Nuova Coat Hanger (NCAA1), Nuova Contessa Headrest (NCAA2)

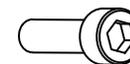

Part and Product Identification

A - Coat Rack x1

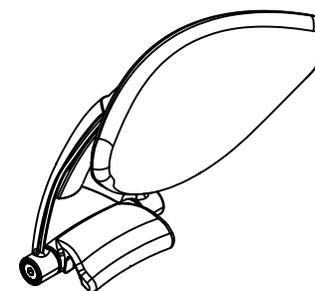

B - Clamp Part x2

C - M5 x L16

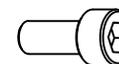

D - M5 Cap Nut x2

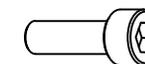

E - Headrest Assembly x1

F - Clamp Part x1

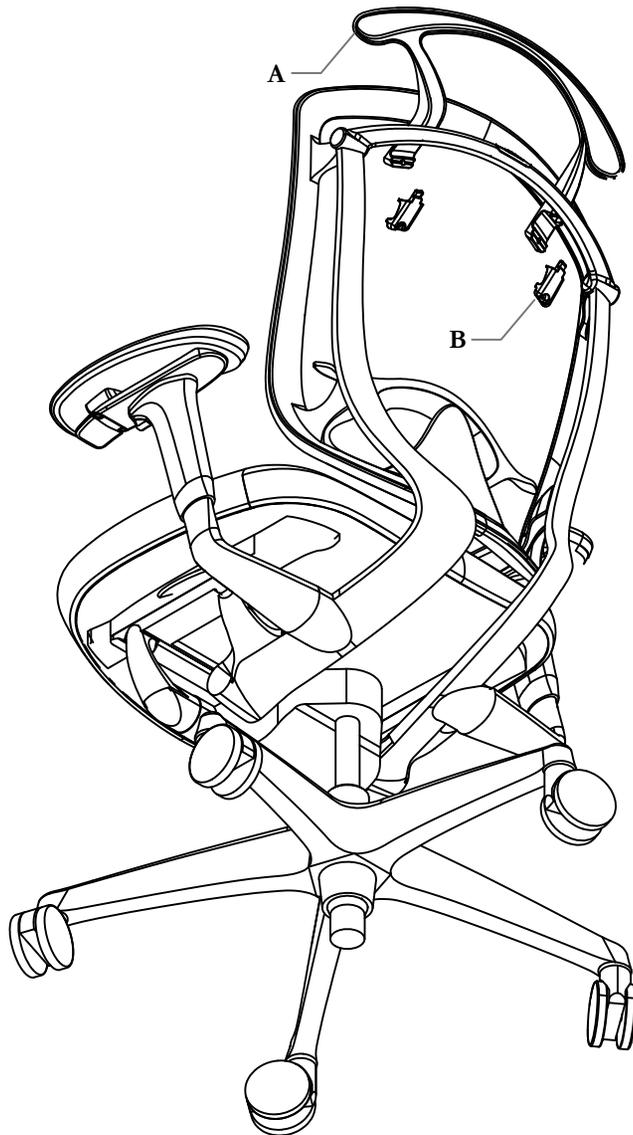

G - M5 x 12L SHCS x2

H - M5 x 20L SHCS x2

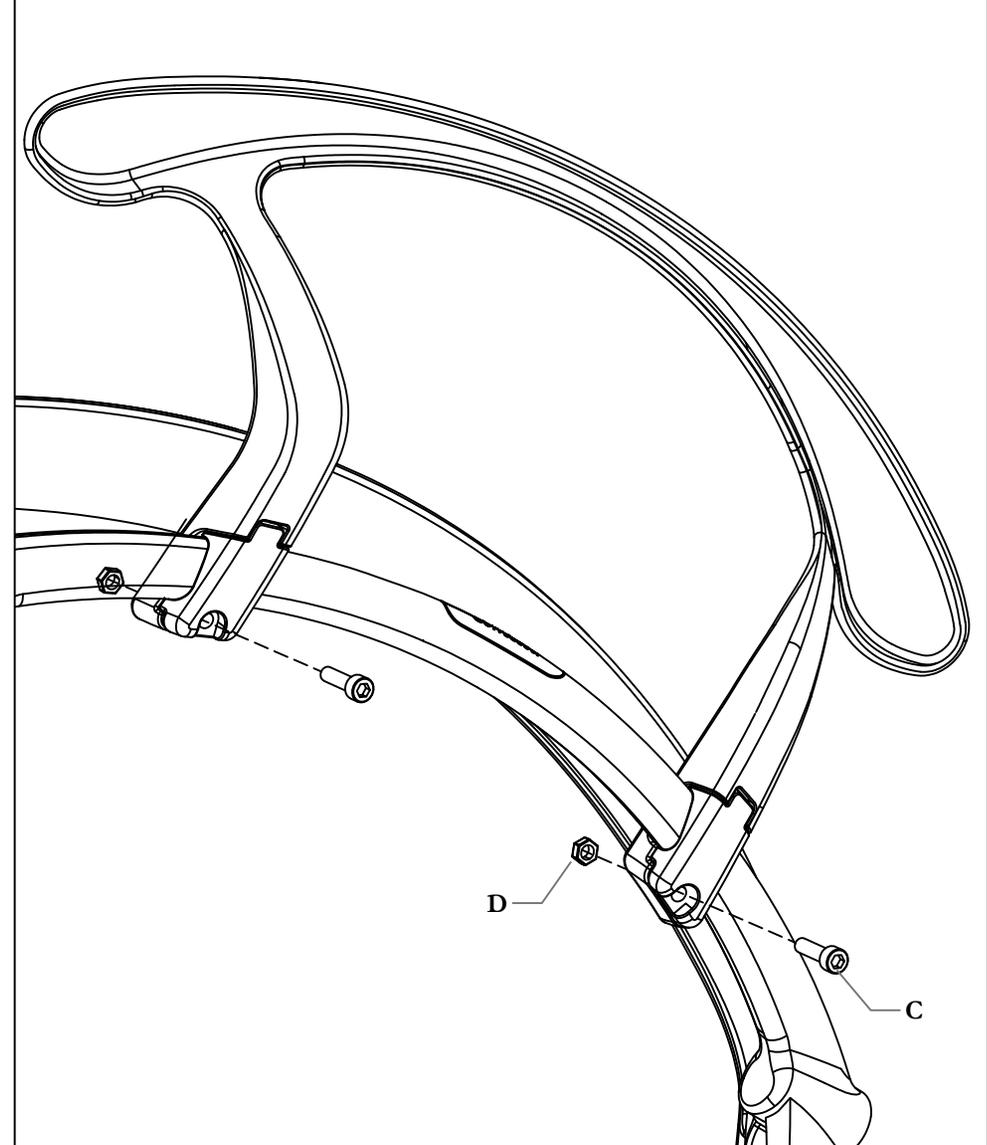

**ATTACH COAT HANGER**

STEP 1: Position the hanger on the frame, insert clips into hanger to fit snugly around back frame connector

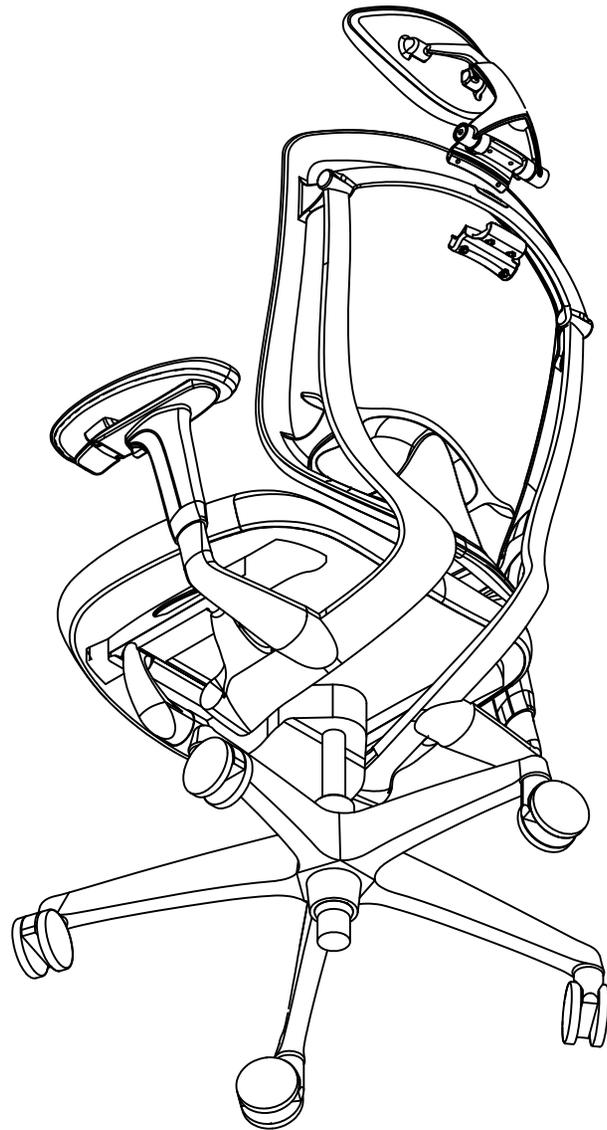

NOTE: Steps 1-2 shows installation of Coat Hanger.

**SECURE COAT HANGER**

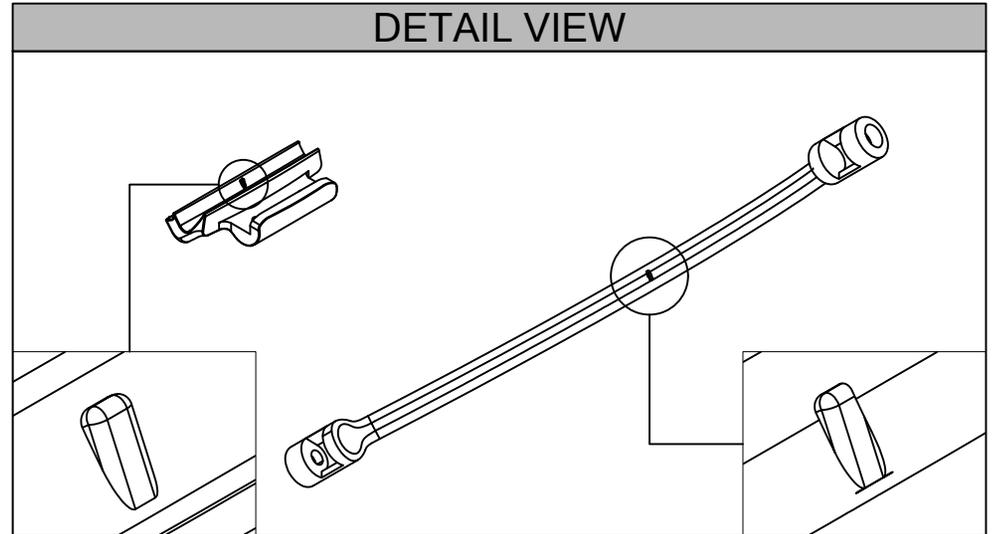

STEP 2: Secure the Hanger with Bolt and Nut provided.

**ATTACH HEAD REST**

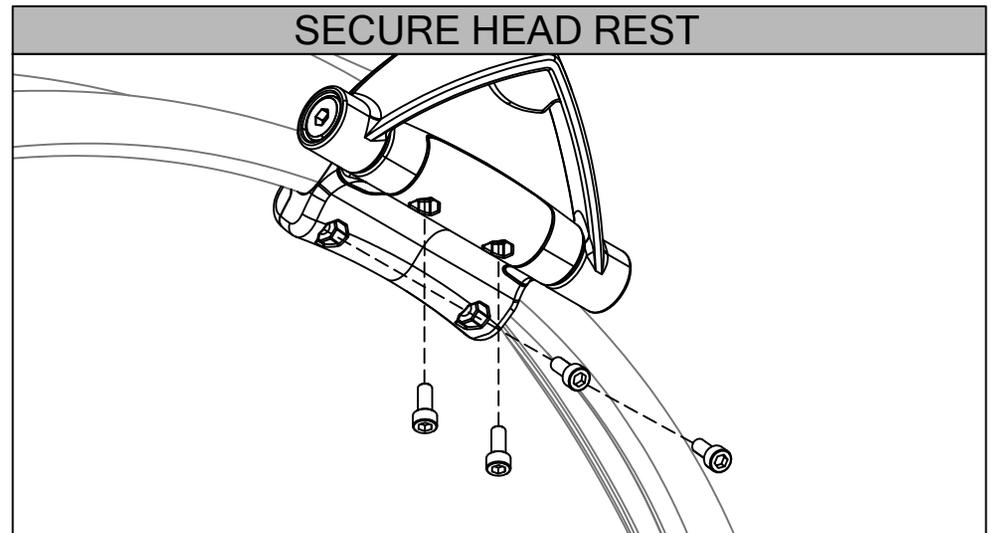

STEP 1: Attache the Head Rest Assembly to the Clamp part, to hold on the back Frame Connector.

**DETAIL VIEW**

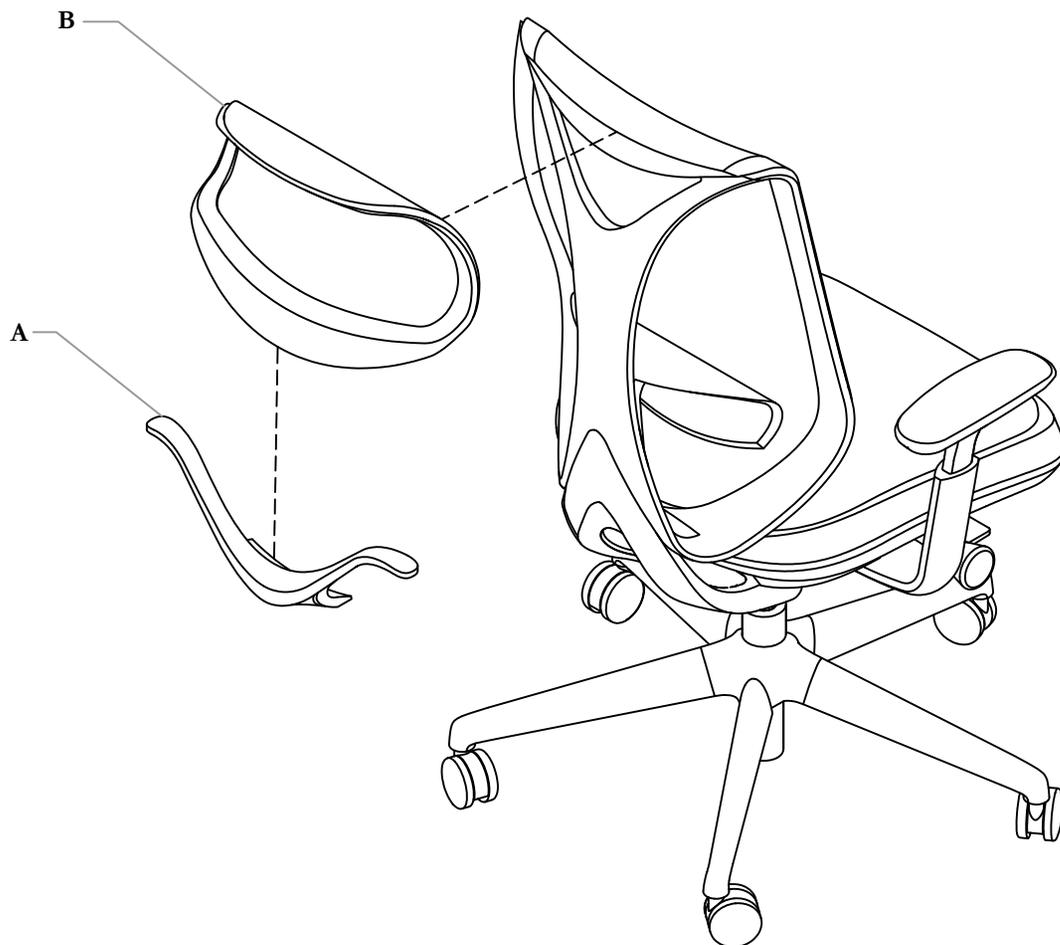

STEP 2: Align the Clamp part bump at the center of the back Frame Connector.

**SECURE HEAD REST**

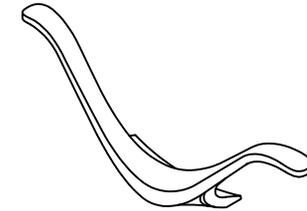

STEP 3: Secure head rest using Socket Headed Cap Screws.

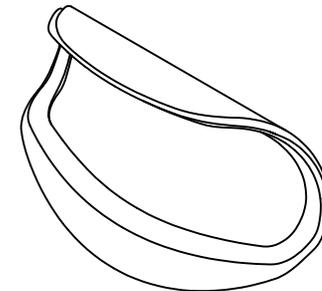

Sabrina Chair, Coat Rack and Headrest (NSBY)

Part and Product Identification

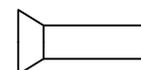

A - Coat Rack x 1

B - Headrest x 1

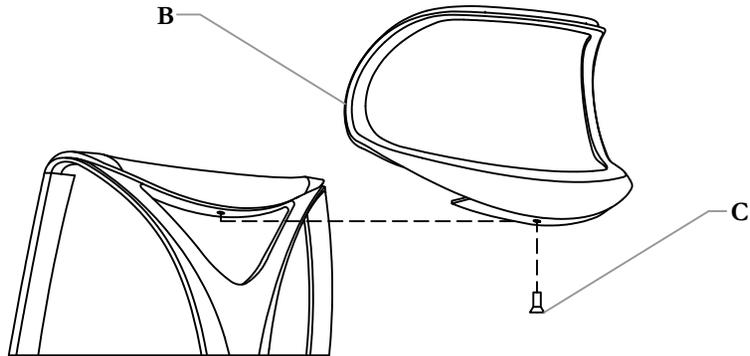

C - Screw (short) x 1

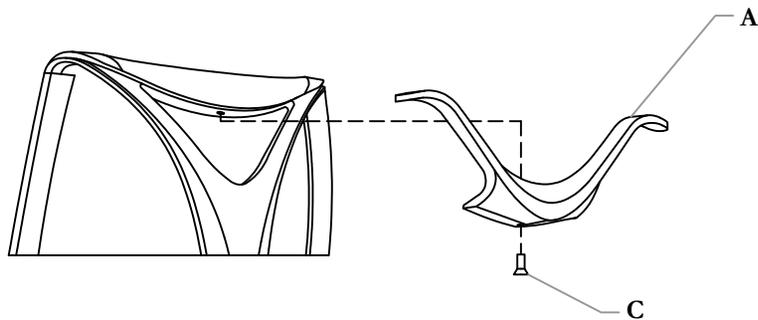

D - Screw (long) x 1

**HEAD REST ASSEMBLY**

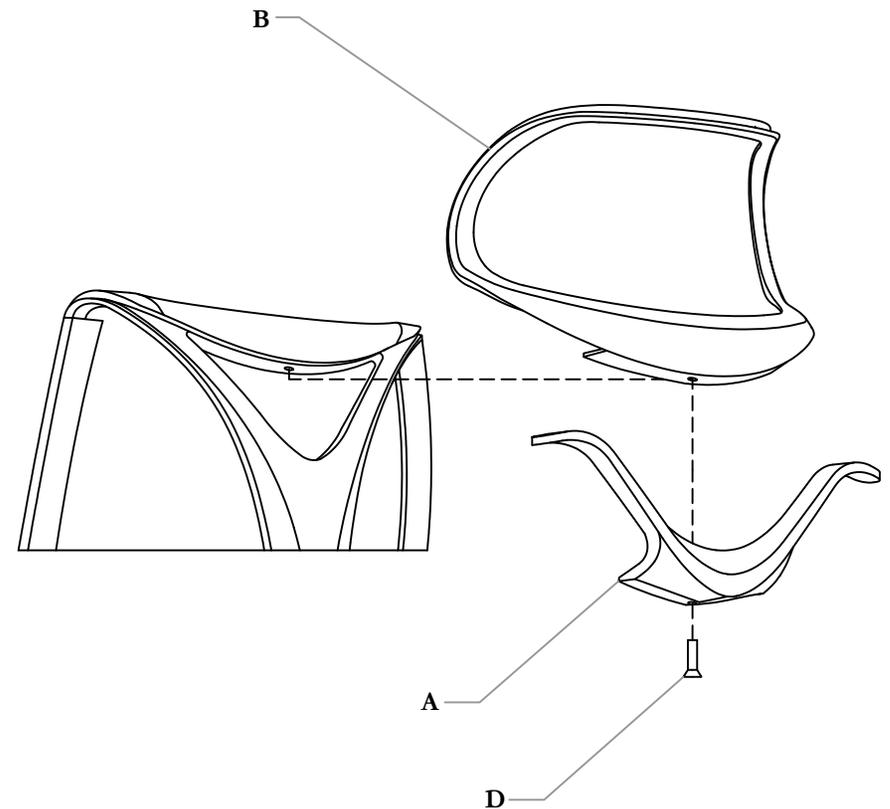

STEP 1a: Secure Headrest to the back of the Frame with the shorter Screw

**HANGER ASSEMBLY**

STEP 1b: Secure Coat Rack to the back of the Frame with the shorter Screw

**HANGER WITH HEADREST ASSEMBLY**

STEP 1c: Attach Headrest onto the Coat Rack, then to the back of the Frame with the long Screw.

Section: **WORK CHAIRS**

Description: **SAVERA SYNCHRO-TILT & SAVERA SWIVEL-TILT**

Savera Synchro-Tilt (NSAY) & Savera Swivel-Tilt (NSAW)

Part and Product Identification

**A - Seat Assembly**

**B - Back Assembly**  
(NSAY Q25Q-0194) x1  
(NSAW Q25Q-0193)x1

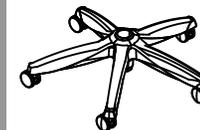

**C - J-Bar Screw**  
(Q28-0230) x3

**D - J-Bar Cover**  
(Q14-0244) x1

**E - J-Bar Cover Screw**  
(Q28-0135) x1

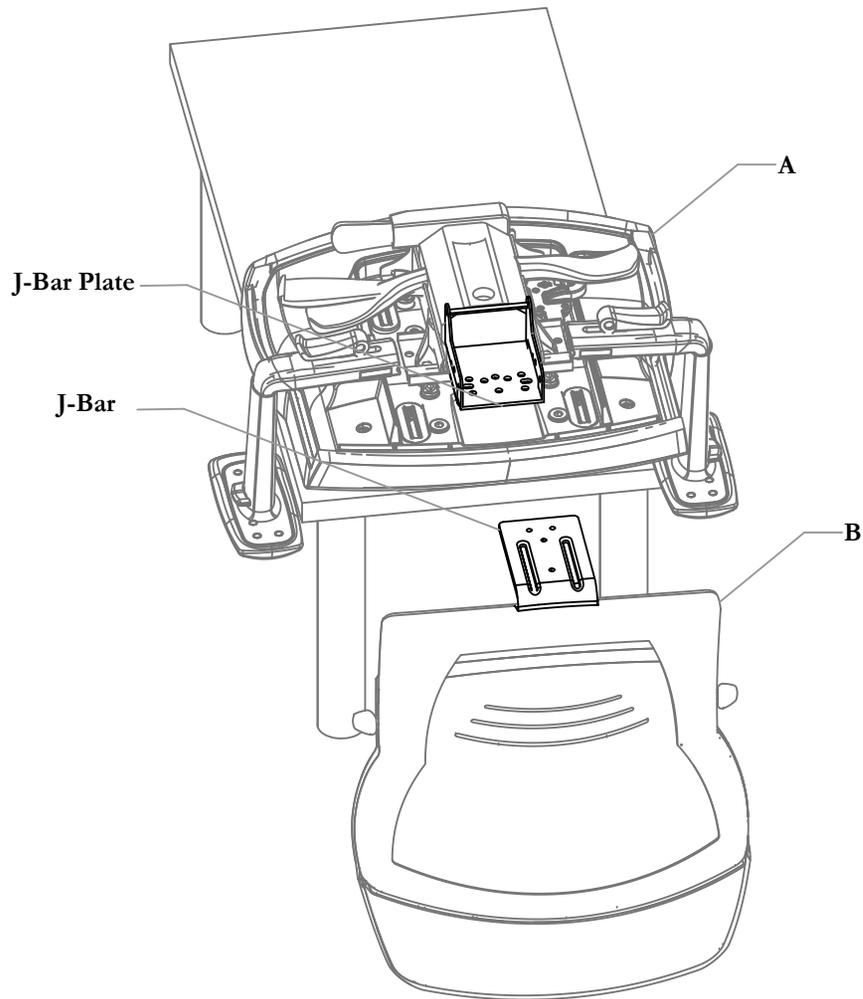

**F - Savera Base Assembly**  
(Q25Q-0201/2/3/4) x1

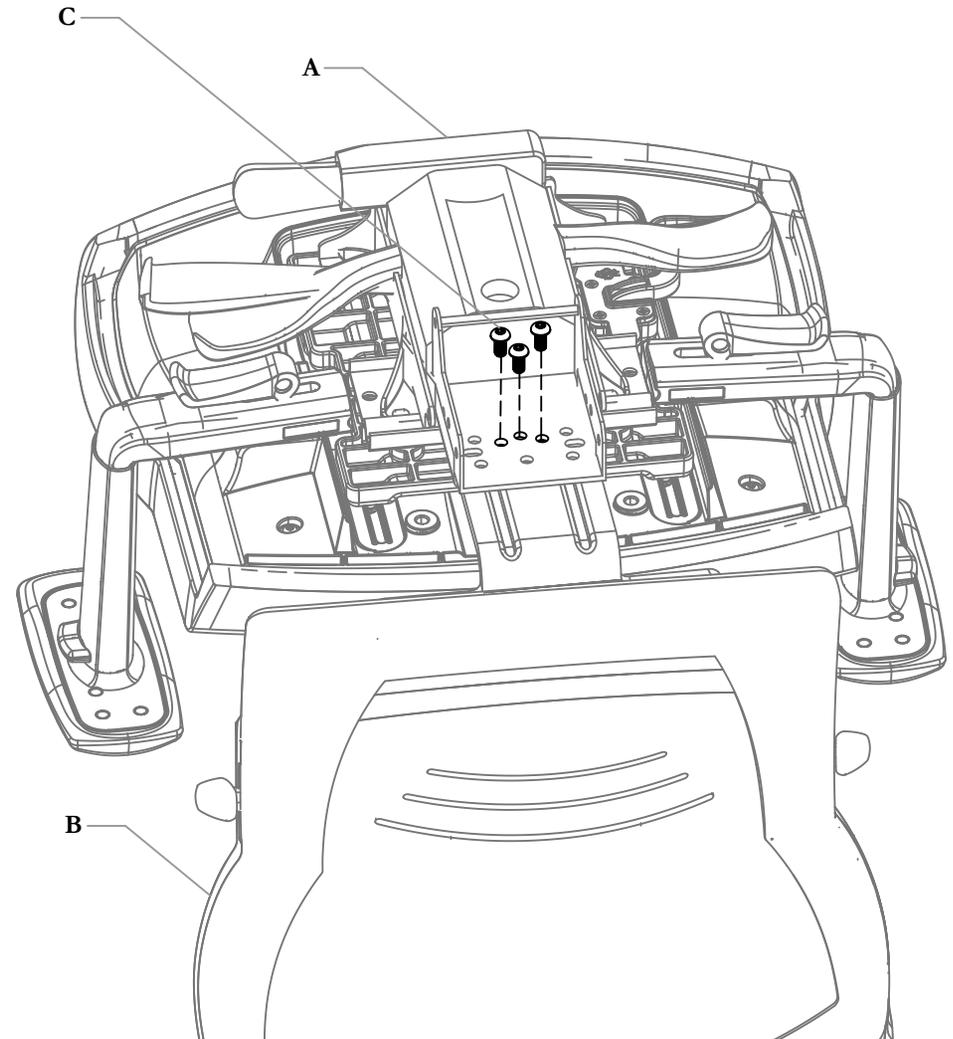

**G - Cylinder**  
(Q10-0028) x1

**INSTALL BACK ASSEMBLY TO SEAT ASSEMBLY**

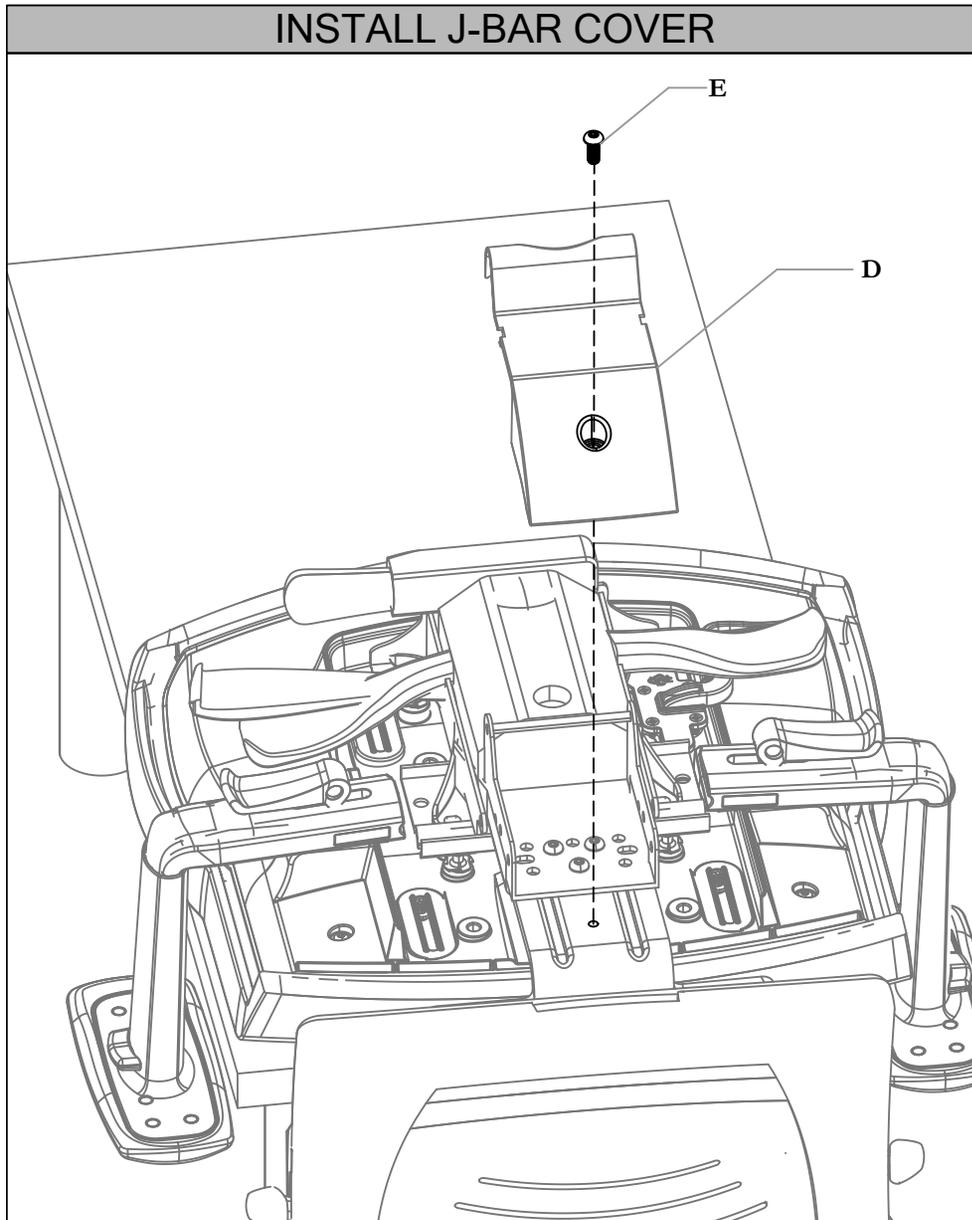

STEP 1: Place Seat Assembly on top of a working surface exposing the mechanism. Slide the Back Assembly's J-Bar underneath the J-Bar plate

**SECURE J-BAR AND J-BAR PLATE**

STEP 2: Secure Back Assembly and Seat Assembly using screws provided

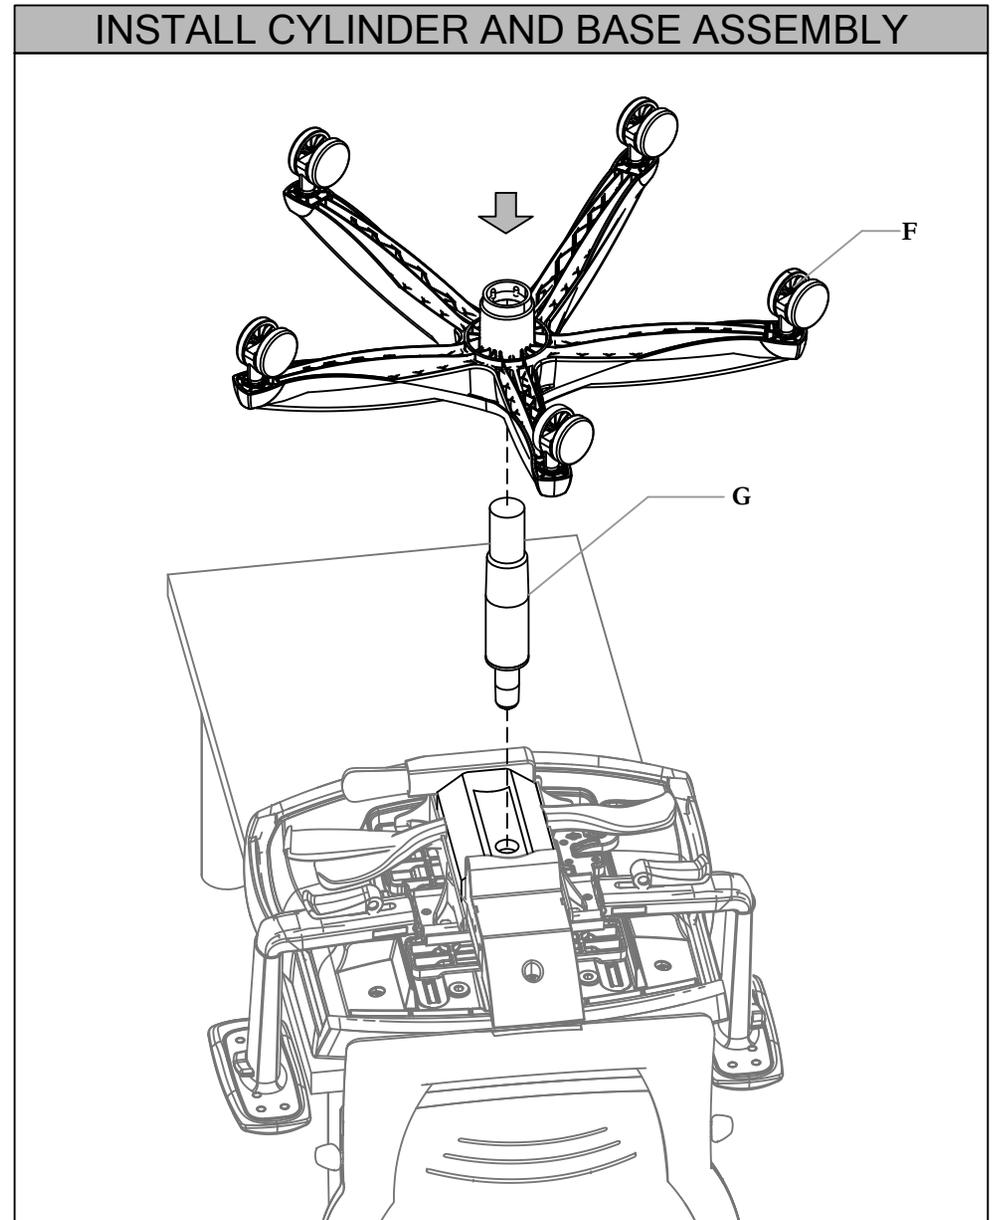

INSTALL J-BAR COVER

STEP 3: Snap J-Bar Cover over the Seat Assembly's J-Bar Plate and fasten using screws provided

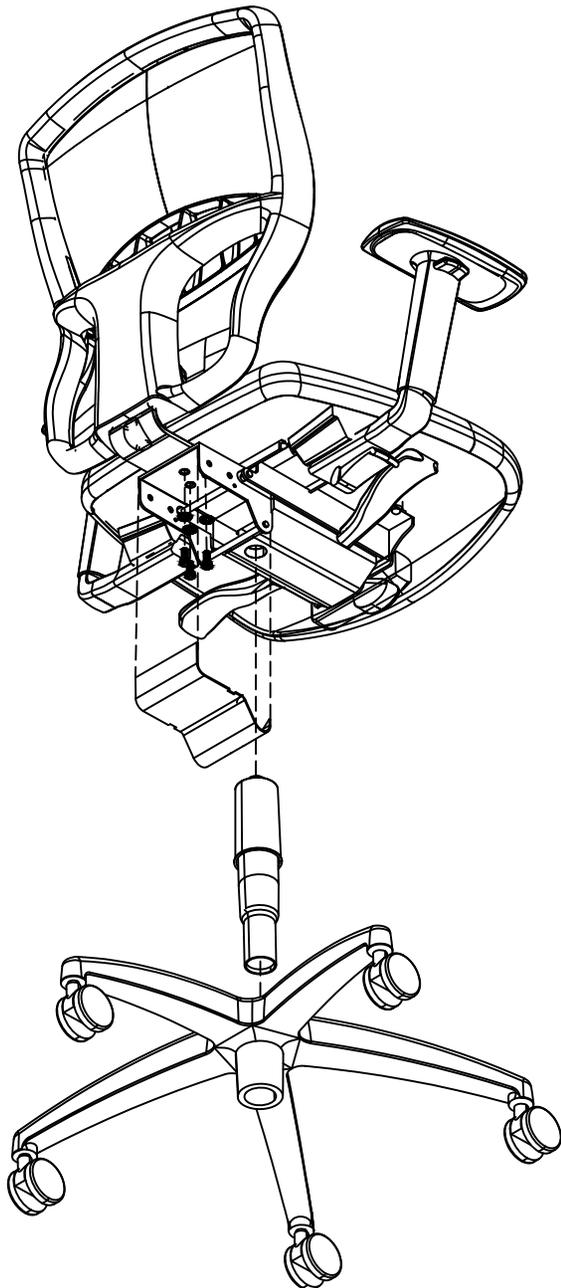

NOTE: J-Bar Cover and screws are only applicable to NSAY Savera Synchro-Tilt. Assembly Tools and Table not included

INSTALL CYLINDER AND BASE ASSEMBLY

STEP 4: Insert Cylinder into the mechanism then insert Base Assembly.

T-3 Task Chair (NXXY)

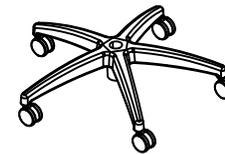

Part and Product Identification

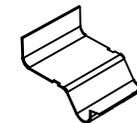

**A** - T-3 Chair  
(NXXY) x1

**B** - Cylinder x1

**C** - Universal Base x1

**D** - Cover x1

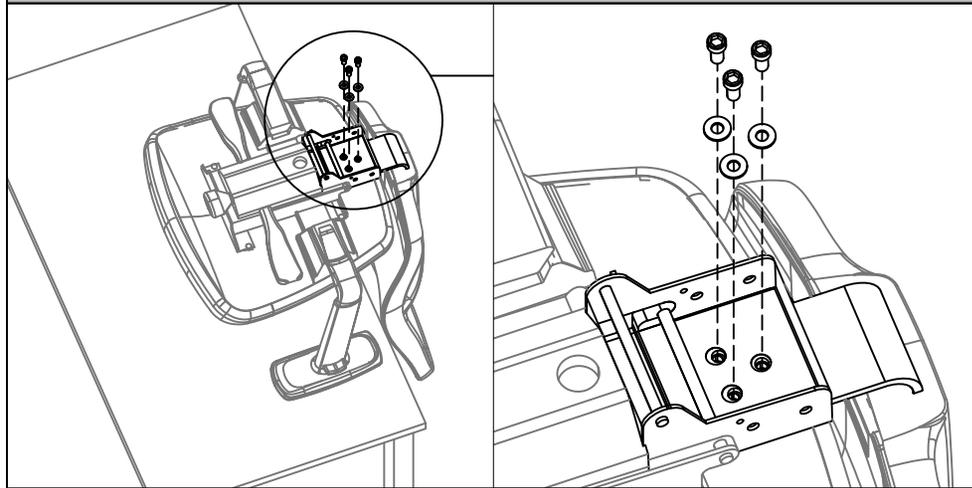

**E** - Screw x3

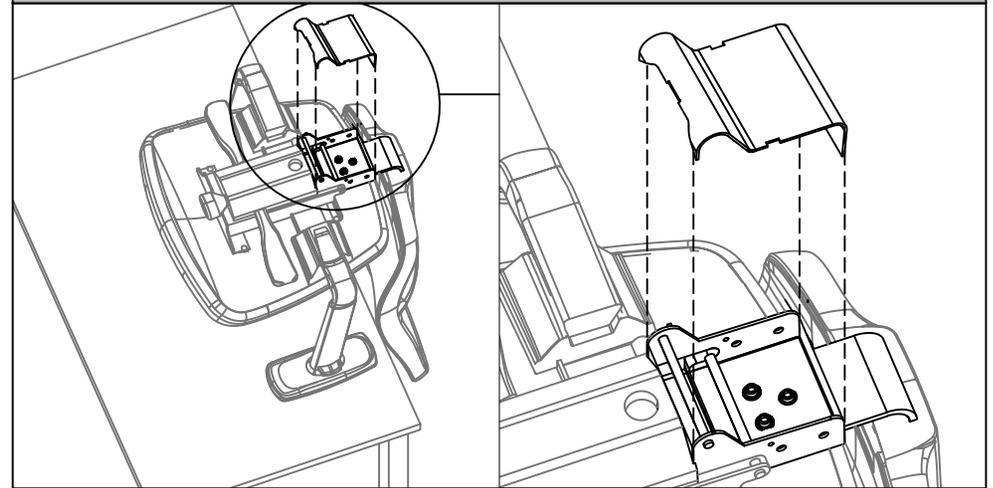

**F** - Washer  
(Q28-0133) x3

**ASSEMBLE BACK TO THE SEAT**

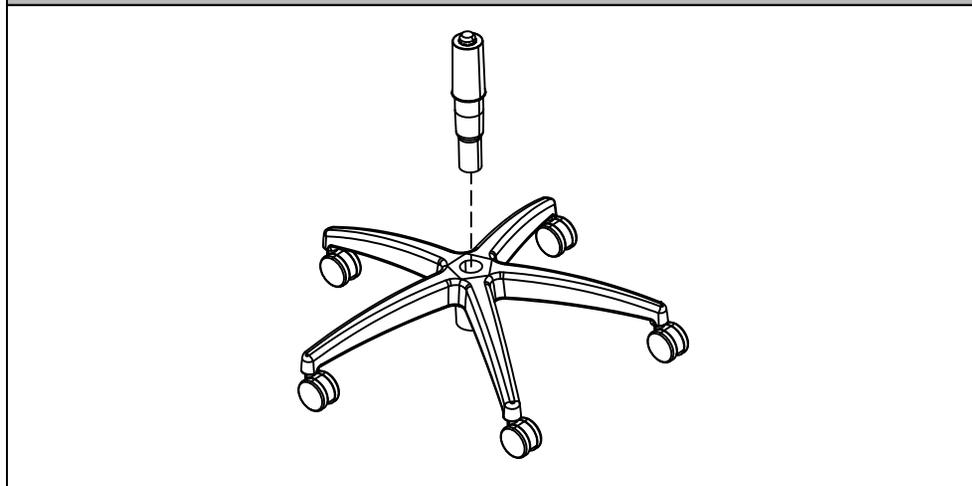

STEP 1: Put Seat on a table (don't remove plastic wrapping bags). To prevent scratches unwrap only half seat and back. Assemble seat with back using three bolts and three washers provided.

**INSTALL COVER**

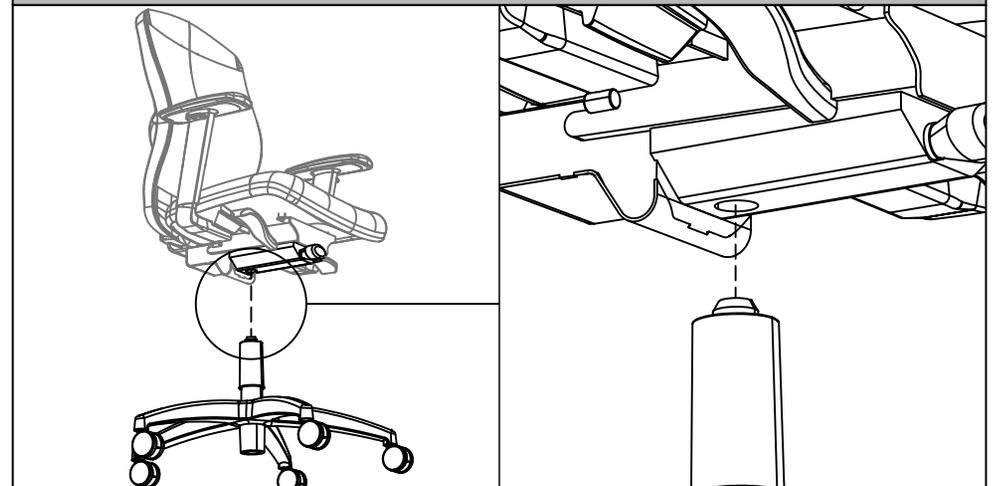

STEP 2: Snap the Cover in place as shown.

**INSERT CYLINDER**

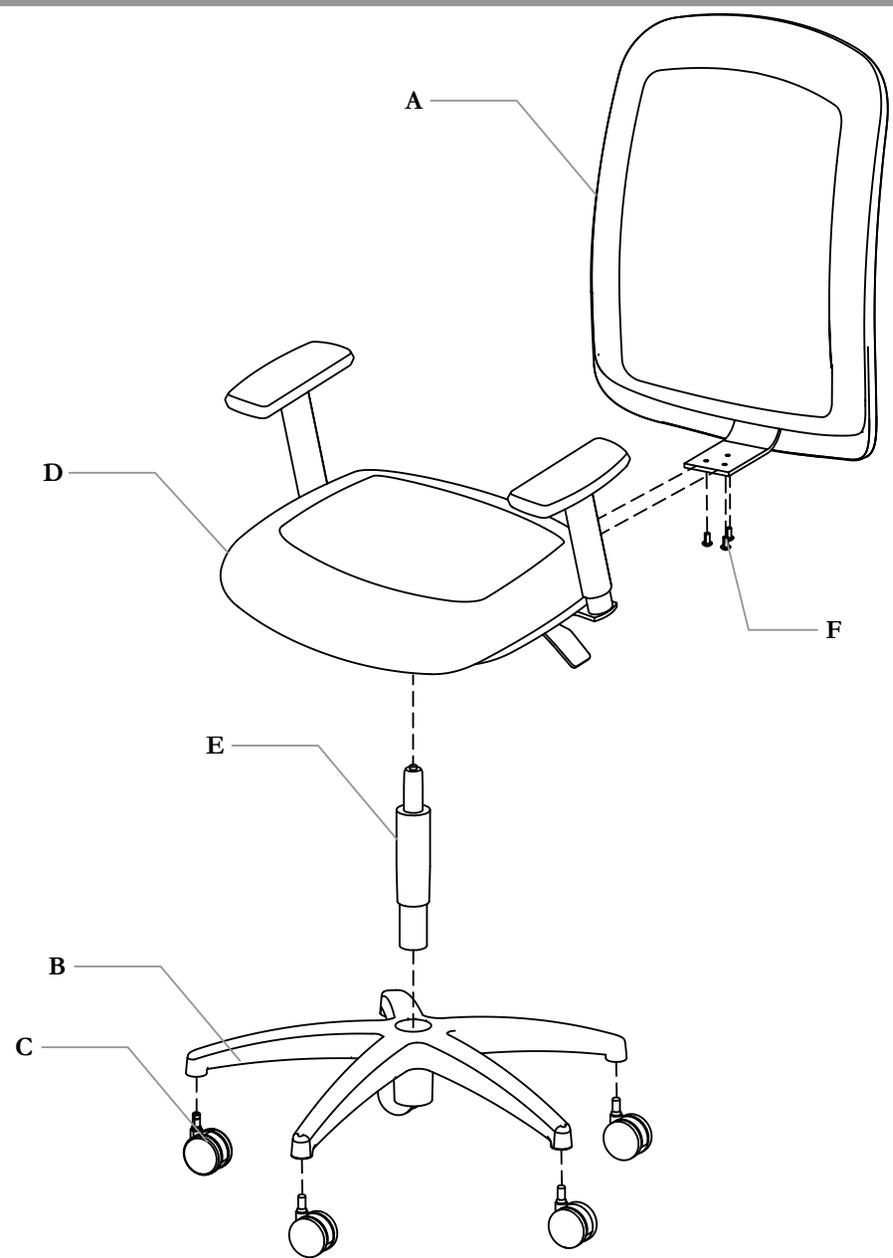

STEP 3: Insert Cylinder into the Base.

**ASSEMBLE SEAT WITH BASE**

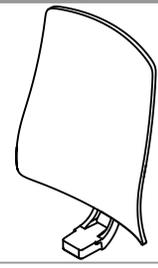

STEP 4: Remove wrapping bags. Put assembled seat and back on cylinder. Sit on the chair to engage cylinder.

