Super Natural Collection by Luum

Comprising five sustainable and super-natural textiles by Suzanne Tick, the *Super Natural* collection paves the way for more environmentally-conscious performance textiles — emphasizing natural, renewable, domestic, recycled, biodegradable and circular fiber systems wherever possible.

Combining craftsmanship with the durability of renewable materials, this collection weaves patterns and textures into comfortable, classic, and technical textiles to meet the needs of contract and hospitality spaces. Working in tandem with nature and its organizing powers, we take part of its system, presenting a collection that feels good and does good, too.

Abrasion test results exceeding ACT Performance Guidelines are not an indicator of product lifespan. Multiple factors affect fabric durability and appearance retention.

Dye lots may vary slightly from samples shown. All samples shown off the bolt.

Always order a memo sample for complete colorway representation.
