

# braso by Artifort

## features

Offered through a partnership with Artifort in Schijndel, The Netherlands, Braso from Artifort invites you to make yourself comfortable by embracing you. Designed by Khodi Feiz, these inviting chairs feature unique armrests inspired by the natural form of the human arm, making it easy to relax. The corners on Braso are individual joints that bend together for a curve, inviting the user to sit at an angle comfortably with an easy line of sight for social conversations. Choose from a low-back easy chair or high-back armchair with extra head support for even more comfort. Both are available with a hardwood four-leg base or a steel four-star swivel base finished in Studio TK's Fundamental and Fashion powder paints.

special upholstery requirements

Unique characteristics of the Braso seating line require all components be upholstered in a Railroad direction. Consideration should be given when selecting upholstery that features patterns or texture as they will present differently than other seating upholstered in the same pattern applied in an Off The Bolt direction.

COM/COL material requirement

Yardage is based on a non-patterned fabric. Additional yardage may be required for pattern repeats and the matching required. Leather is not suitable for use on Braso chairs,