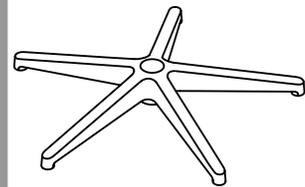

Metric Chair, Single Upholstered (NMEU), Metric Chair, Dual Upholstered (NMEU\_), Metric Chair, Mixed Upholstered (NMEM)

Part and Product Identification

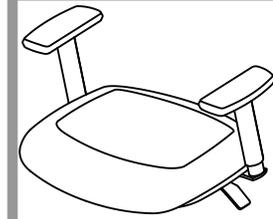

A - Back Assembly  
(Q25Q-0495) x1

B - Universal Base  
(Q06-0007) x2

C - 60mm Hard Caster  
(Q08-0173) x5

D - Seat Assembly  
(Q25Q-0494) x1

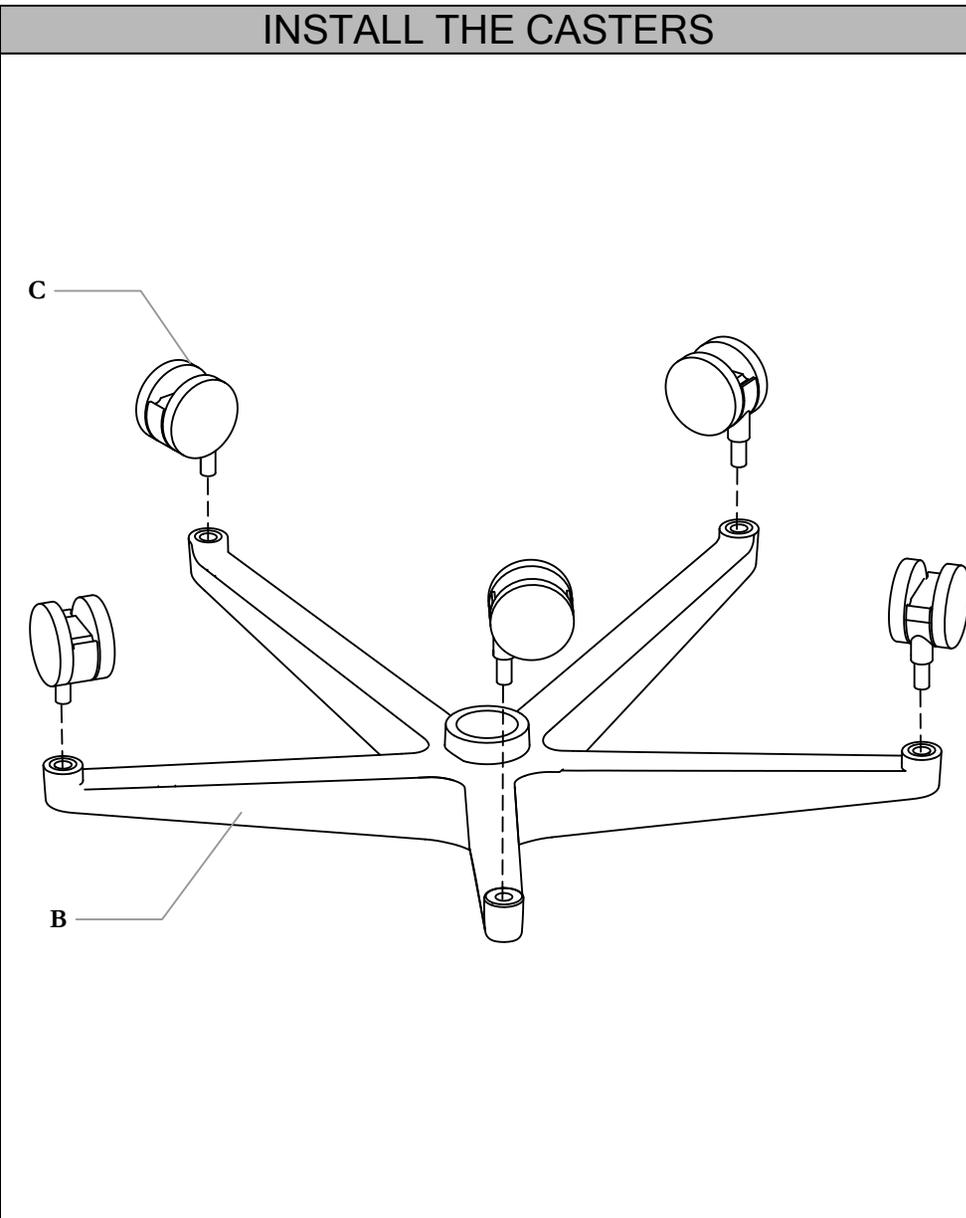

E - Standard Cylinder  
(Q10-0280) x1

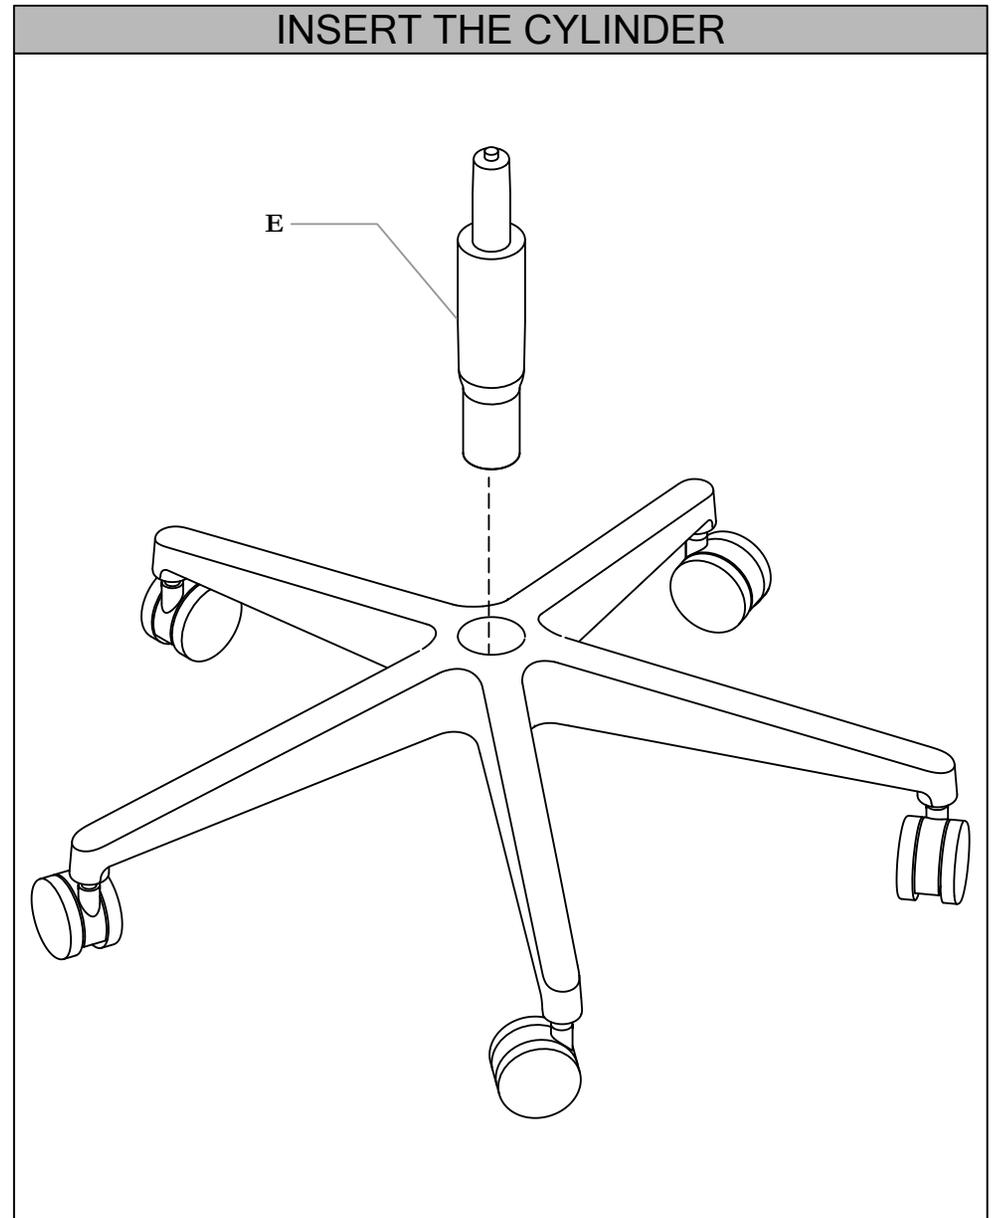

F- J-Bar to Mech Screw  
(Q26-1077-01) x3

**INSTALL THE CASTERS**

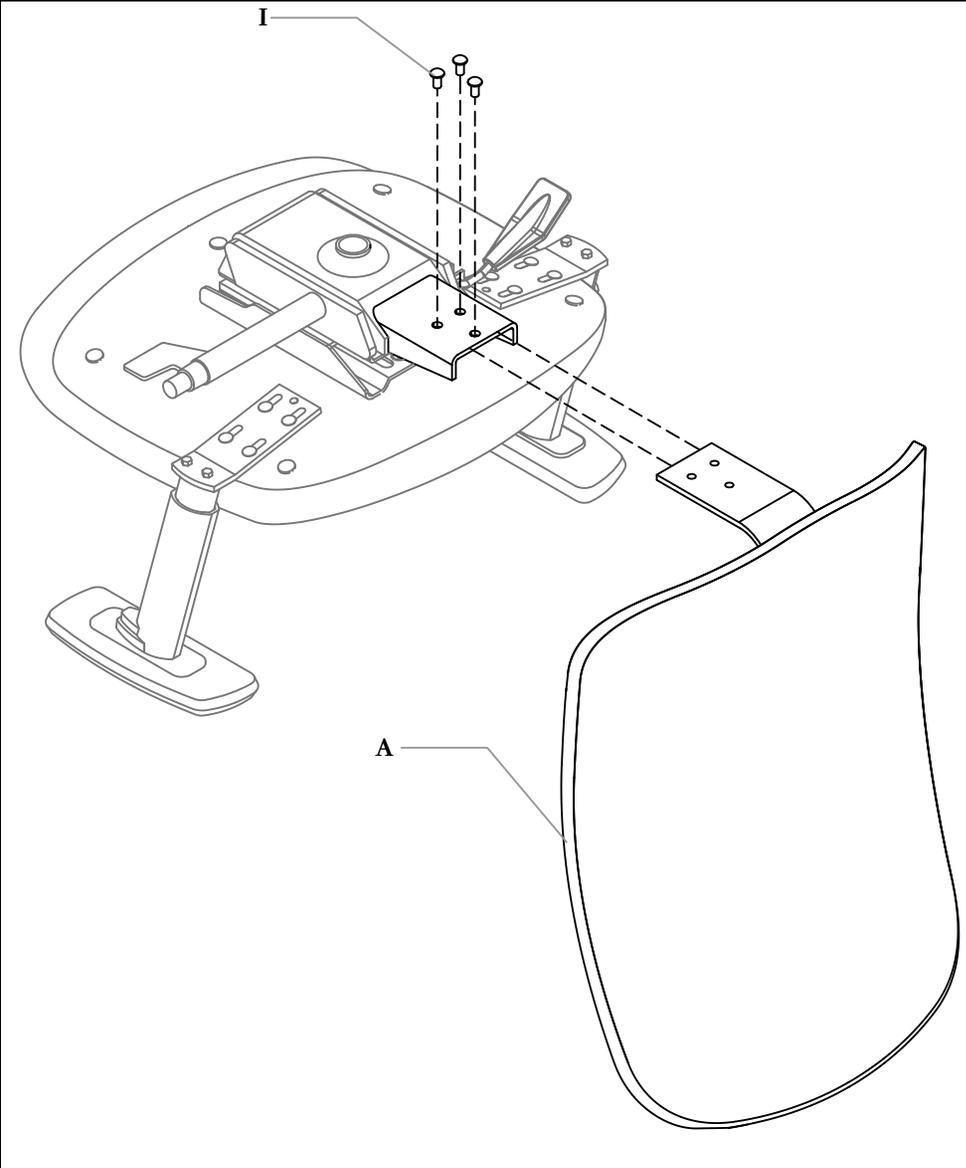

STEP 1: Install the Casters to the Universal Base.

**INSERT THE CYLINDER**

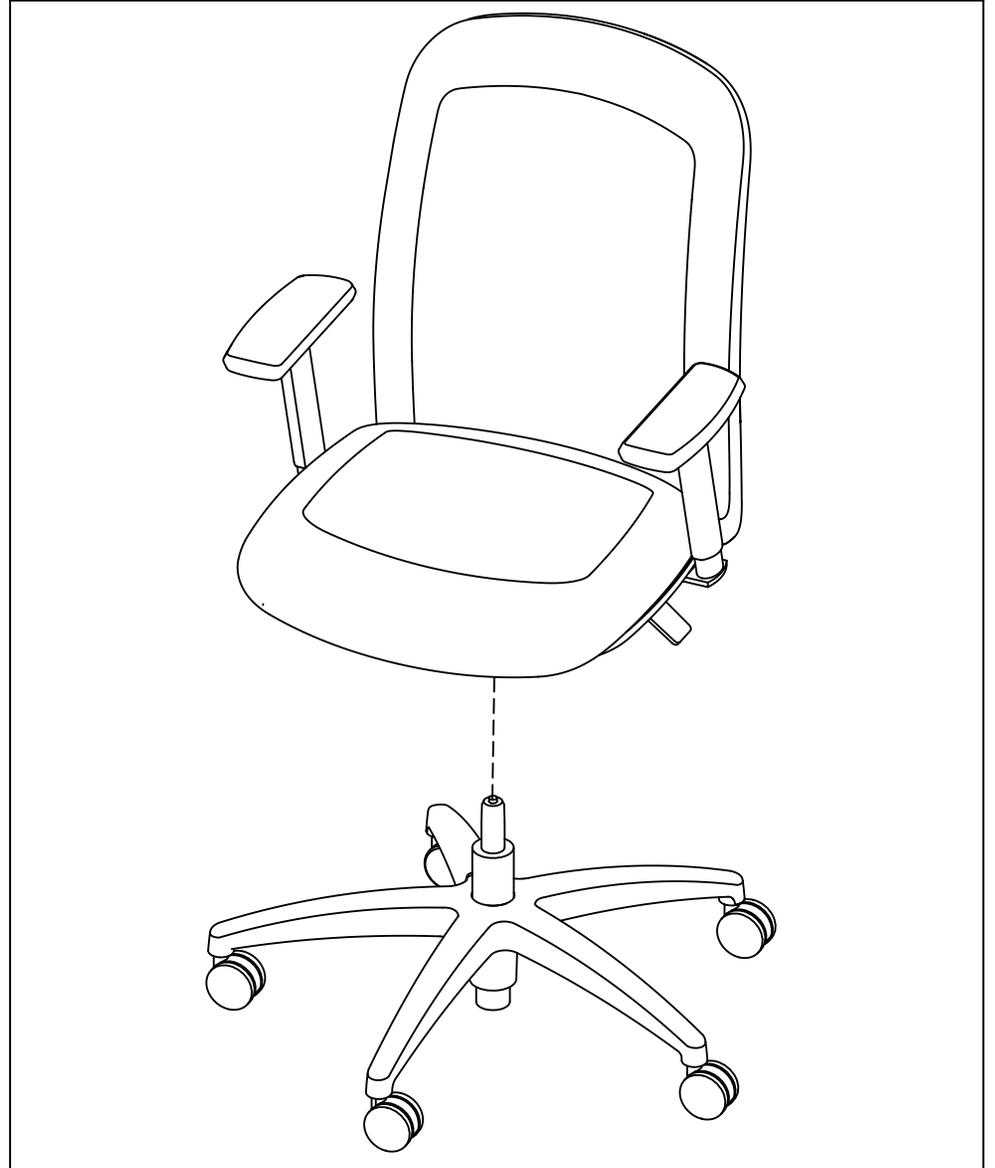

STEP 2: Insert the Standard Cylinder inside the Universal Base.

**INSERT THE BACK**

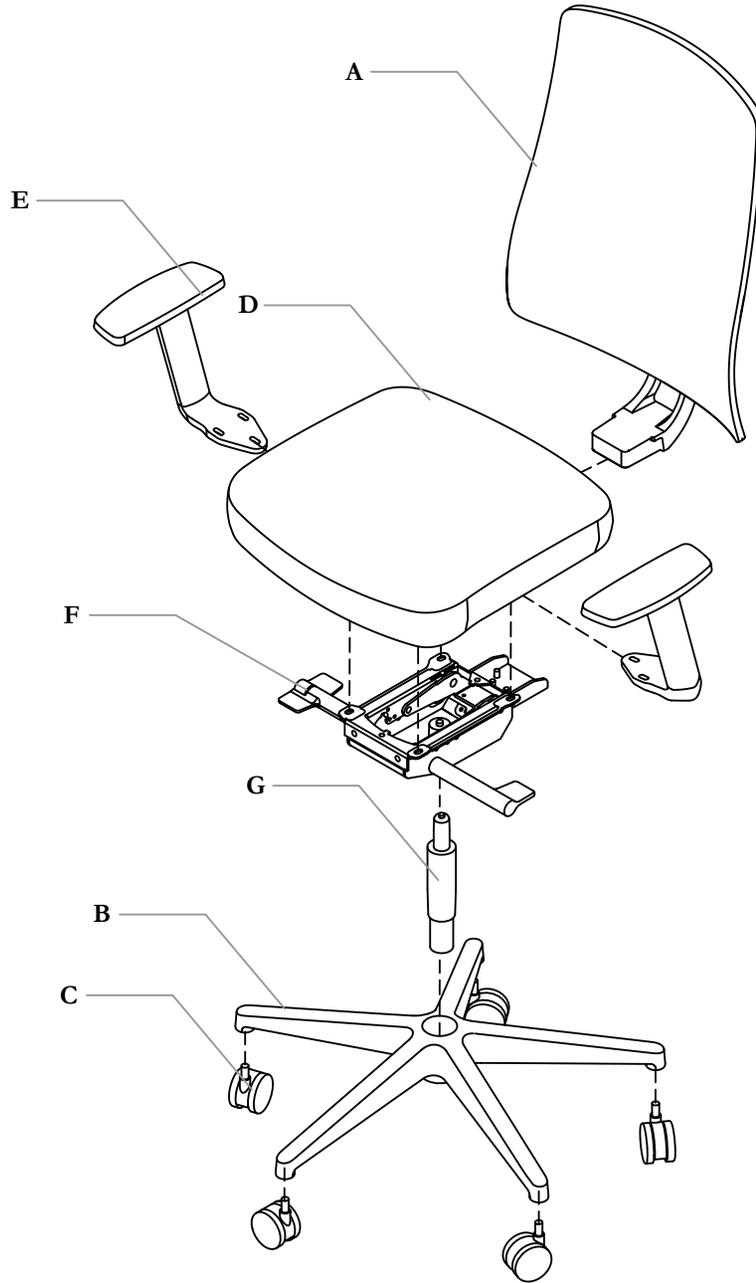

STEP 3: Insert the Back Assembly into the Seat Assembly using Screws provided.

**ASSEMBLE THE TOP AND BOTTOM ASSEMBLY**

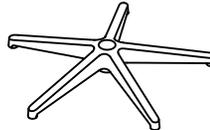

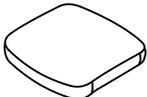

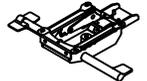

STEP 4: Assemble the top and the bottom of the chair.

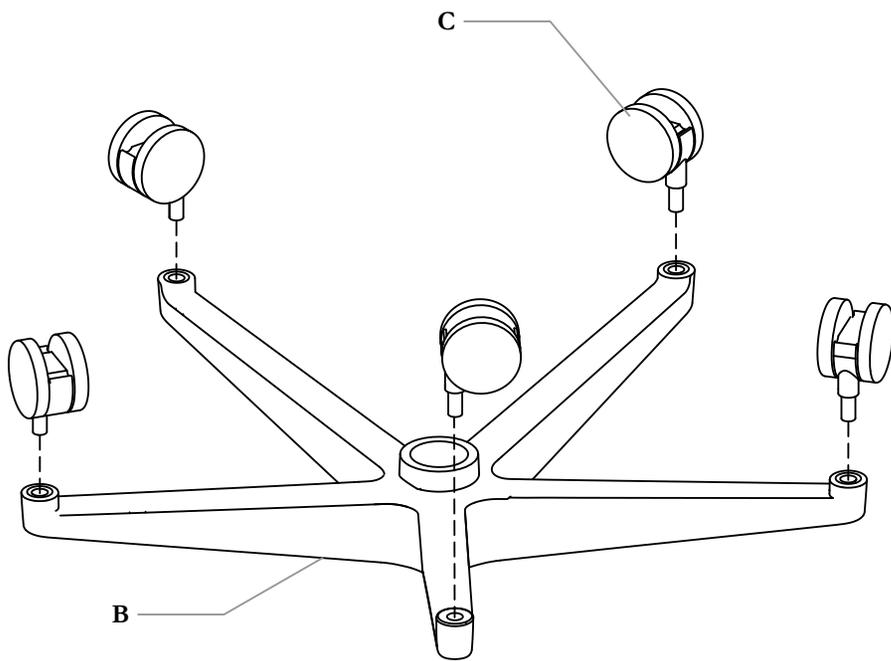

Visio Chair, Mesh Back (NTEU)

Part and Product Identification

	<b>A1</b> - Back Assembly (Q14-0809) x1
	<b>B</b> - Base (Q06-0122) x1
	<b>C</b> - 60mm Hard Caster (Q08-0215) x5
	<b>D</b> - Seat (Q20-4205) x1
	<b>E</b> - Armrest Left/Right (Q22-0243L) x1 (Q22-0243R) x1
	<b>F</b> - Mechanism (Q12-0168) x1
	<b>G</b> - Cylinder (Q10-0116) x1
	<b>H</b> - M6x 40mm Hex Socket Pan Head Screw (Q28-0778) x8
	<b>I</b> - M6x30mm Hex Socket Pan Head Screw (Q28-0779) x4
	<b>J</b> - M8x16mm Hex Socket Pan Head Screw (Q28-0230) x4
	<b>K</b> - 0.28ID x 0.63 Washer (Q28-0076) x4

**INSERT THE CASTERS**

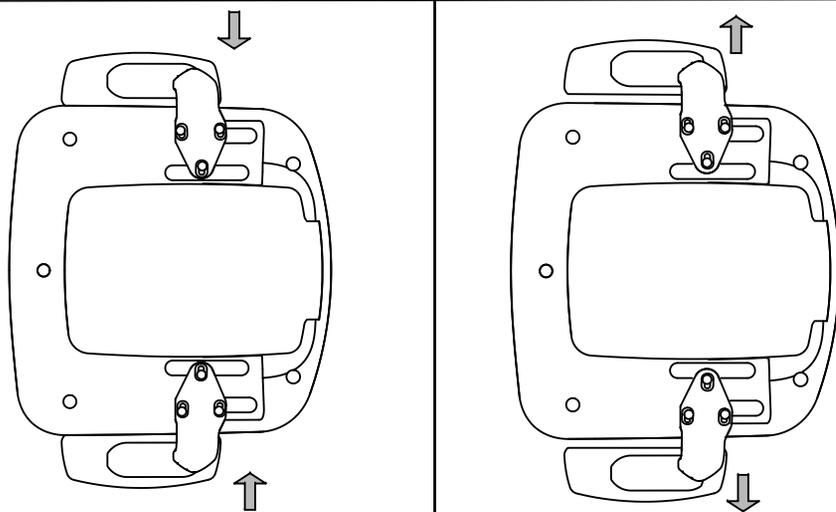

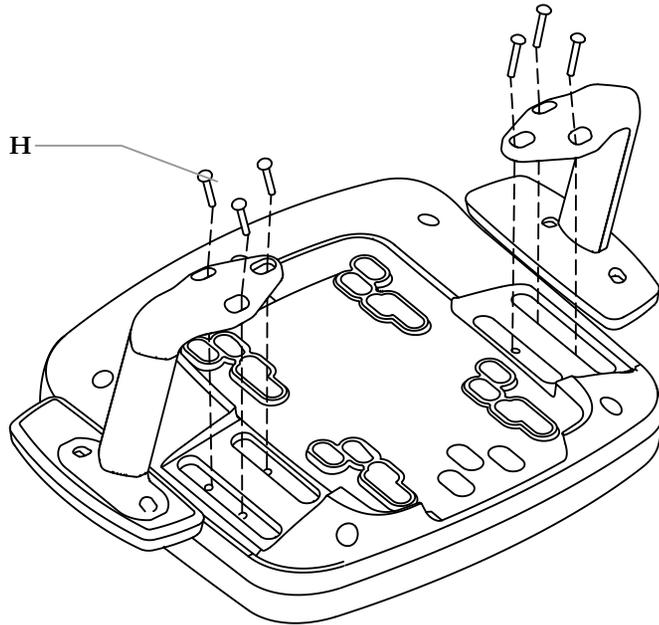

STEP 1: Install the Casters to the Base.

**INSERT THE CYLINDER**

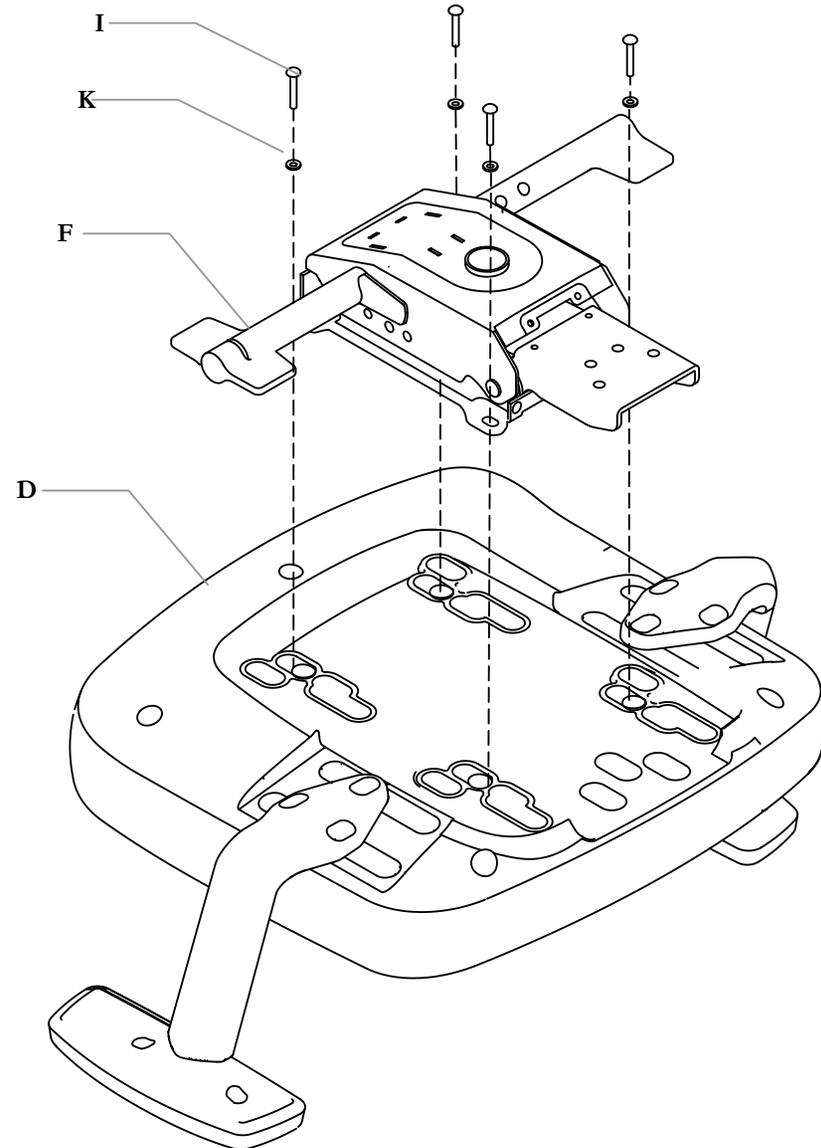

STEP 2: Insert the Cylinder inside the Base.

**INSERT THE ARMREST**

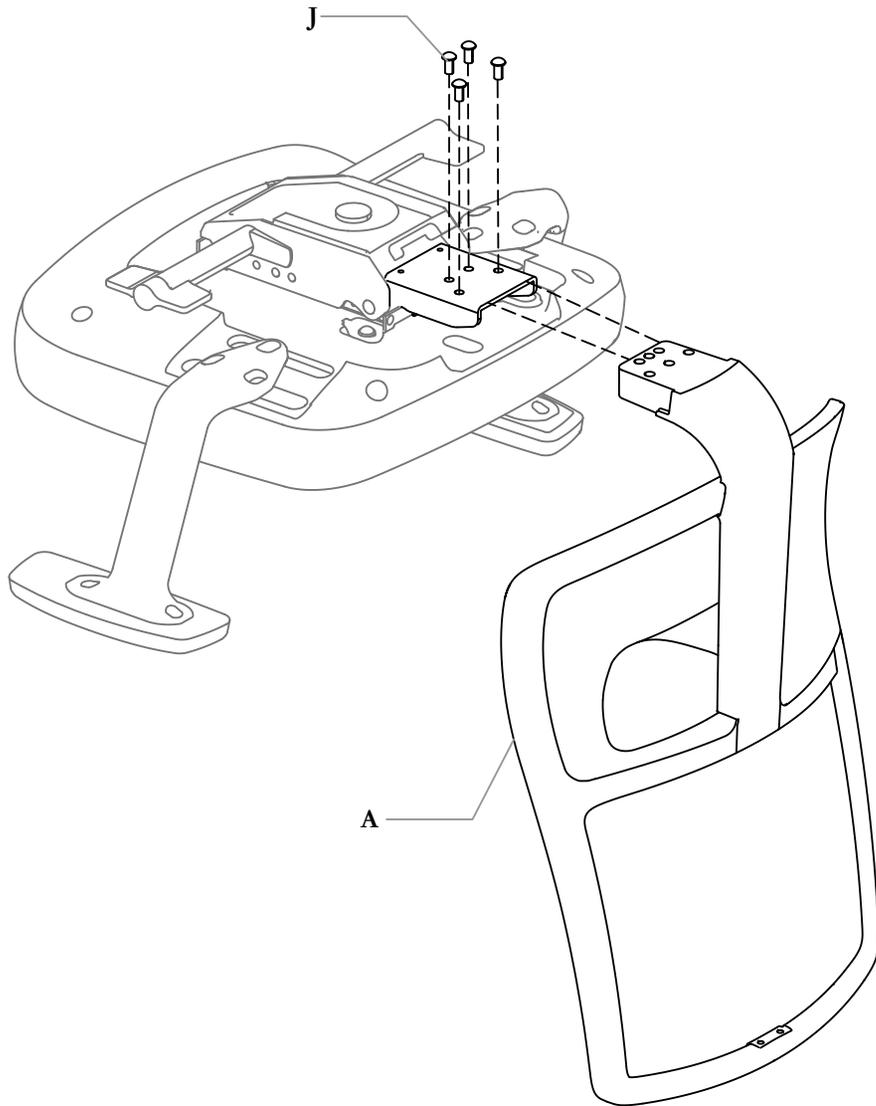

STEP 3: Attach the Armrest to the Seat using the Screws provided. Adjust the Armrest distance using the slots provided.

**INSERT THE MECHANISM**

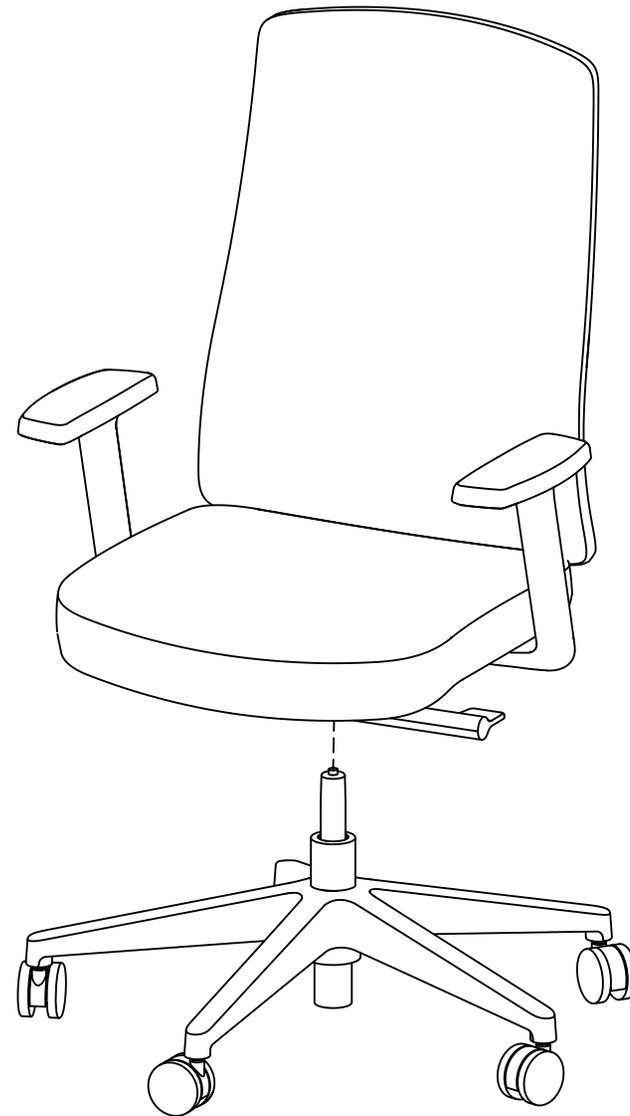

STEP 4: Assemble the Mechanism into the Bottom of the seat using the screws provided.

**INSERT THE BACK**

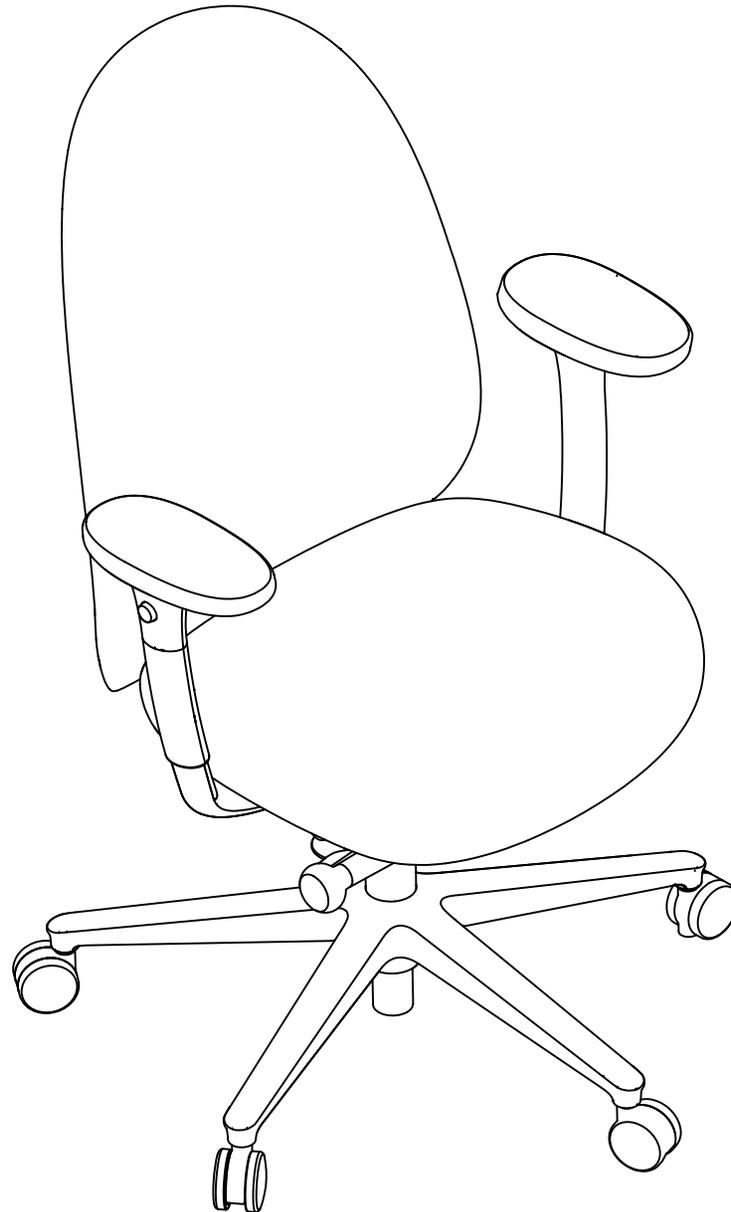

STEP 5: Insert the Back of the Chair into the base using Screws provided.

**ASSEMBLE TOP AND BOTTOM**

STEP 6: Assemble the top and the bottom of the chair.

Tone Task Chair, Mesh Back (NTTM)

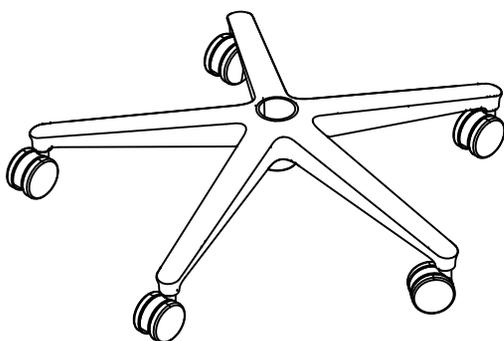

**Part and Product Identification**

**A - Base (Q06-0124) x 1**  
&  
Caster/ Glide x 5

CASTER/GLIDE OPTIONS (DEPENDENT UPON CONFIGURATION)

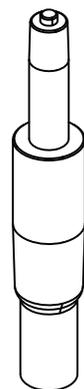

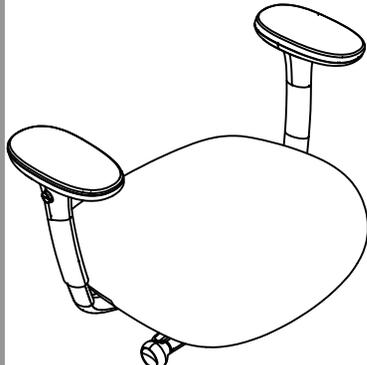

PART NO	DESCRIPTION
Q08-0173	60 MM HARD CASTER - EBONY
Q08-0174	60 MM SOFT CASTER - EBONY
Q08-0185	60 MM HARD CASTER - LIGHT GREY
Q08-0186	60 MM SOFT CASTER - LIGHT GREY
Q08-0152	HARD GLIDE - GREY
Q08-0153	SOFT GLIDE - GREY
Q08-0202	HARD GLIDE - EBONY
Q08-0203	SOFT GLIDE - EBONY

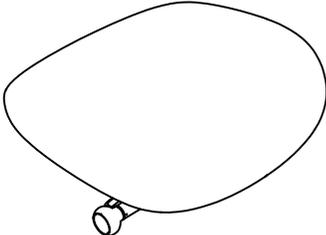

**B- Cylinder x 1**

CYLINDER OPTIONS (DEPENDENT UPON CONFIGURATION)

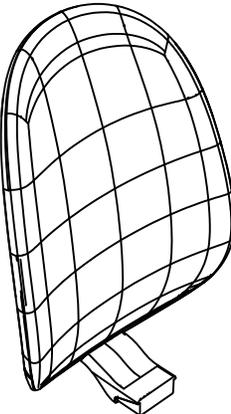

PART NO	DESCRIPTION
Q10-0700	3" CYLINDER
Q10-0710	4" CYLINDER
Q10-0720	5" CYLINDER

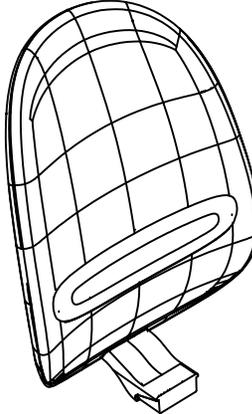

OR

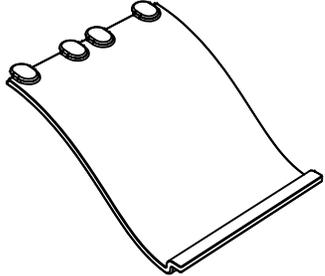

**C- Seat With Arms / Seat Without Arms x 1**

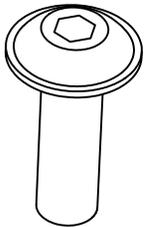

OR

**D- Back Without Lumbar / Back With Lumbar x 1**

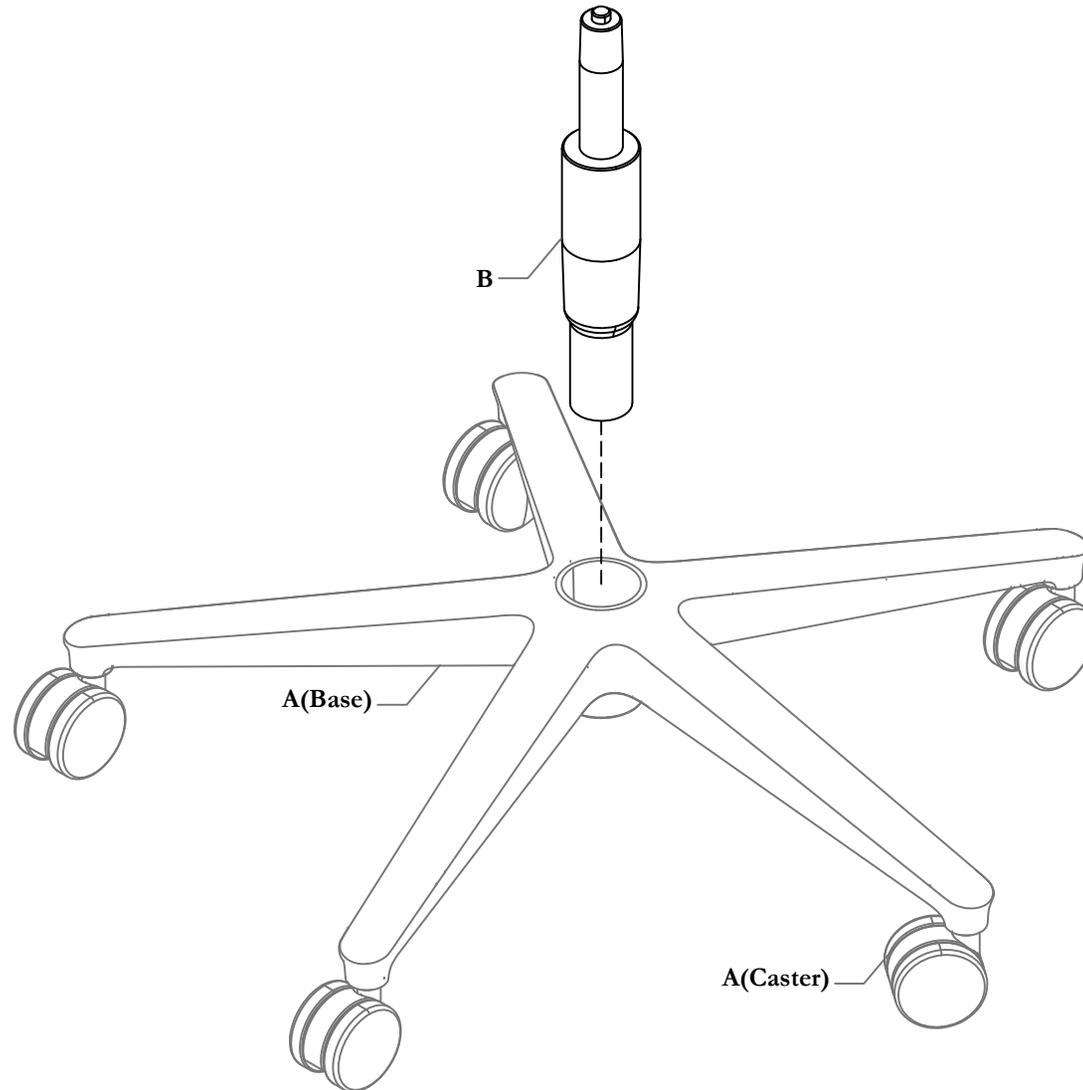

**E- Back Cap (Q14-0832) x 1**

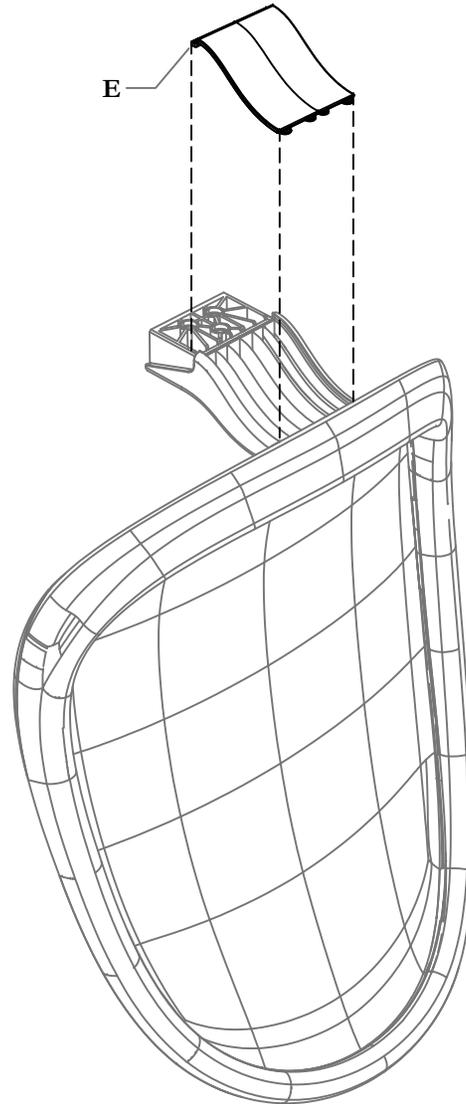

**F- Head Screw (Q28-0801) x 3**

ATTACH CYLINDER TO BASE

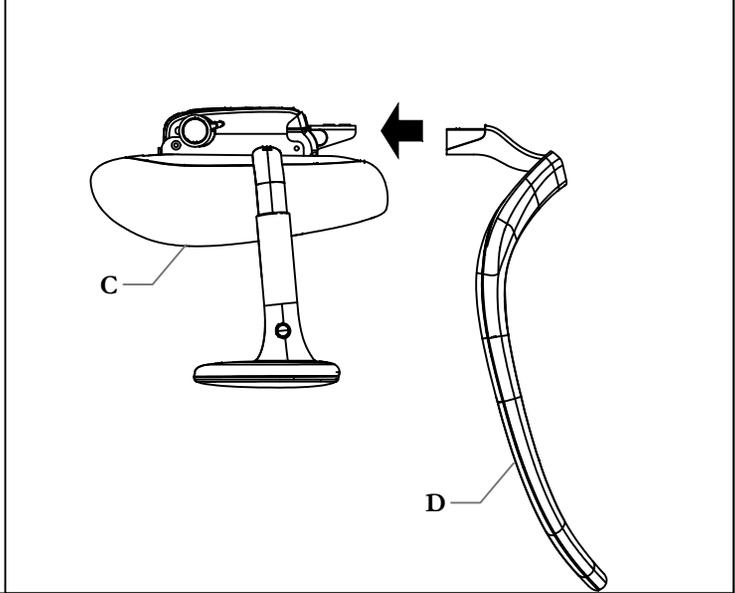

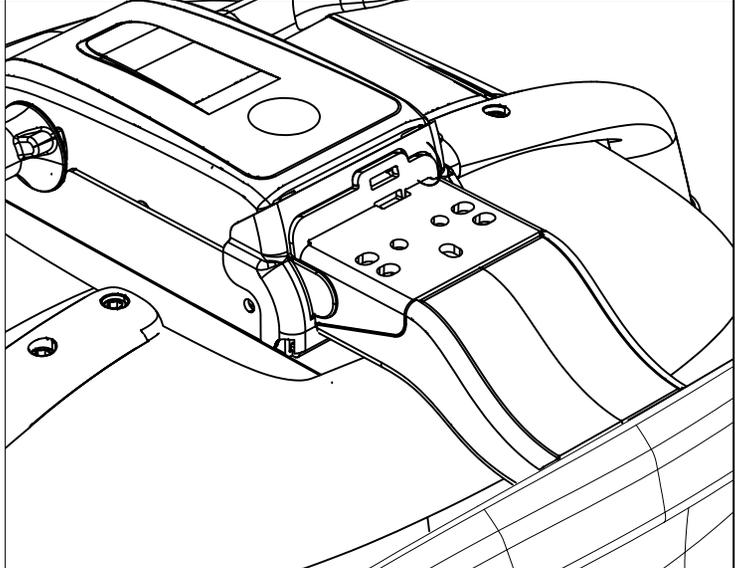

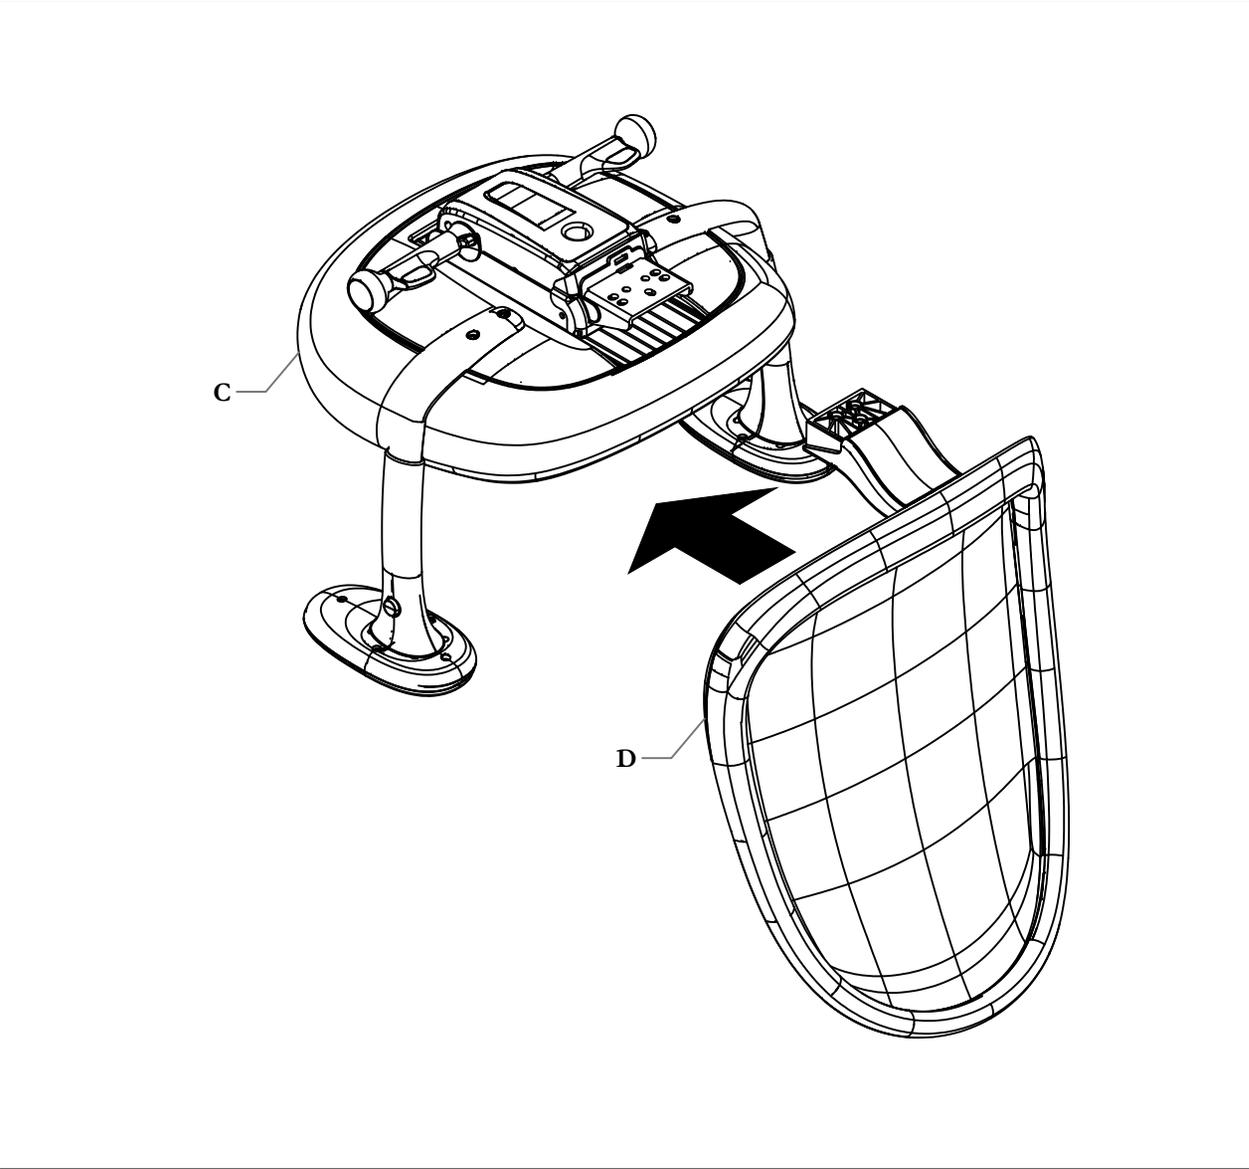

STEP 1: Attach Cylinder to the Base

**ATTACH THE BACK CAP**

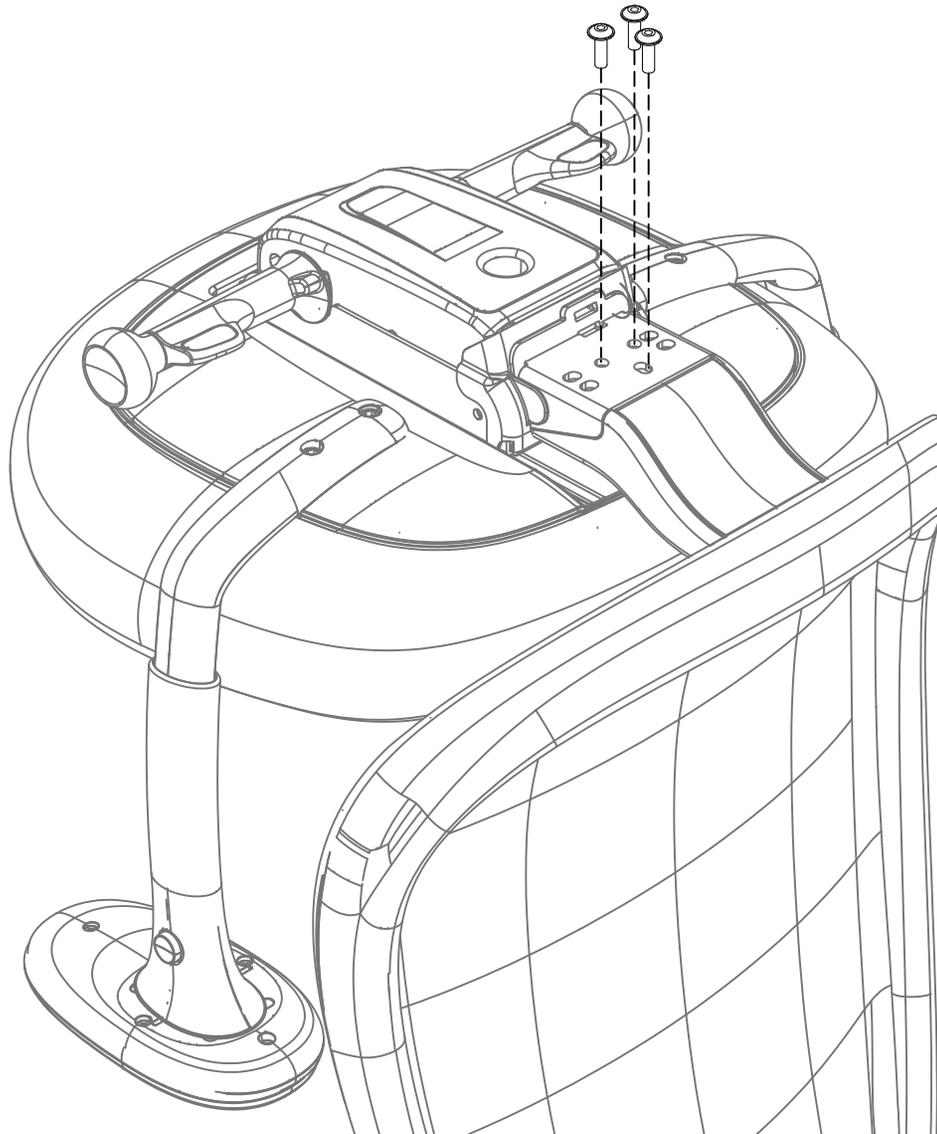

STEP 2: Attach the Back Cap to the Back.

