

## Did You Know? (January 2019 Release)

Teknion maintains a complete CAD symbols library on our website. The library can be accessed from the Teknion.com homepage by clicking on the 'Resources' drop-down menu followed by 'CAD Library' or directly by clicking on the following link: <http://virtualstudioidrop.ca/teknion/>

As part of the January 2019 update, Teknion has enhanced the CAD Symbols Library.

- Experience improved user interface.
  - Updated background color of preview window to white.
  - Inverted highlight color from white to black.
  - Upgraded preview of 3D symbols to be more aesthetically pleasing.
- JPEG download
  - Implemented an option for users to download JPEGs of 2d or 3D symbols.

Why use it?

- Symbols from the CAD Symbols Library are made up of '3D Solid' entities which:
  - Can easily be modified to create special sizes.
  - Are compatible for 3D printing.
  - Can be used for higher quality renderings.
- DXF download
  - CAD file format that is compatible with various CAD packages.
- JPEG download
  - Provides excellent visual for PowerPoint presentations.
