# Beyond the Surface Collection

# Beyond the Surface Collection

---

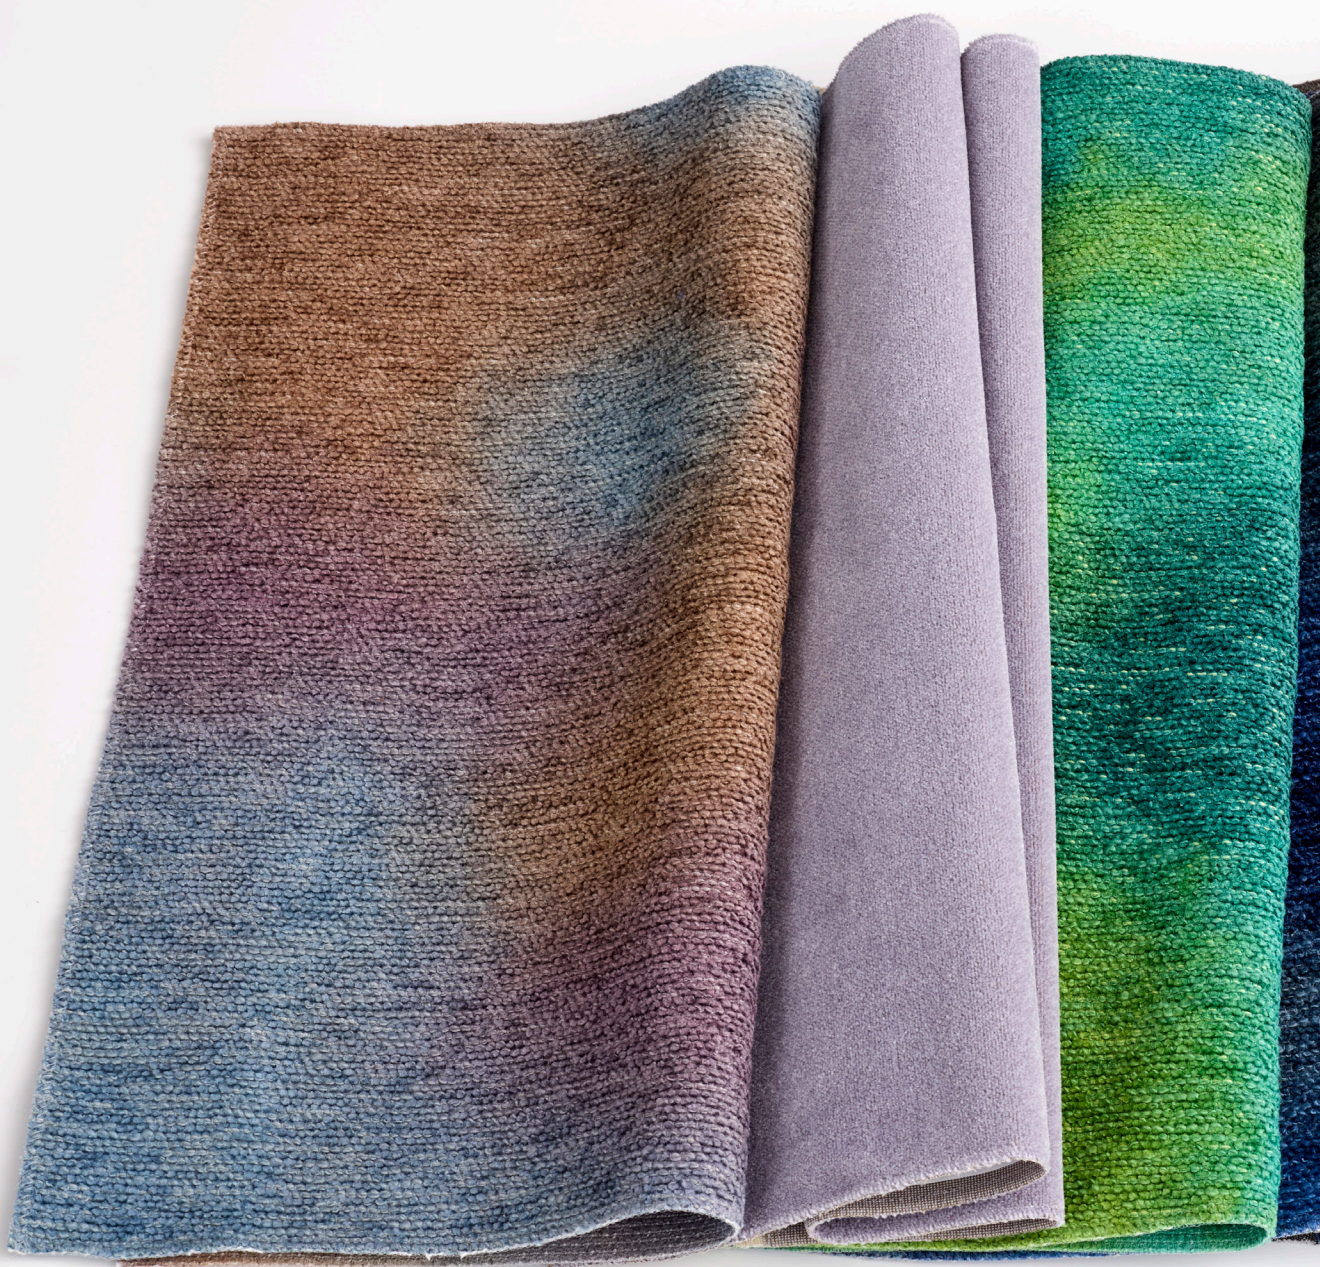

Dorothy Cosonas' *Beyond the Surface* collection explores the depth of color, texture and pattern by drawing inspiration from the world around us: nature, art, fashion and the streets of NYC.

Using modern design principles and a deep understanding of materiality, *Beyond the Surface* translates these influences into 7 new products: three woven upholsteries, one non woven upholstery, one multipurpose and two draperies. Cosonas' first collection masterfully achieves a fine balance between structure, the abstraction of pattern and rich textures. This marks a fresh direction for Luum while continuing to uphold its core commitments to design, usability and sustainability.