ASSEMBLE BACK WITH THE SEAT

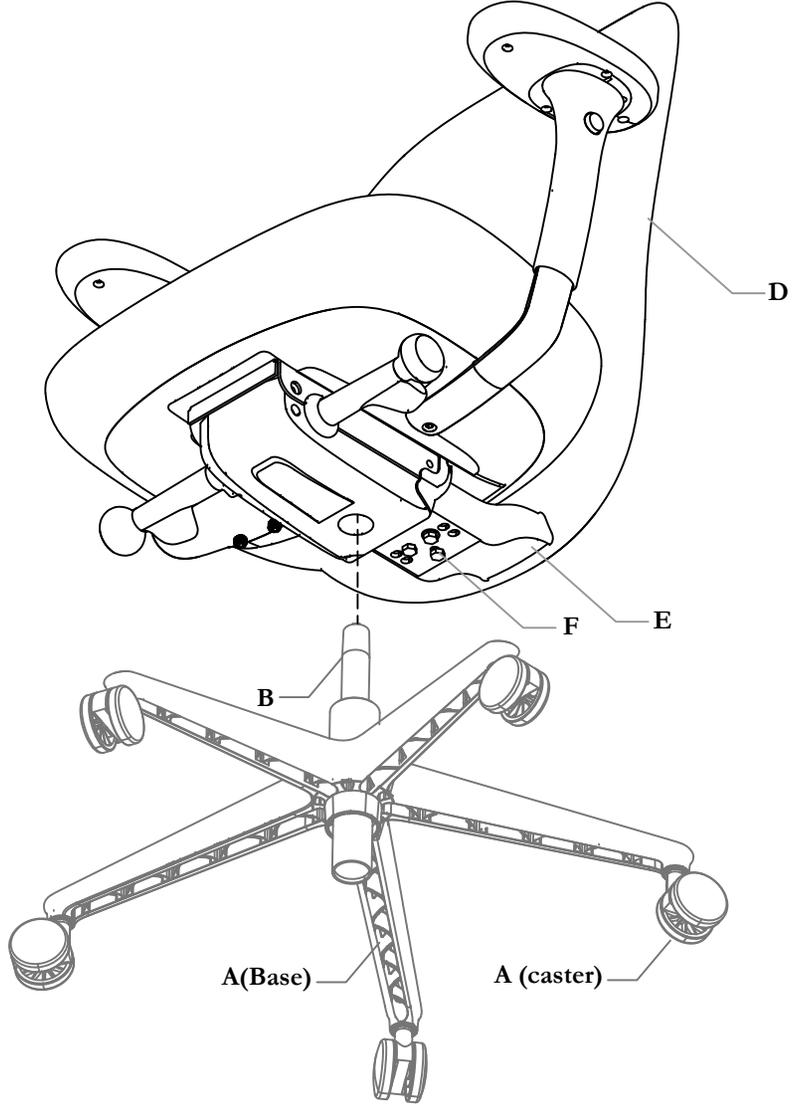

STEP 3: Attach the Back to the Seat

**ATTACH HEAD SCREW**

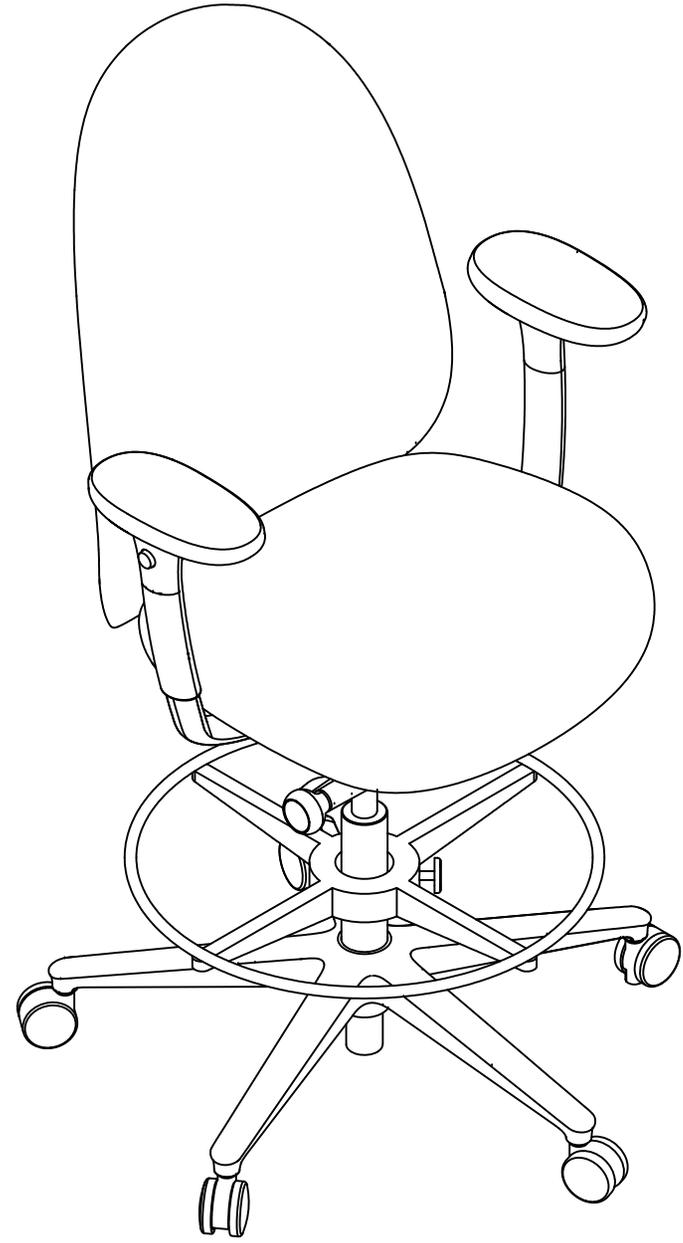

STEP 4: Attach the Head Screw

ATTACH THE BASE ASSEMBLY

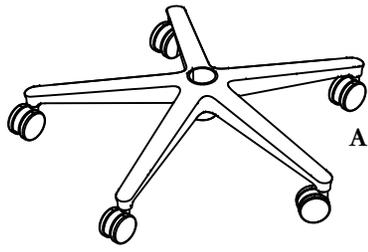

STEP 5: Attach the Base assembly as shown

Tone Swivel Stool, Mesh Back (NTDM)

Part and Product Identification

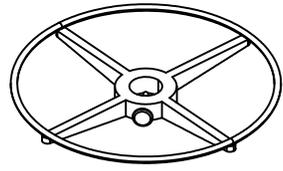

**A** - Base (Q06-0124) x 1  
 &  
 Caster/ Glide x 5

CASTER/GLIDE OPTIONS (DEPENDENT UPON CONFIGURATION)

PART NO	DESCRIPTION
Q08-0173	60 MM HARD CASTER - EBONY
Q08-0174	60 MM SOFT CASTER - EBONY
Q08-0185	60 MM HARD CASTER - LIGHT GREY
Q08-0186	60 MM SOFT CASTER - LIGHT GREY
Q08-0152	HARD GLIDE - GREY
Q08-0153	SOFT GLIDE - GREY
Q08-0202	HARD GLIDE - EBONY
Q08-0203	SOFT GLIDE - EBONY

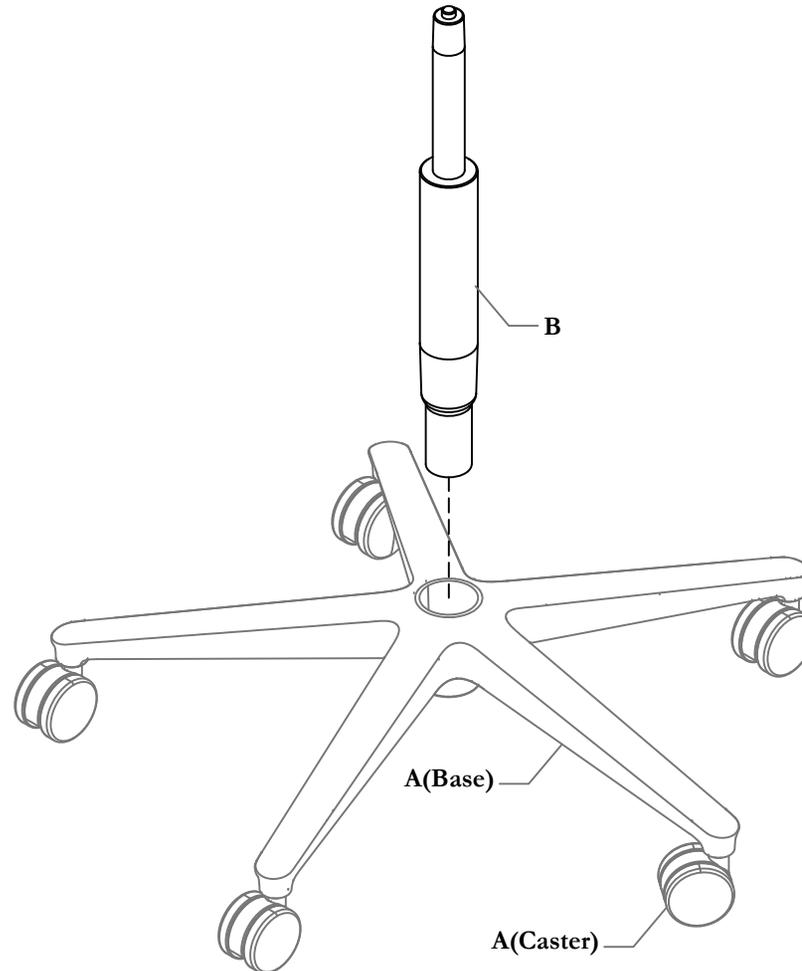

**B** - Cylinder 8" (Q10-0680) x 1

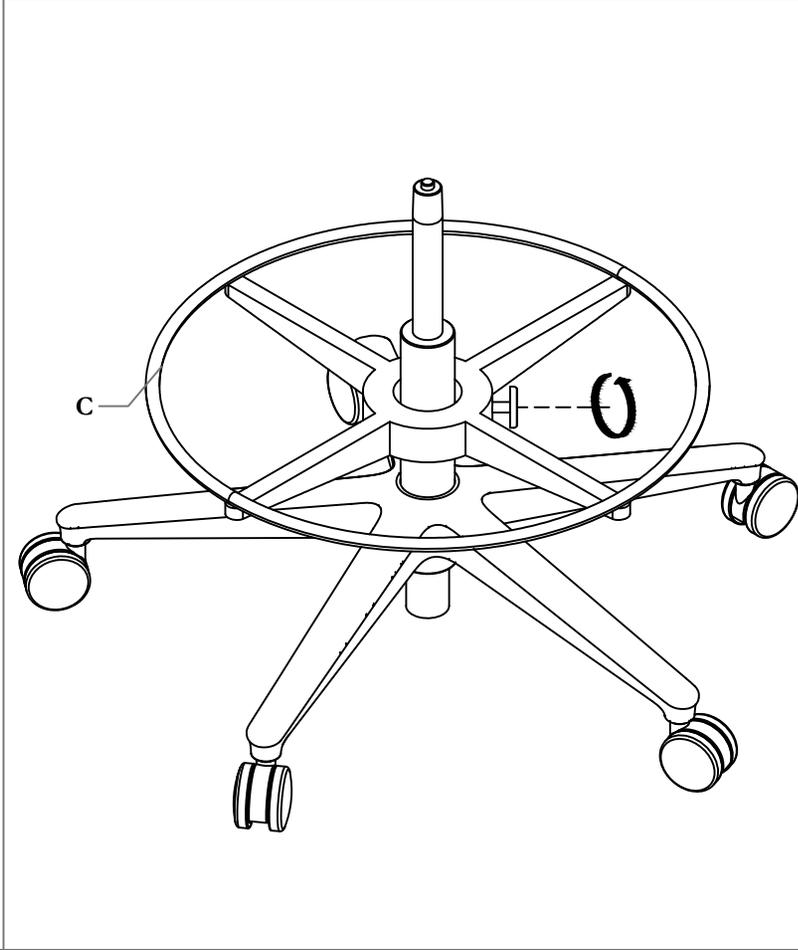

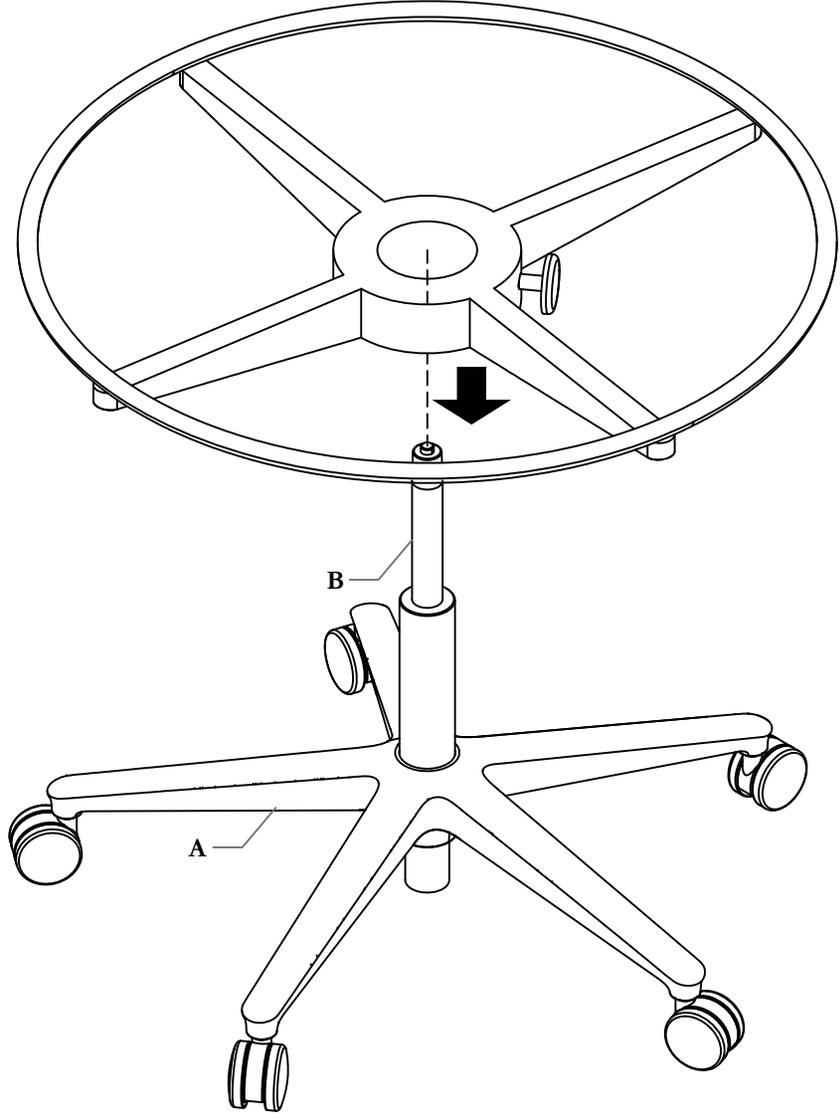

**C** - Foot Ring (Q26-0012) x 1

**ATTACH CYLINDER TO THE BASE**

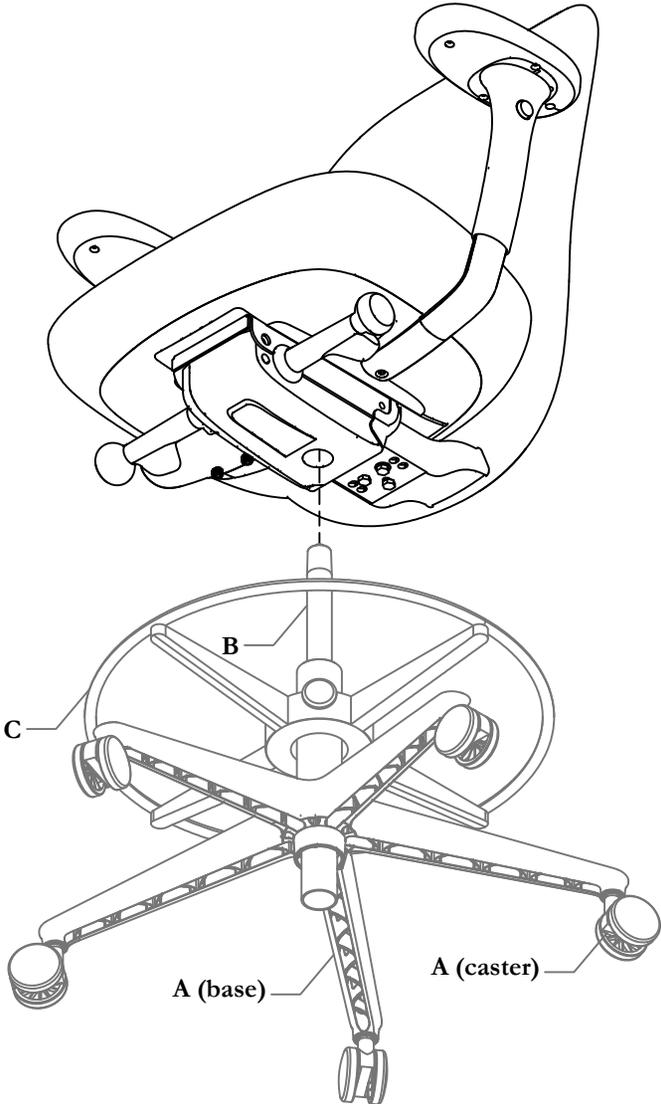

STEP 1: Attach Cylinder to the base

ASSEMBLE THE FOOT RING

STEP 2: Assemble the Foot Ring to the Cylinder as shown

**ATTACH THE BASE ASSEMBLY**

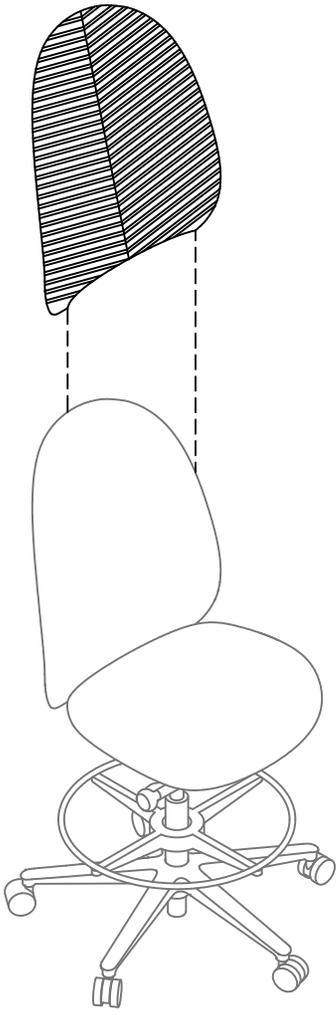

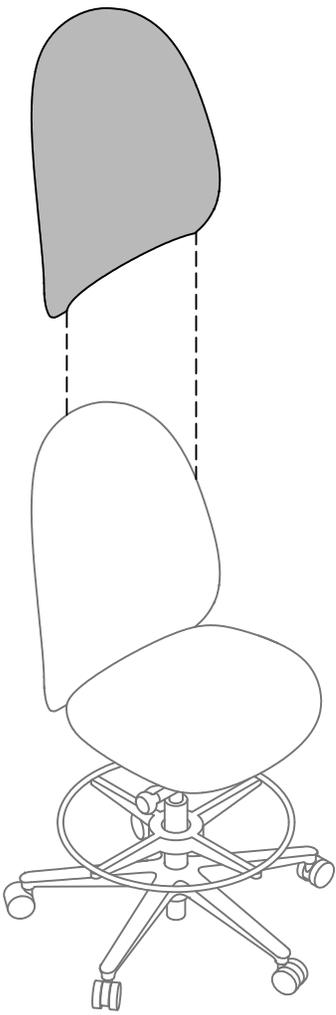

STEP 3: Attach the Base assembly as shown

Section: **SEATING**

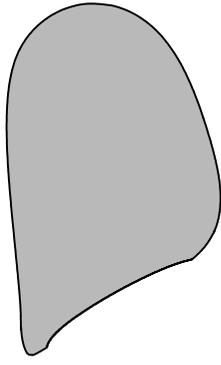

Description: **LUUM/ KNIT SLEEVE**

Tone Luum Sleeve (NTAF), Tone Knit Sleeve (NTAK)

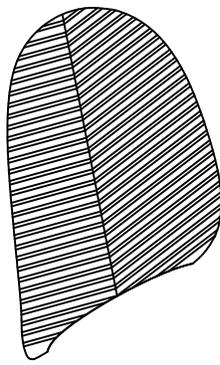

NOTE: The following images show the Tone Swivel Stool (NTDM) with Sleeves, NTAF (left) and NTAK (right), placed on.

Part and Product Identification

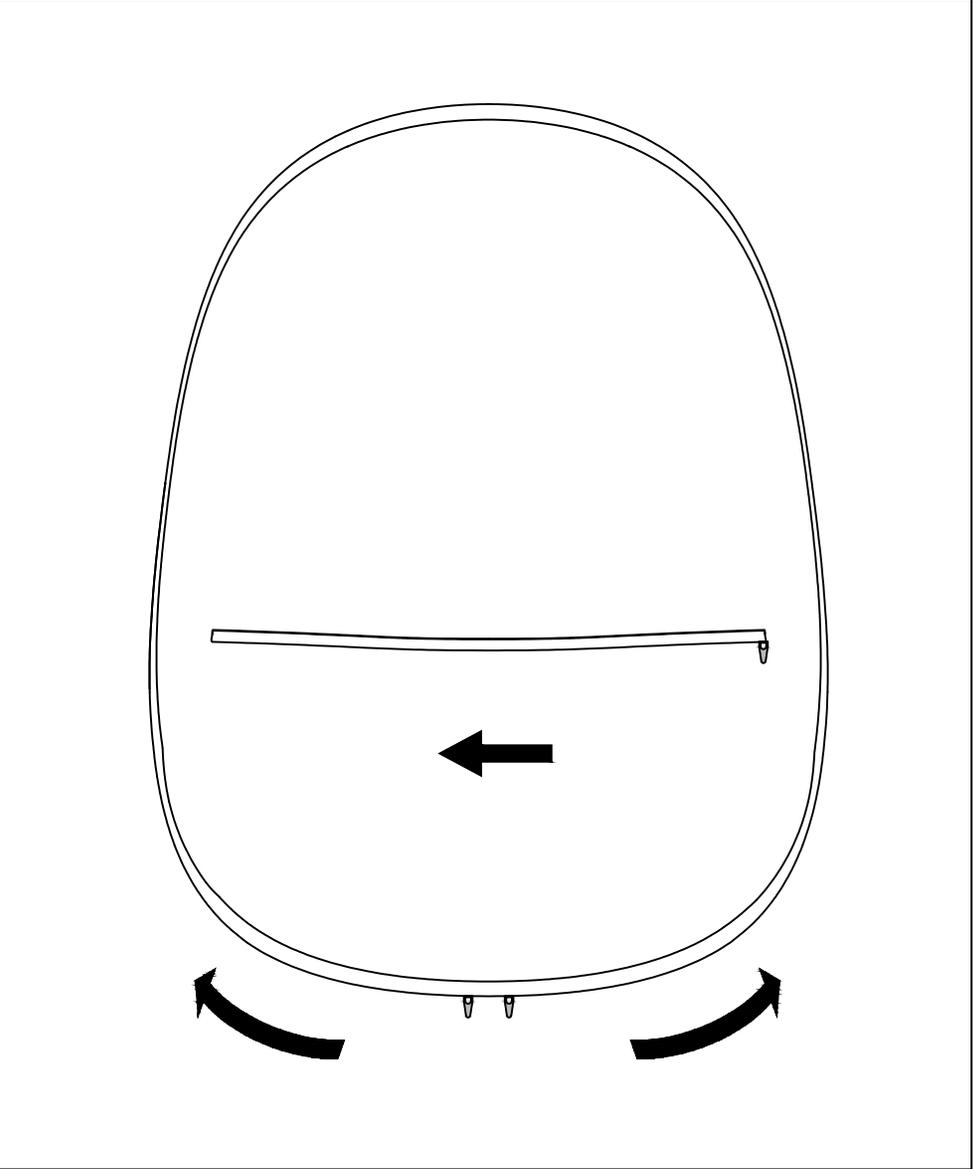

**A** - Tone Luum Sleeve (NTAF) x1

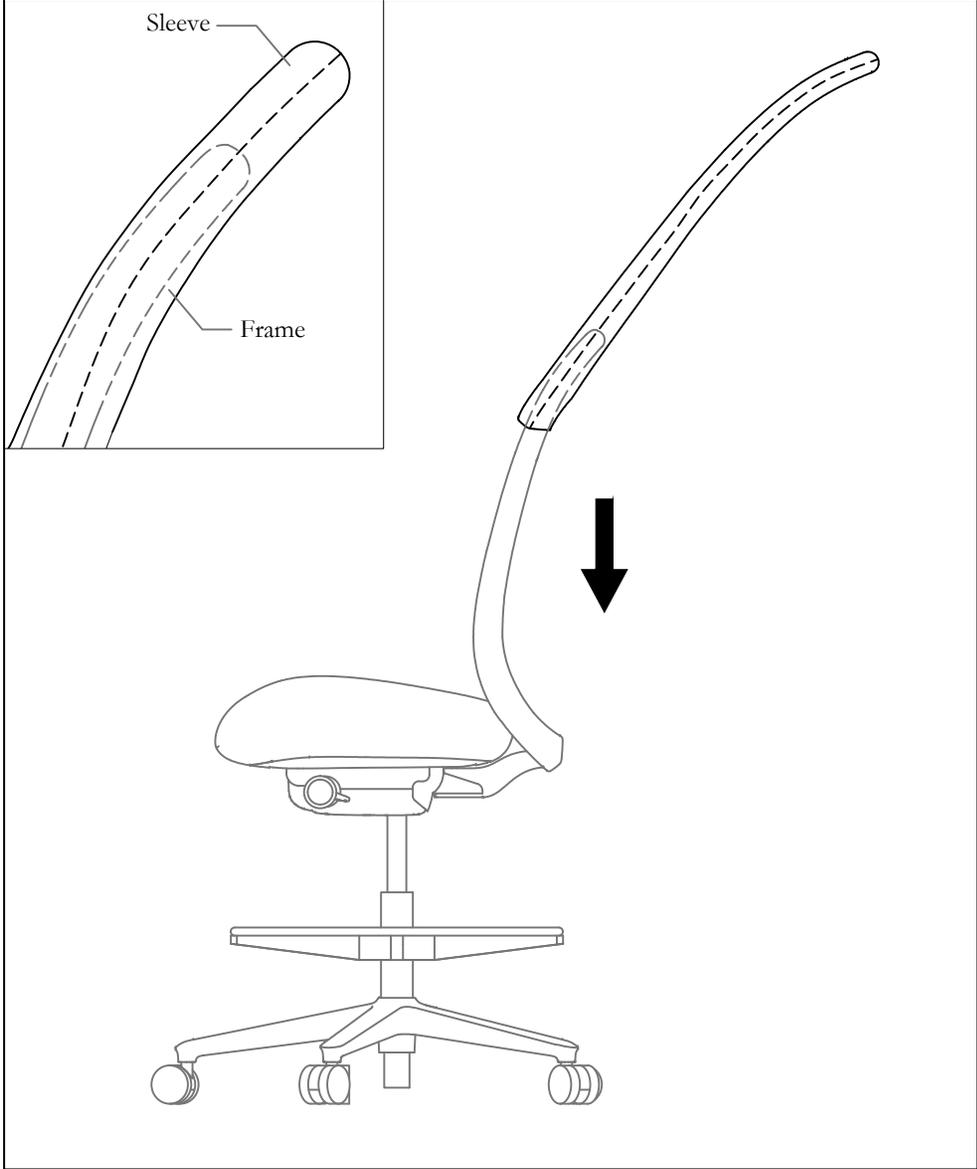

**B** - Tone Knit Sleeve (NTAK) x1

UNZIP ALL ZIPPERS

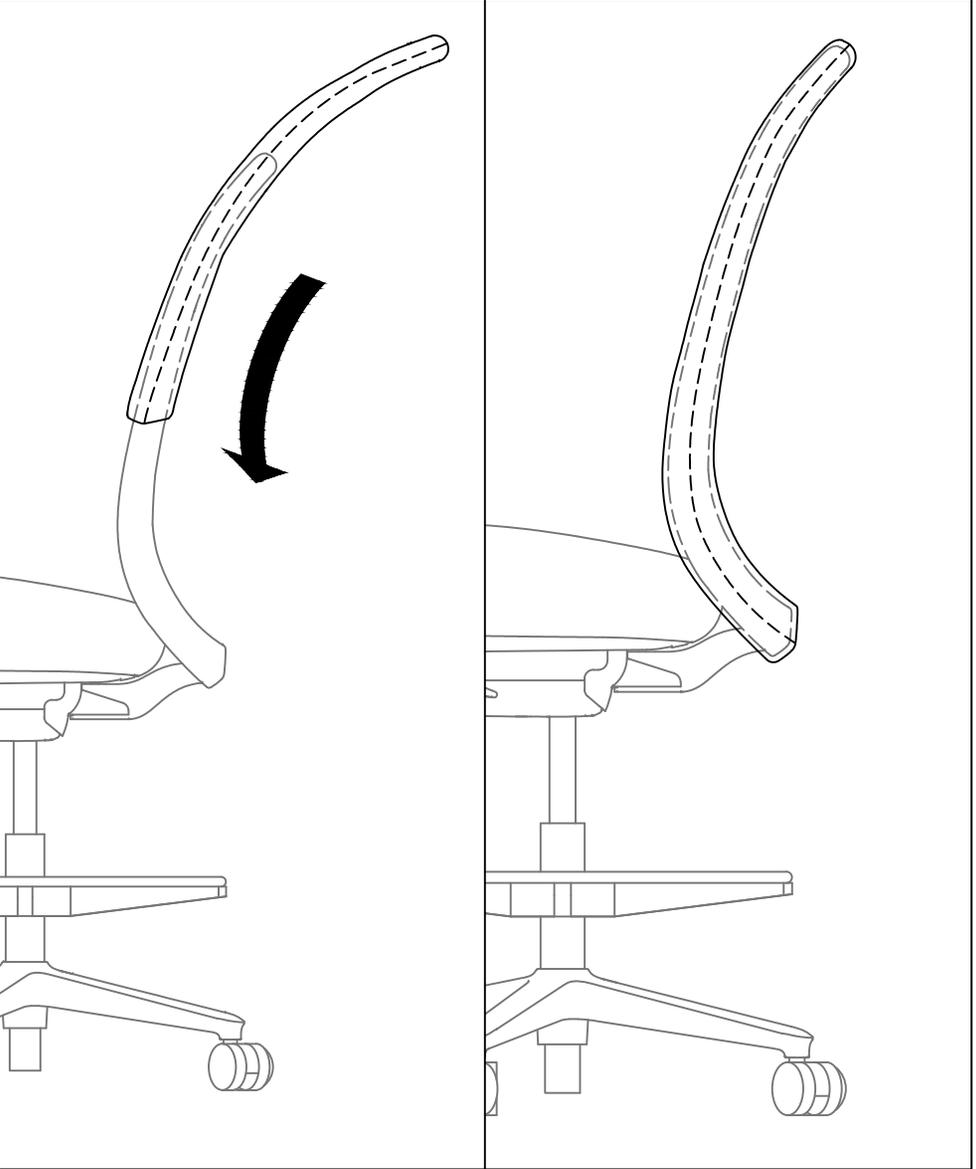

STEP 1: Unzip all zippers on sleeve prior to the install.

PLACE SLEEVE ON TOP OF FRAME

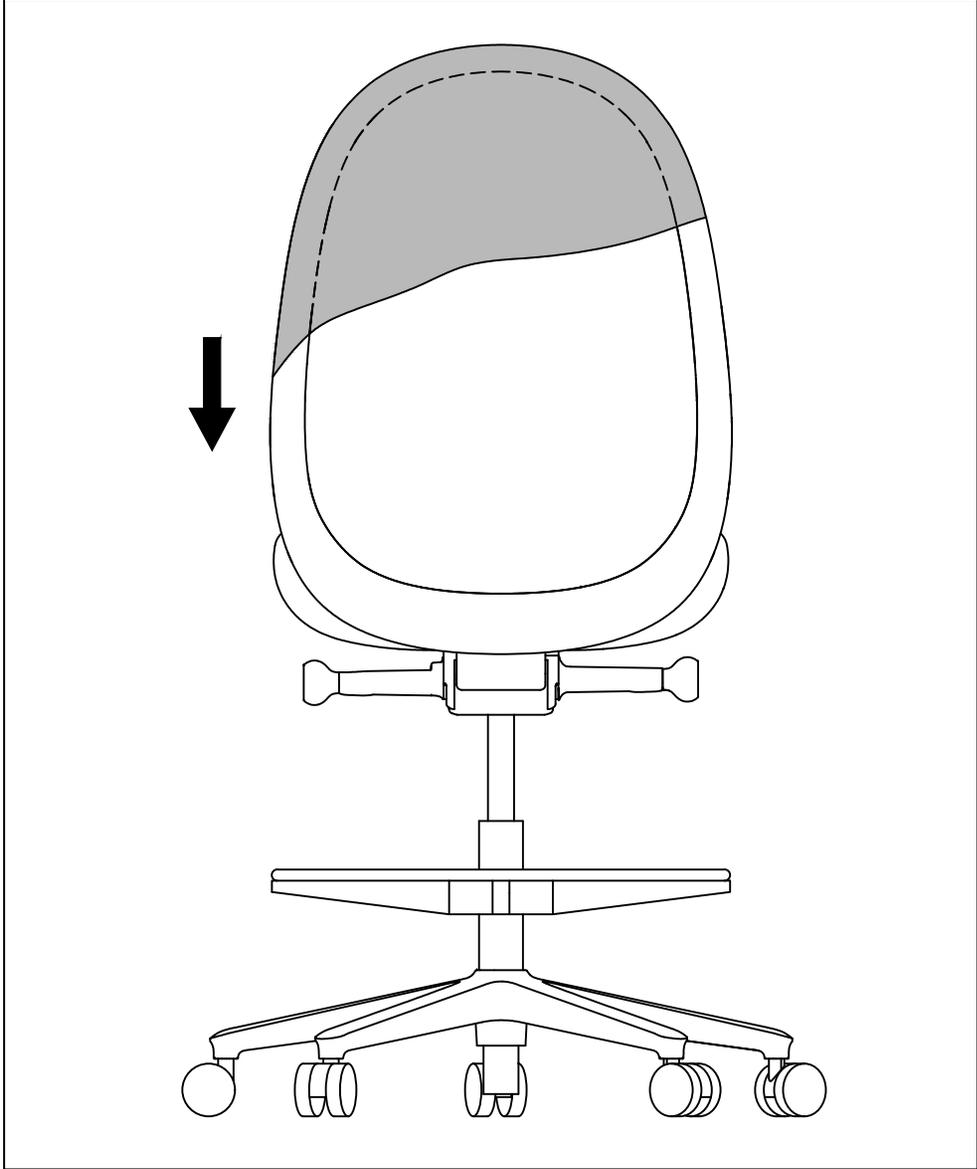

STEP 2: Place sleeve over the top 1/4 of frame. Make sure to align the sleeve's seam along the side profile center of the frame as shown in the top left image.

GRADUALLY PULL SLEEVE DOWN

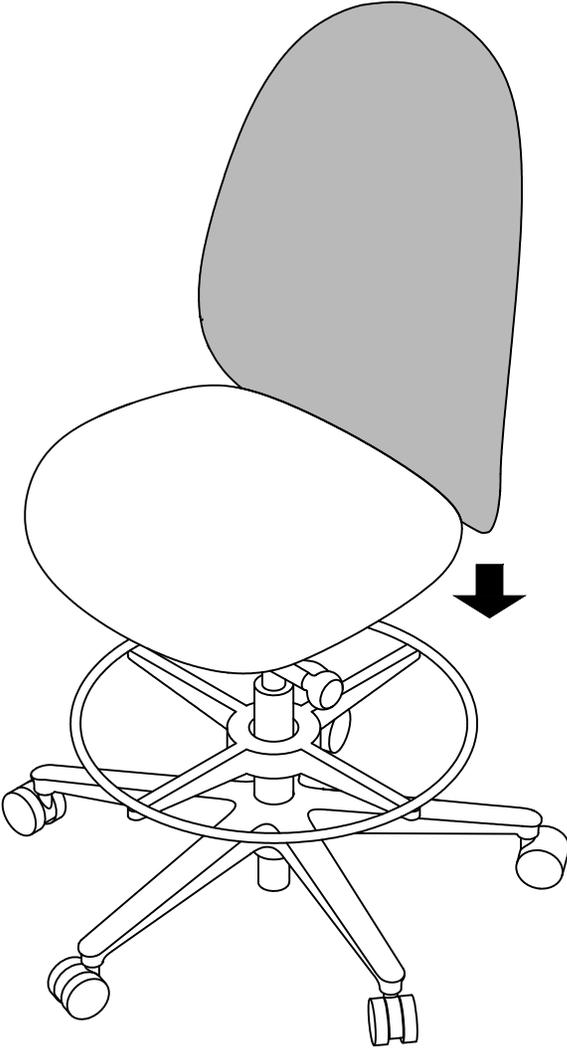

STEP 3: Continue to pull the sleeve down. Every 1/4 of the way, realign the sleeve and massage out the puckering on both sides until the full sleeve is on the seat back.

PULL ON EACH SIDE ALTERNATELY

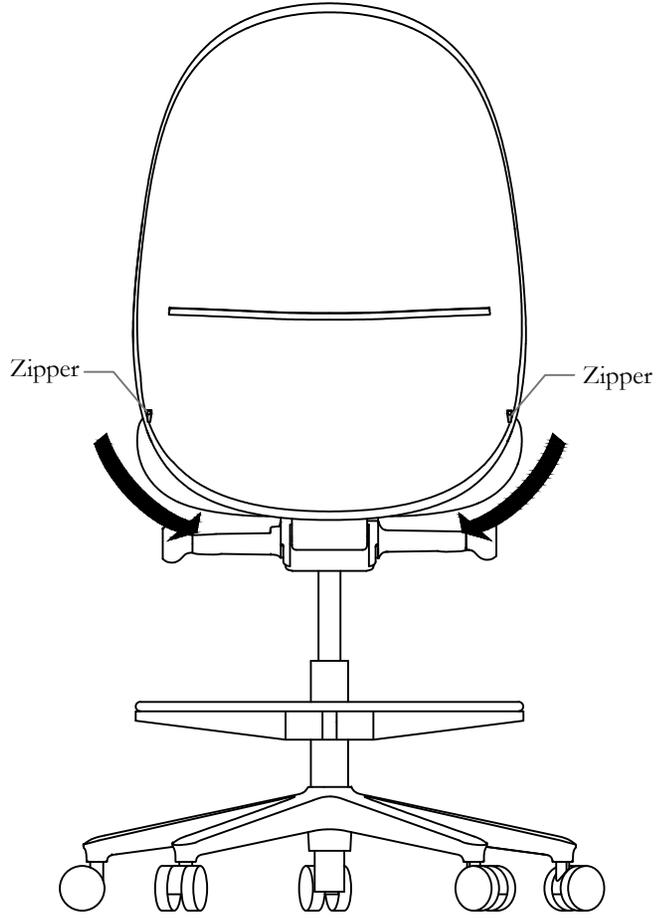

NOTE: Alternate between pulling on each side to ensure there is enough slack for sleeve.

**PULL ZIPPER UNDERNEATH FRAME**

STEP 4: Tightly pull together the bottom of the sleeve so the zipper teeth align as close as possible underneath the base of the frame.

**ZIP THE TWO SIDE ZIPPERS**

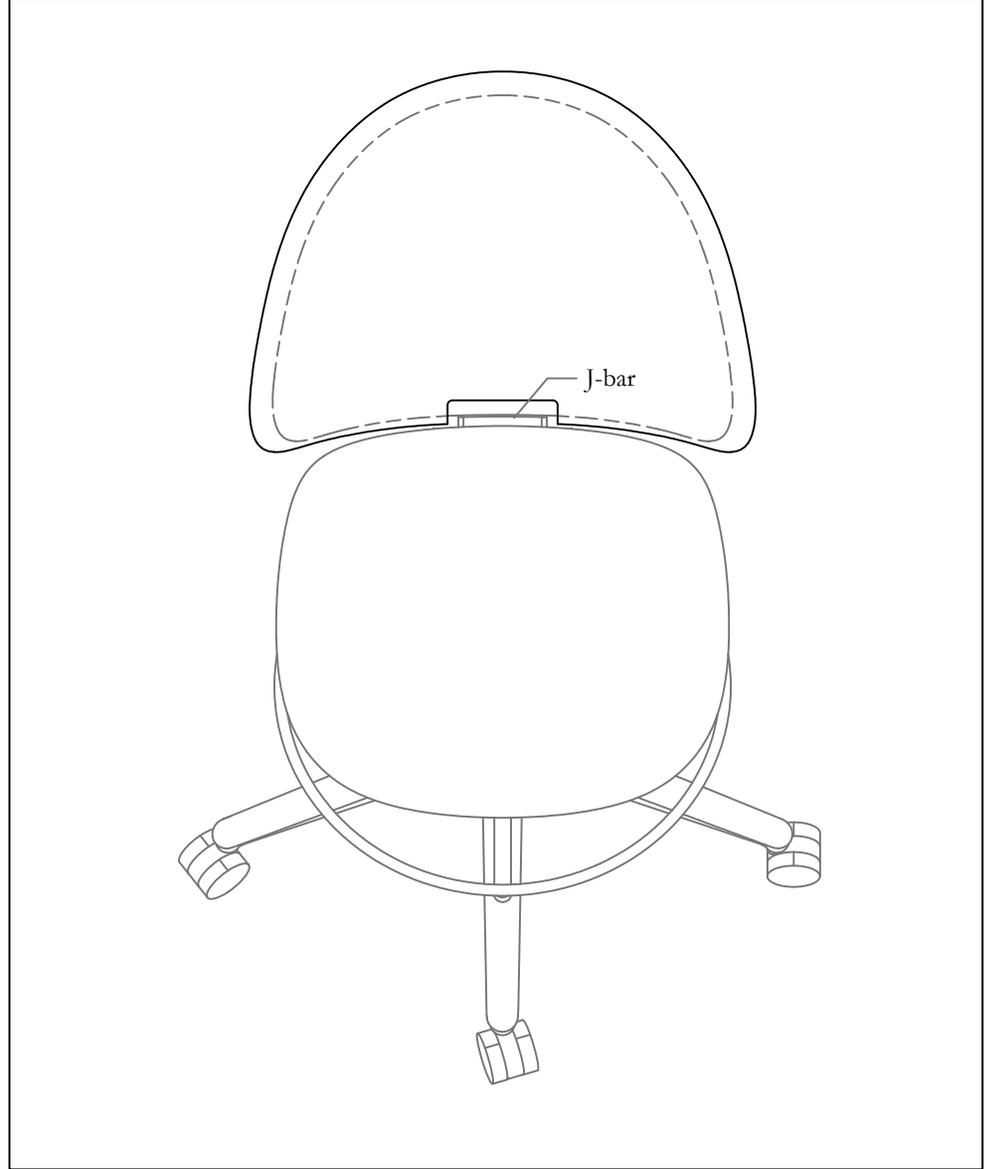

STEP 5: Zip the bottom of the sleeve in 1/3 increments on each side towards the J-Bar.

Section: **SEATING**

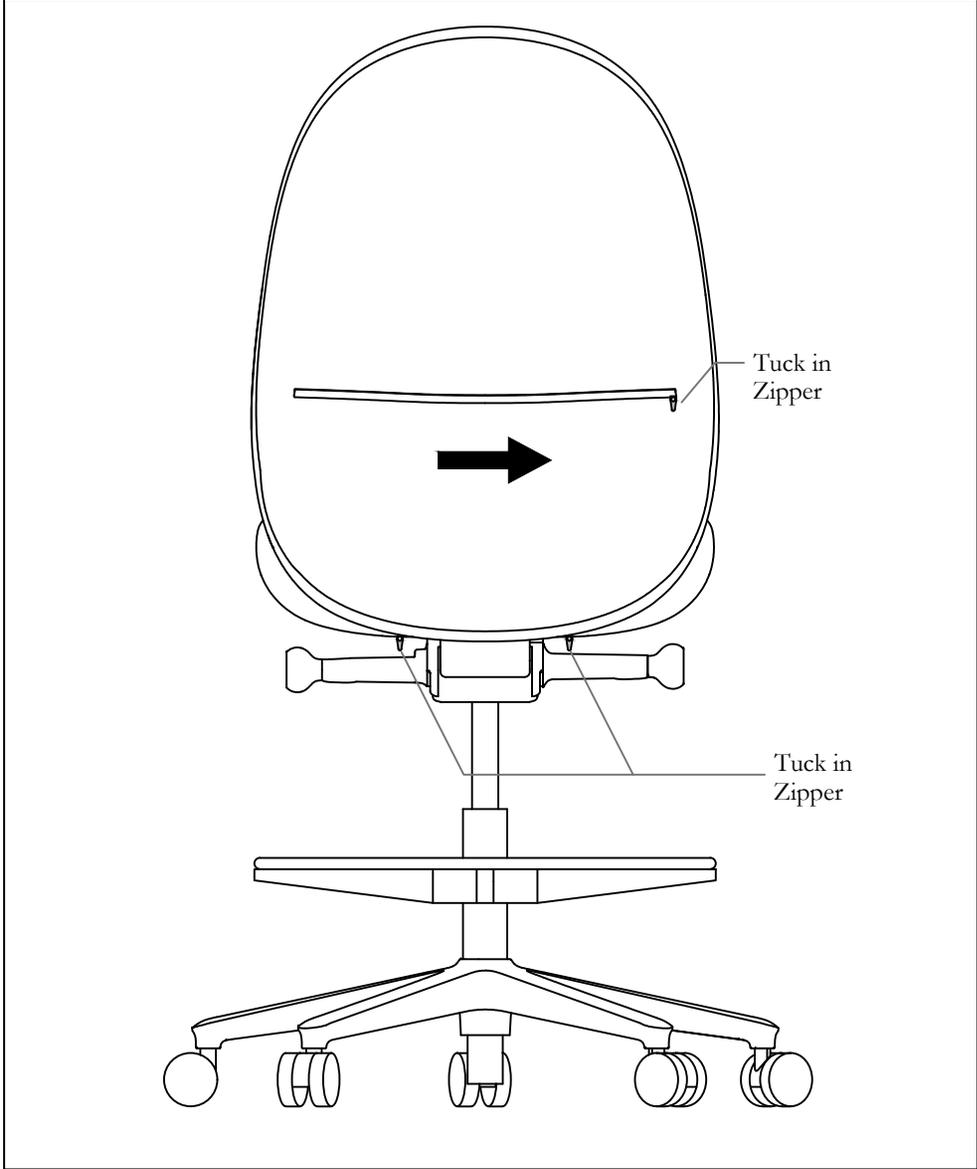

Description: **LUUM/ KNIT SLEEVE**

**ALIGN NOTCH ON SLEEVE WITH J-BAR**

STEP 6: Do a final check that seams are in good alignment and symmetry. The notch for the J-bar should be correctly aligned.

**ZIP THE BACK AND TUCK IN ALL ZIPPERS**

STEP 8: Continue zipping until closed. Finesse by tucking zipper pulls up. Zip close back zipper (NTAF). Tuck zipper pull up.

