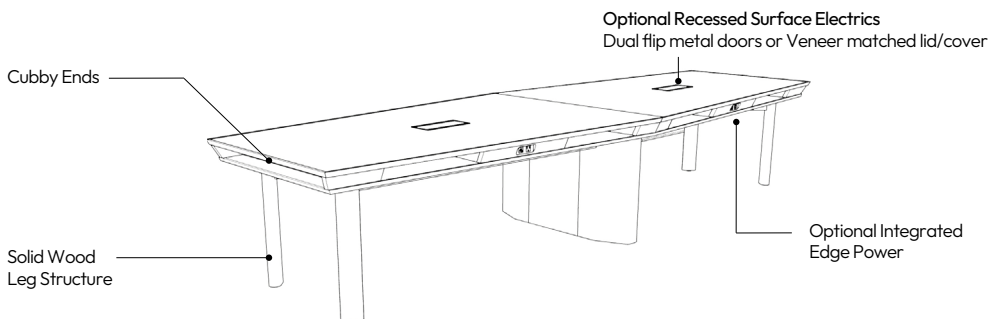

- The table is defined by its cubbies, a signature element drawn from Louis Kahn's original concept
- Featuring four evenly spaced cubbies along the length, and two open cubbies at the ends of the tables for notebooks or personal devices
- Each cubby has an interior height of 2-1/2"
- Available in widths 120", 132", 144", 156" and 168" with a 54" depth
- Optional plinth available for wire management
- Power and connectivity options support meeting spaces with light or heavy usage

FEATURES

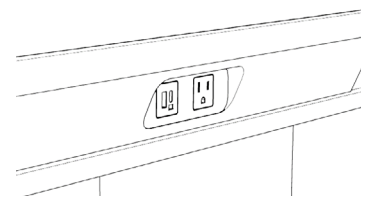

- The non-cubby variation maintains the distinctive beveled angles while highlighting the craftsmanship details with intentional insets
- Offered in 96" and 108" widths with a 48" depth, and in 120", 132", 144", 156", and 168" widths with a 54" depth
- Optional plinth available for wire management for widths 120" and above
- Power and connectivity options support meeting spaces with light or heavy usage

TABLE TOP SIZES

The unique top shape is defined by its depth at the center (48" for 1 pc tables, 54" for 2pc tables) always tapering to 40" at the ends.

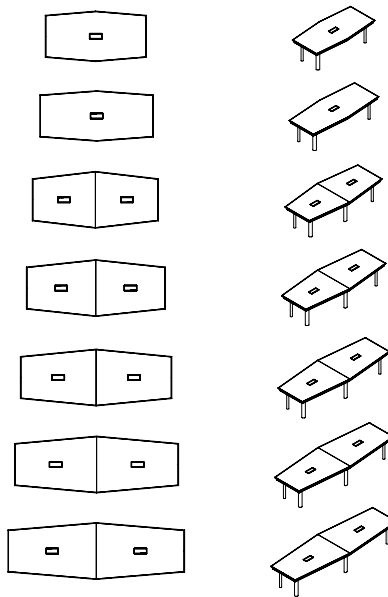

96" and 108" widths: 1pc
120" - 168" widths: 2pc

Surface Electrics are always centered on the leaflet, with any 2pc table 120" or larger having two cut outs.

The table top is a dual layered build up, and has an overall thickness of 4-1/4".

Featuring a solid wood frame with mitred corners the top surface can also be specified with a custom veneer patterns to highlight it's signature shape.

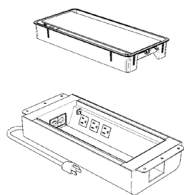

With either cubbies or no cubbies, the table top's sides feature a distinct 65° thick knife edge aesthetic.

Combo Surface Power with Wood Cover, Edge Power Along Widths (H)	H	H	H	H	H	H	H

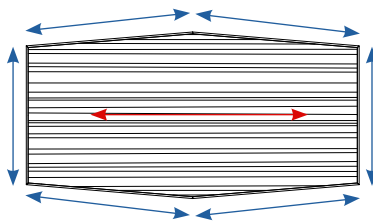

P = Plug-in connections only

H = Plug-in connections with hardwired installation supported*

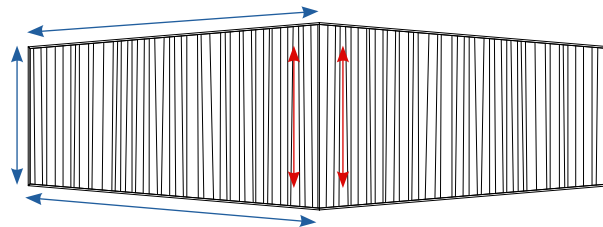

*All power modules are supplied with direct plug-in connections. Power configurations with more than two modules include two distribution blocks, a wire harness and an underfloor (base) feed to support hardwired installation.

WOOD GRAIN & VENEER DETAILS

Wood Grain Direction

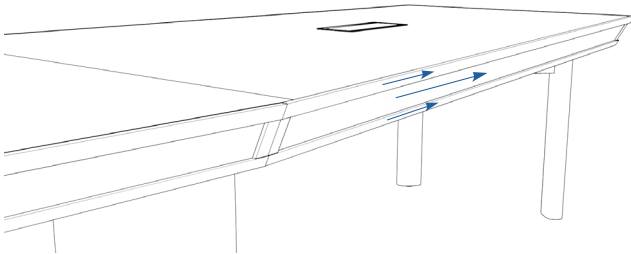

1pc Widths: 96", 108"

2pc Widths: 120" - 168"

Top surface orientation switches between small to large tables to maintain the most consistency across the table surface joint.