## Projek Task Chair (NPRT) Assembly Required (K)

## Part and Product Identification

**A** - Mechanism with Locking  
(Q12-0093) x 1

**B** - Gas Cylinder x 1

GAS Cylinder (DEPENDENT UPON CONFIGURATION)

PART NO	DESCRIPTION
Q10-0720	5" KGS GAS CYLINDER
Q10-0710	4" KGS GAS CYLINDER
Q10-0700	3" KGS GAS CYLINDER
Q10-0620	3" GAS CYLINDER
Q10-0360	4" GAS CYLINDER
Q10-0370	5" GAS CYLINDER

**C** - Base x 1 & 60mm Hard Caster  
(Q08-0016) x 5

Base (DEPENDENT UPON CONFIGURATION)

PART NO	DESCRIPTION
Q06-0105	HOWEN ALUMINIUM BASE
Q06-0040	PLASTIC BASE

**D** - M/C Screw M8x10  
(Q28-0521) x 2

**E** - Plastic Bushing  
(Q28-0292) x 2

**F** - M5 x 22mm Head Screw  
(Q28-0687) x 2

**G** - #8 x 1 Wood Screw  
(Q28-0824) x 1

**H** - Back assembly

**I** - Structural assembly

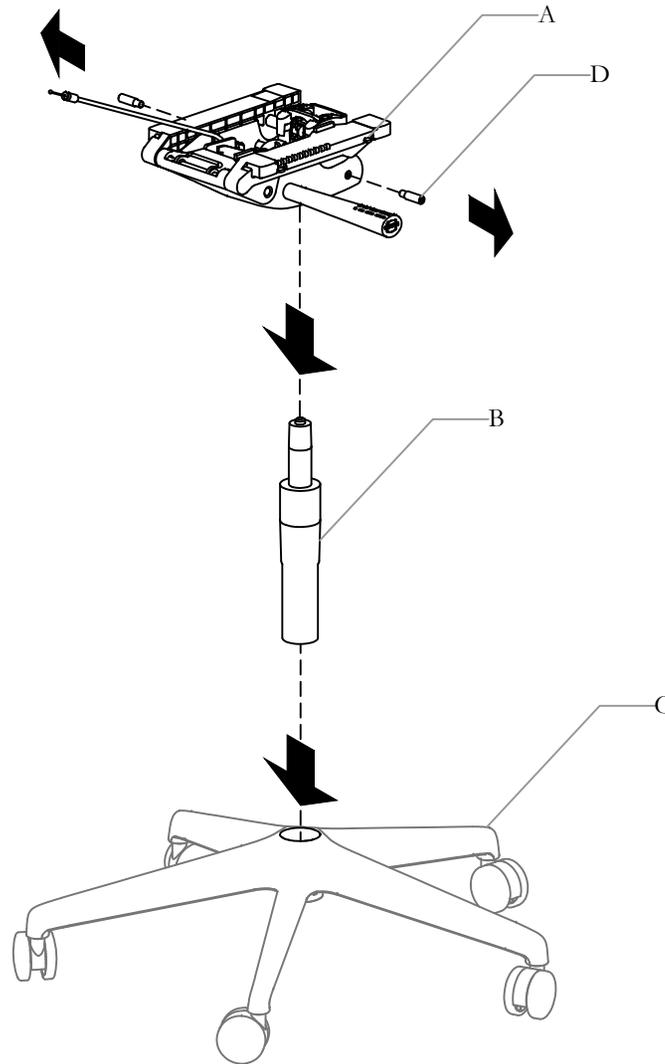

**J** - Seat Cushion

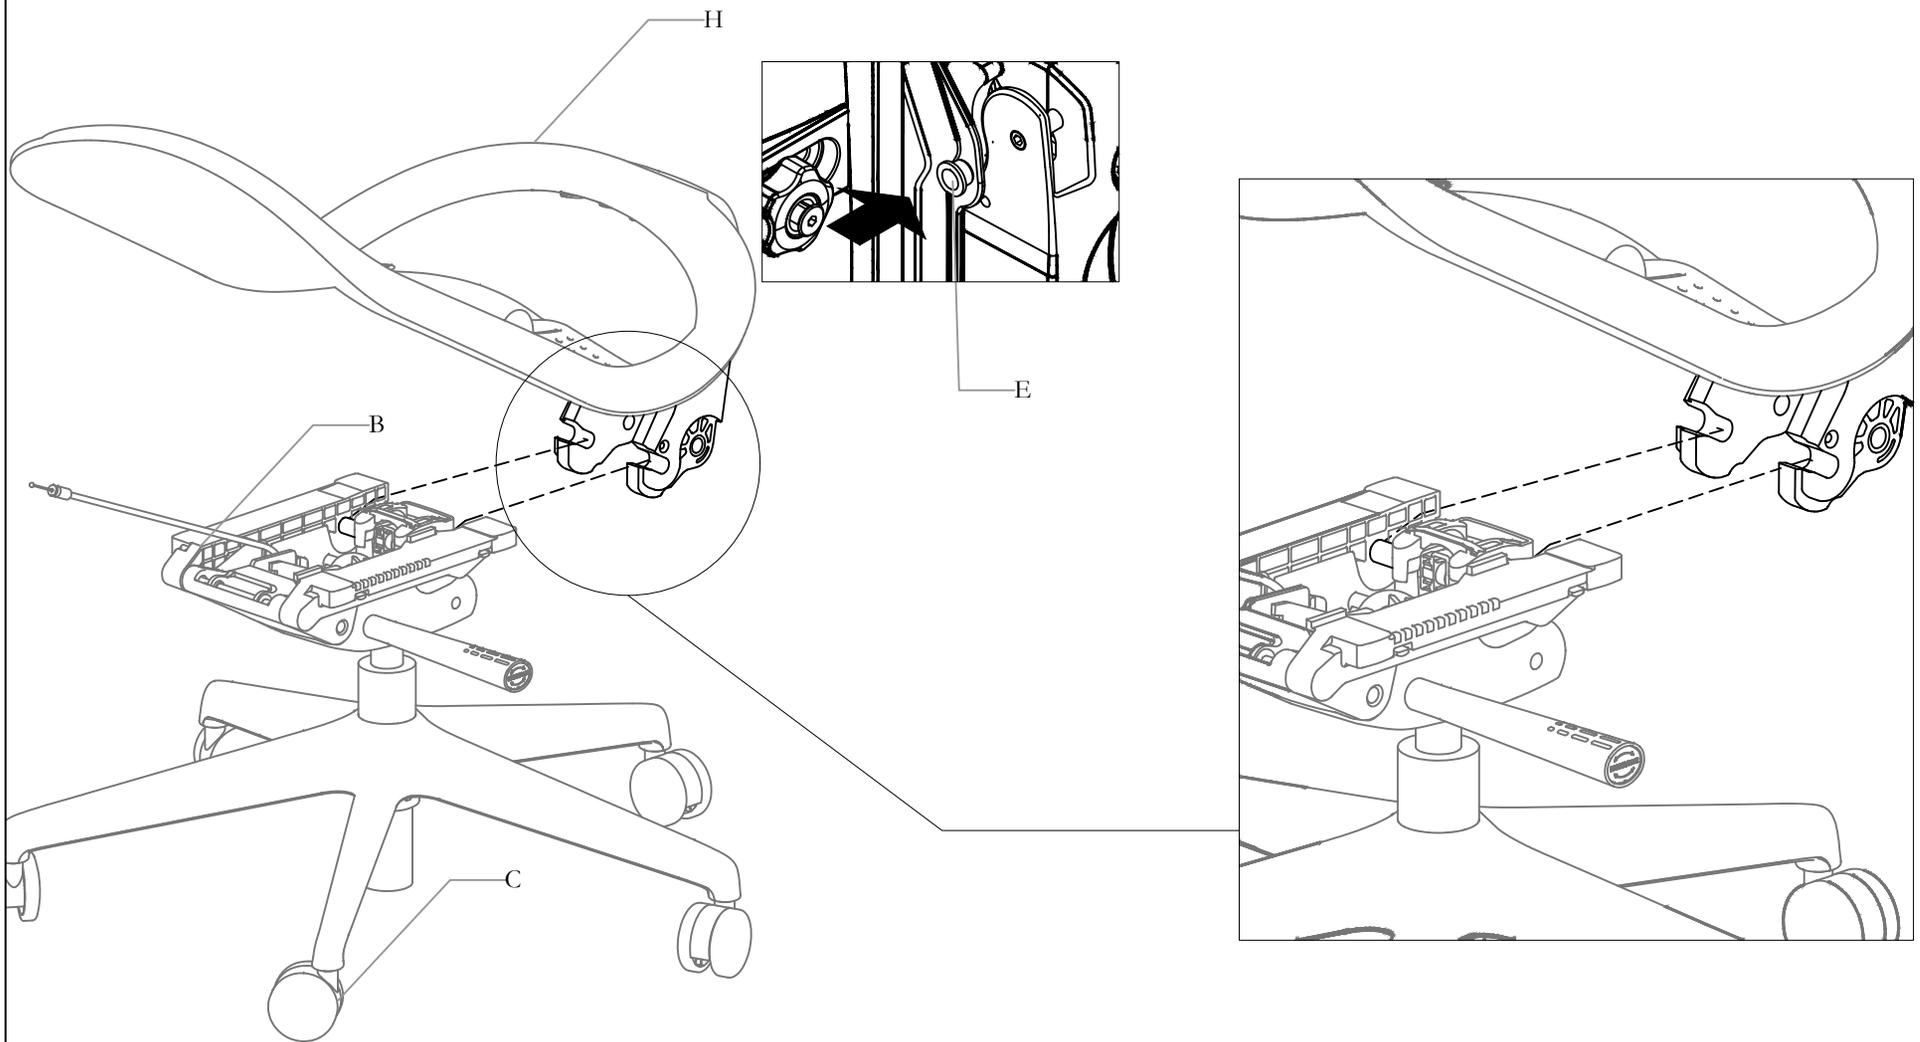

**K** - Spacer (Q28-0892) x 1

Base, Cylinder Mechanism Installation

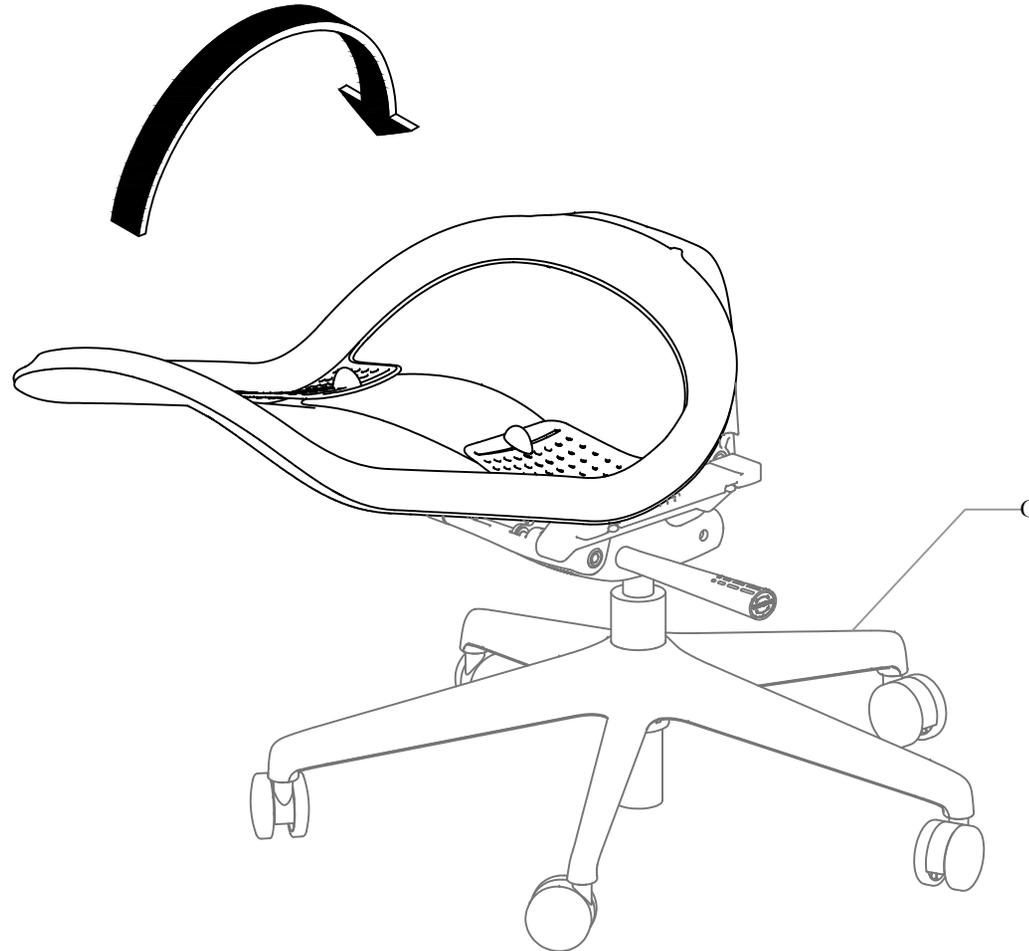

STEP 1: Assemble 5 Star Base, Cylinder and Mechanism

Structural Back to Mechanism Installation

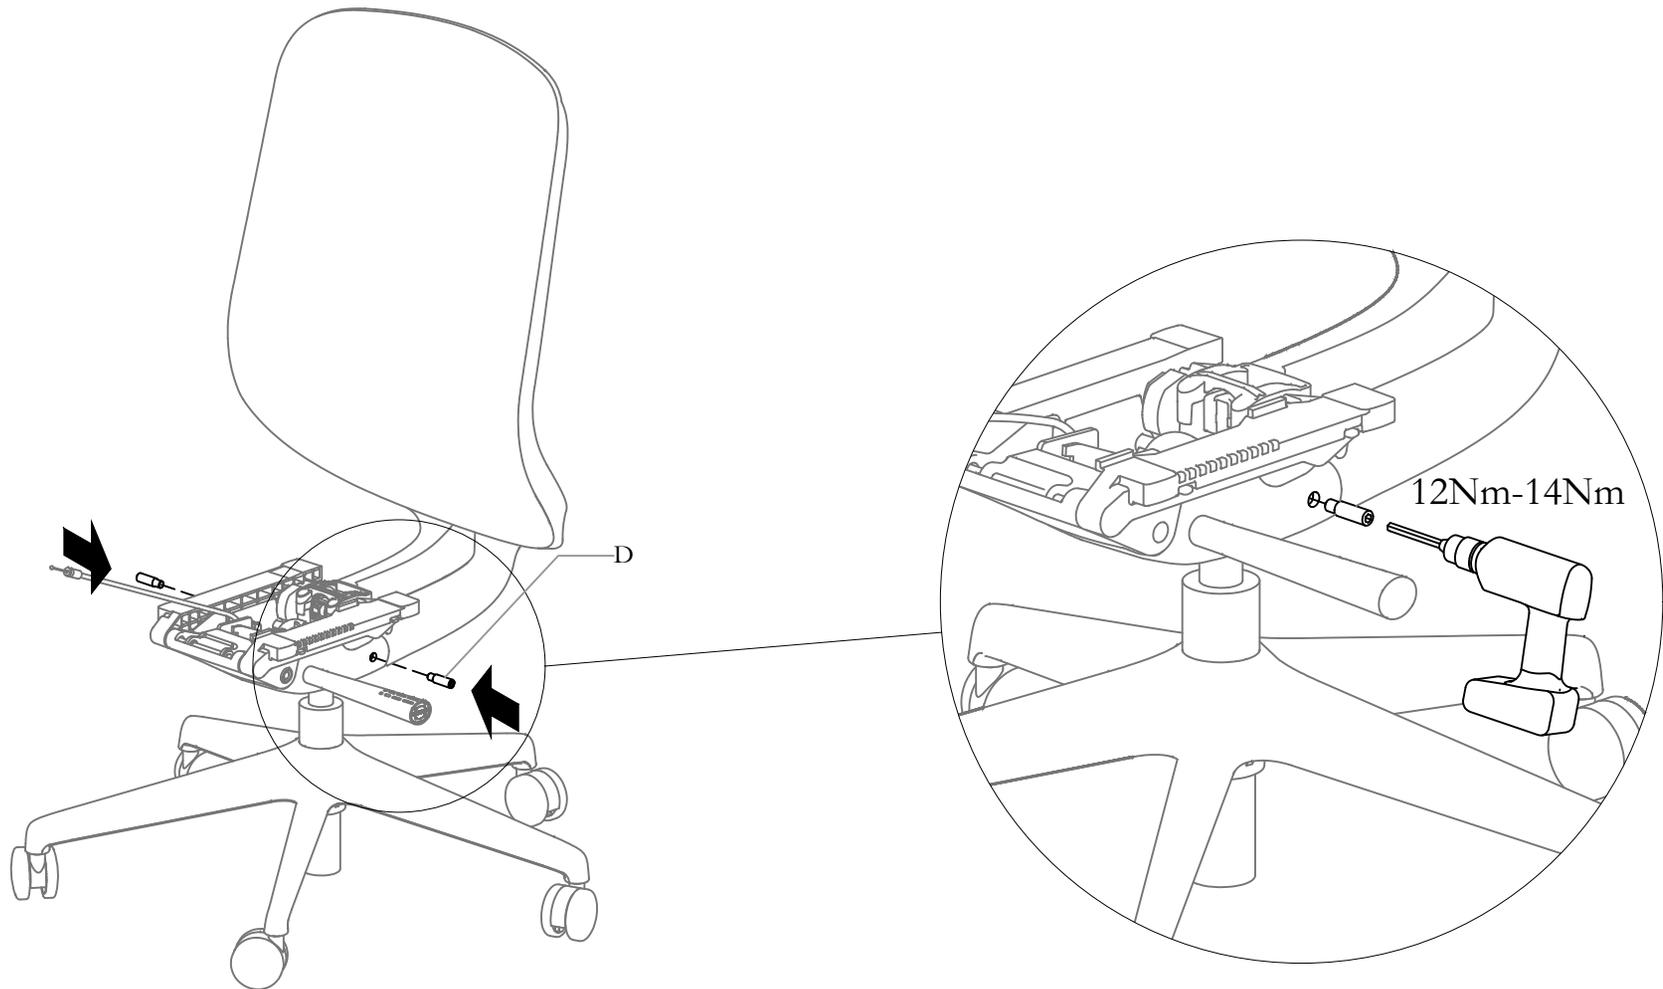

STEP 2: Install 2 x Q28-0292 plastic bushings into the Structural Back, one on each side. Hook Structural Back onto Mechanism

Structural Back to Mechanism Installation

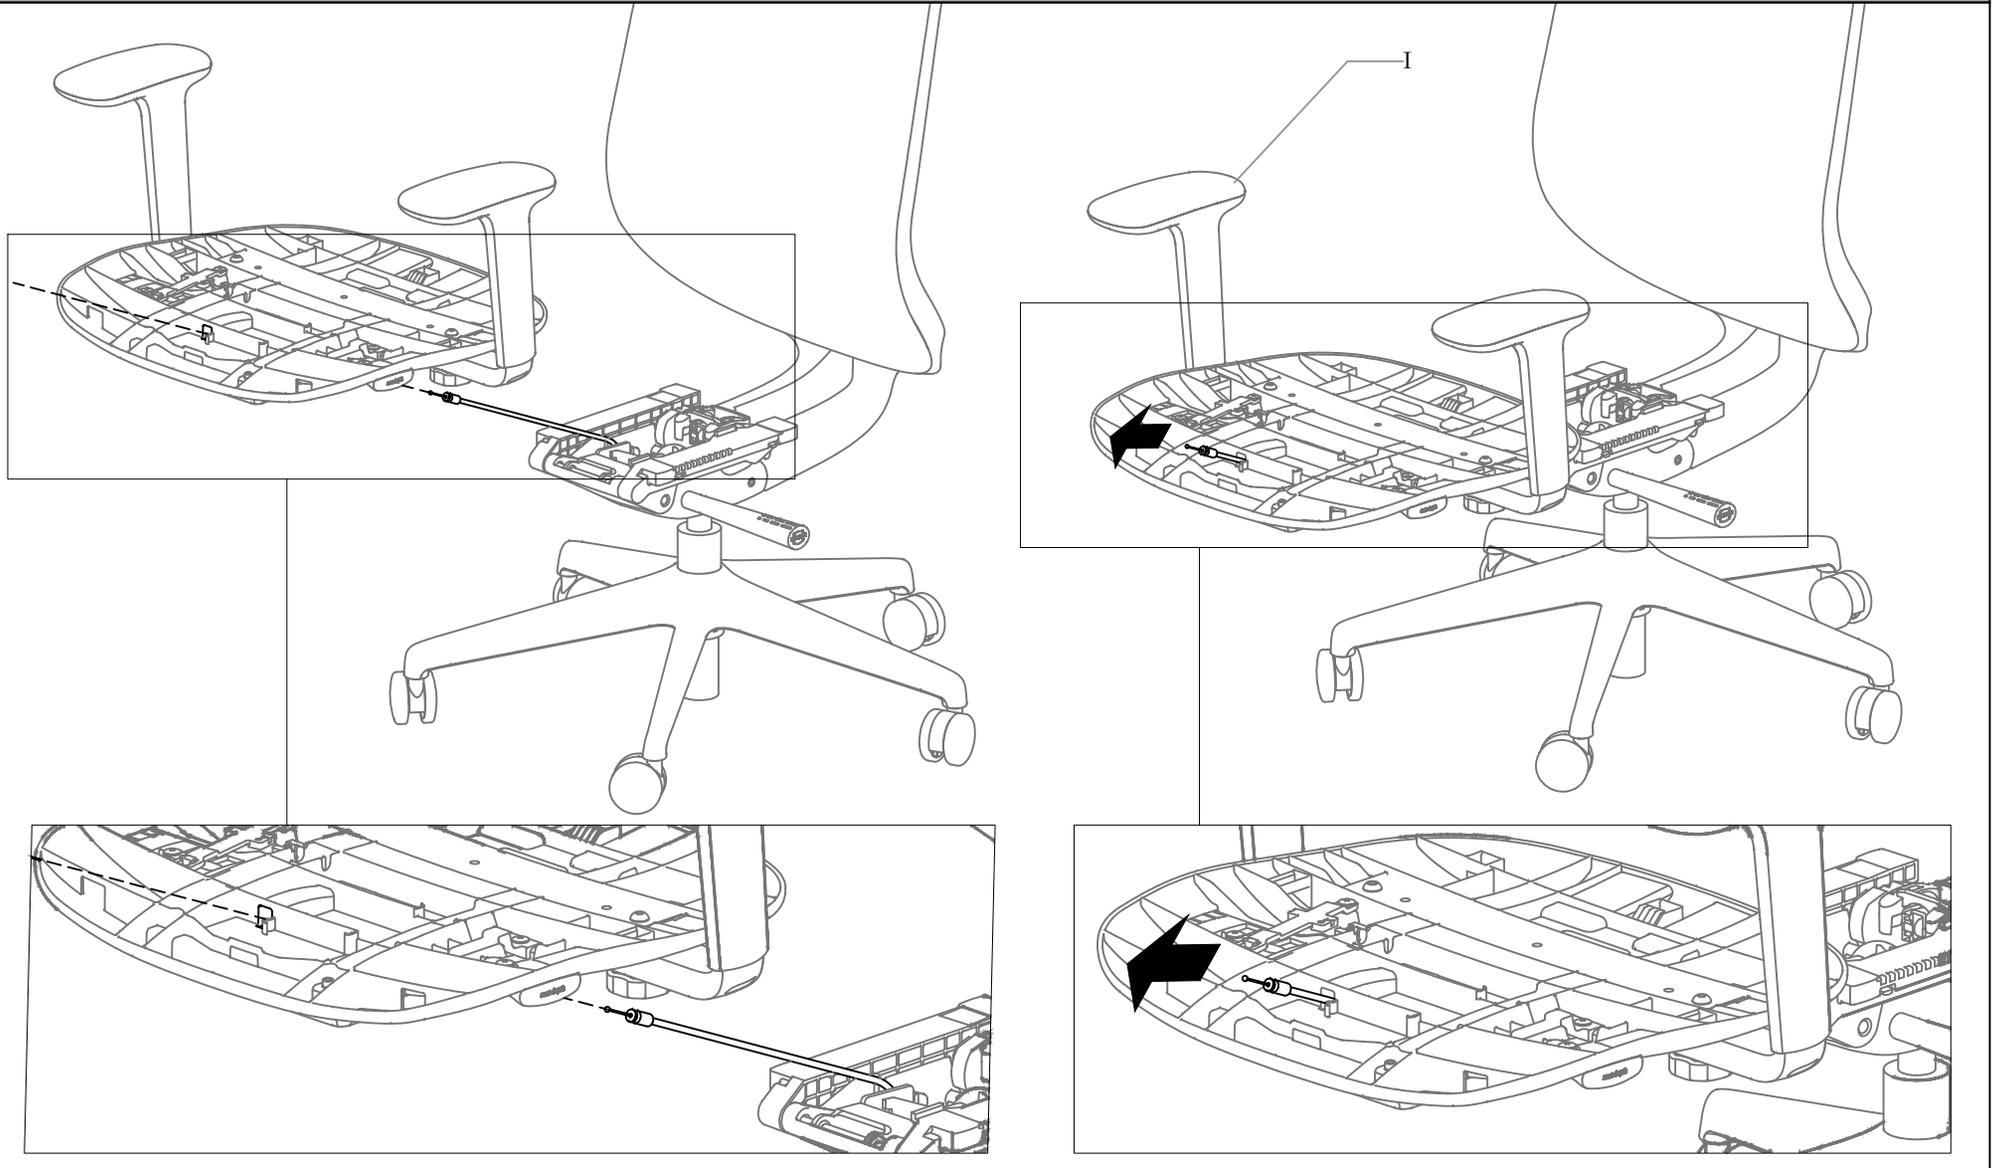

STEP 3: Orient Seat Back to Upright Position

**Structural Back to Mechanism Installation**

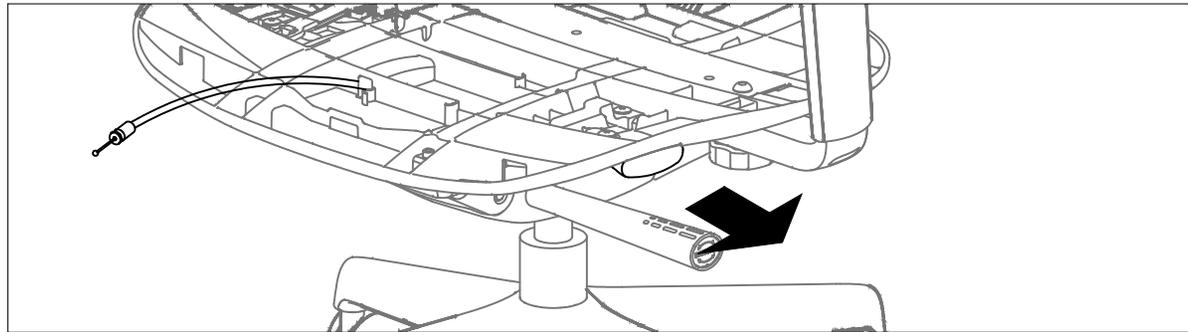

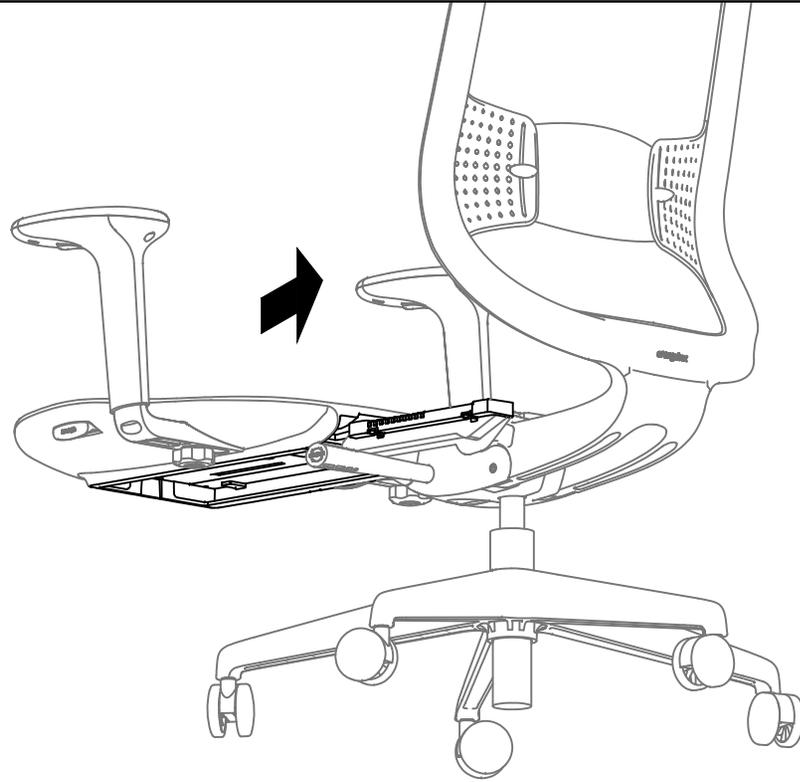

STEP 4: Secure the Structural Back to the Mechanism using two Q28-0321 Shoulder bolts (Loctice)

Mechanism Cable and Structural Seat Pan Installation

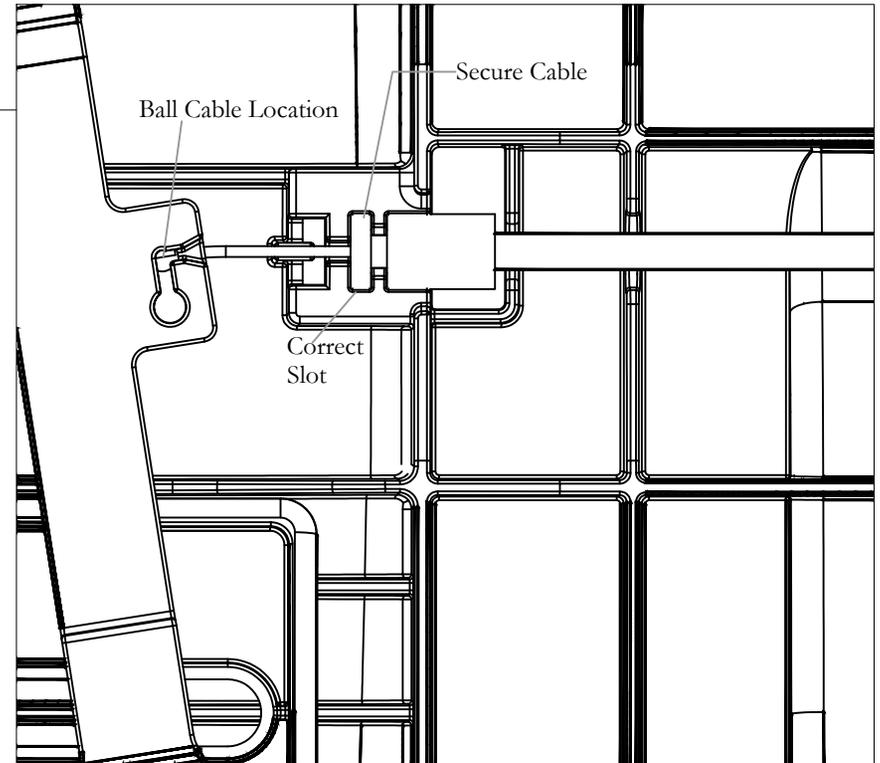

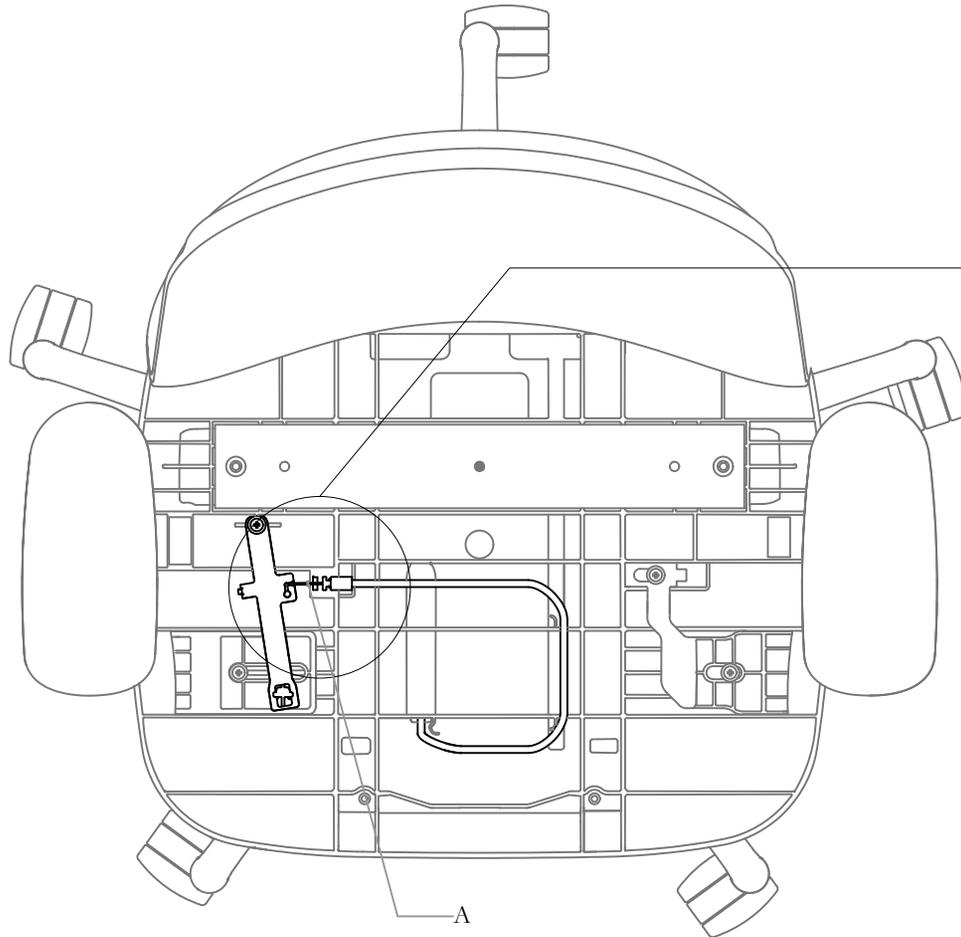

STEP 5: Pass the Mechanism Cable through the Structural Seat opening as shown

**Mechanism Cable and Structural Seat Pan Installation**

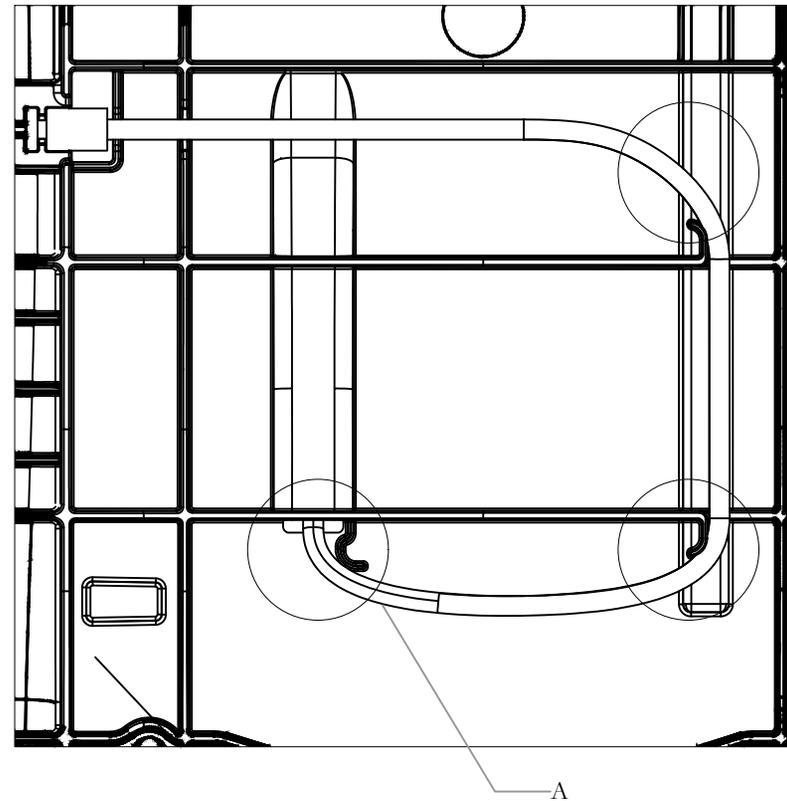

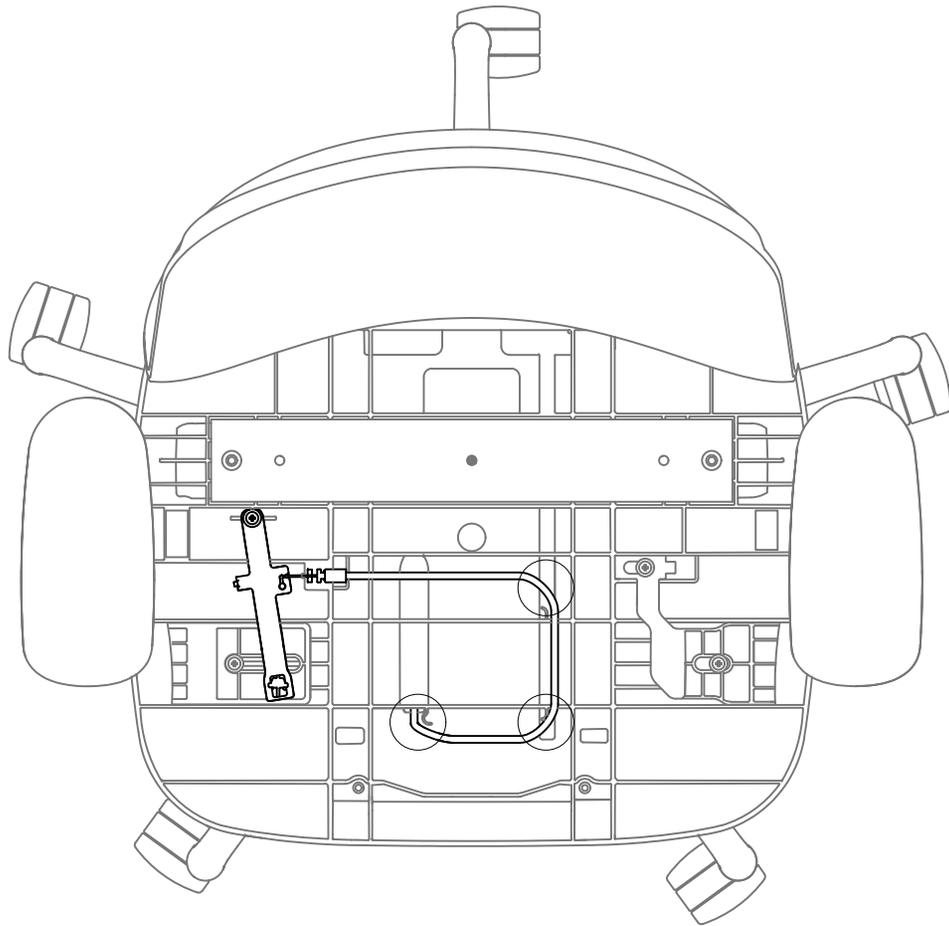

STEP 6: Center the Structural Seat Assy and Slide into the Mechanism. Push all the way until locks. Reposition Seat Slider to fully forward position in preparation of finalizing cable install

Mechanism Cable and Structural Seat Pan Installation-1

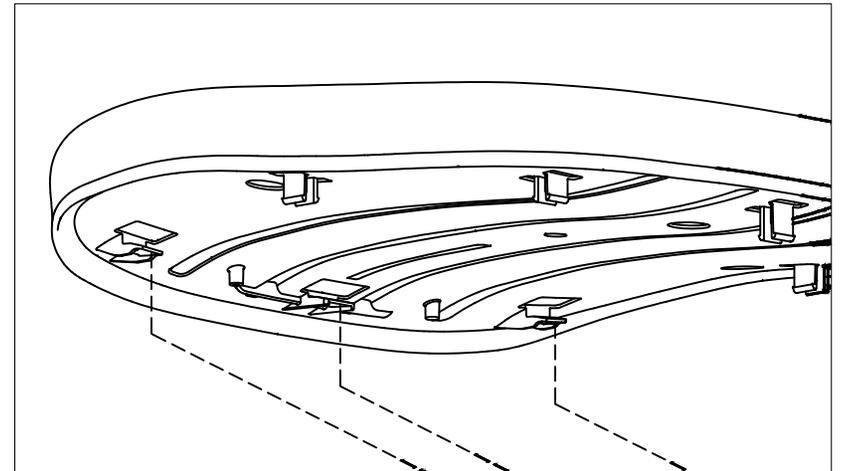

STEP 7: Engage the metal Wire Ball Cable end into the Cylinder activation Lever hole. Secure snap in the cable end in the correct (middle) groove / slot.

Mechanism Cable and Structural Seat Pan Installation-2

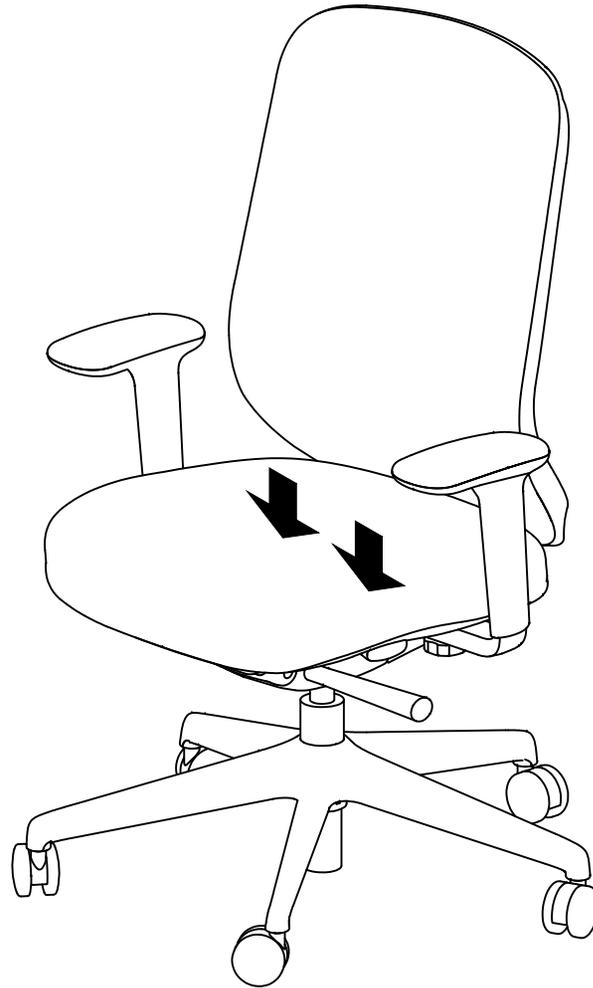

STEP 8: After Cable is engaged and secured, loop the cable around grooves to keep cable secured

Seat Cushion Install

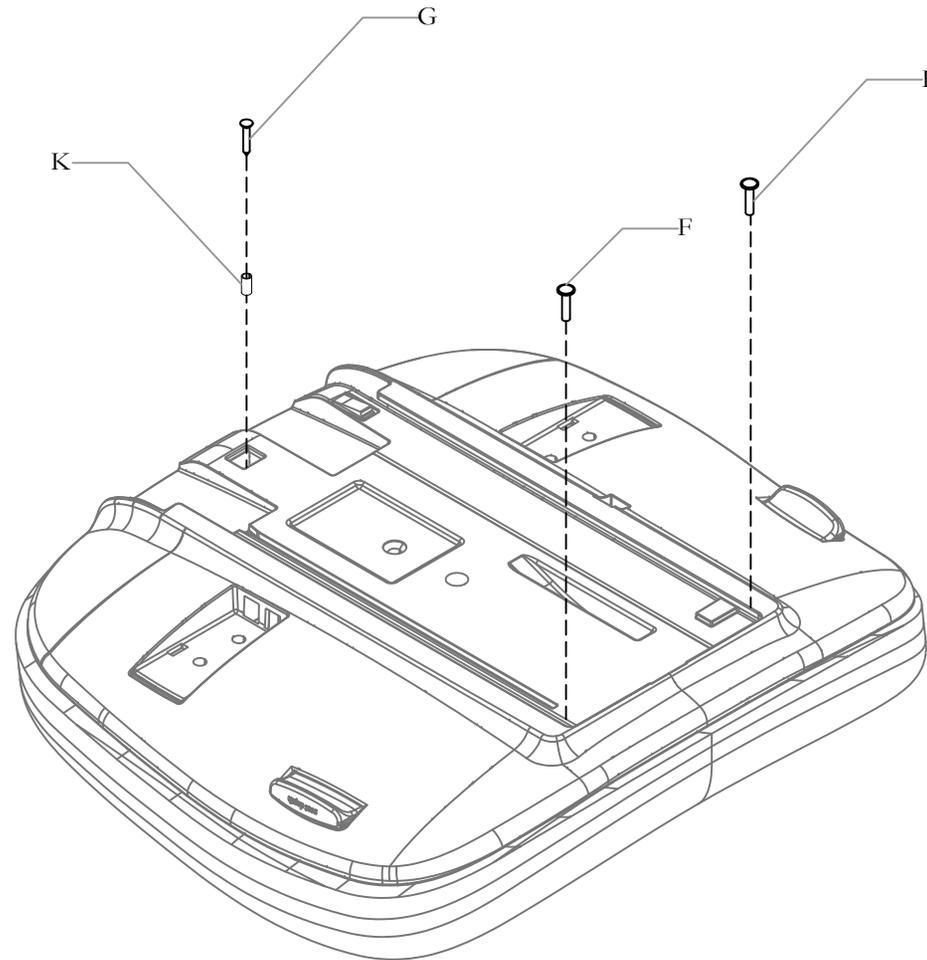

STEP 9: Place Seat Cushion by engaging front hooks

Seat Cushion Install-1

STEP 10: Press down the rear tabs

**Seat Cushion Install-2**

STEP 11: Use M5 x 22mm Head Screws and #8x1 Wood Screw to secure Seat Cushion to Structural Seat Pan. Check Fit & Functionality of the Chair.

Synapse Wood Guest Chair (NSYN), Synapse Fully Upholstered Wood Guest Chair (NSYF)

INTEGRATED ARMS

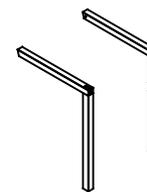

ARMLESS

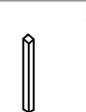

Part and Product Identification

A - Back x1

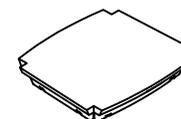

B - Front Legs with Integrated Arms x1 Pair

C - Front Legs x1 Pair

Note: Use for Armless Installation Only.

D - Upholstered Seat x1

E - Uni-Frame x1

F - M8 x 35mm Socket Cap Screw (Q28-0385) x8

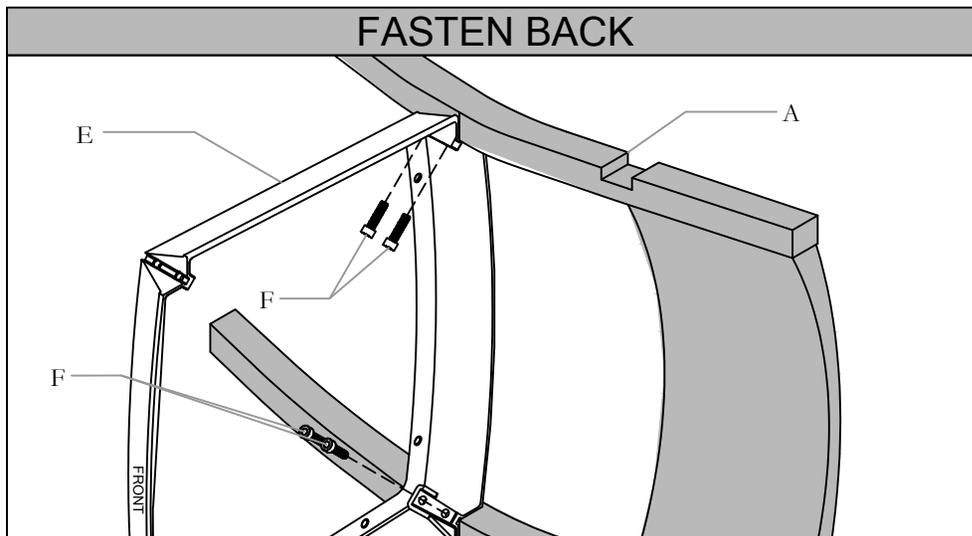

G - M6 x 25mm Socket Cap Screw (Q28-0386) x2

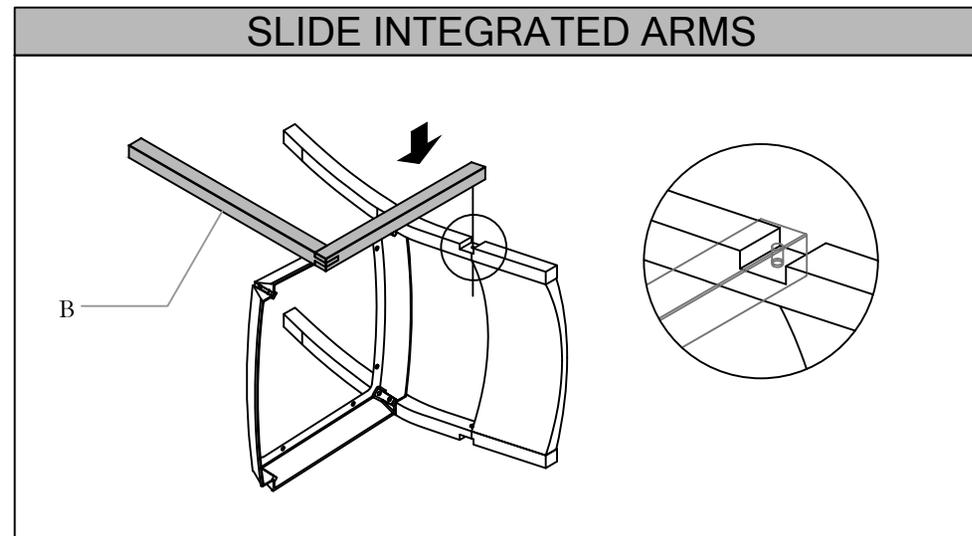

H - Cup Washer (Q28-0374) x2

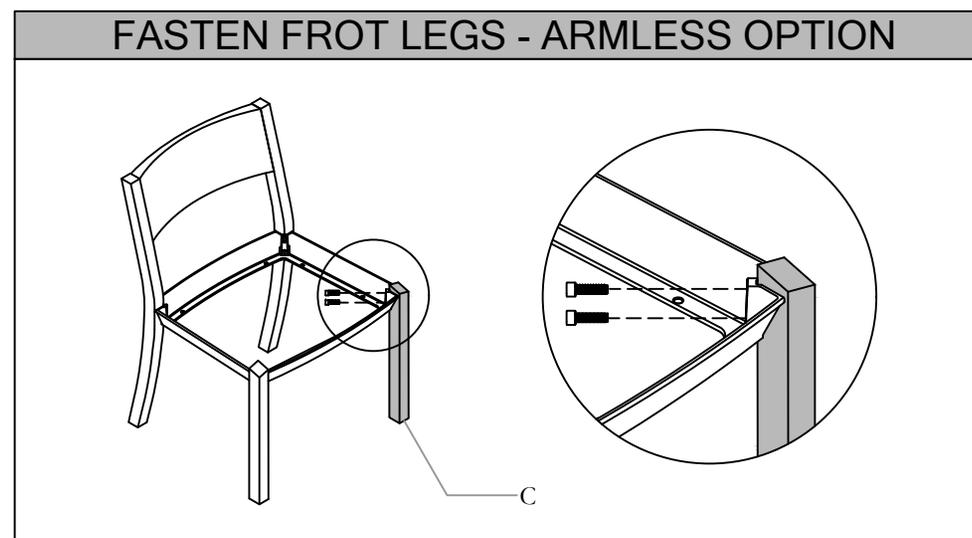

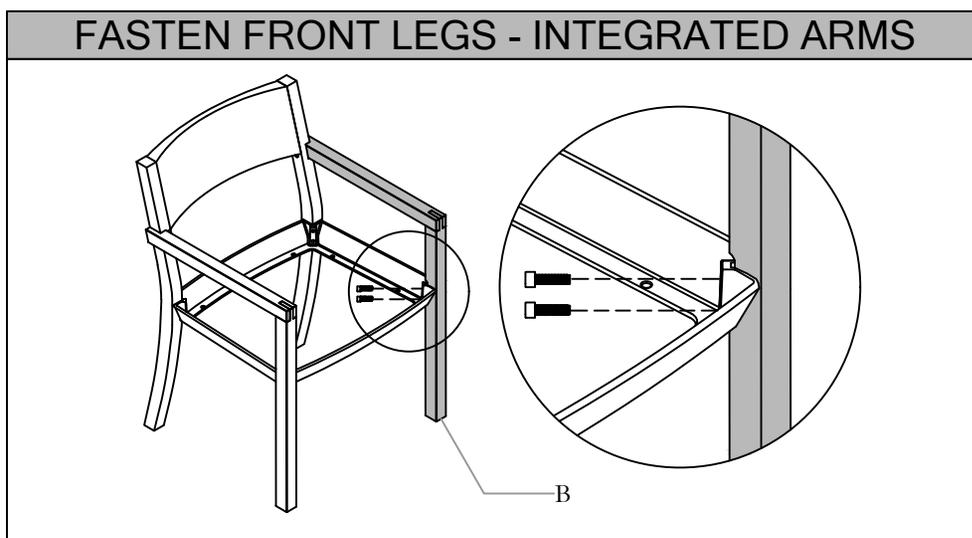

I - K50 x 25mm Screw (Q28-0104) x9

STEP 1: Align the Uni-Frame (E) to the Back Frame (A), ensuring the embossed lettering indicating "FRONT" is positioned as shown. Insert the M8x35mm screws shown (F). Do not tighten screws yet. Repeat for the other side.

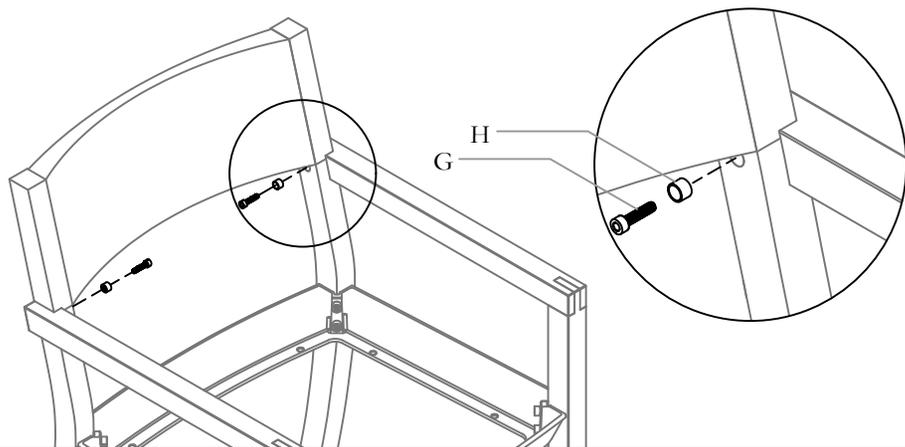

STEP 2: Slide Integrated Arm (B) into cutaway slot of the back. Align leg with the Uni-Frame.

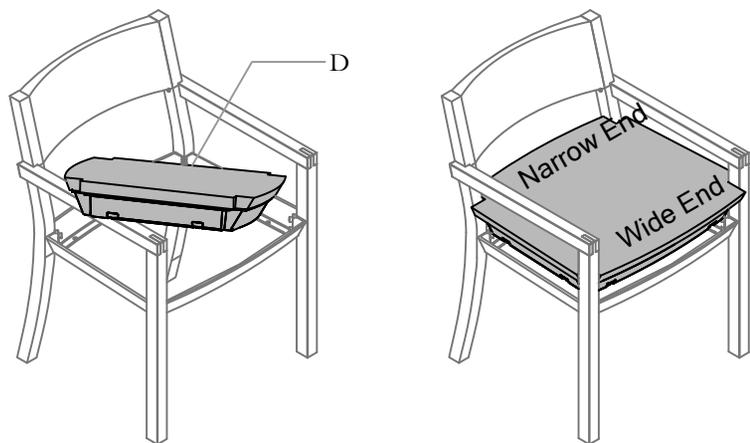

STEP 3: Fasten both legs to Uni-Frame using M8x35mm screws provided (F). Place the chair upright on a flat surface. Tighten all 8 screws to a torque of 14Nm.

### SECURE BACK ASSEMBLY

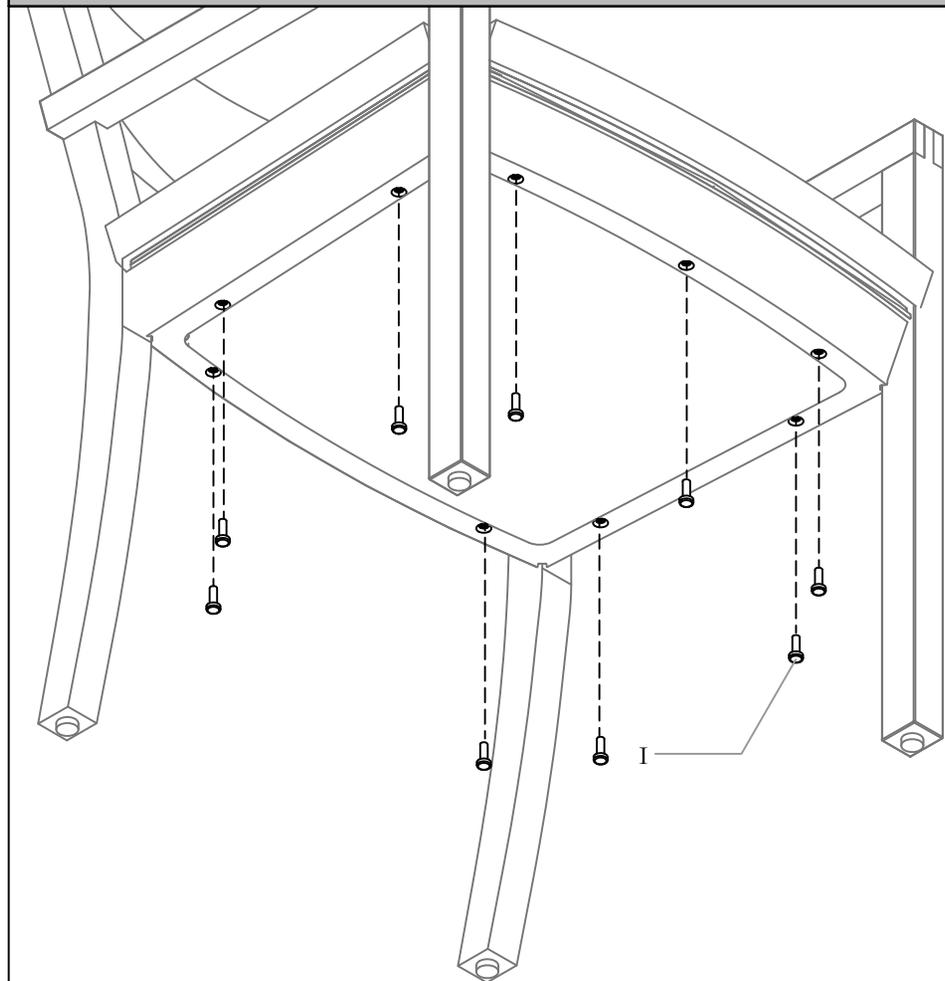

STEP 4: Insert Cup Washer (H) into hole of each rear leg. Secure Back to Arms using M6x25mm screws provided (G). Tighten both sides to a torque of 14Nm.

### INSTALL BACK ASSEMBLY

STEP 5: Place Seat at 45° and slide the corner of the seat towards the Arm. Orient the Seat by turning and drop the seat onto the Uni-Frame.

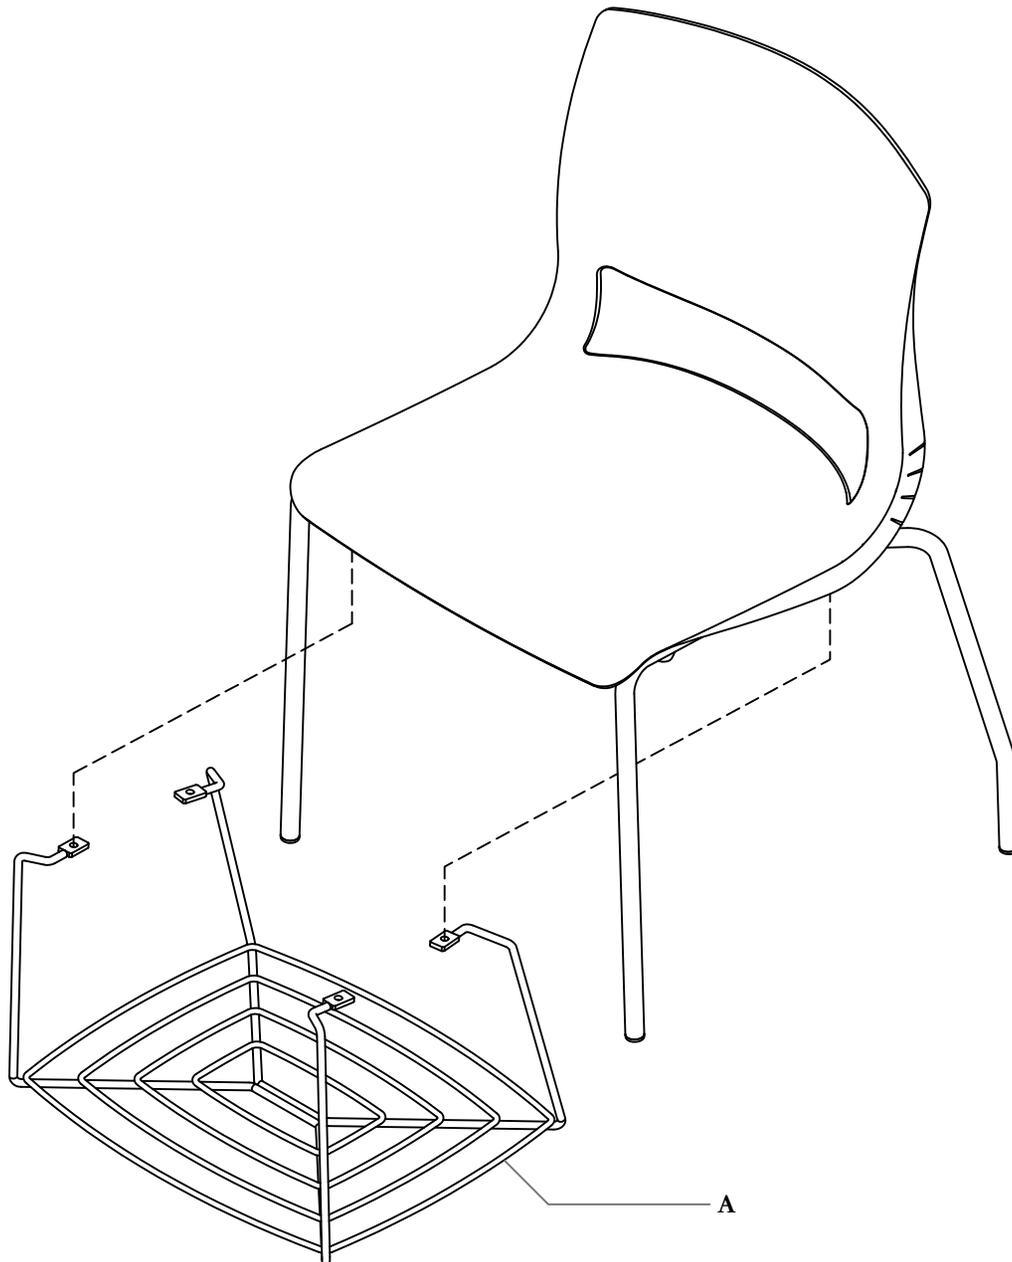

### FASTEN SEAT ASSEMBLY

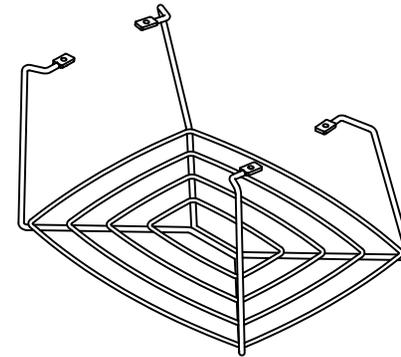

NOTE: Use **ONLY** metric hex-head screwdrivers or bits to tighten socket cap screws. **DO NOT USE IMPERIAL SCREWDRIVERS OR BITS.**  
Tightening torque for the M8x35mm and M6x25mm socket cap screws: **14Nm**

STEP 6: Fasten Seat Assembly onto Uni-Frame using K50x25mm screws provided (I).

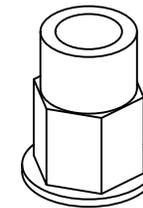

Variable Bookrack (NVRAB)

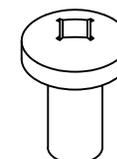

Part and Product Identification

**A** - Bookrack Assembly  
(Q26-0600) x1

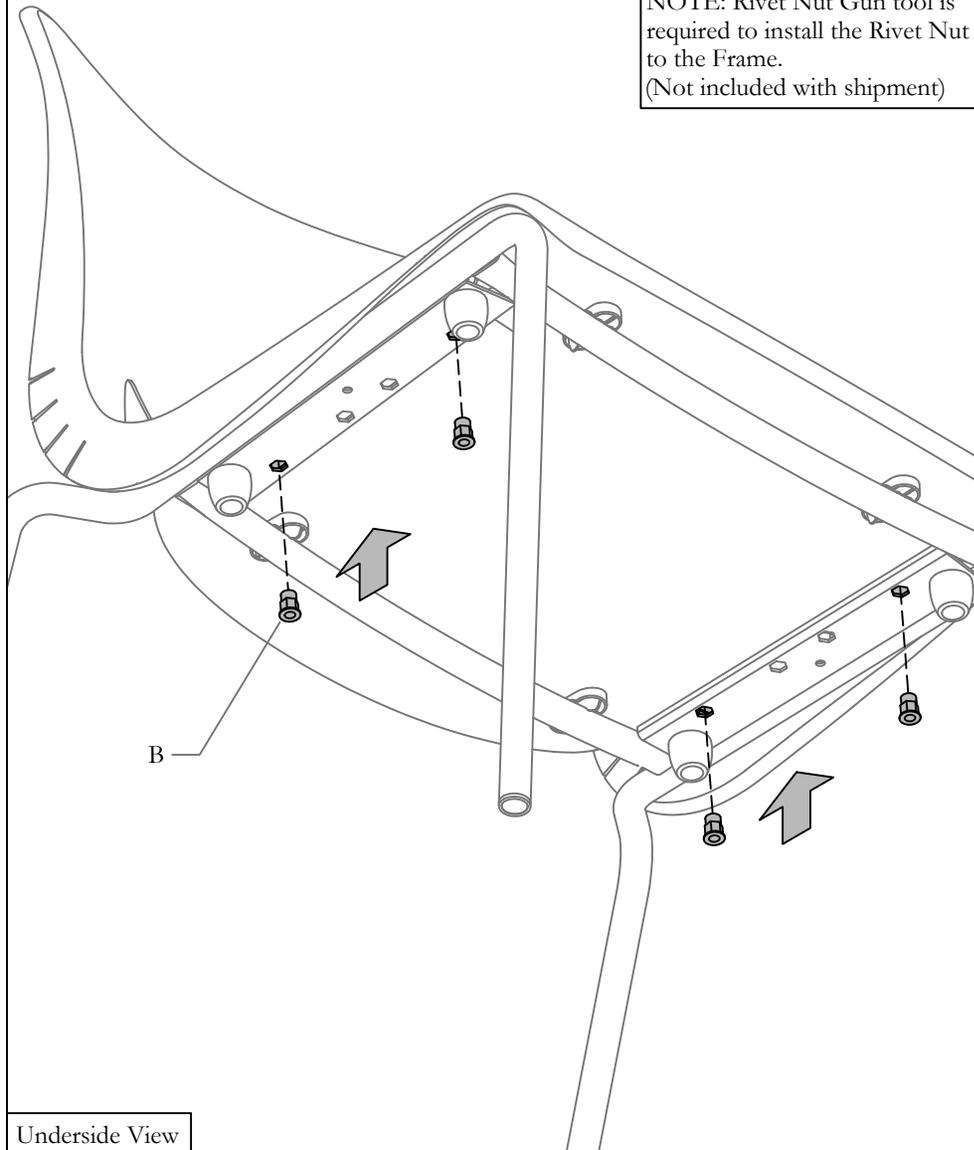

**B** - Rivet Nut  
(Q28-0580) x4

**C** - Screw  
(Q28-0049) x4

### INSERT RIVET NUTS

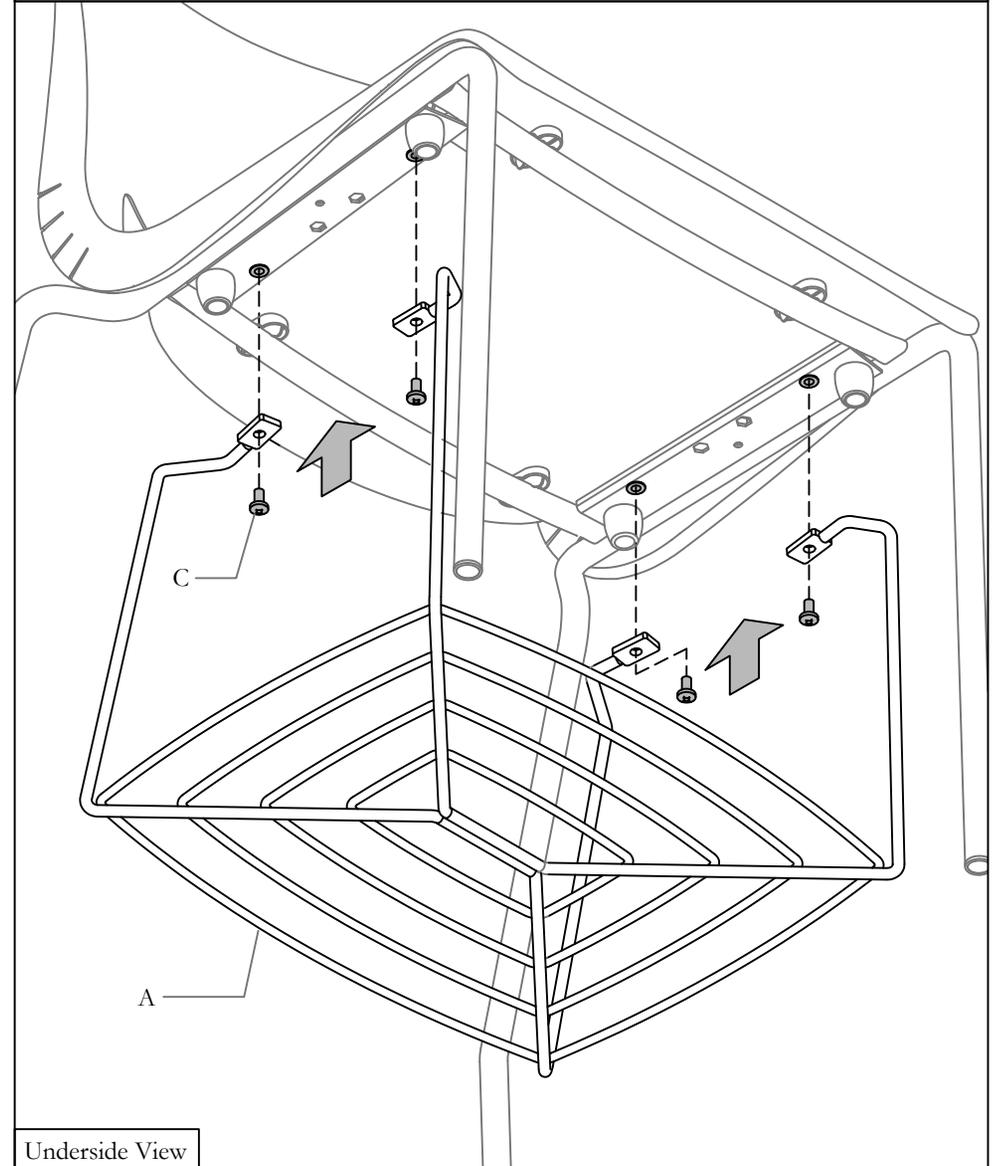

NOTE: Rivet Nut Gun tool is required to install the Rivet Nut to the Frame.  
(Not included with shipment)

STEP 1: Insert Rivet Nuts under the seat as shown.

Note: Rivet Nut Gun tool is required to install the Rivet Nut to the Frame. (Not included with shipment)

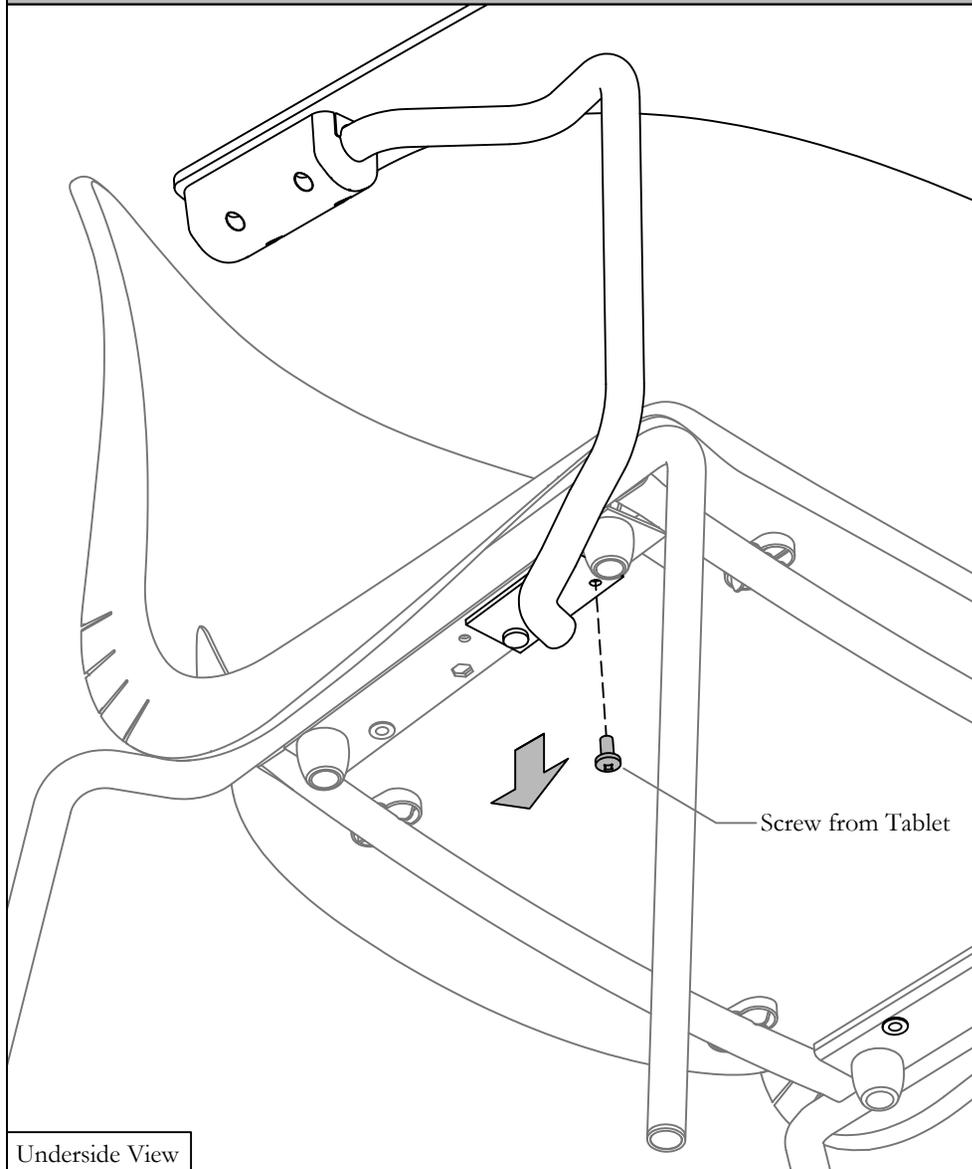

### BOOKRACK ASSEMBLY

STEP 2: Align holes on Book Rack and Rivet Nuts, then secure with Screws.

Note: If Tablet is installed, please refer to Page 3 for instructions.

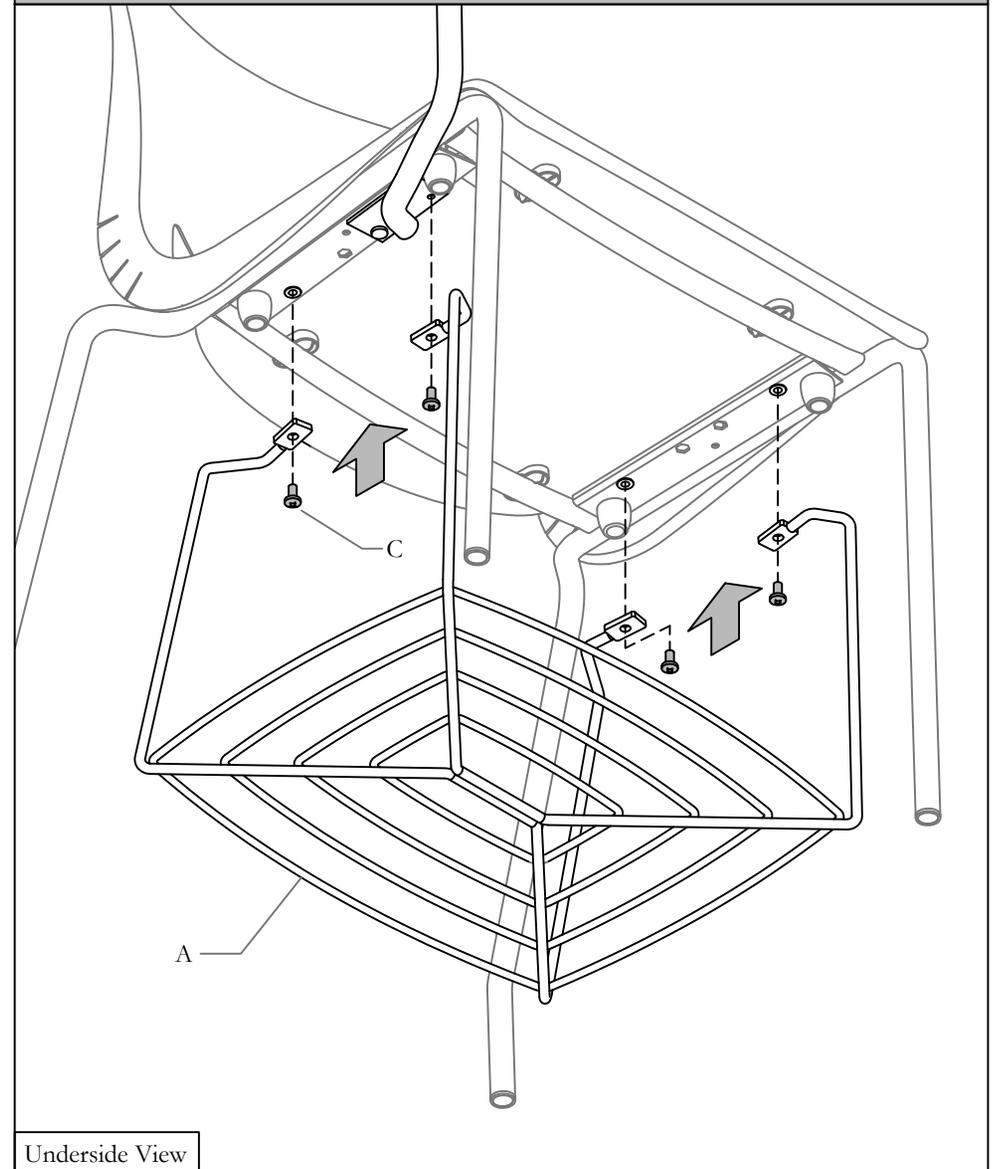

**INSTALL BOOKRACK WITH TABLET**

STEP 3: Remove Screw from Tablet Plate as shown, then install Book Rack to the highlighted Rivet Nuts.

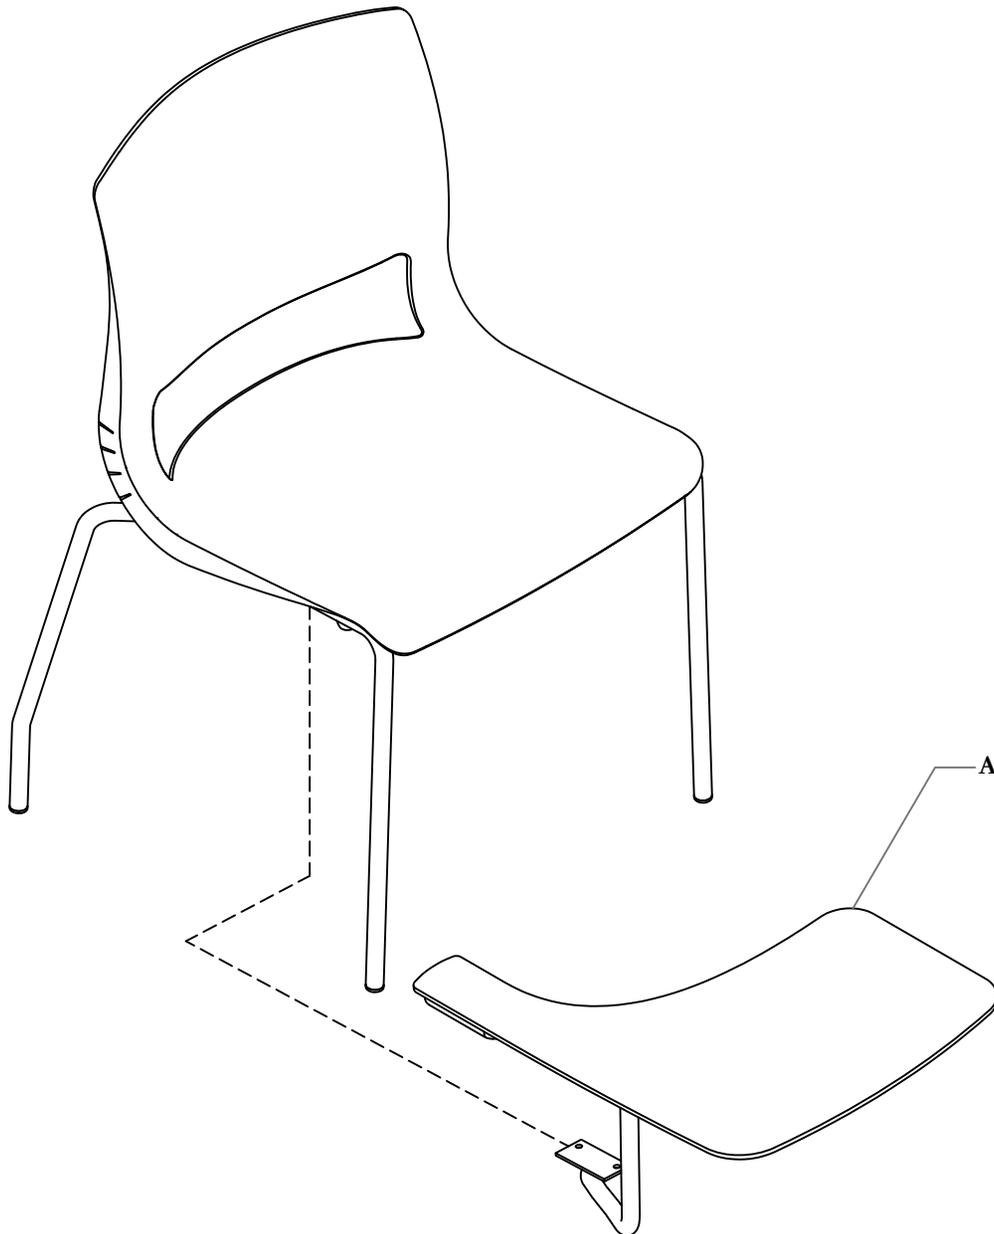

Note: When both Book Rack and Tablet are installed, they share one Rivet Nut and one Screw.

**INSTALL BOOKRACK WITH TABLET**

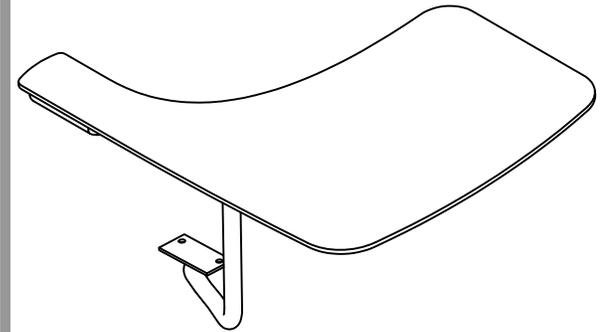

STEP 4: Align holes on Book Rack and Rivet Nuts, then secure with Screws.

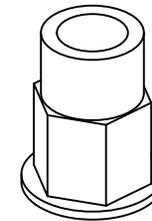

Tablet (NVRAT)

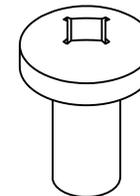

Part and Product Identification

**A** - Tablet Pad Assembly  
(Q18-0326) x1

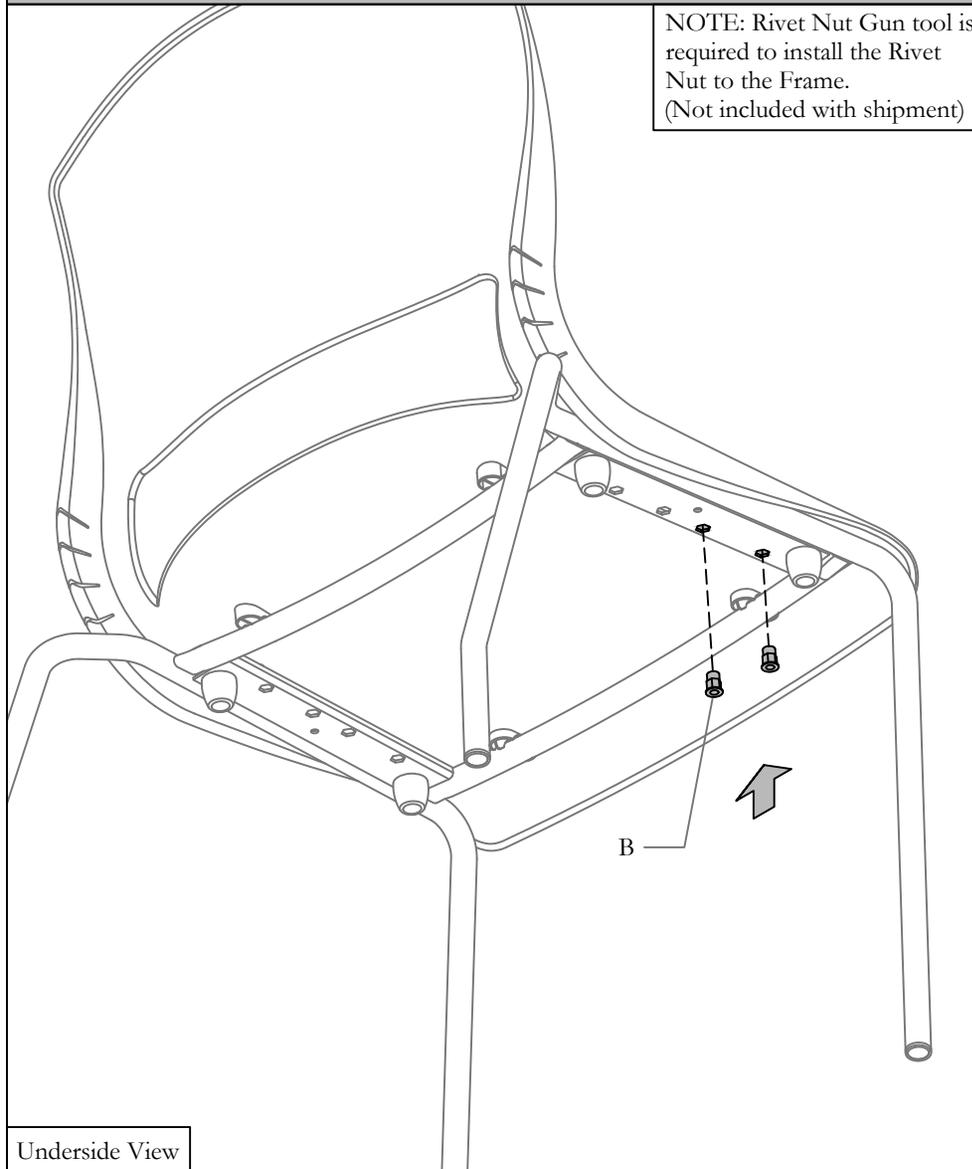

**B** - Rivet Nut  
(Q28-0580) x2

**C** - Screw  
(Q28-0049) x2

### INSERT RIVET NUTS

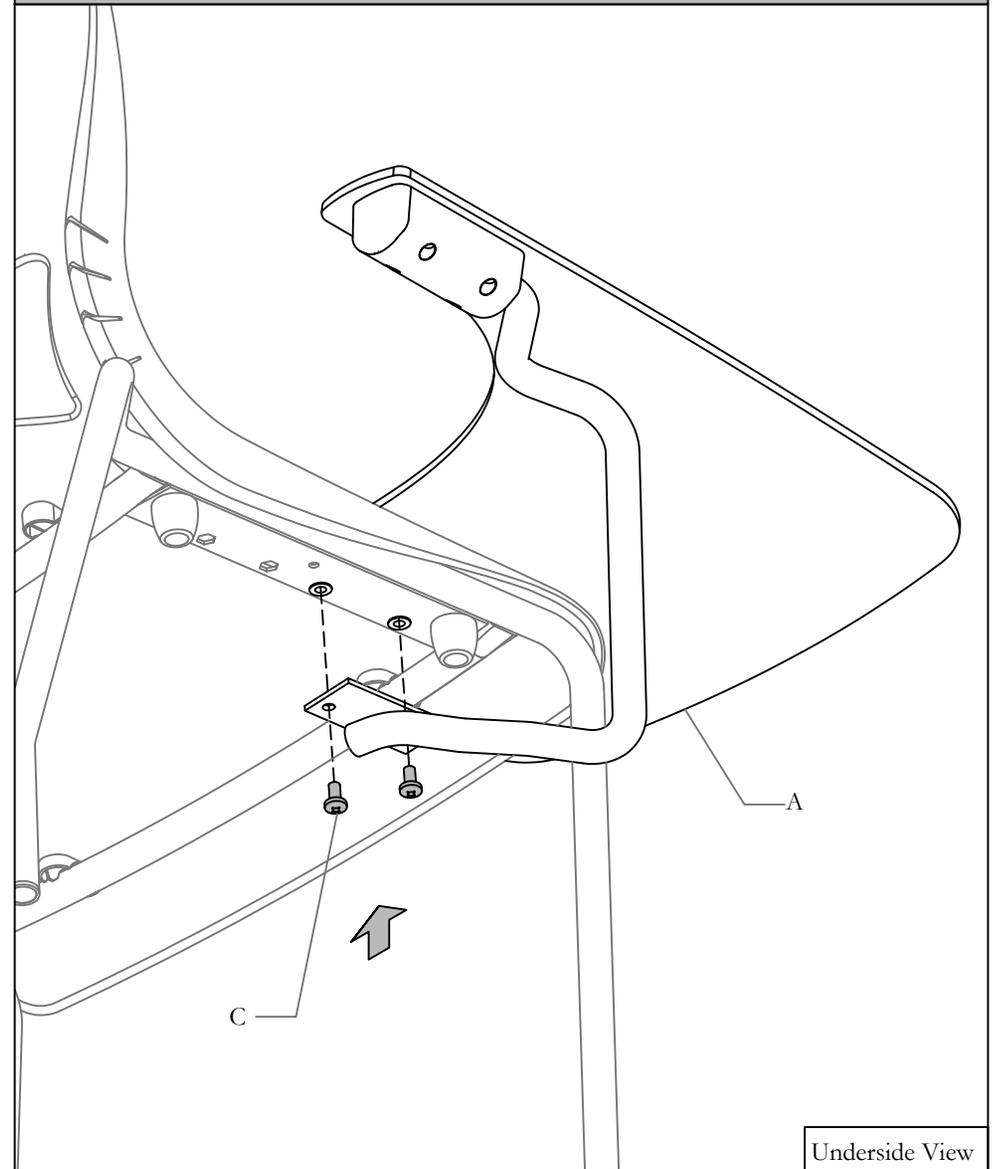

NOTE: Rivet Nut Gun tool is required to install the Rivet Nut to the Frame. (Not included with shipment)

STEP 1: Insert rivet Nuts under the seat as shown.

NOTE: Rivet Nut Gun Tool is required to install the Rivet Nut to the Frame. (Not included with shipment)

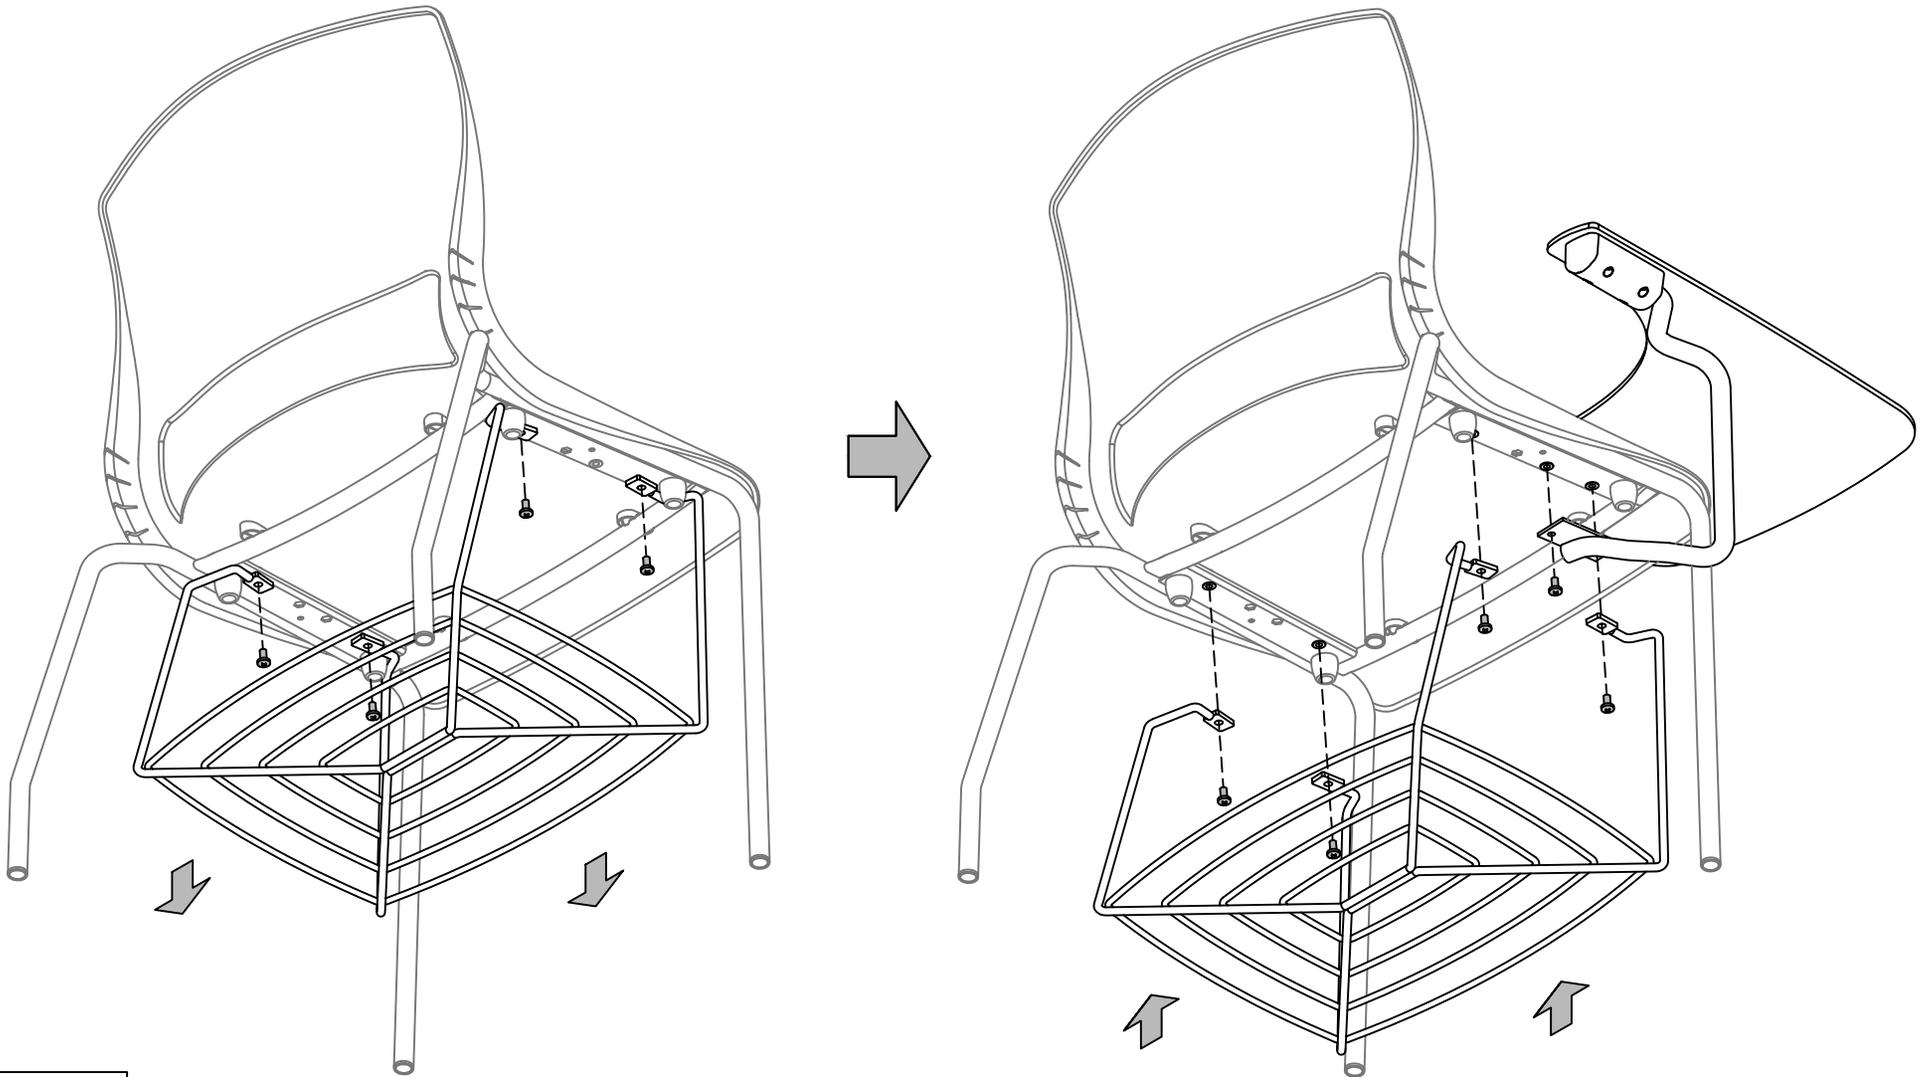

### TABLE ASSEMBLY

STEP 2: Align holes with Tablet Plate and rivet Nuts, then secure with Screws.

NOTE: If Book rack is installed, please refer to Page 3 of this guide for instructions.

**INSTALL TABLET WITH BOOK RACK (OPTIONAL)**

Underside View

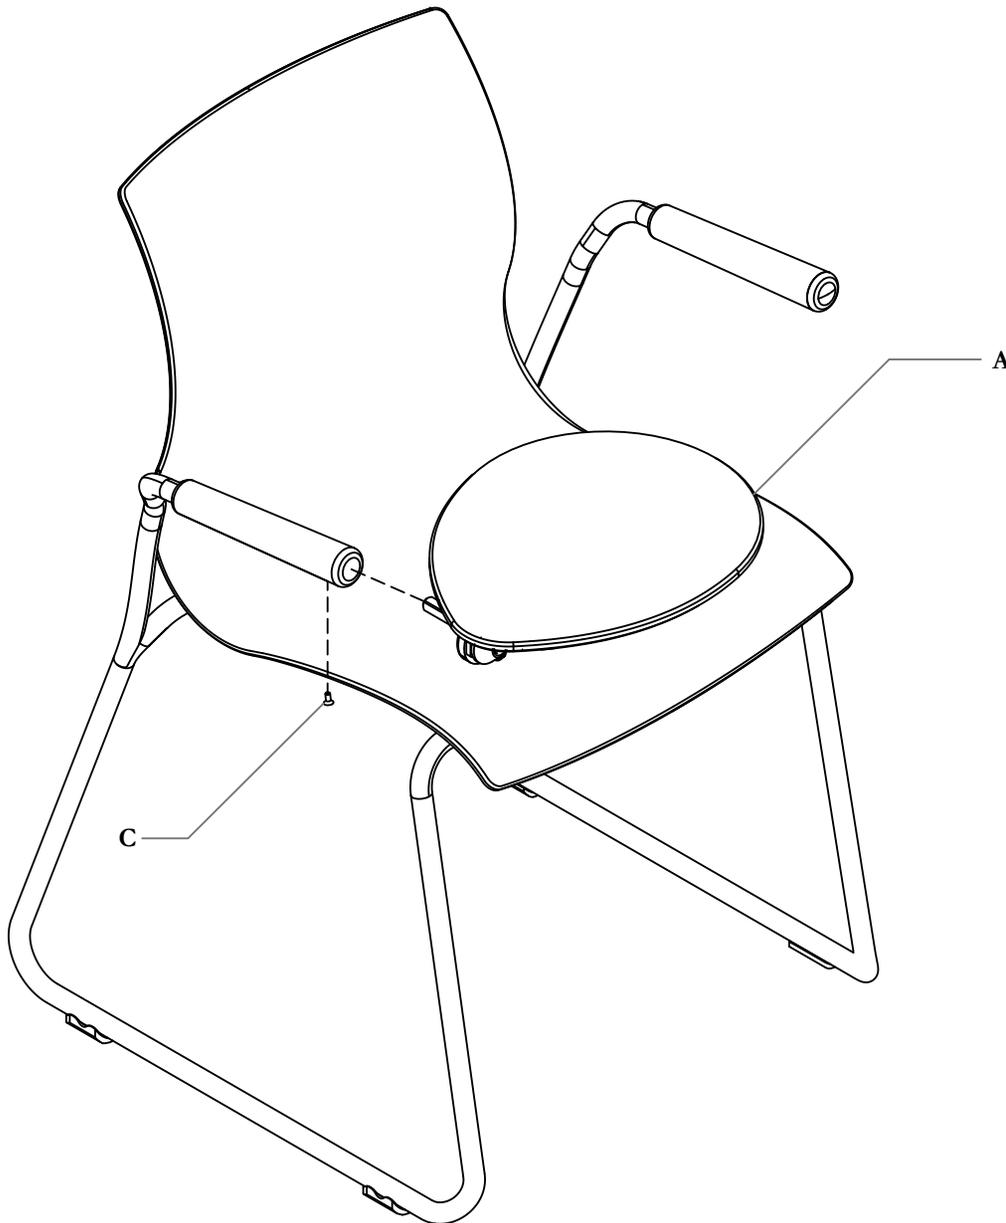

OPTIONAL: If Book Rack is installed. Please remove book Rack and follow Step 1 & 2 to install Tablet, then re-install Book Rack as shown.

NOTE: When book Rack and Tablet are installed, they share one Rivet Nut and one Screw.