Note: Solid wood edging forms a perimeter around the top surface. Wood grain will flow around the table.

ELECTRICAL POSITIONING

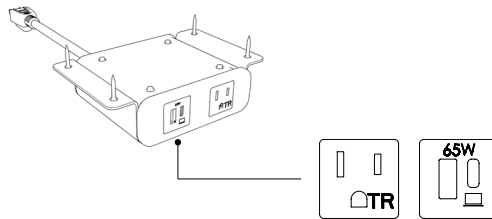

One-Seater: Left-Oriented
(from front)

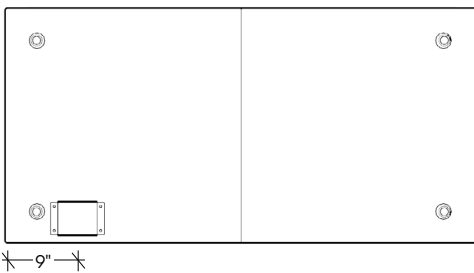

Two-Seater: Right or Left-Oriented
(from front)

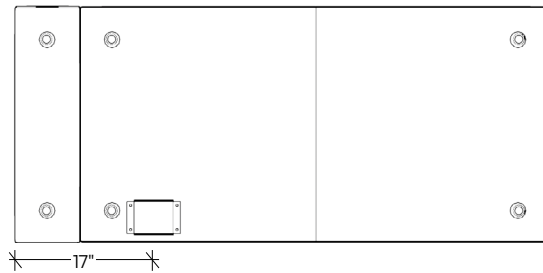

Three-Seater: Right or Left-Oriented
(from front)

ELECTRICAL MODULE LOCATION

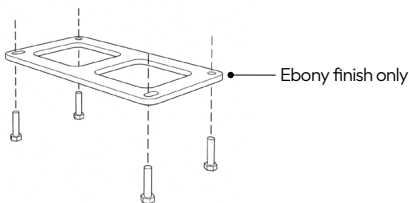

Electrical module is located 9" from the edge if there is no arm.

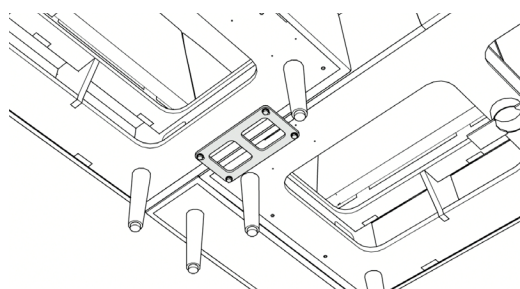

With the arm, electrical module is located 17" from the edge.

GANGING KIT INSTALLATION

Ganging Kit (IKNS) connects two adjacent lounge seating or benches.

The total length of any ganged configuration must not exceed 26'.

Threaded inserts are provided underneath each module for both parallel and perpendicular ganging.

Use the four bolts supplied with the ganging plate.

LK48 GENEL continued

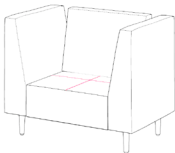

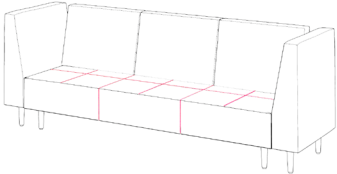

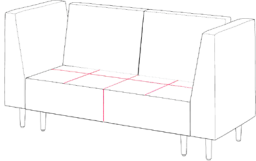

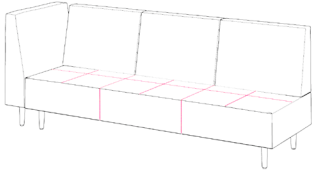

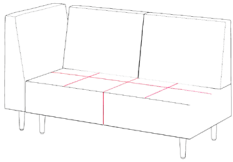

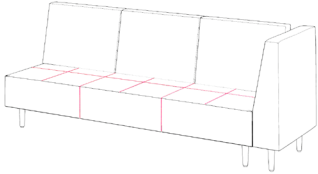

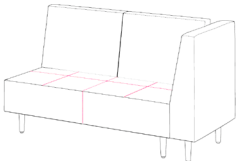

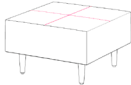

FABRIC PATTERN AND SEAM GUIDELINES

Fabric

- Fabric is applied "Off-the-Bolt" which describes the orientation that fabric is applied to seating
- Seams are required at the center-line of three-seater straight upholstered benches and sofas (as indicated below)
- Patterned upholstery can be used
- COMs follow the same fabric orientation and pattern seaming

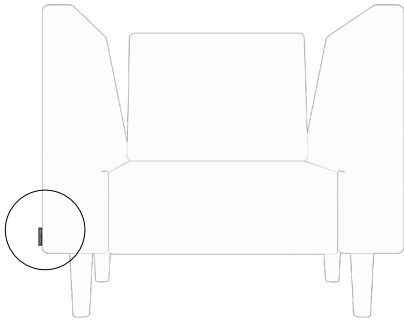

Leather

- Leather hides have variations in shape and limited dimensions
- Leather hides are divided into smaller panel sizes (approximately 14" x 11") and require additional seams
- Seams are required at the center-line of two-seater and three-seater straight upholstered benches and sofas (as indicated below)
- COLs follow the same fabric orientation and pattern seaming

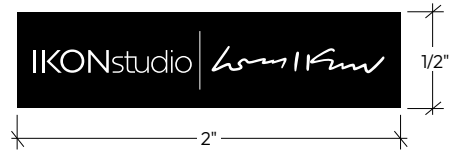

PRODUCT	LEATHER PATTERN SEAMS	PRODUCT	LEATHER PATTERN SEAMS