Section: **STACKING CHAIRS**

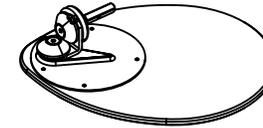

Description: **NAMI TABLET ARM, NAMI GANGING DEVICE, NAMI PLASTIC STACKING GUEST CHAIRS**

Nami Tablet Arm (NNAT), Nami Ganging Device (NNAG), Nami Plastic Stacking Guest Chairs (NNAC)

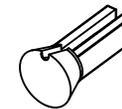

Part and Product Identification

**A** - Tablet Assembly  
(NNAT) x1

**B** - Armrest Pad Plug  
(Q14-0287) x1

**C** - Armrest Pad Screw  
(Q28-0308) x1

**D** - Philips Head Screw  
(Q28-0013) x2

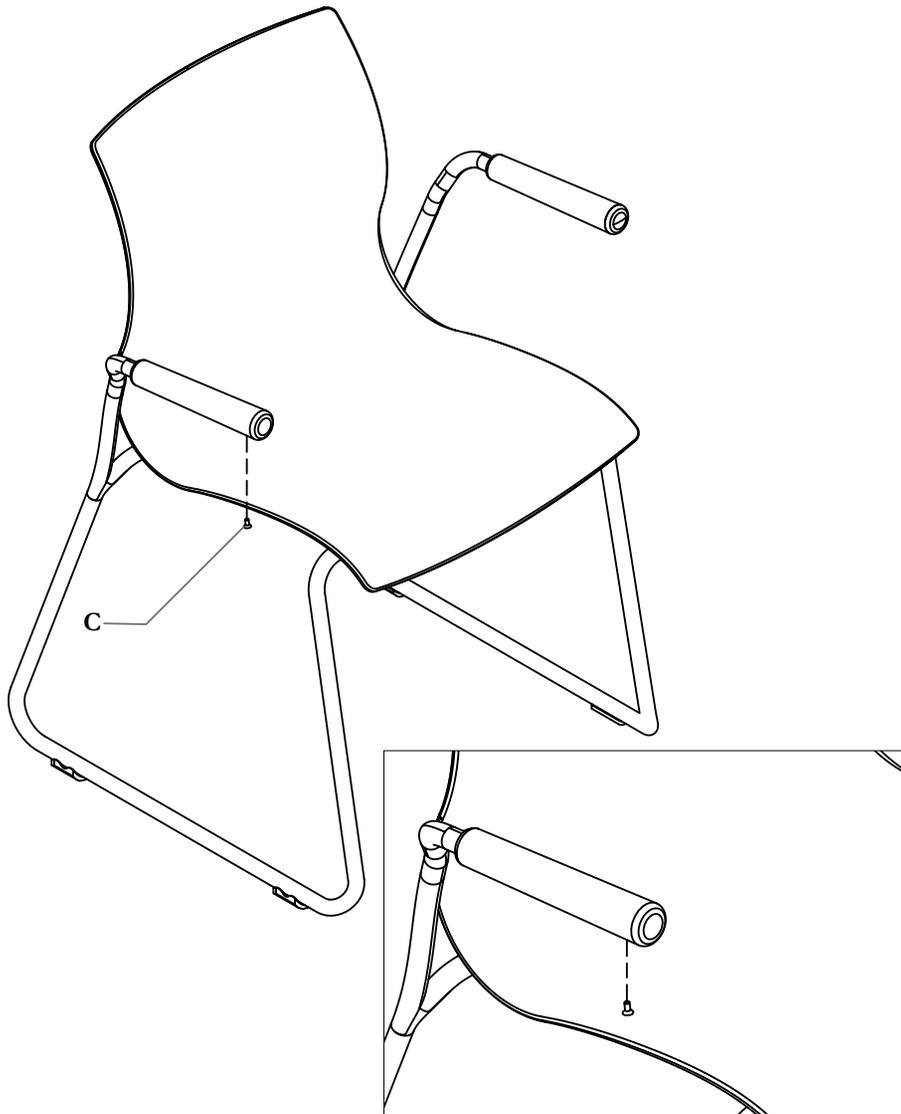

**E** - Washer  
(Q28-0014) x2

**F** - Ganging Device Assembly  
(Q28-0308) x1

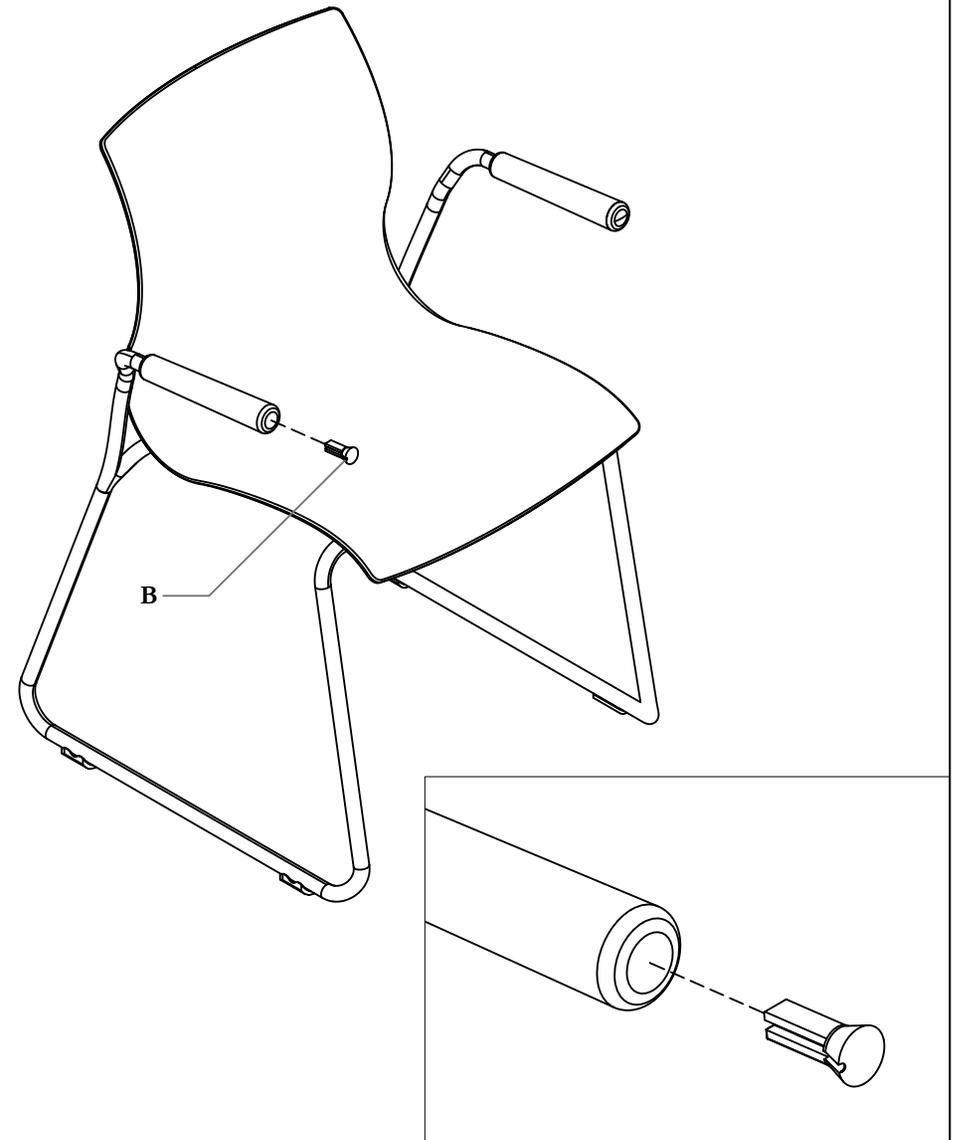

Remove Armrest Pad Screw

STEP 1: Remove Armrest Pad Screw on the right hand side of the chair

Remove Armrest Pad Plug

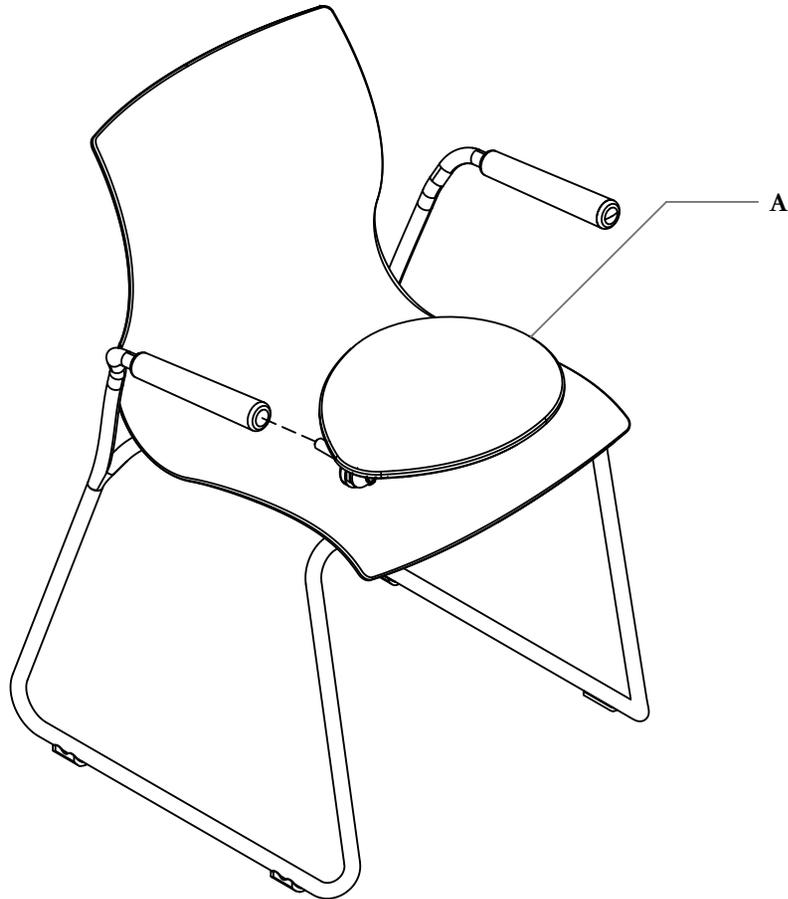

STEP 2: Remove the Armrest Pad Plug from the right Armrest Pad using a fine screwdriver

Section: **STACKING CHAIRS**

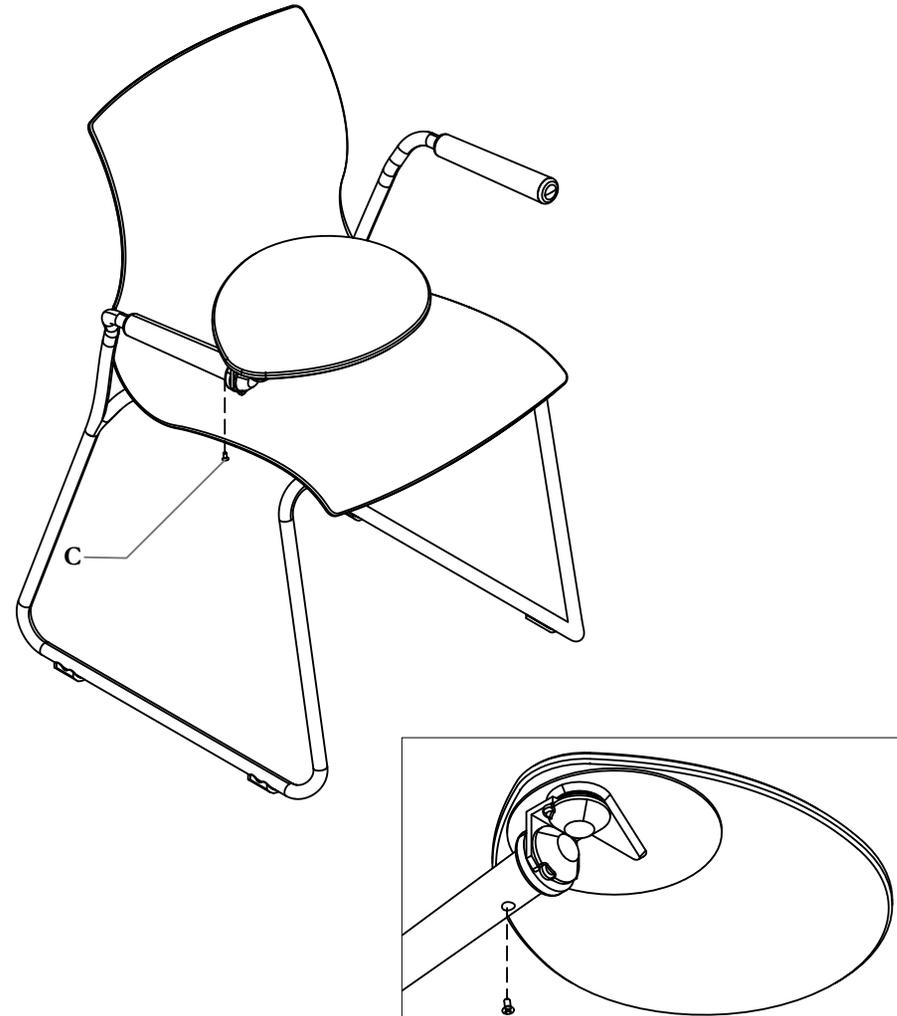

Description: **NAMI TABLET ARM, NAMI GANGING DEVICE, NAMI PLASTIC STACKING GUEST CHAIRS**

**INSTALL TABLET ASSEMBLY**

STEP 3: Slide the Tablet Assembly into the Armrest Slot. Ensure the screw holes are aligned to fasten

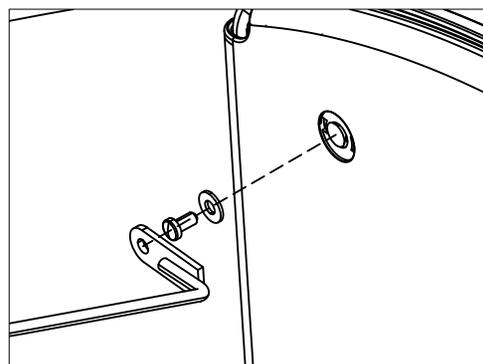

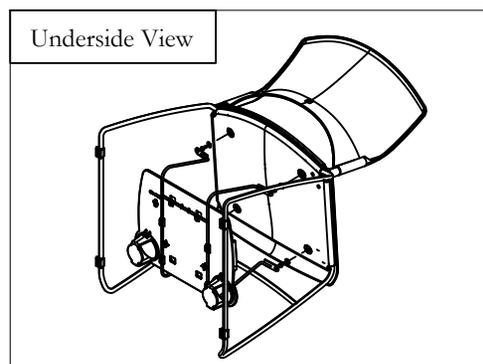

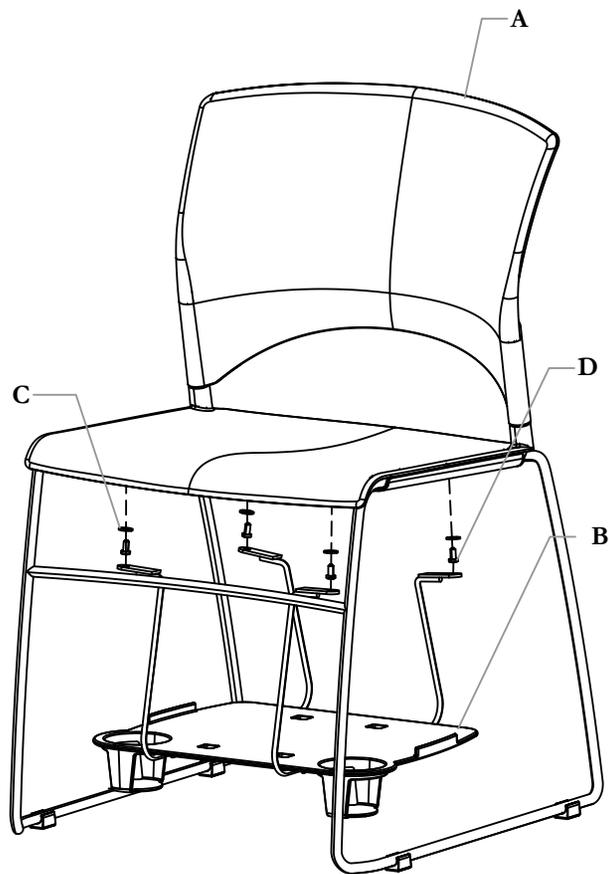

**FASTEN ARMREST PAD SCREW**

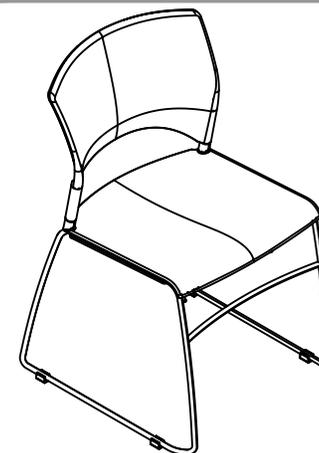

NOTE: Bottom View

STEP 4: Fully fasten the Armrest Pad Screw to the chair assembly

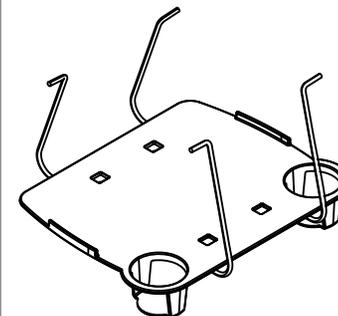

Volume Stacking Chair (NHDS) & Bookrack (NHDB)

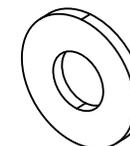

Part and Product Identification

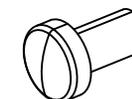

**A** - Stacking Chair  
(NHDS) x1

**B** - Bookrack  
(NHDB) x1

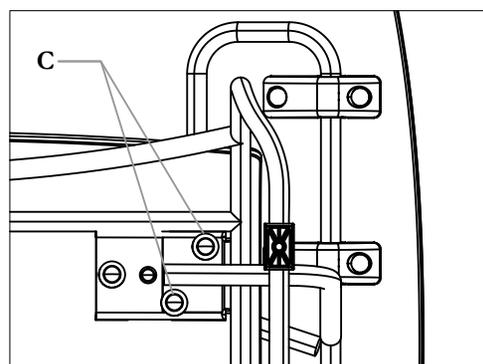

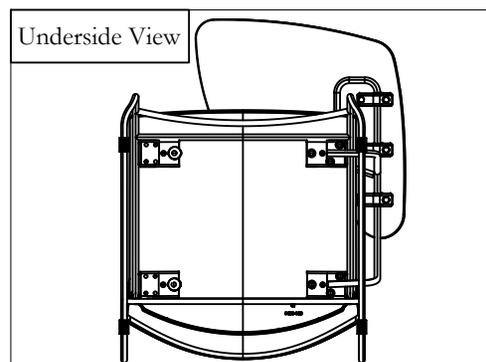

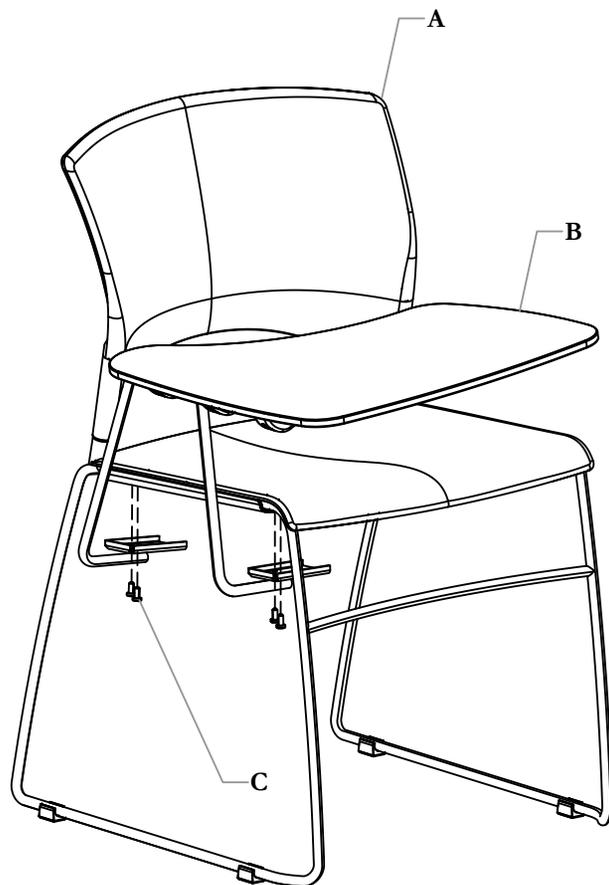

**C** - Flat Washer  
(Q28-0076) x4

**D** - 1/4-20 X 1/2" LG  
Screw  
(NHDB) x1

**STEP 1:** Align Bookrack (B) frame with the Stacking Chair Frame(A) and Fasten Bookrack to frame using Washer and Screw provided.

Volume Stacking Chair (NHDS) & Tablet (NHDT)

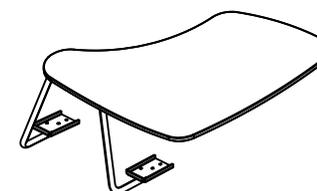

STEP 1: Align Tablet frame with Stacking Chair frame and fasten it using Screws provided.

Section: TABLES

Description: BANQS TABLE WITH FLAT BASE

ATTACH GLIDES TO TABLE BASE

NOTE: For 72" Banquette configuration use Qty x6 Glides.  
30-48" configurations use Qty x4

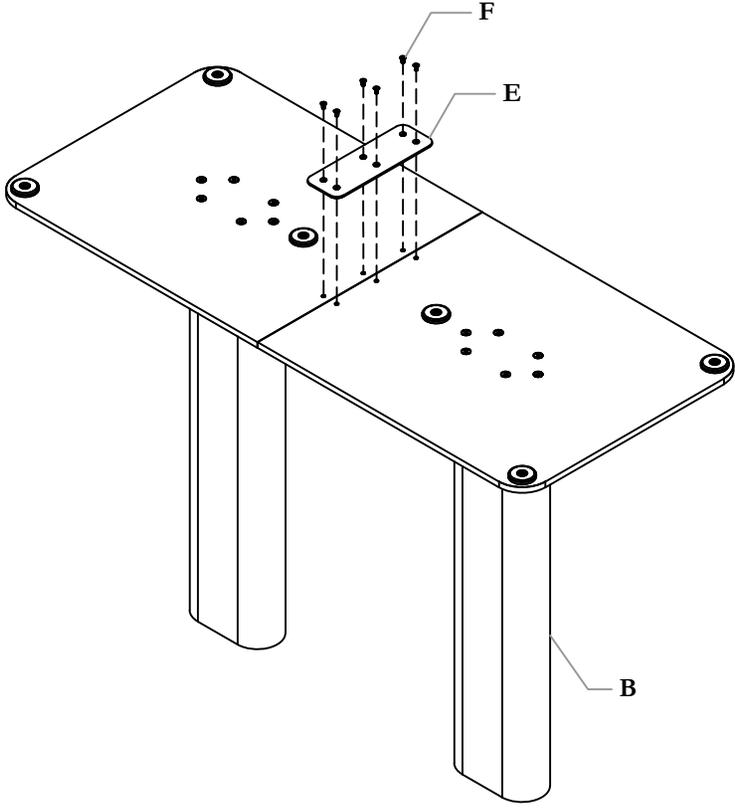

STEP 1: Attach Glides to Table Base using Machine Screws

ATTACH COLUMN TO TABLE BASE

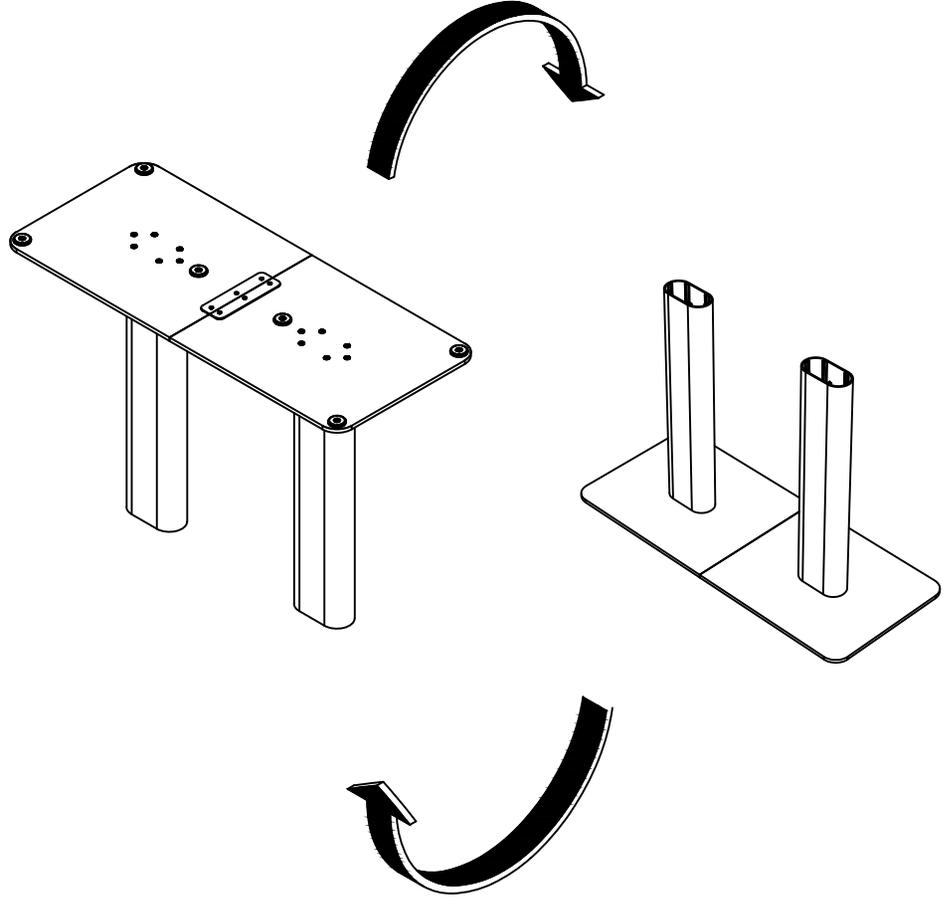

STEP 2: Fasten Column to Table Base using Flat Top Machine Screws

INSTALL FLUSH PLATES

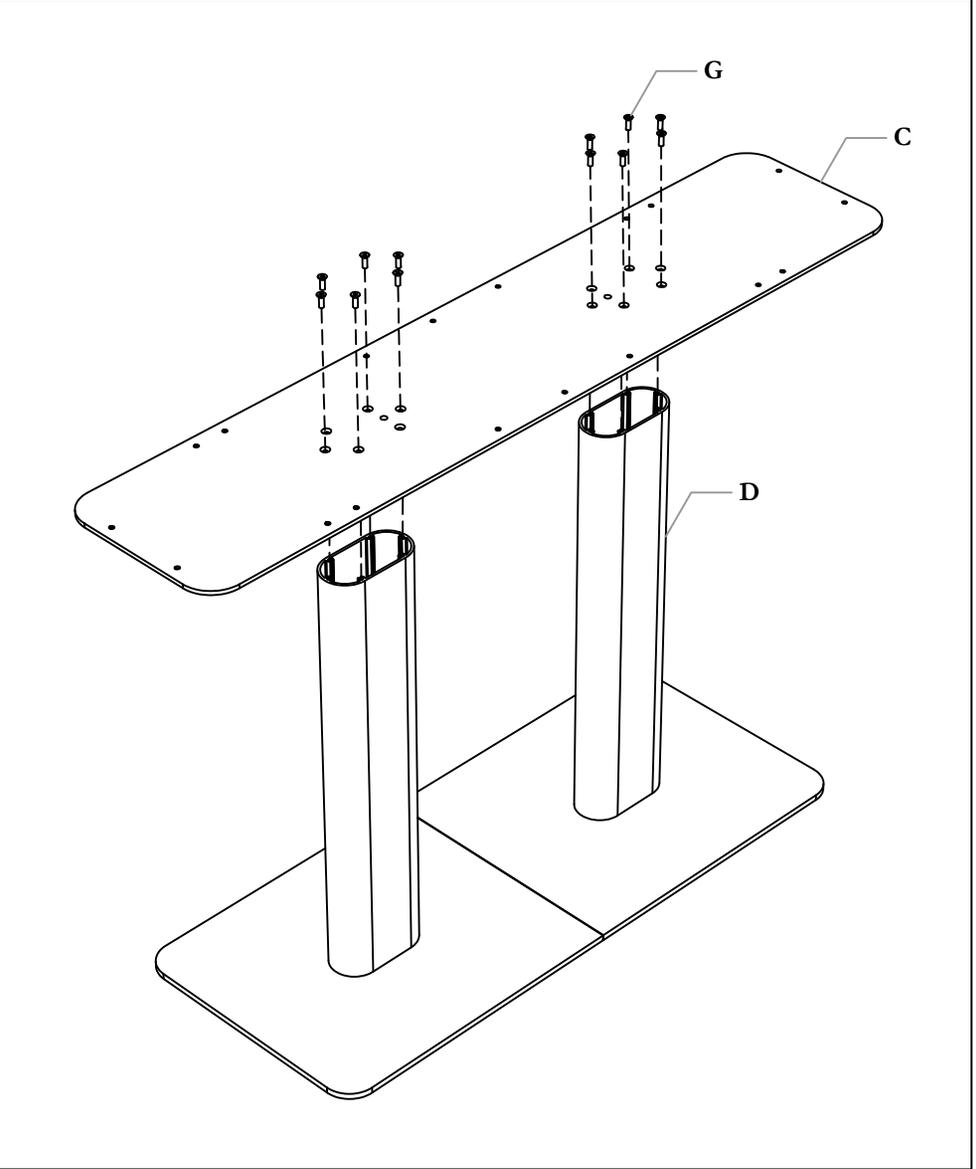

FLIP COLUMN ASSEMBLY UPRIGHT

STEP 3: For Tables with Linked Base, install the Flush Plate for alignment using Quadrex Drive Machine Screws

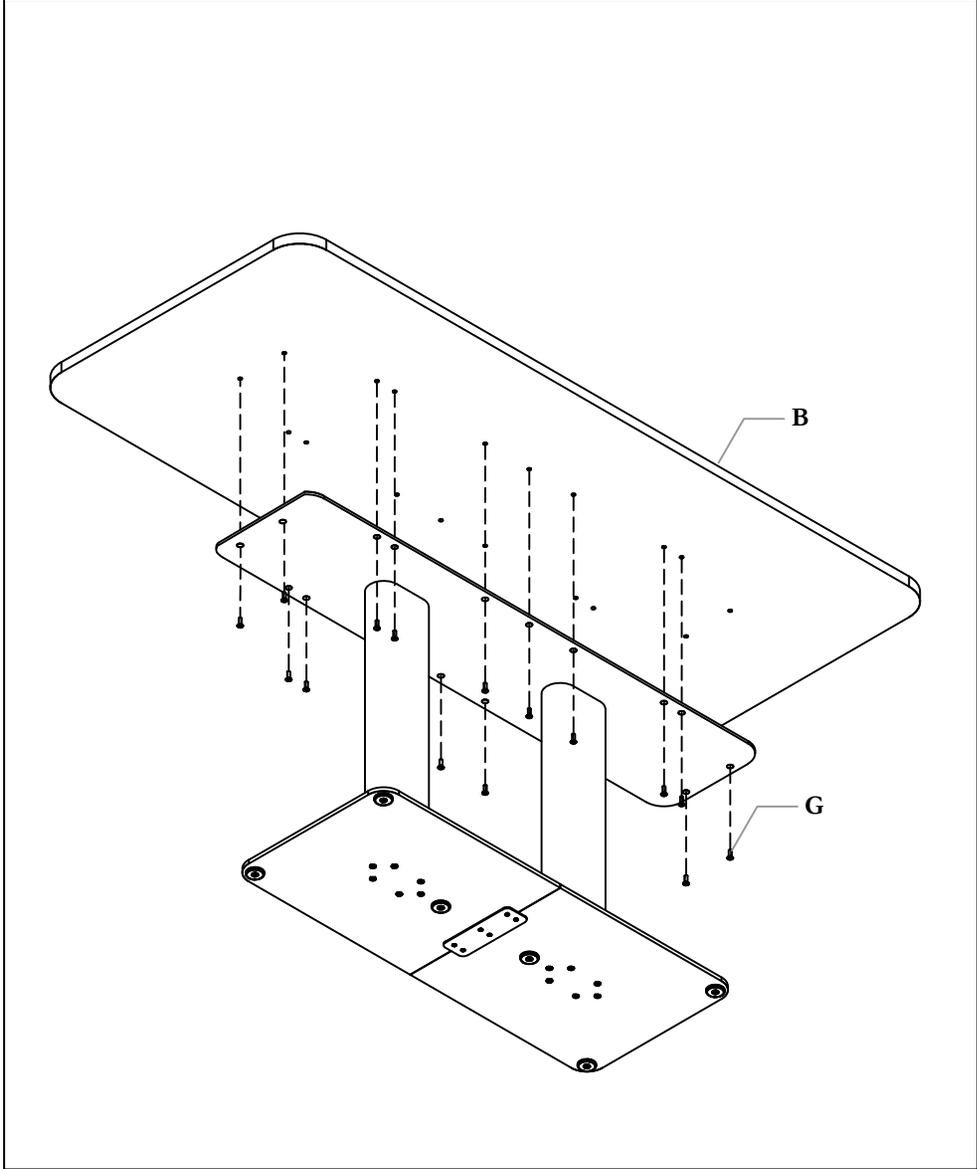

STEP 4: Flip base over to attach Top Plate

FASTEN TOP PLATE TO COLUMN

STEP 5: Fasten Top Plate to column assembly using Flat Top Machine Screws

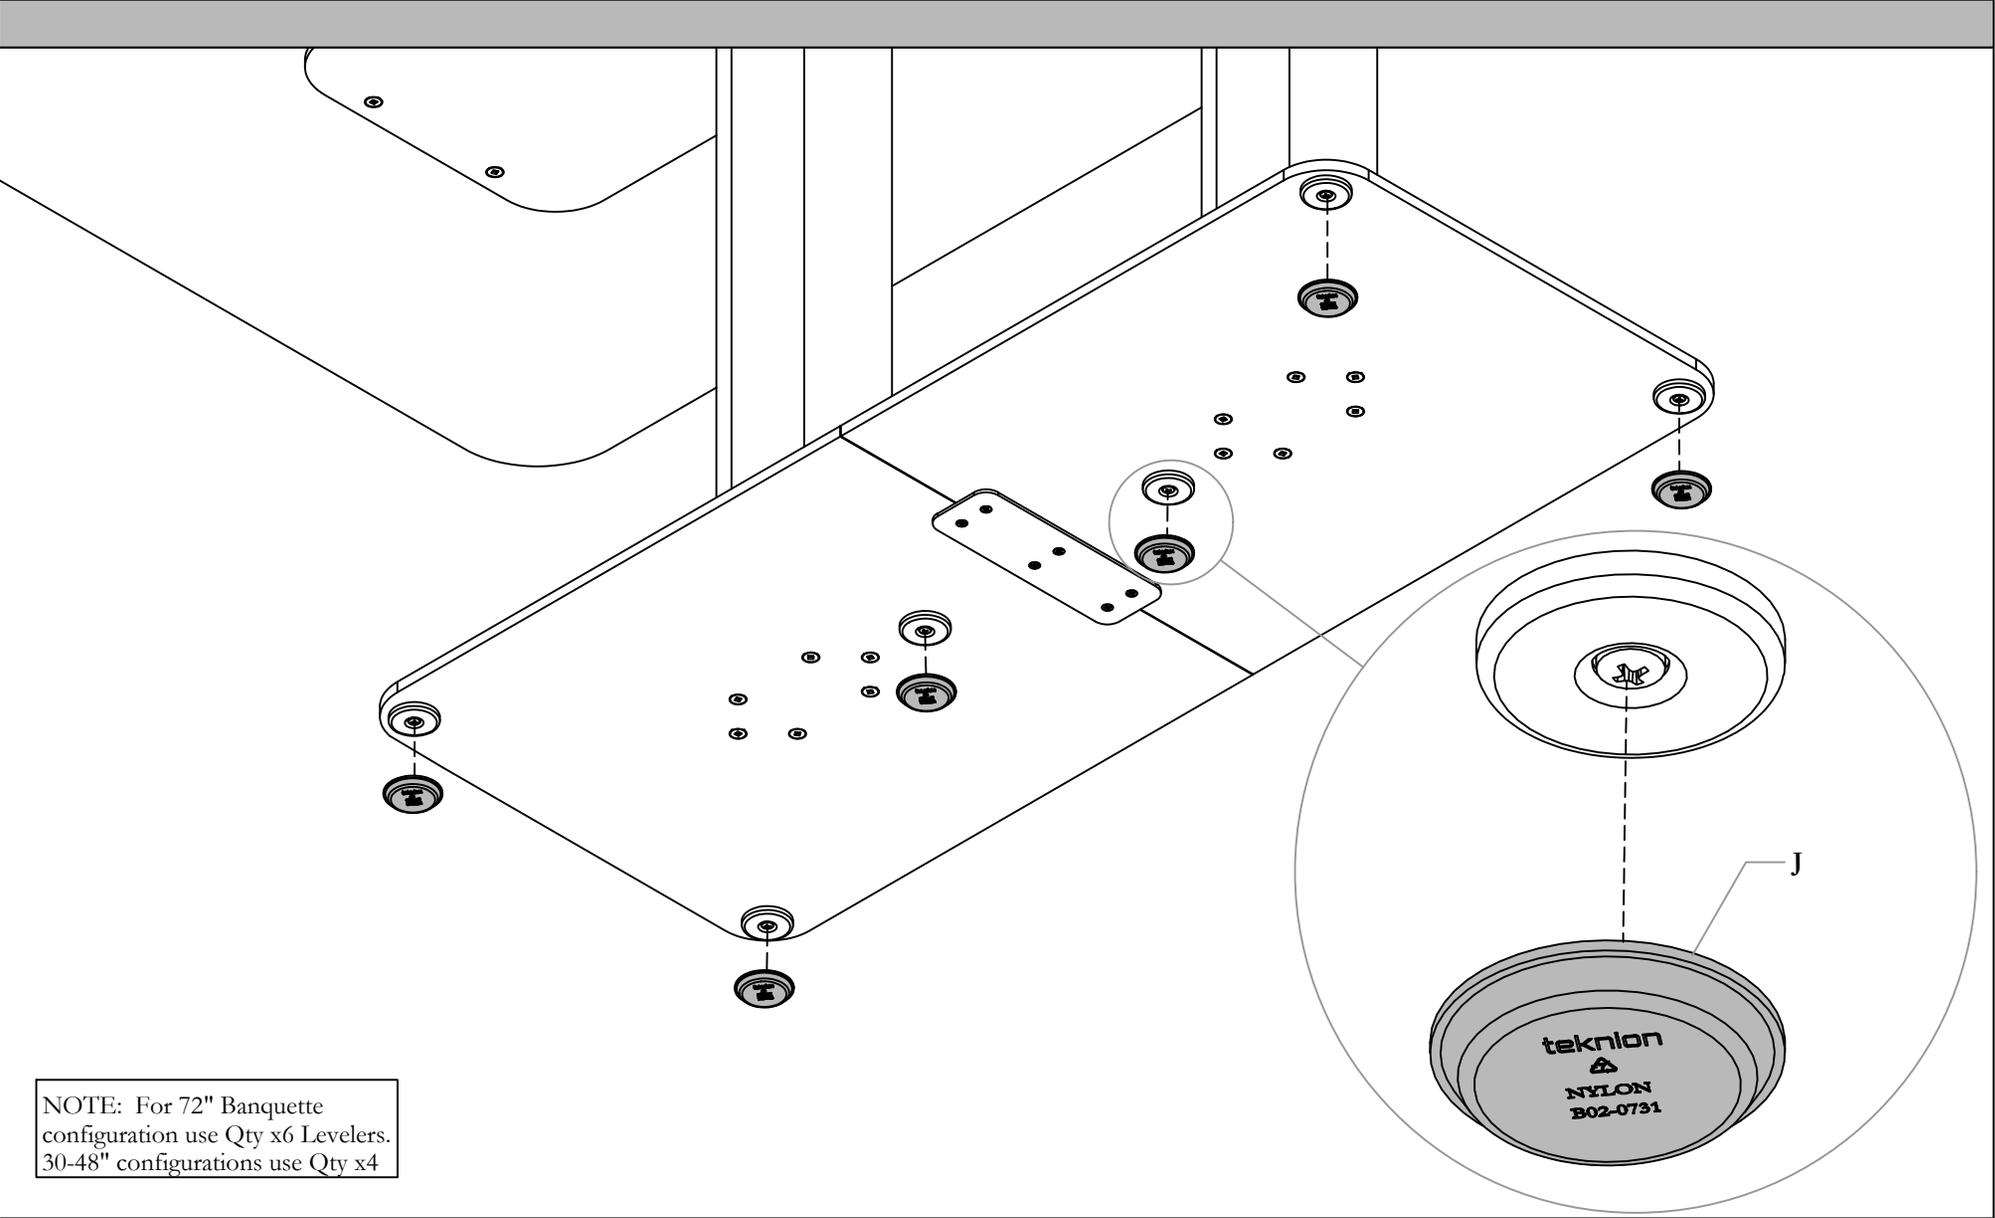

FASTEN WORKSURFACE TO TOP PLATE

STEP 6: With table rightside up, Fasten Worksurface to Top Plate using Flat Top Machine Screws

Section: TABLES

Description: TABLE WITH A FLAT BASE

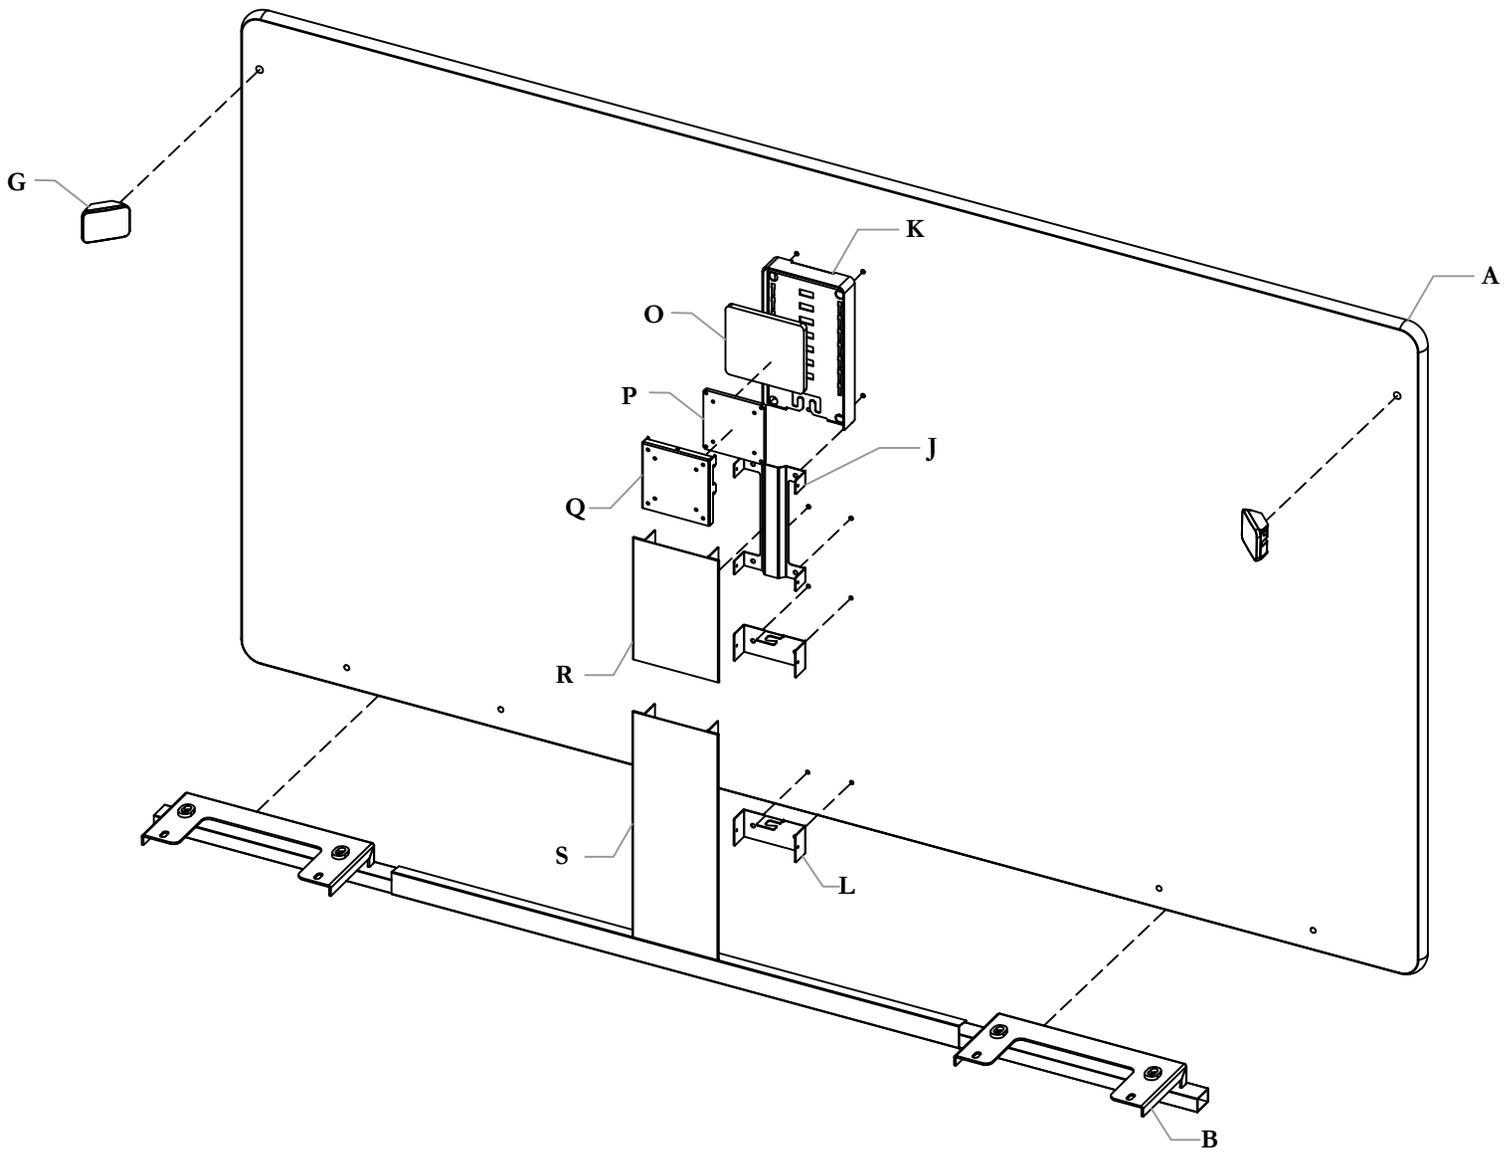

NOTE: For 72" Banquette configuration use Qty x6 Levelers.  
30-48" configurations use Qty x4

STEP 7: Place Leveling Shims under glides as required to stabilize Table

Section: **SOFT SEATING**

Description: **HIGH SPANNING SCREEN W/ HARDWARE&WIRE MANAGEMENT**

High Spanning Screen (NBAZ), Hardware Kit (NBAY), Wire Management Kit for Table/ Electrics (N09-8382)

CUT AWAY FABRIC

STEP 1: Locate and cut away fabric at the bottom and top corners of the screen to access the inserts

ATTACH TETHER TO SCREEN

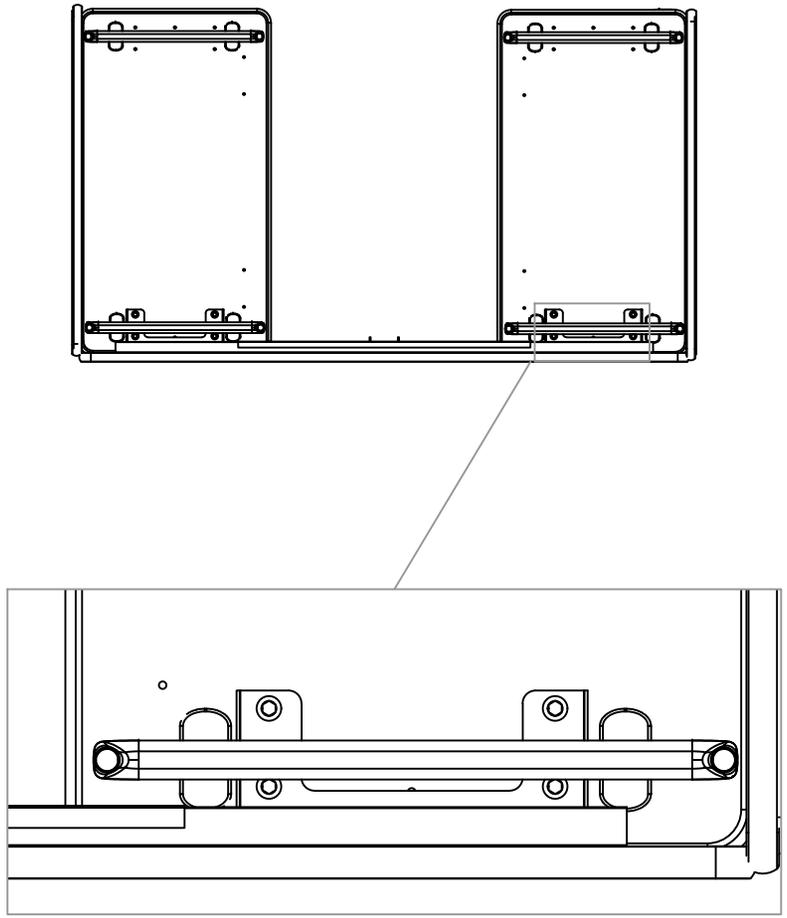

STEP 2: Attach tethers to screen using washer, lock washer and screw

Section: **SOFT SEATING**

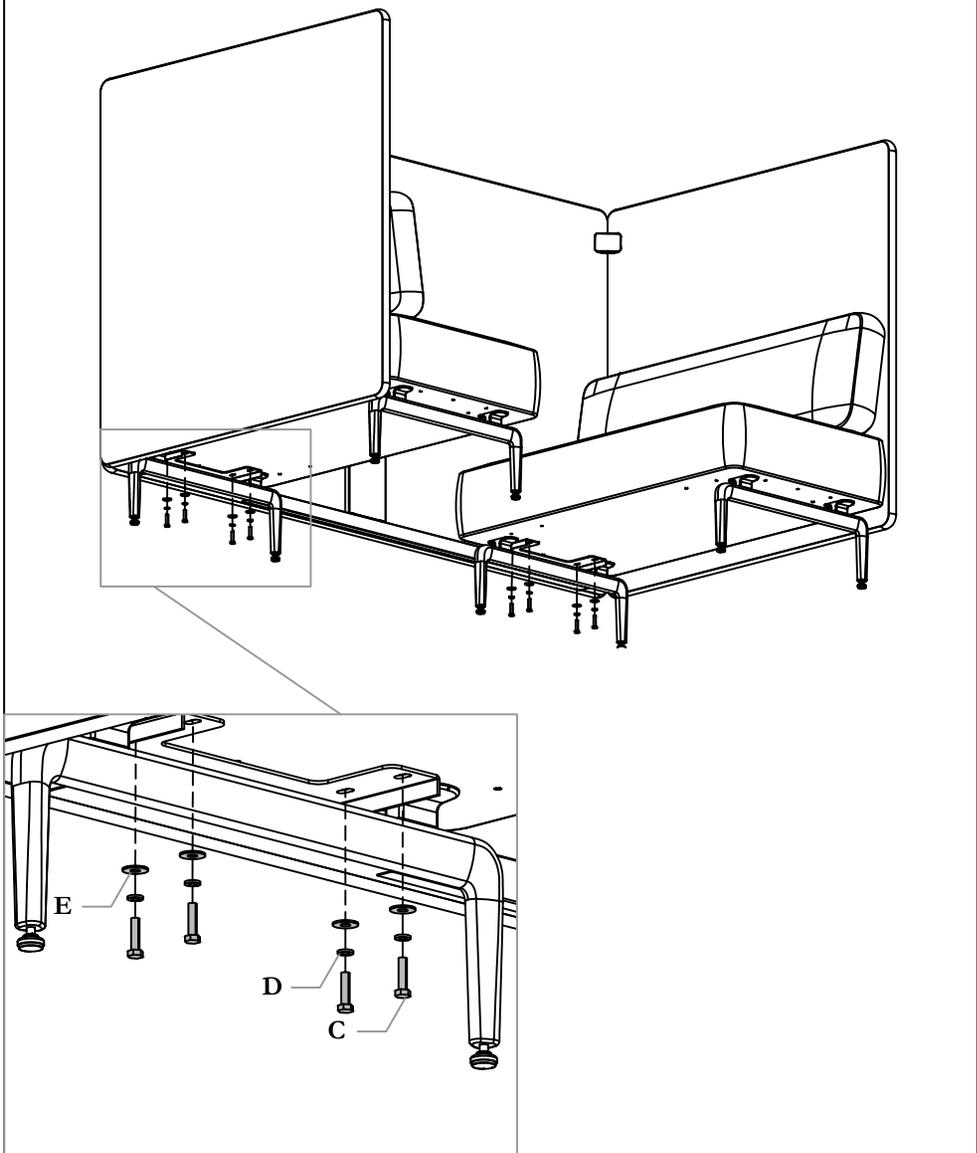

Description: **HIGH SPANNING SCREEN W/ HARDWARE&WIRE MANAGEMENT**

**ALIGN SOFAS WITH TETHER**

STEP 3: Align screen with both sofas so mounting holes align in four places

**ATTACH SOFAS TO TETHER**

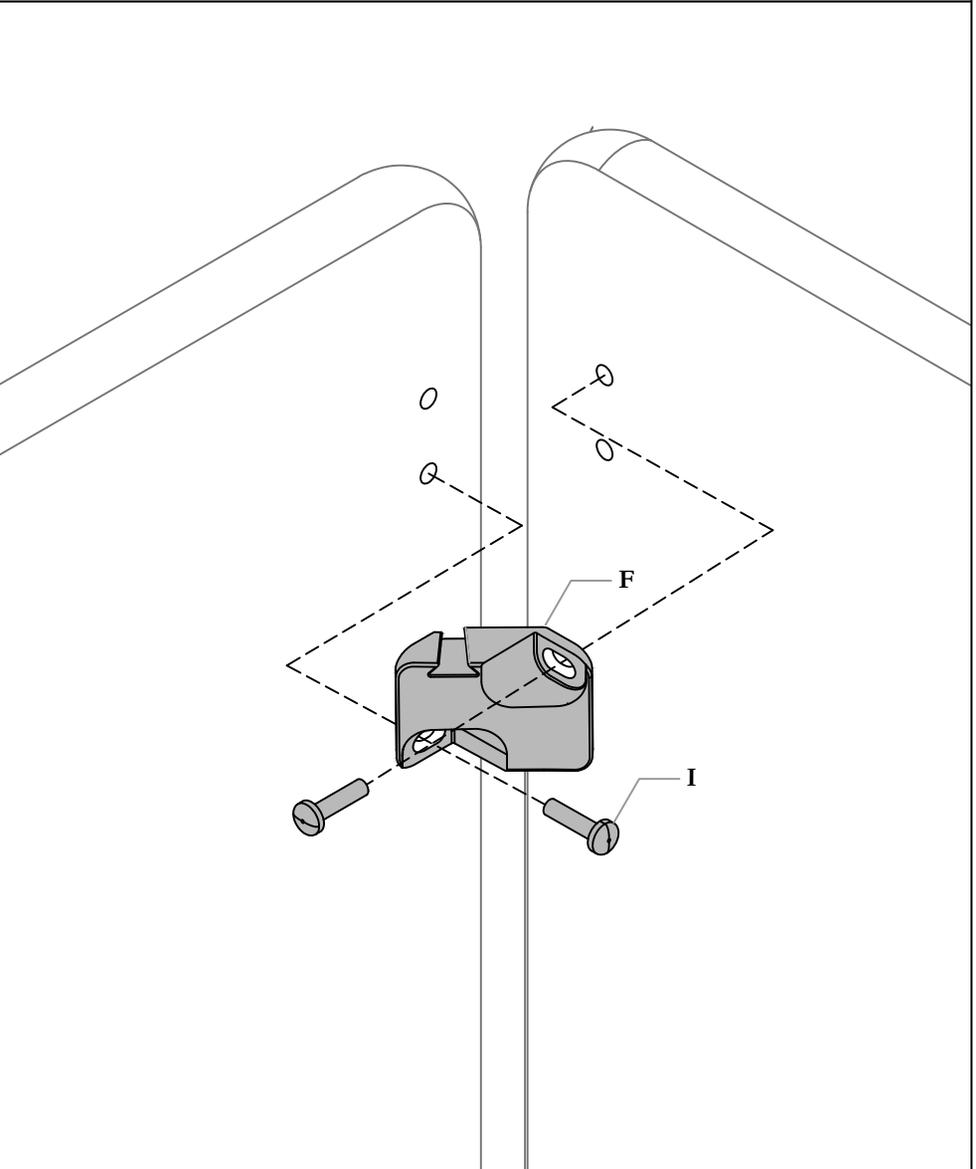

STEP 4: Install washer, lock washer and screw onto underside of sofas while applying pressure on the screen towards the sofa to minimize gap between sofa screen edge

Section: **SOFT SEATING**

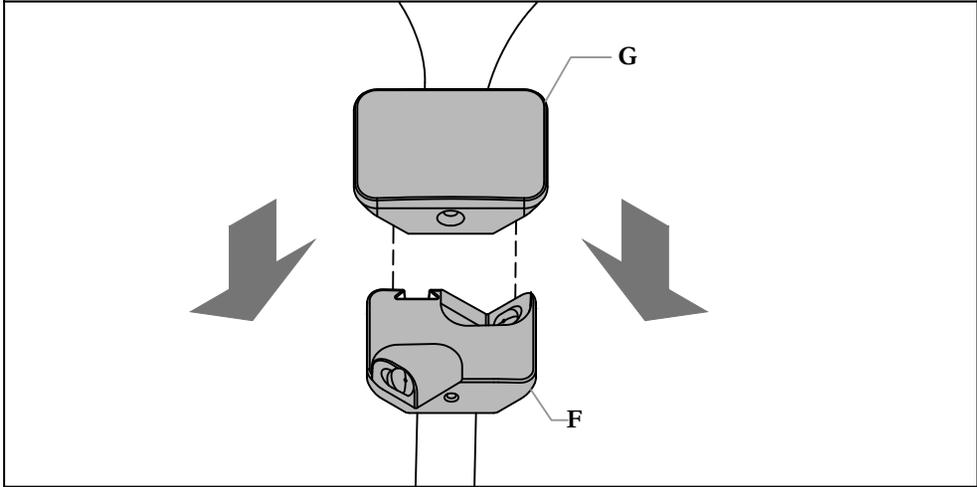

Description: **HIGH SPANNING SCREEN W/ HARDWARE&WIRE MANAGEMENT**

**ALIGN AND FASTEN CORNER BRACKET**

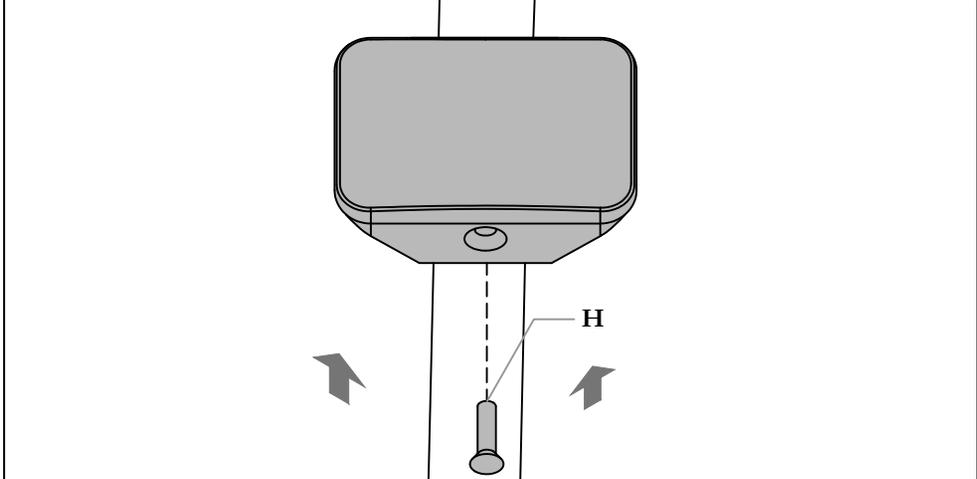

STEP 5: Position the Corner Bracket to the correct holes provided on the screens. Securely tighten into frame

**SLIDE BRACKET COVER OVER CORNER BRACKET**

STEP 6: Slide Bracket Cover over the Corner Bracket after it has been attached to the screens.

**FASTEN COVER TO BRACKET**

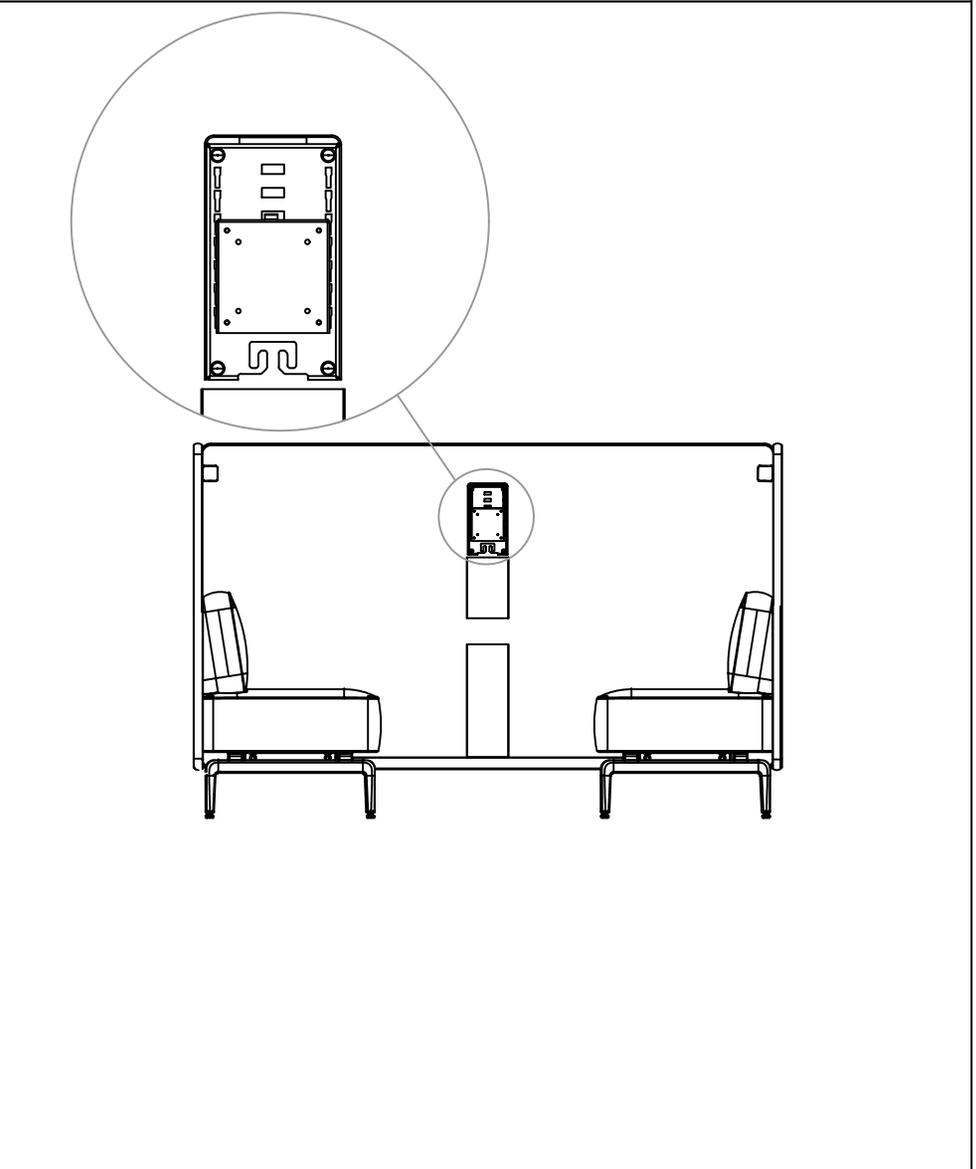

STEP 7: Secure the Bracket Cover with screw provided.

Section: **SOFT SEATING**

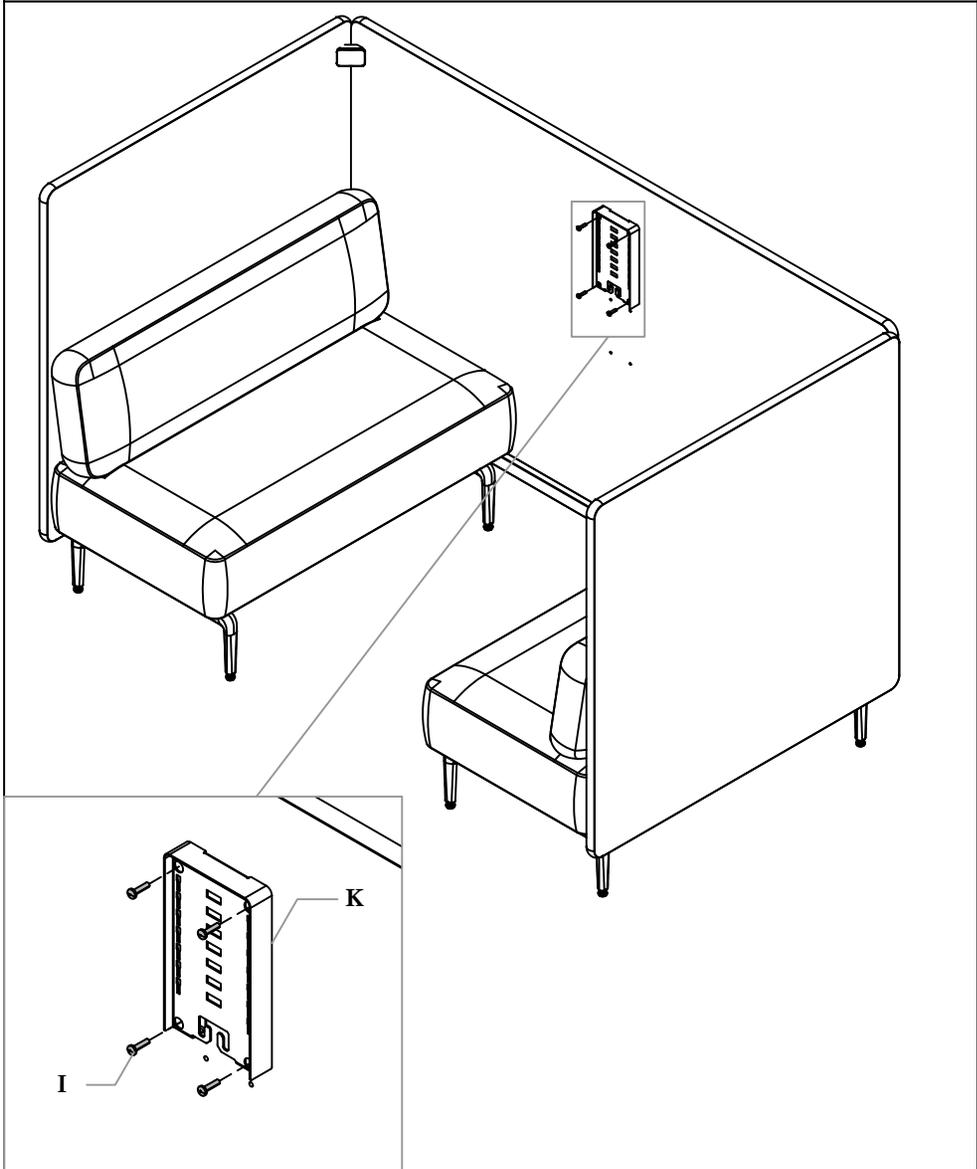

Description: **HIGH SPANNING SCREEN W/ HARDWARE&WIRE MANAGEMENT**

**INSTALL INSIDE CHANNEL**

STEP 8: Locate and cut away fabric to access inserts for digital share devices

**INSTALL CHANNEL COVER**

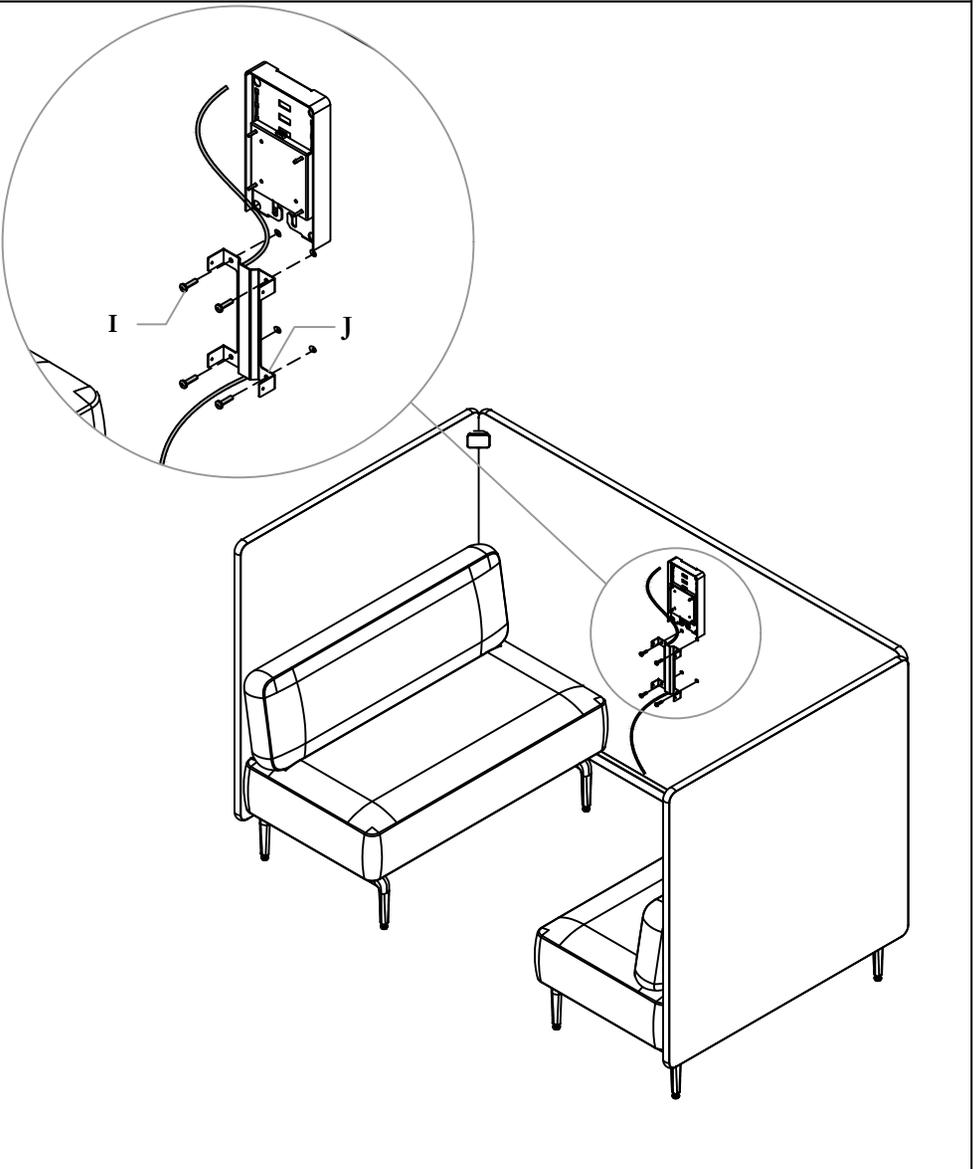

STEP 9: Use screws provided to install mounting shroud

Section: **SOFT SEATING**

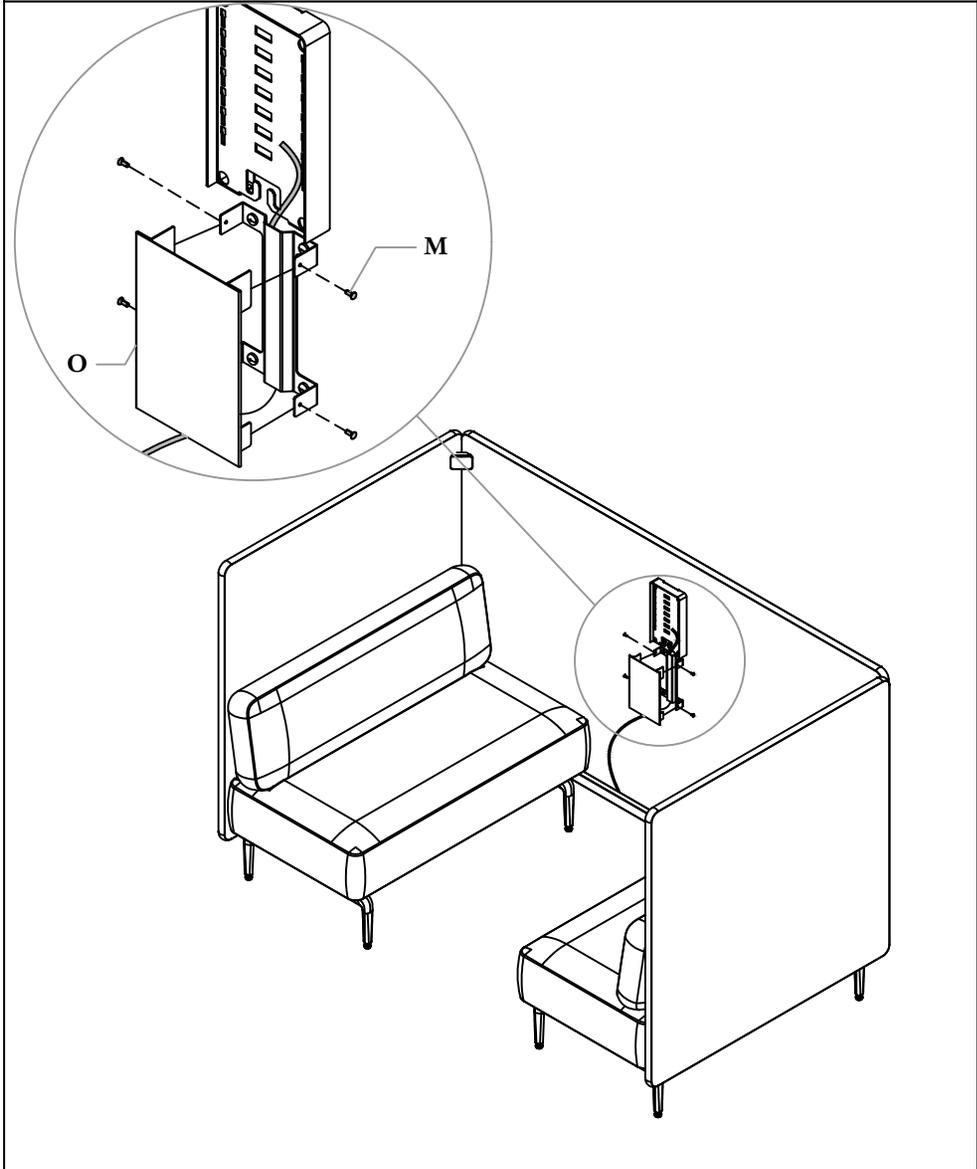

Description: **HIGH SPANNING SCREEN W/ HARDWARE&WIRE MANAGEMENT**

**INSTALL INSIDE CHANNEL**

STEP 10: Install inside channel using screws  
NOTE: Route the monitor power cable inside the channel

**INSTALL CHANNEL COVER**

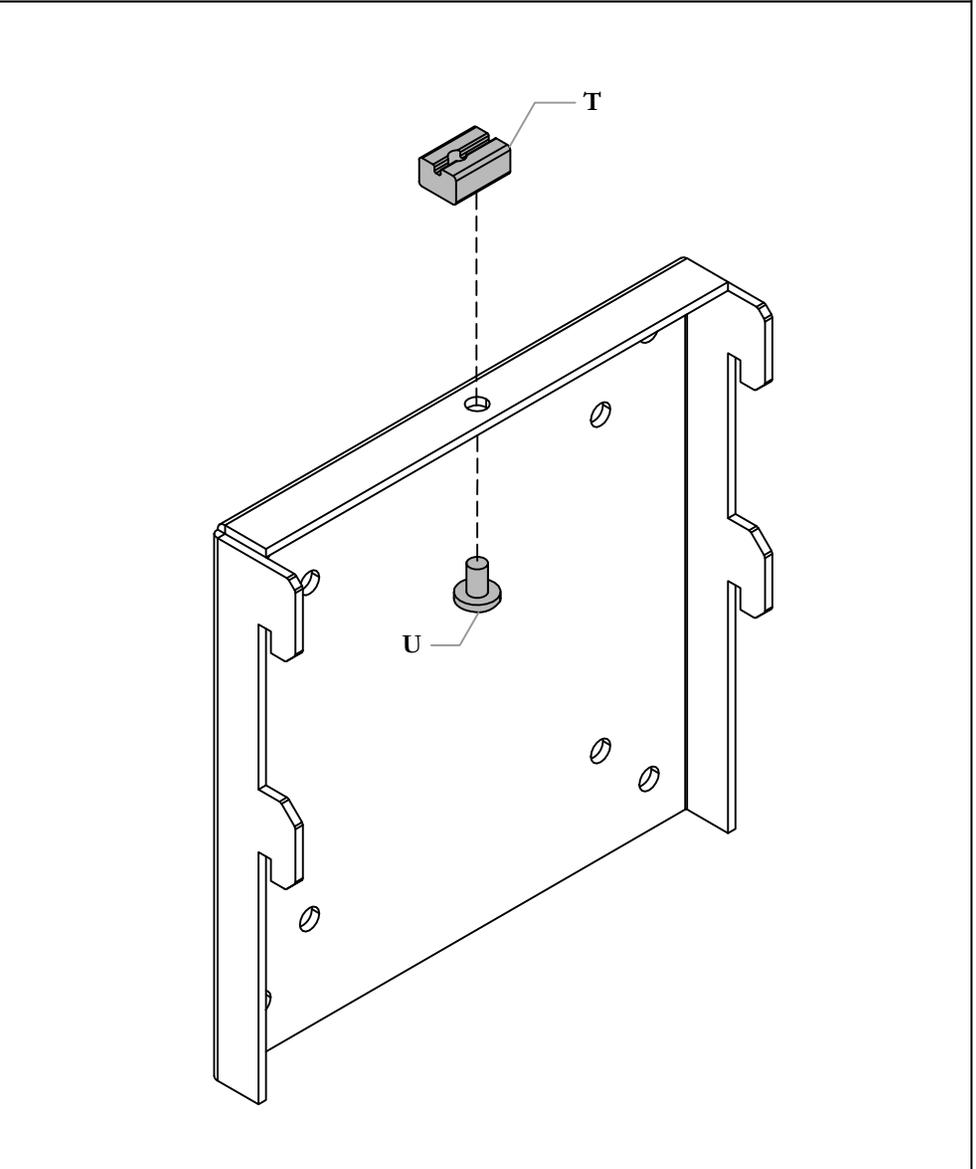

STEP 11: Install channel cover using screws. Bias cover towards table top to minimize gap.  
NOTE: Ensure all monitor cables are routed between channels before closing

Section: **SOFT SEATING**

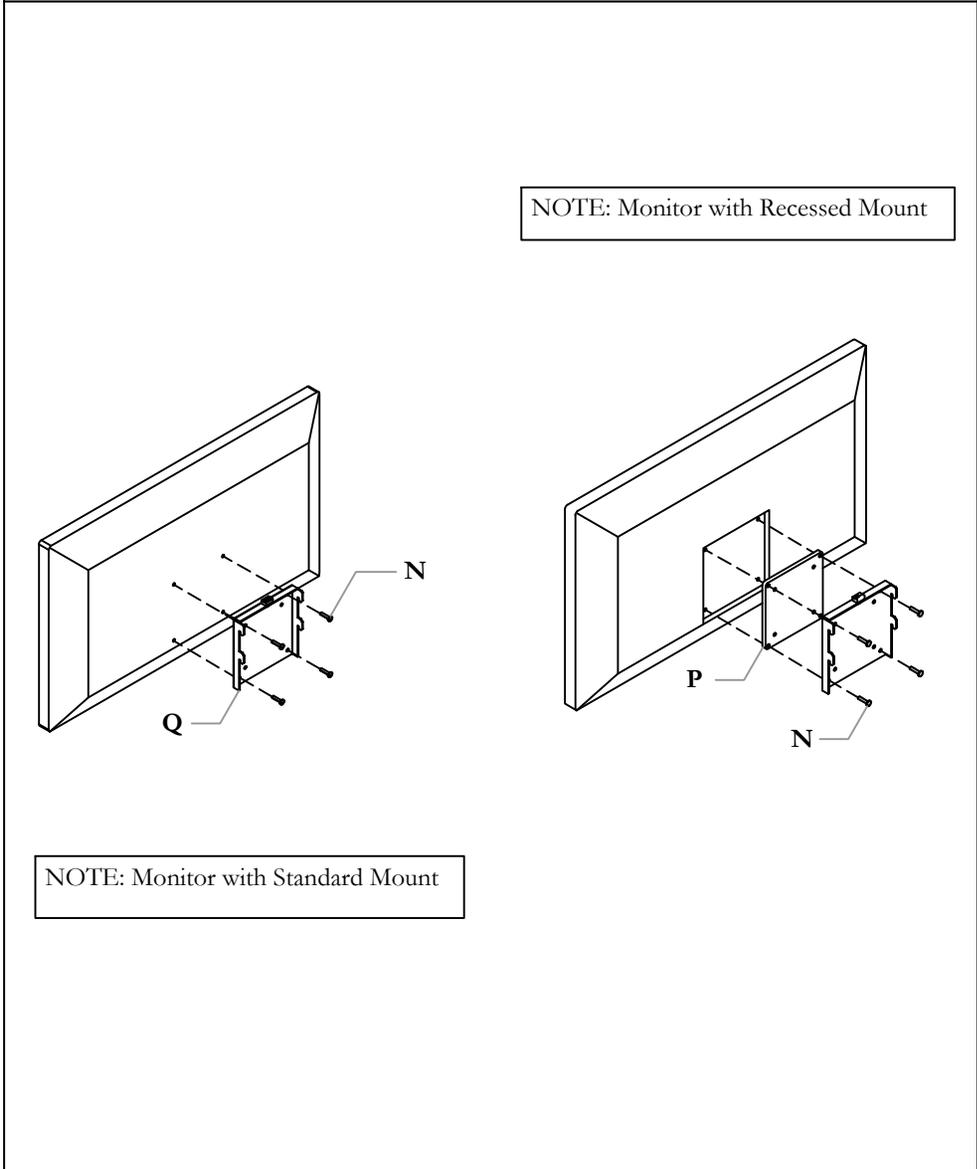

Description: **HIGH SPANNING SCREEN W/ HARDWARE&WIRE MANAGEMENT**

**ATTACH MONITOR LOCK**

STEP 12: Attach lock to mounting bracket

**ATTACH MONITOR MOUNT**

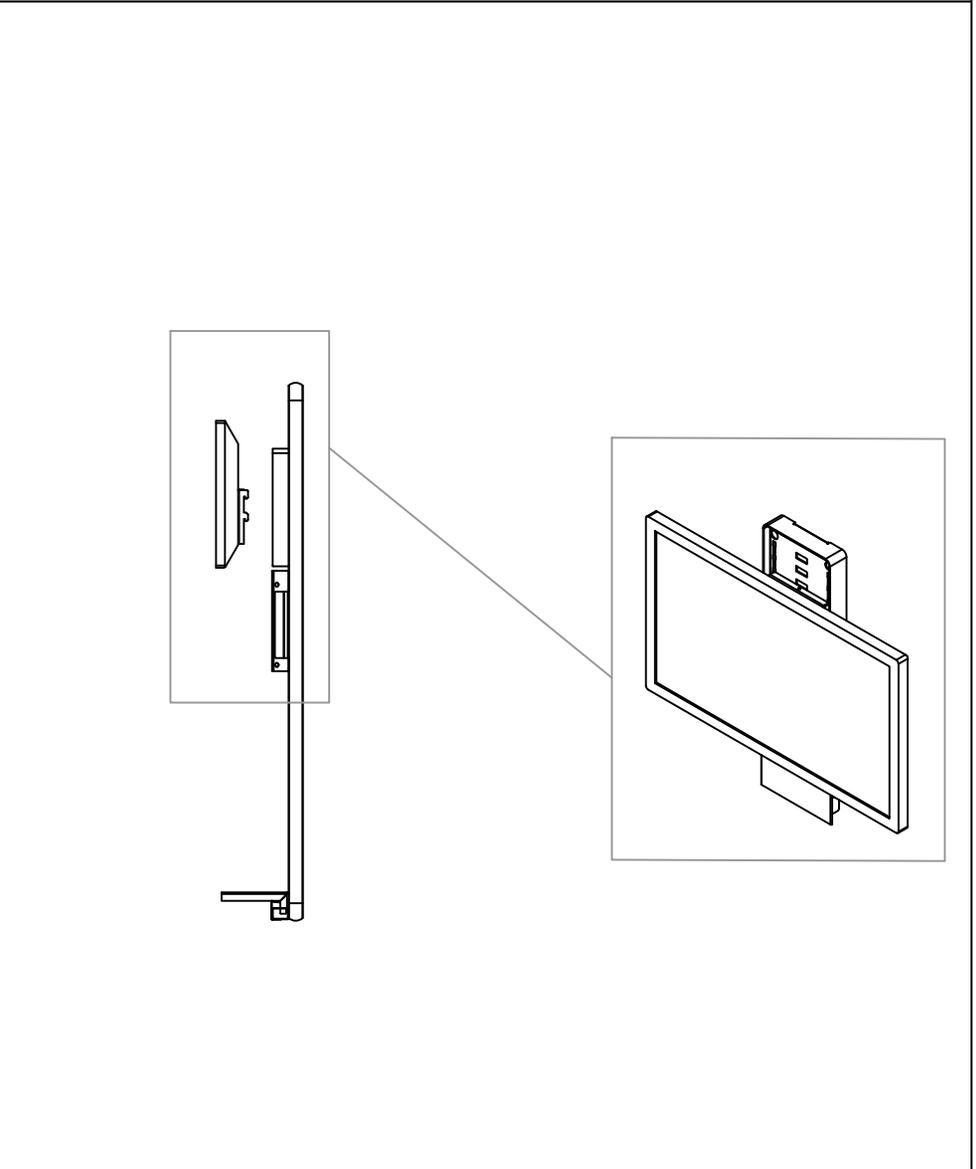

STEP 13: After removing cover plate from monitor, reuse the screws to install the monitor bracket to monitor

Section: **SOFT SEATING**

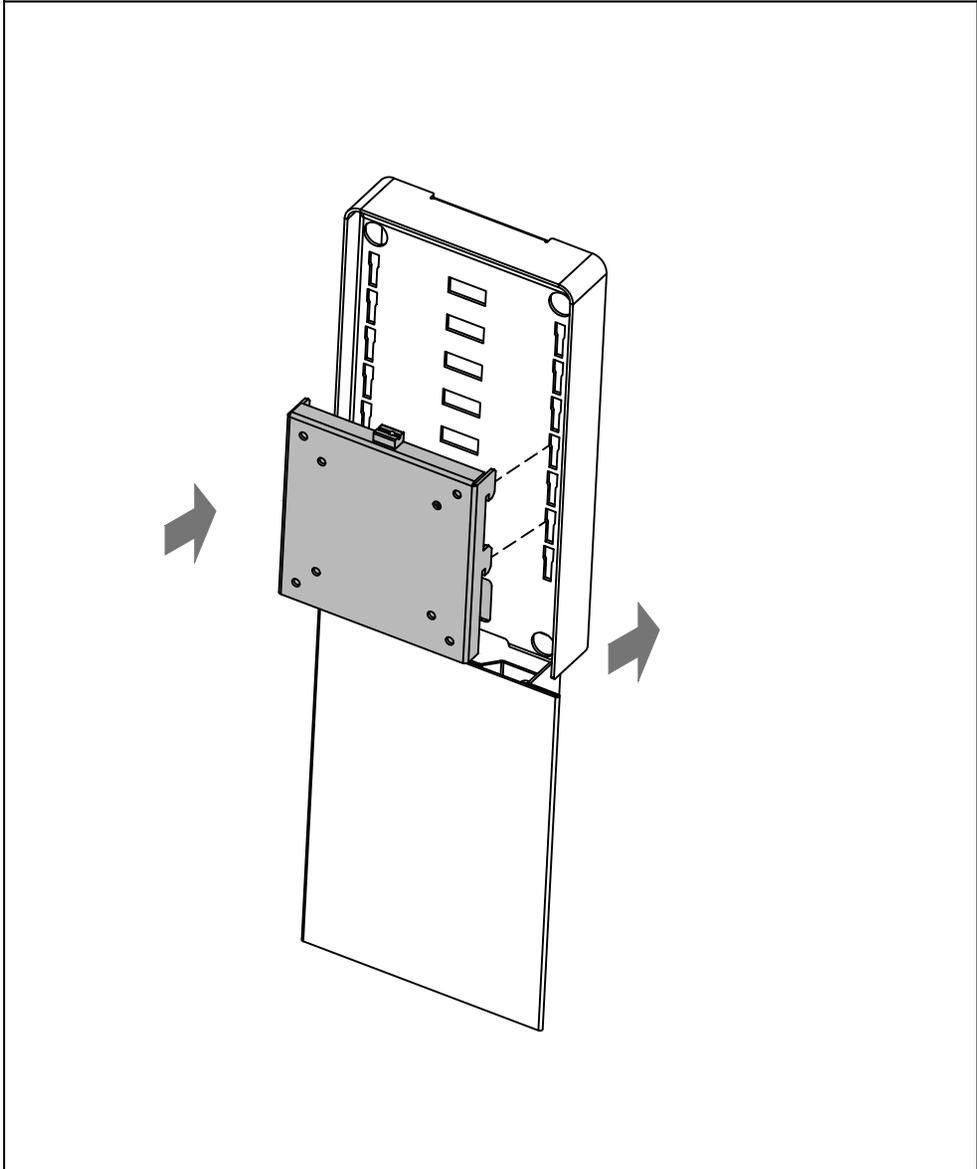

Description: **HIGH SPANNING SCREEN W/ HARDWARE&WIRE MANAGEMENT**

**ATTACH MOUNTING COVER TO BRACKET**

STEP 14: Attach the mounting cover to the bracket on the screen. Hook the cover onto the bracket and turn the lock to ensure monitor is locked in place

**LOCK BRACKET IN PLACE**

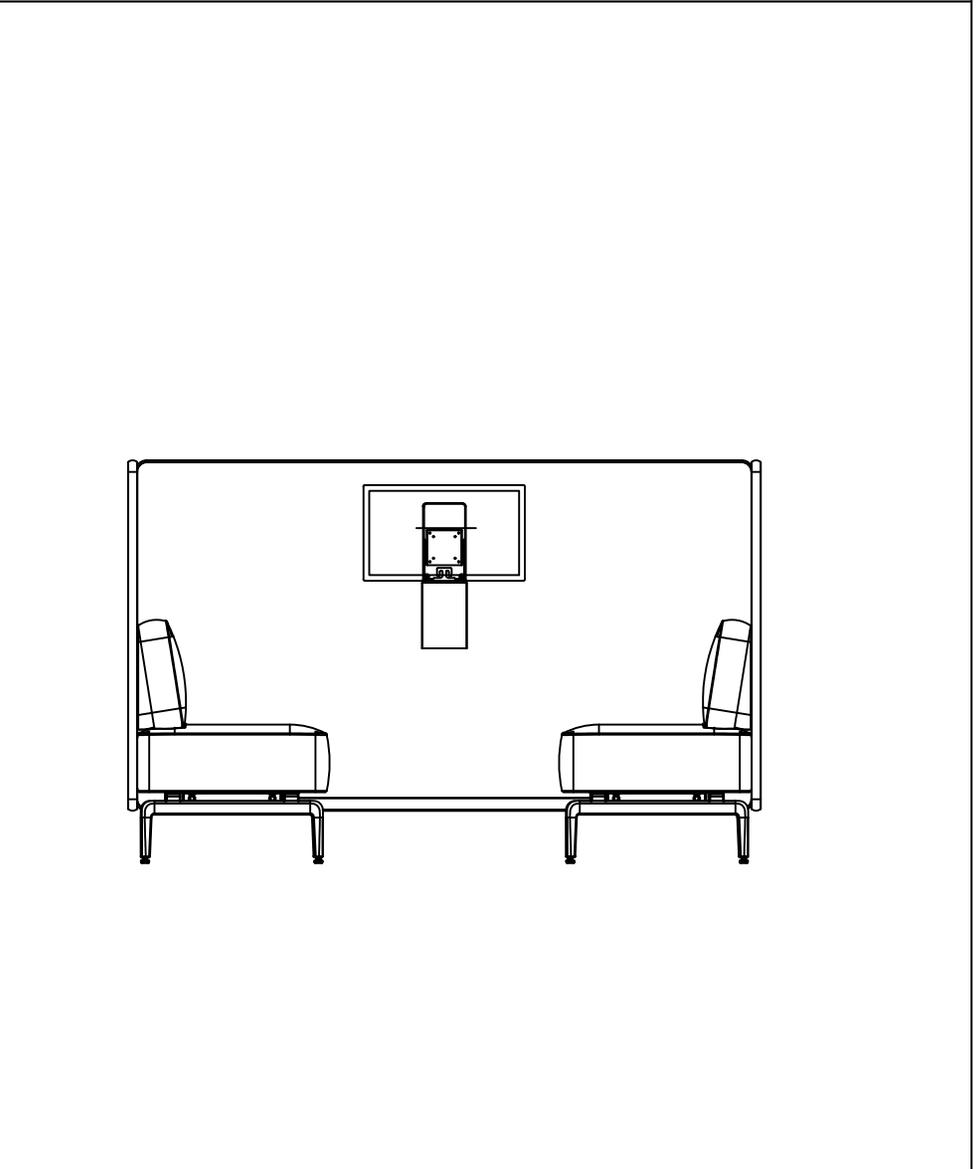

STEP 15: Hook the cover onto the bracket and turn the lock to ensure monitor is locked in place

Section: **SOFT SEATING**

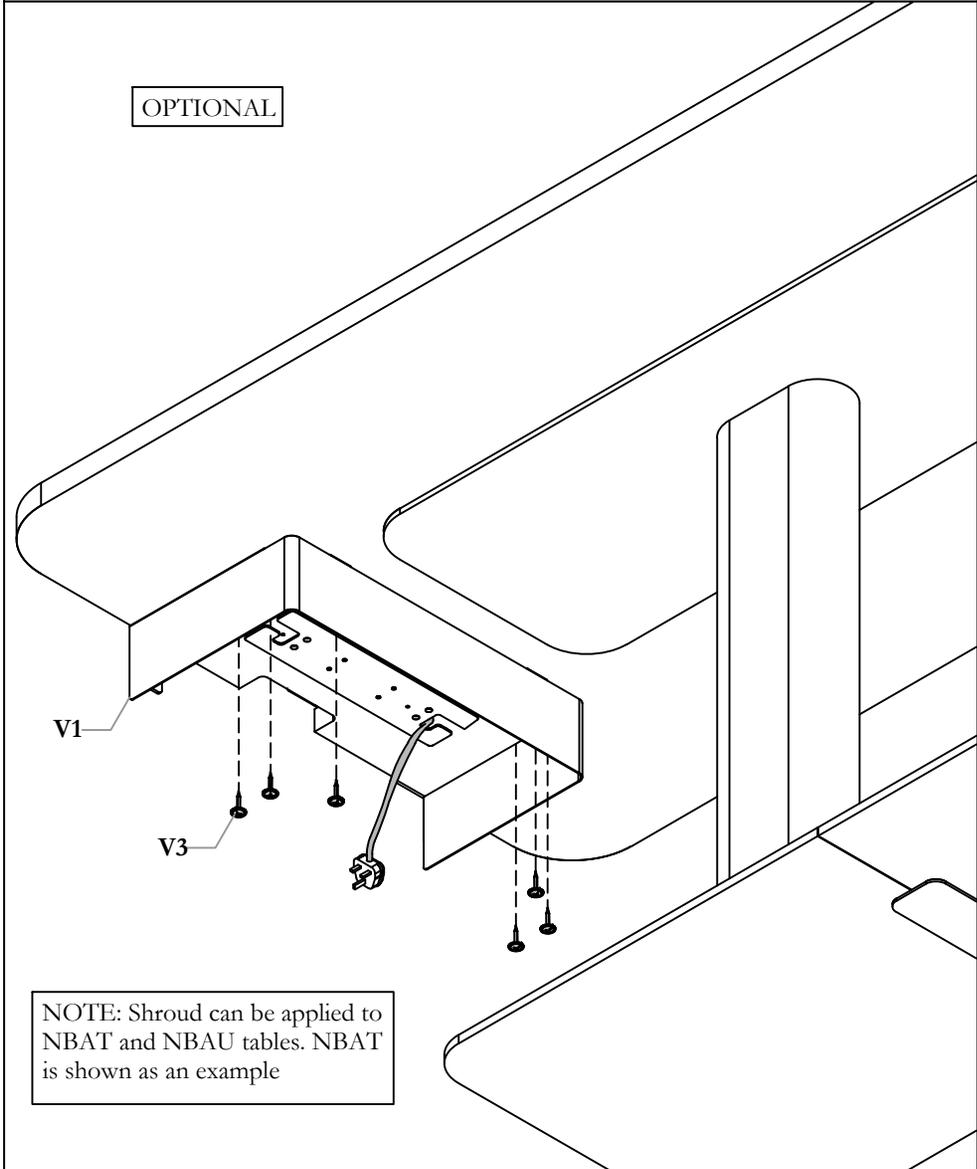

Description: **HIGH SPANNING SCREEN W/ HARDWARE&WIRE MANAGEMENT**

**ATTACH FOAM COVER**

STEP 16: Measure the cover height, then cut the foam to size. Peel the adhesive backing and stick onto the mounting bracket

**OPTIONAL TABLE: FASTEN SHROUD TO TABLE**

OPTIONAL

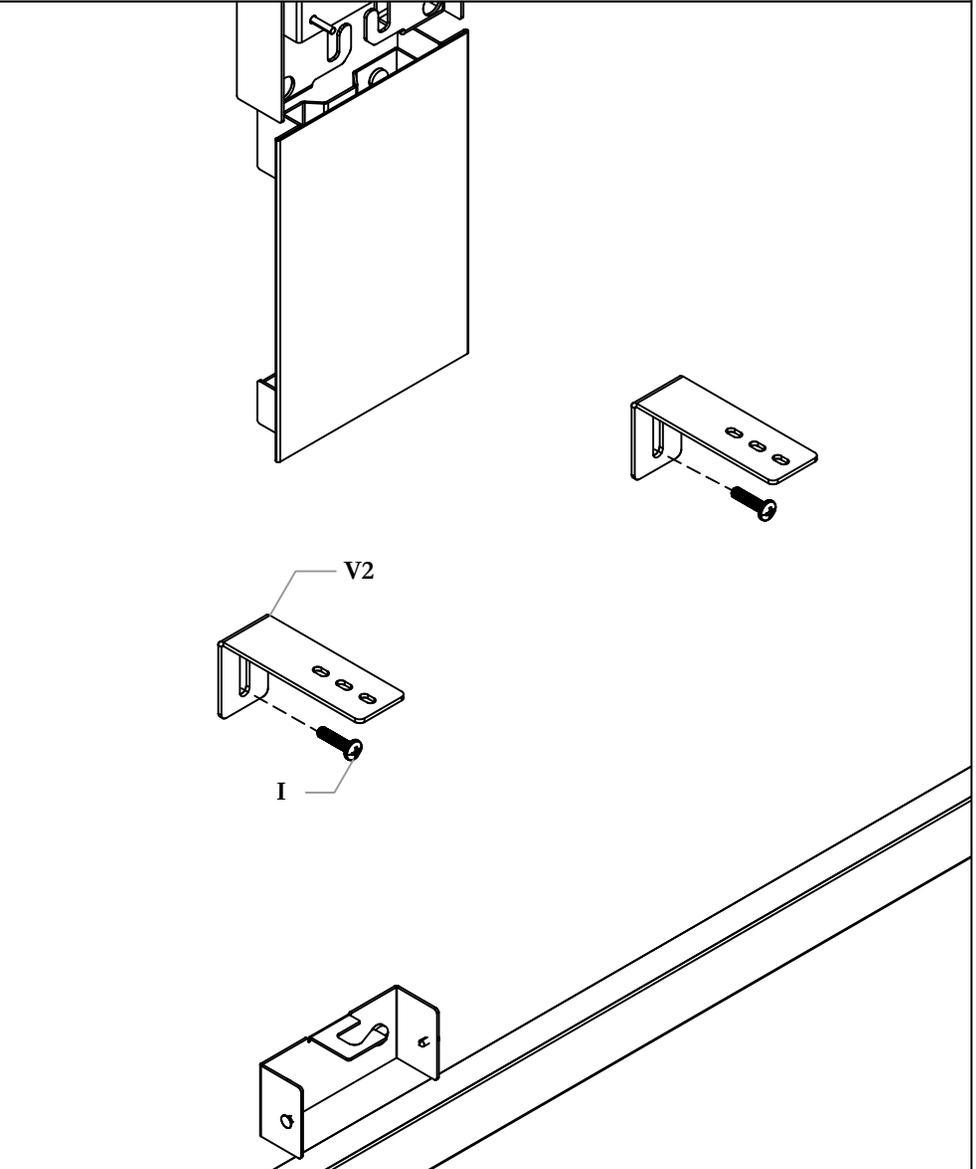

NOTE: Shroud can be applied to NBAT and NBAU tables. NBAT is shown as an example

STEP 17: Fasten Shroud to Table using Quad Pan Head screws.

Section: **SOFT SEATING**

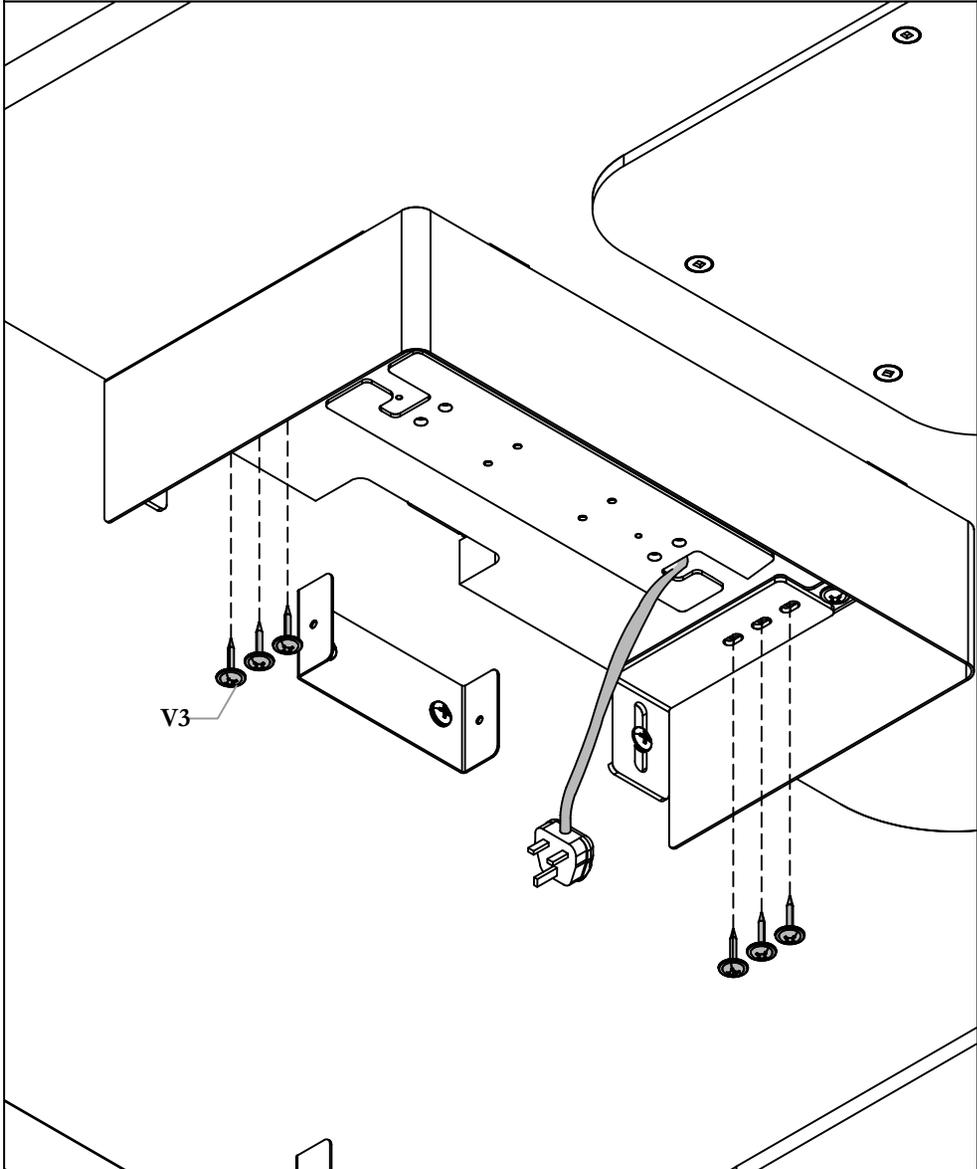

Description: **HIGH SPANNING SCREEN W/ HARDWARE&WIRE MANAGEMENT**

**FASTEN TETHERS TO SCREEN**

STEP 18: Fasten Tethers to Screen using Pan Head screws

**FASTEN TETHERS TO SHROUD**

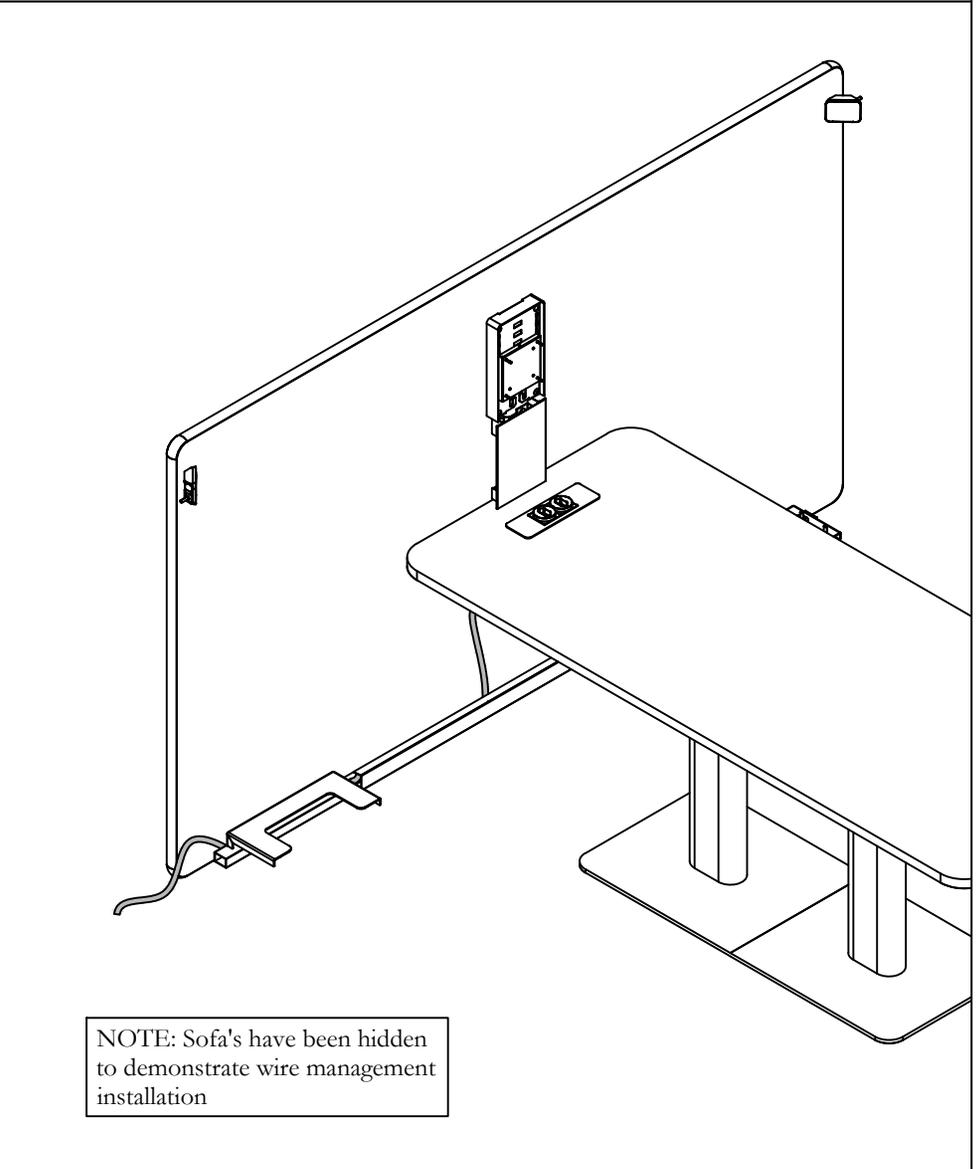

STEP 19: Align holes between Tethers and Shroud, then fasten them together using Quad Pan screws

Section: **SOFT SEATING**

Description: **HIGH SPANNING SCREEN W/ HARDWARE&WIRE MANAGEMENT**

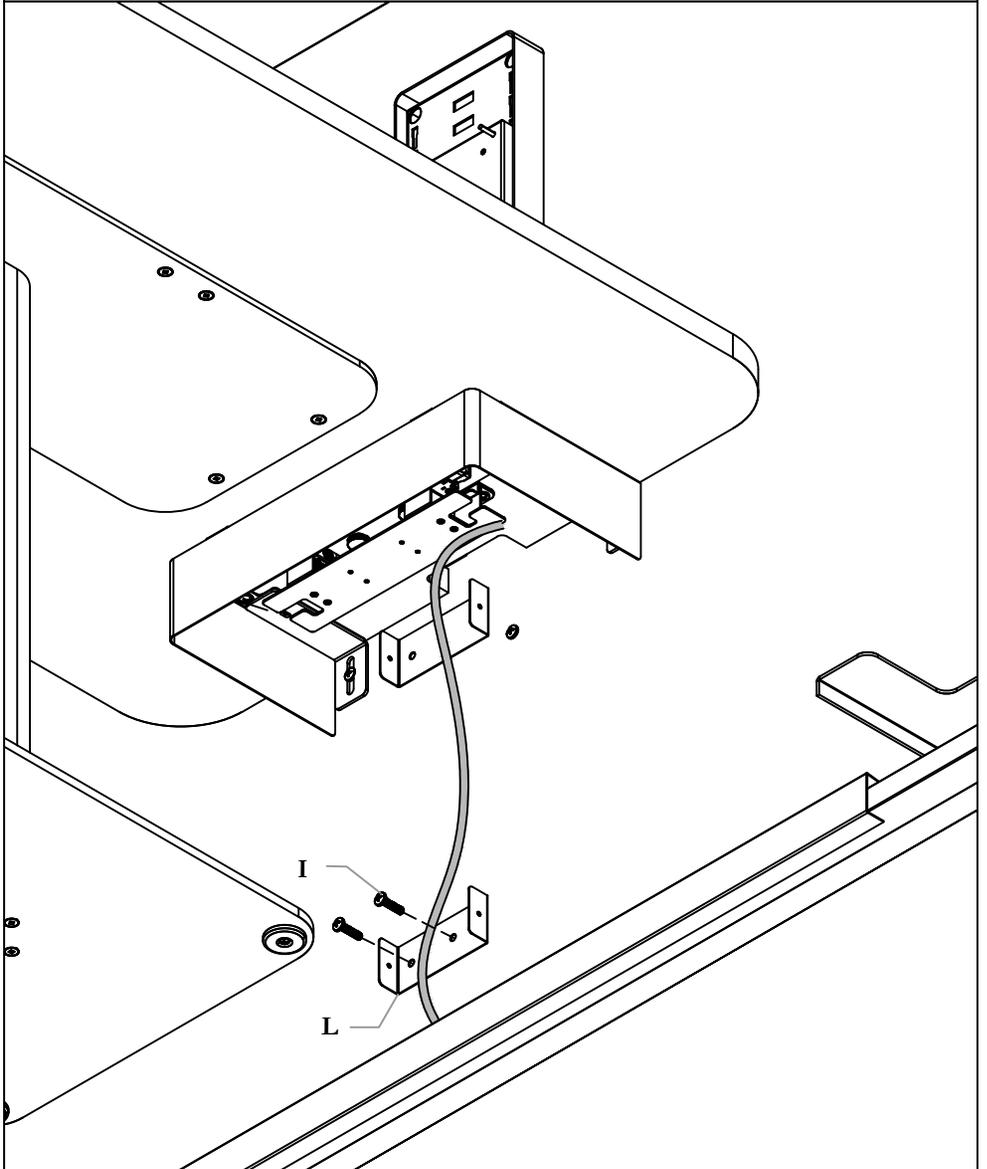

**ROUTE WIRES THROUGH BASE CHANNEL**

NOTE: Sofa's have been hidden to demonstrate wire management installation

STEP 20: Route cable behind the cover on the base of the screen

**INSTALL INSIDE CHANNEL**

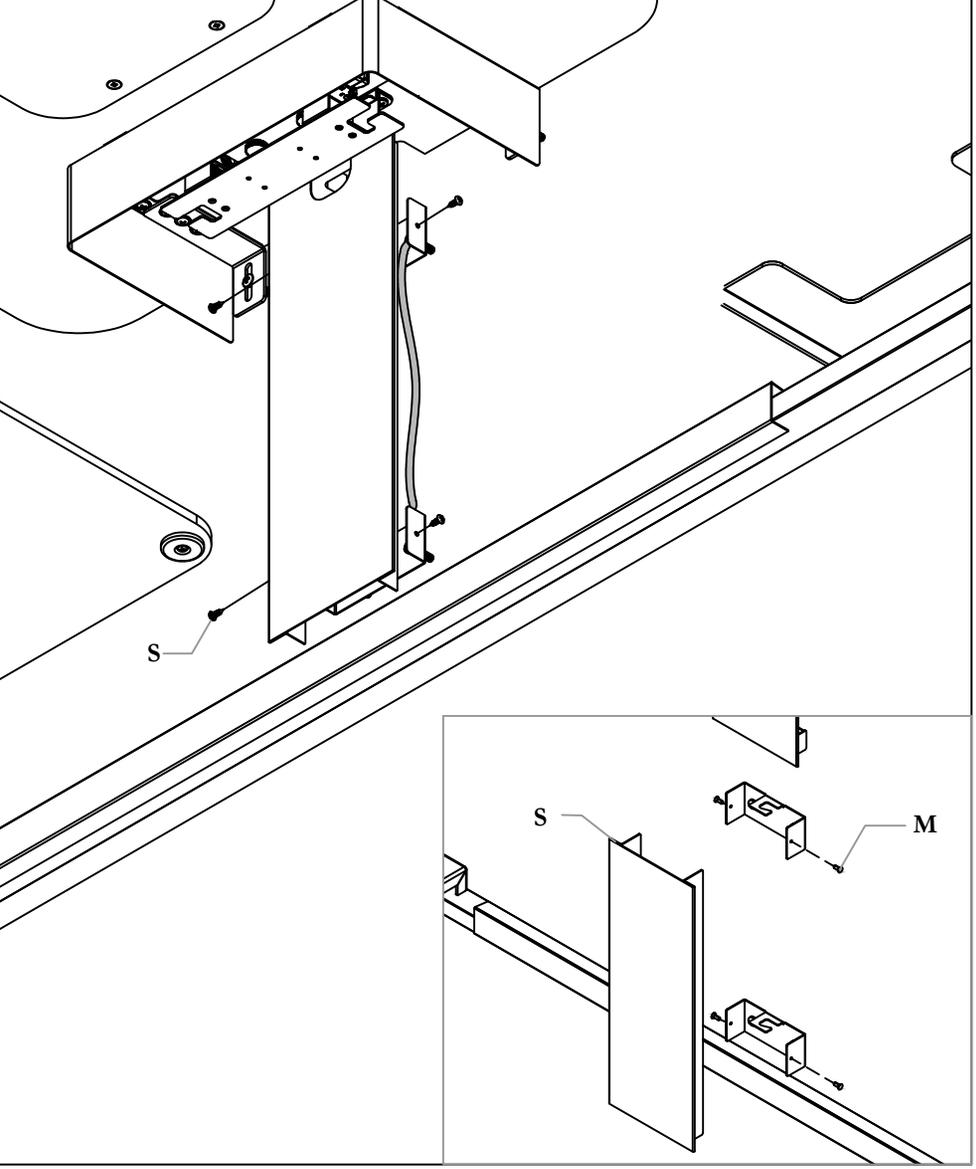

STEP 21: Attach the inside channel to the screen using the 1" Pan Head Screw. Route wires between channels

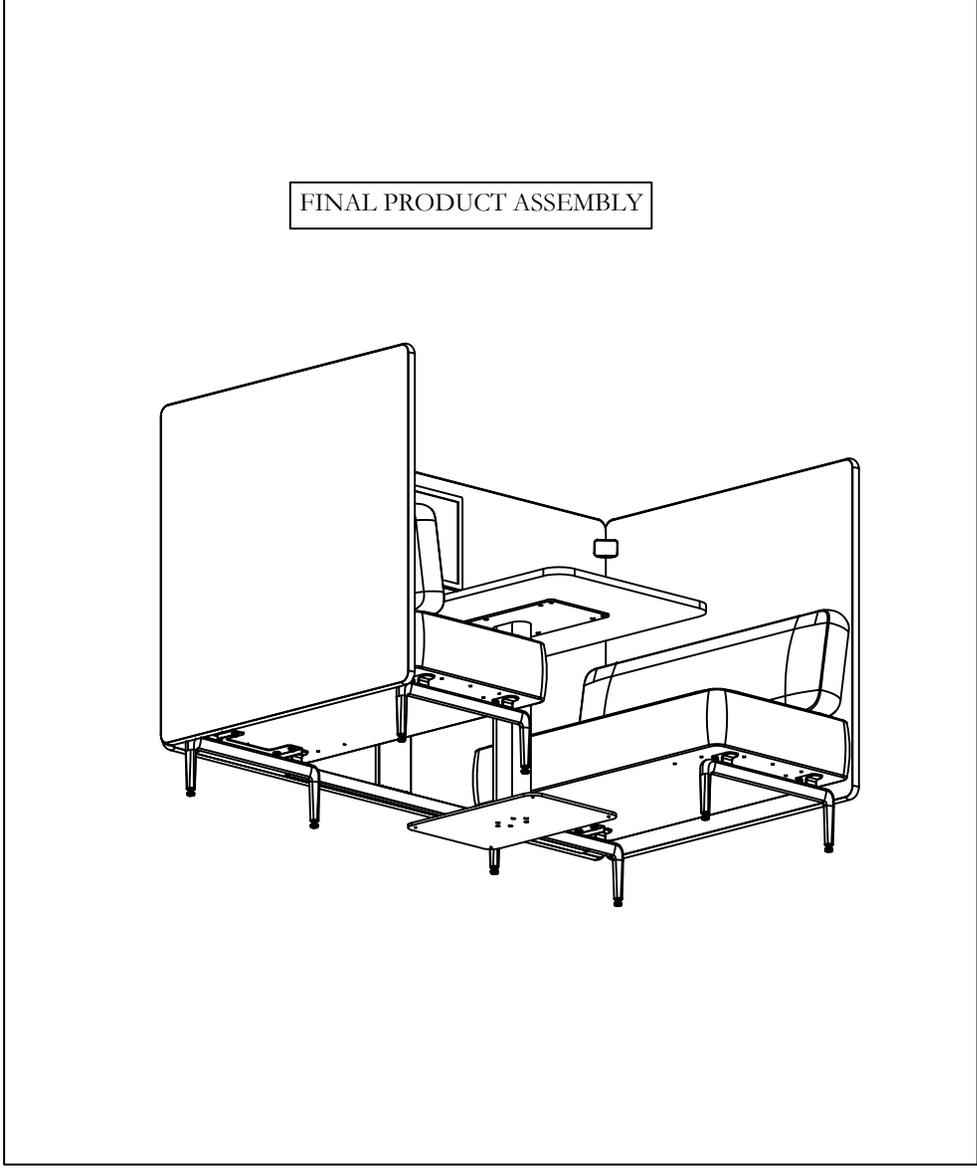

Section: **SOFT SEATING**

Description: **HIGH SPANNING SCREEN W/ HARDWARE&WIRE MANAGEMENT**

**INSTALL CHANNEL COVER**

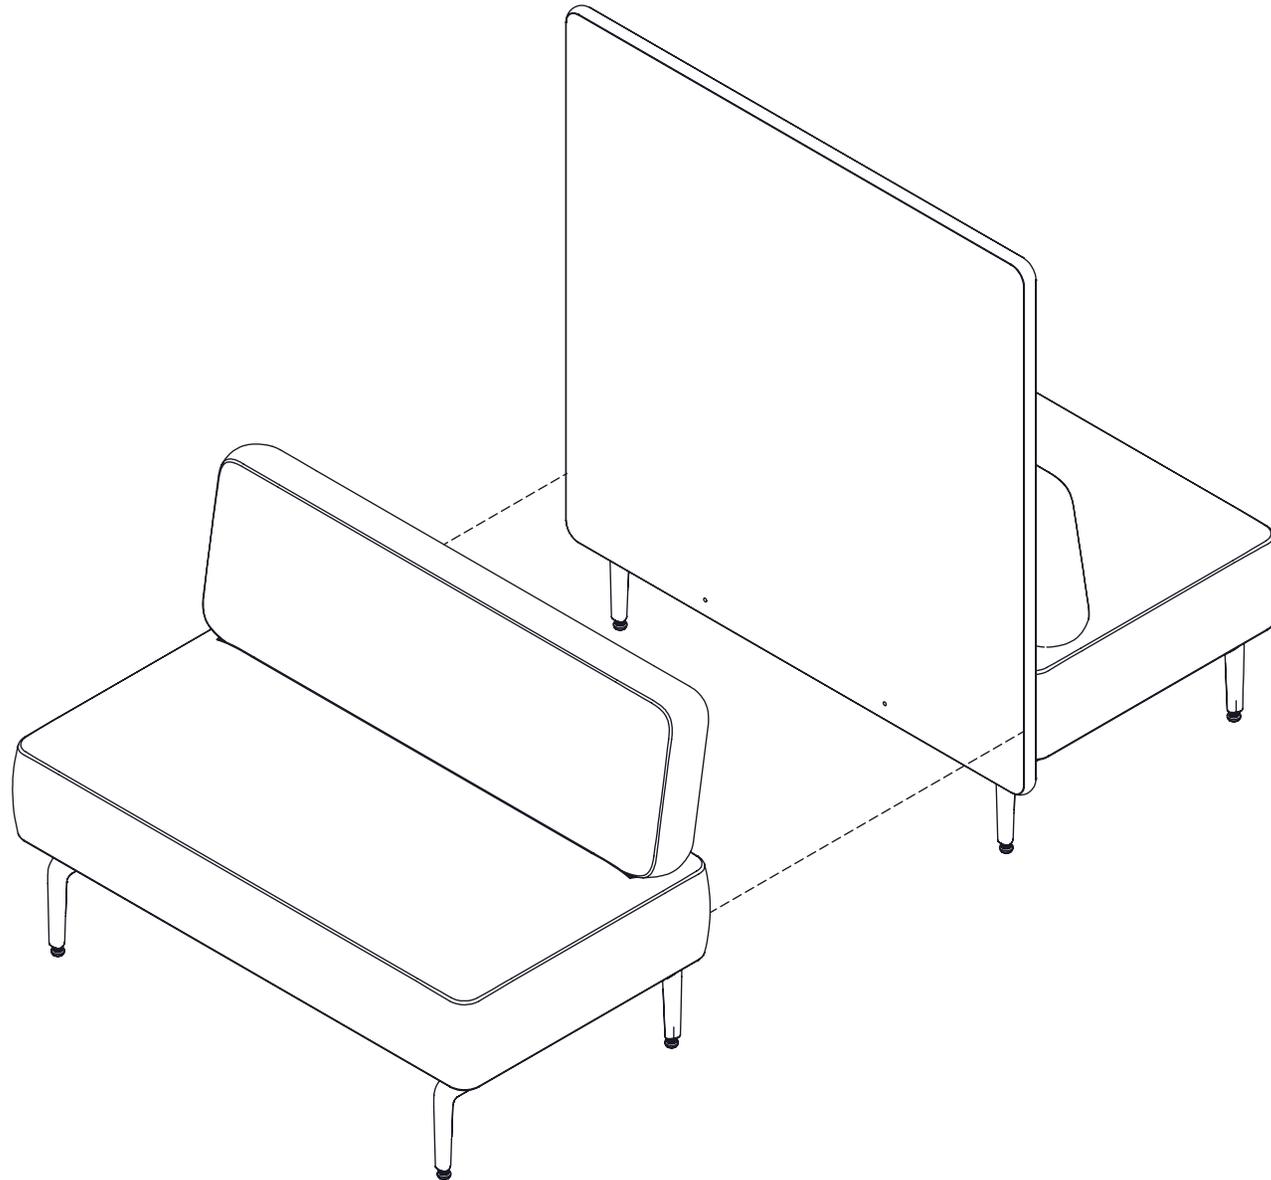

**FINAL PRODUCT ASSEMBLY**

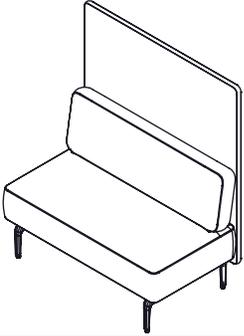

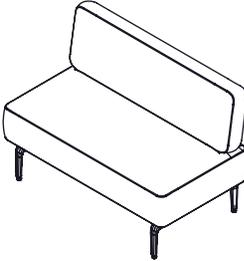

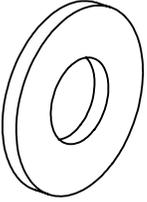

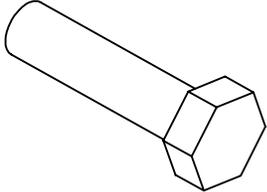

STEP 22: Install channel cover over top of chanel using  $\frac{1}{2}$ " Pan Head Screws. Bias cover towards tether to minimize gap

Banqs Back-To-Back Sofas (NBAB)

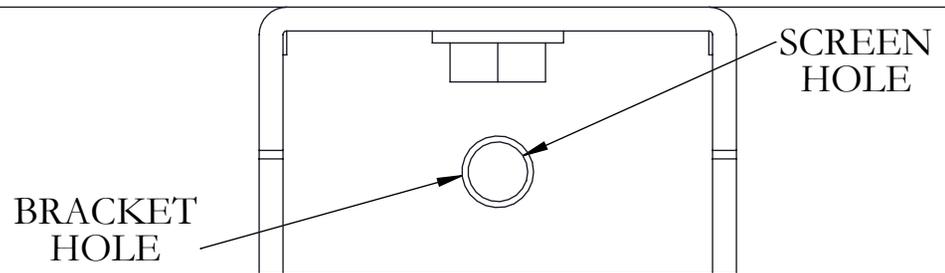

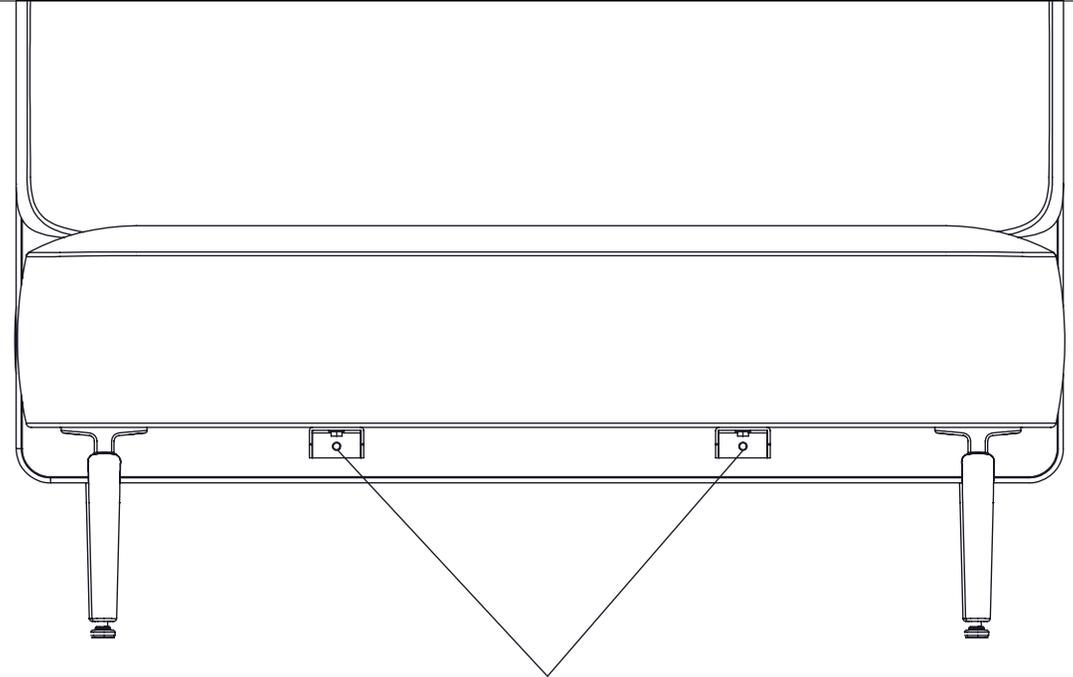

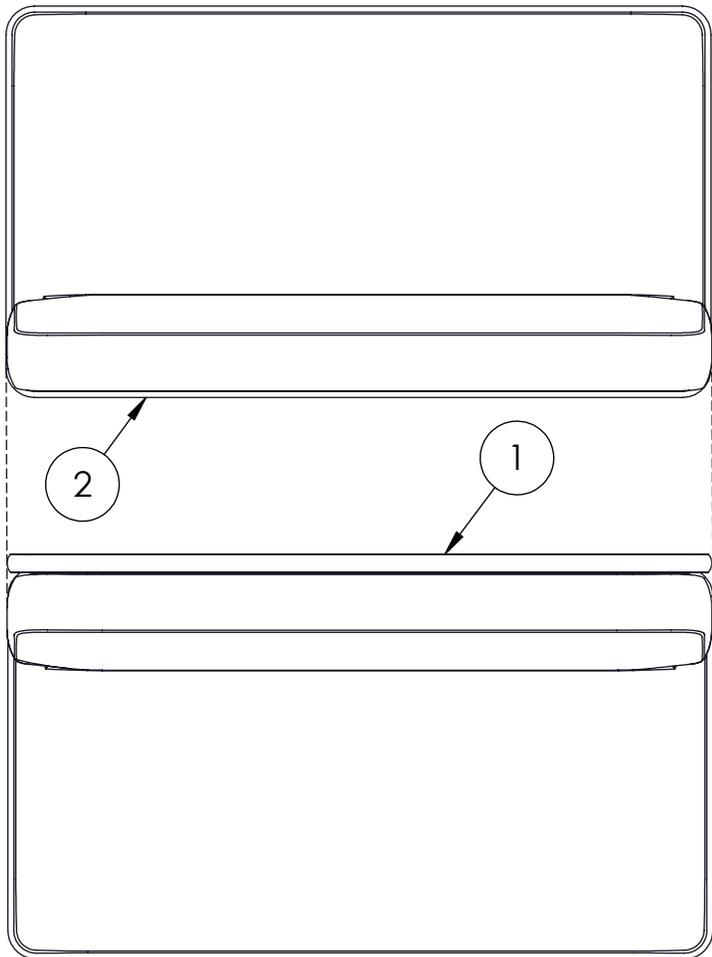

Part & Product Identification

ITEM NO.	PREVIEW	DESCRIPTION	PART NUMBER	QTY.
1		BANQS SOFA W/ SCREEN	N/A	1
2		BANQS SOFA W/O SCREEN	N/A	1
3		WASHER	Q28-0133_5161116_WASHER	2

## ASSEMBLING - DISASSEMBLING NOTES

ALL UNITS ARE SHIPPED FULLY ASSEMBLED

DISASSEMBLE UNITS ONLY IF:

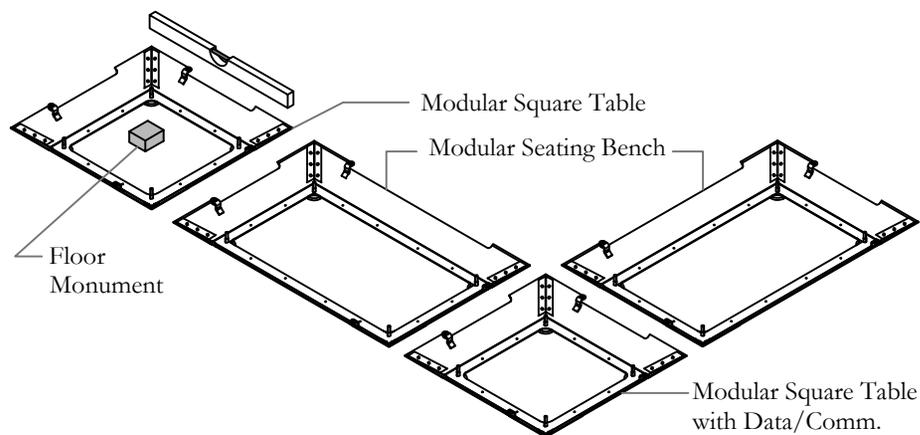

- GANGING BETWEEN UNITS IS DESIRED
- BOLTING UNITS TO THE FINISHED FLOOR
- RE-POSITIONING BOLSTER

## SEPERATE BASE FROM TOP

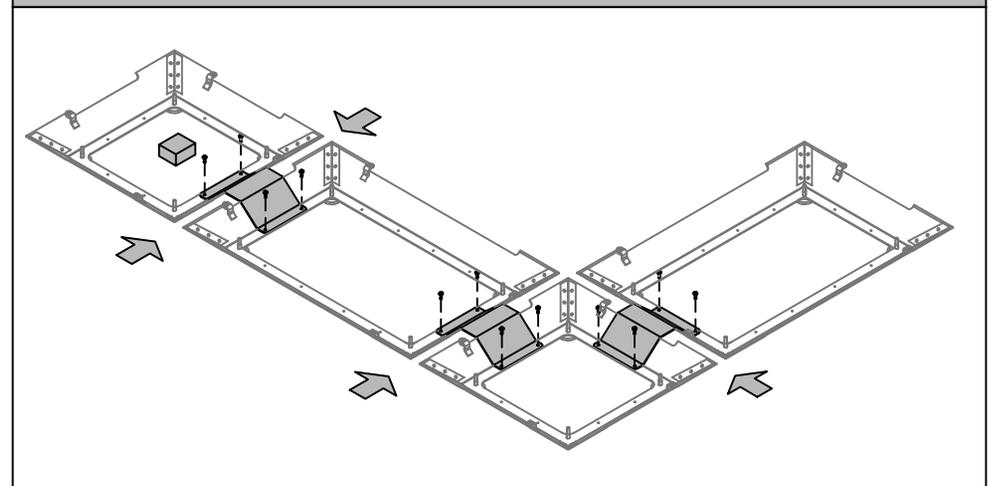

STEP 1: On a clean surface (preferably a clean blanket), place the unit (Benches and/or Square Tables) upside down and remove the four screws as illustrated.

## LAYOUT METAL BASES

STEP 2: Layout Metal Bases as per specification drawings. If a floor monument is the power source for the Power/Data Module, position the Side Table on top of it (if possible). Level all units.

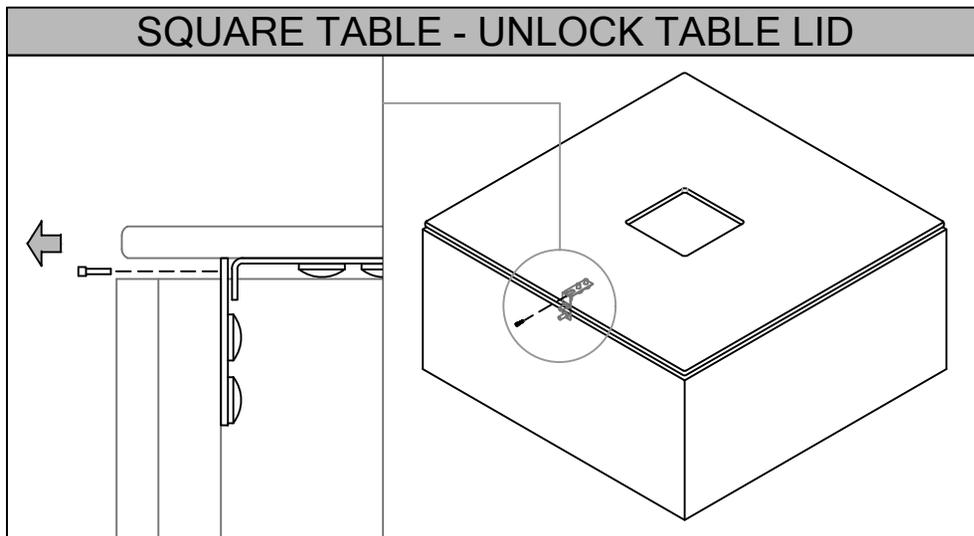

## CONNECTION METAL BASES

STEP 3: Line-up Metal Bases. Place one Linking Bracket on top of two Metal Bases and secure each bracket with four self tapping screws provided.

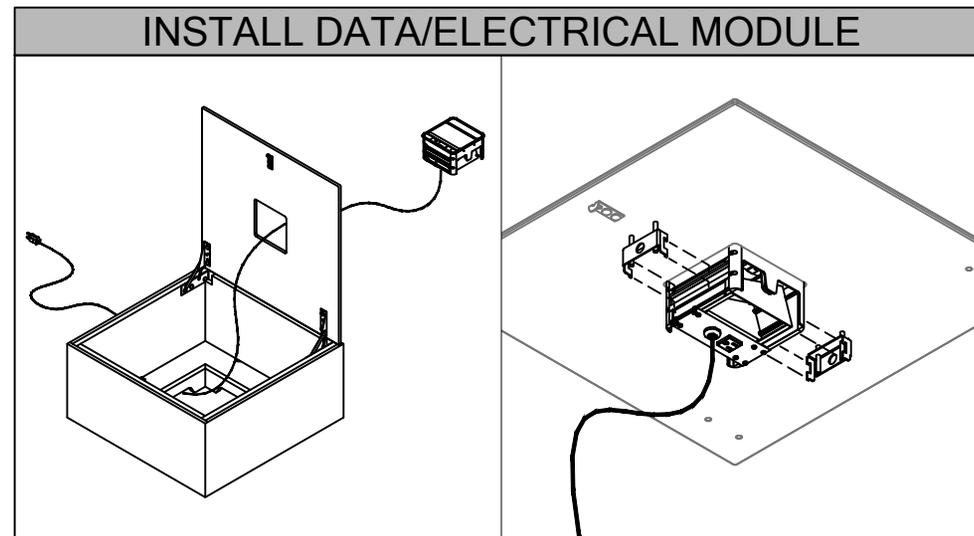

Section: **SOFT SEATING**

Description: dna - DATA/ ELECTRICAL MODULE INSTALLATION INSTRUCTIONS

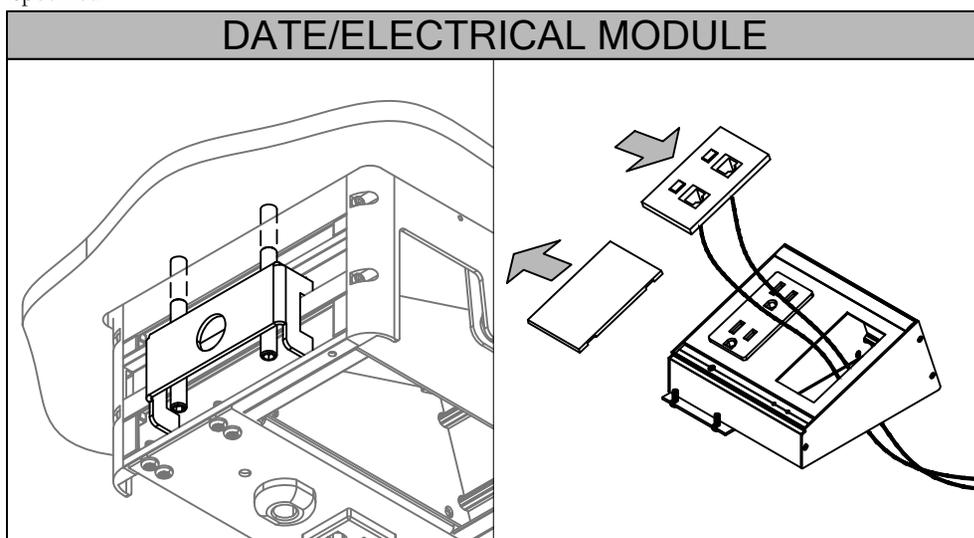

STEP 4: Unlock Table lid by removing the fastener (#16 x 32 Cap Screw 0.5" Long) through edge reveal gap.

NOTE: Please refer to Installation Guide DNA\_04 if dna Square Coffee Table NDNS\_CU is specified.

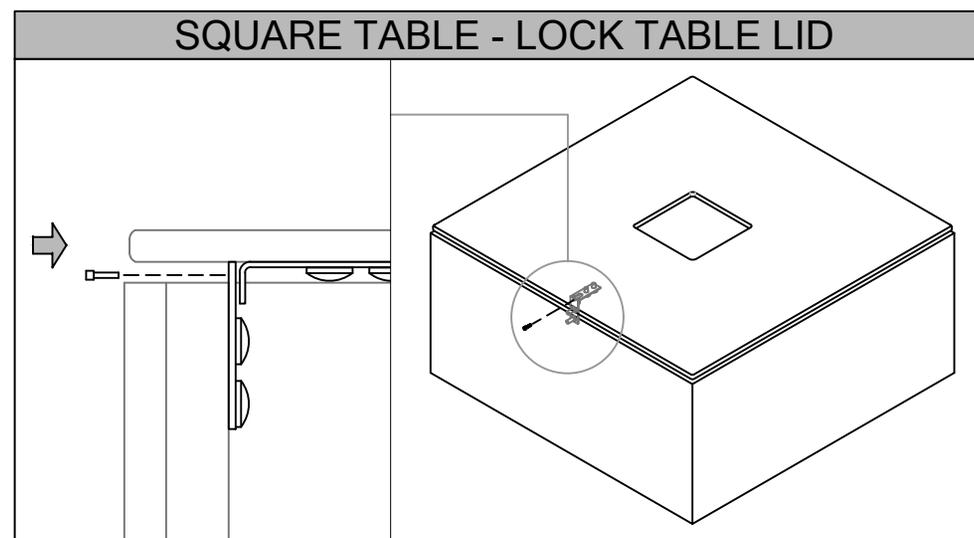

STEP 5: Feed power cord through top cut-out and through the base of the Modular Square Table or Add-On Side Table. The power cord is 15' long.

STEP 6: Engage the two Mounting Brackets on the sides of the Power/Data Module and tighten the set screws to the underside of the Table top.

NOTE: If data connection is required, remove the top cover plate. Route data cables into opening and insert data plate as illustrated.

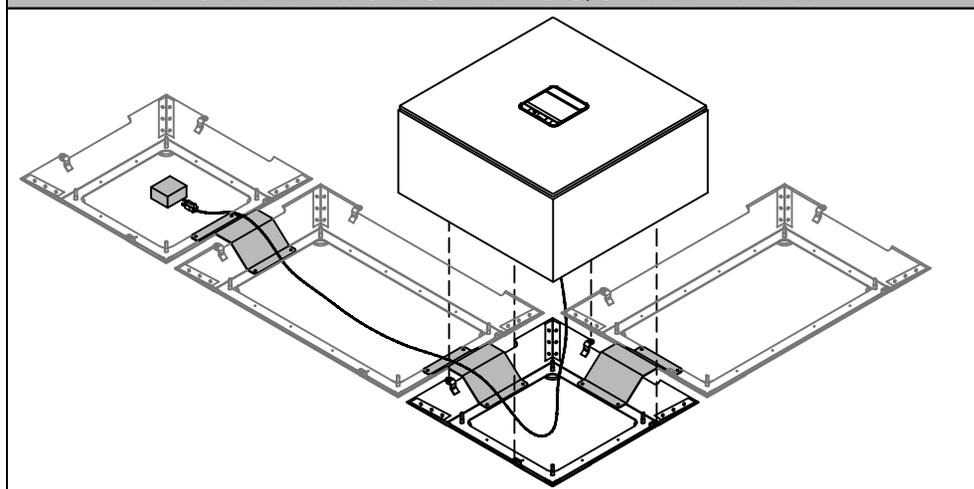

STEP 7: Once the Power/Data Module is secure, close top lid and lock it with the Cap screw.

Section: **SOFT SEATING**

Description: dna - **ADD-ON SIDE TABLE INSTALLATION INSTRUCTIONS**

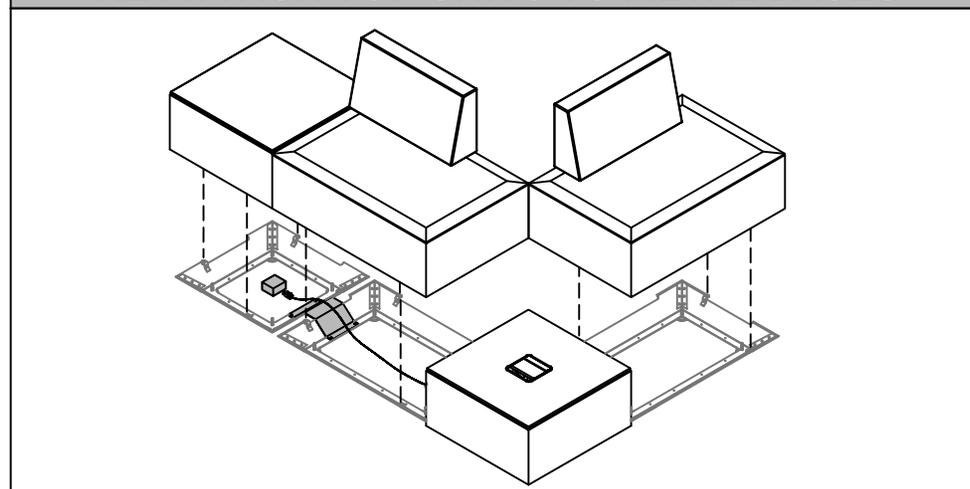

**INSTALL MODULAR SQUARE TABLE**

STEP 8: Align the Square Table with the Metal Base and Fasten as illustrated.

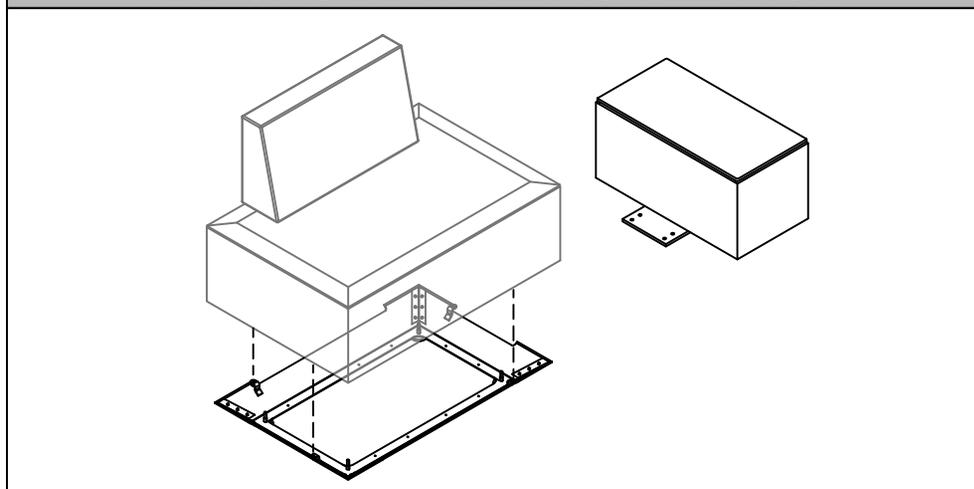

NOTE: Ensure that cables are laid in the cut-out section on the edge of metal bases.

**RE-ATTACH TOP UNITS TO METAL BASES**

STEP 9: Drop remaining Units into corresponding bases. Fasten from underneath.

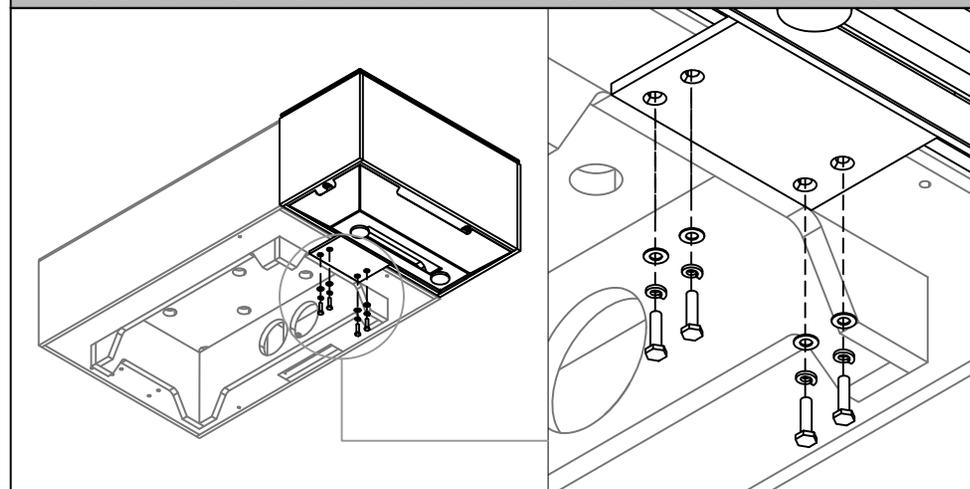

**ADD-ON SIDE TABLE INSTALLATION**

STEP 1: Remove Modular Seating Bench from Metal Base.

NOTE: Add-On Side Table can be attached to a Modular Seating Bench or Square Seat.

**CONNECT SIDE TABLE TO SEATING BENCH**

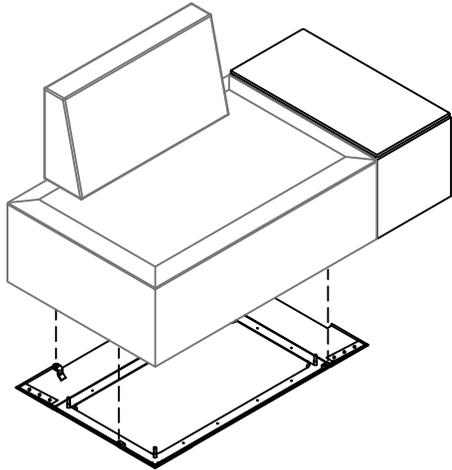

STEP 2: Align the holes of the Add-On Side Table metal plate with the pilot holes on the side of the Modular Bench and fasten with Hex screws and washers provide.

Section: **SOFT SEATING**

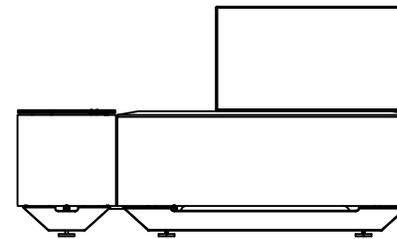

Description: dna - **MODULAR SEATING BENCH WITH SIDE TABLE OPTION**

**RE-ATTACH SEATING BENCH TO METAL BASE**

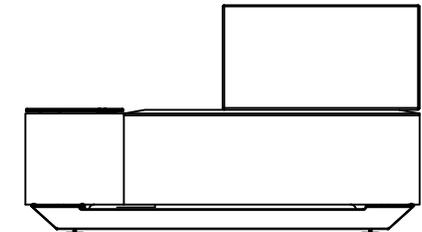

STEP 3: Once Modular Seating Bench and Add-On Side Table are connected, fasten to the metal base.

**SIDE TABLE OPTIONS**

OPTION A

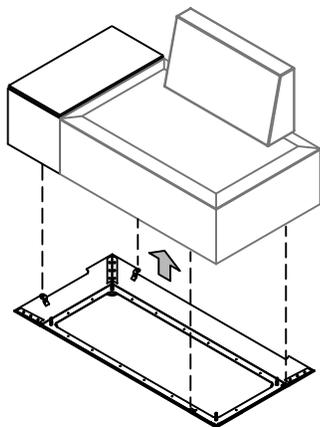

OPTION B

**OPTION A:** Add-On Side Table (NDNM) can be bought as a stand alone product. It can be attached to Modular Seating Bench or Square Seat.

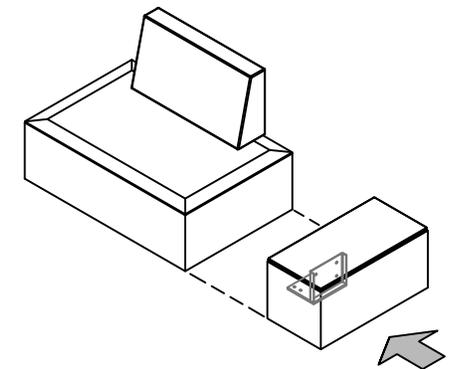

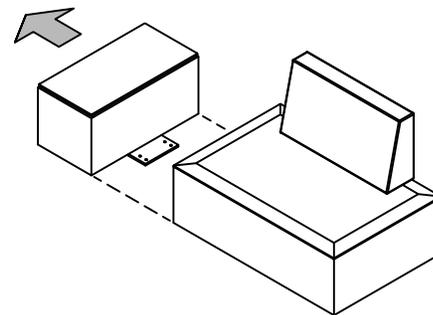

**OPTION B:** Modular Seating Bench or Square Seat can be order with the Side Table option. The Base Frame for this option is one piece. Table can be switched Left or Right.

**REPOSITIONING SIDE TABLE OPTION**

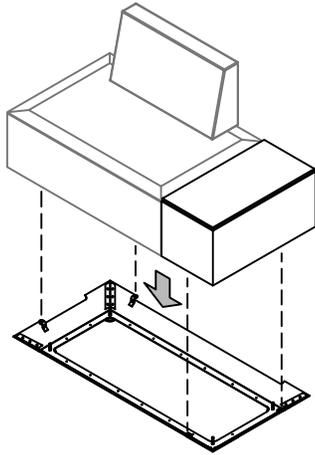

STEP 1: Remove Base Frame from Modular Seating Bench or Square Seat.

**REMOVE/REATTACH SIDE TABLE**

STEP 2: Remove fasteners securing Side Table to Bench from its original position. Bring Side Table to Opposite side and fasten to Bench.

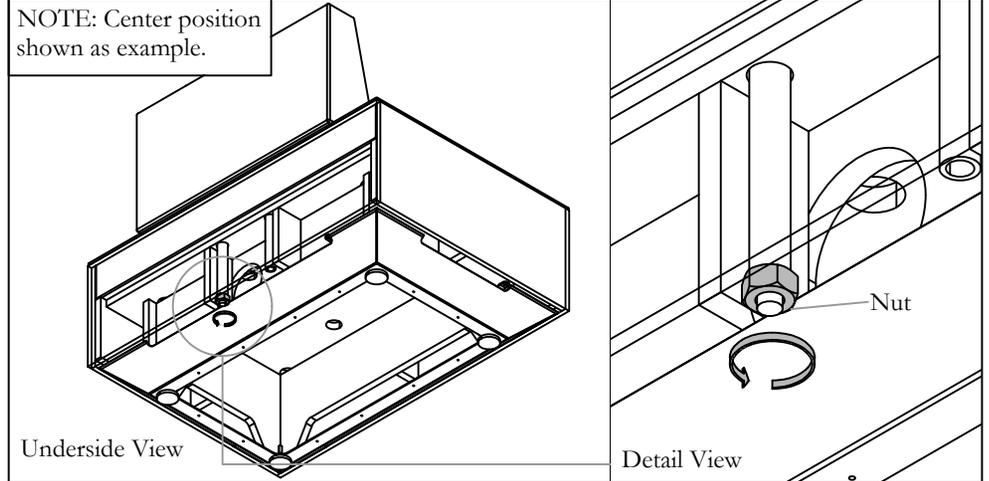

### FASTEN TO METAL BASE

STEP 3: Once Bench and Side table are connected, re-attach to Metal Base Frame.

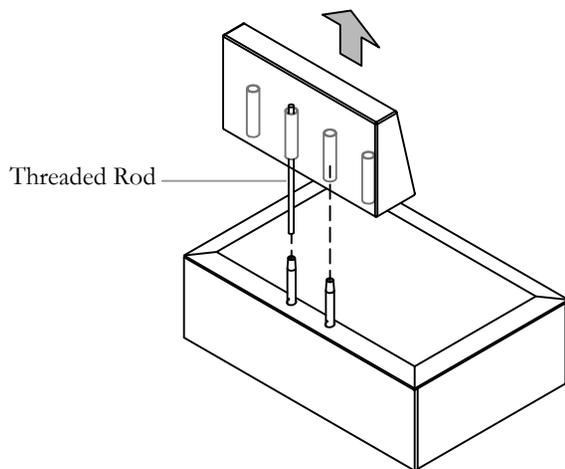

### BOLSTER POSITIONS

NOTE: Center position shown as example.

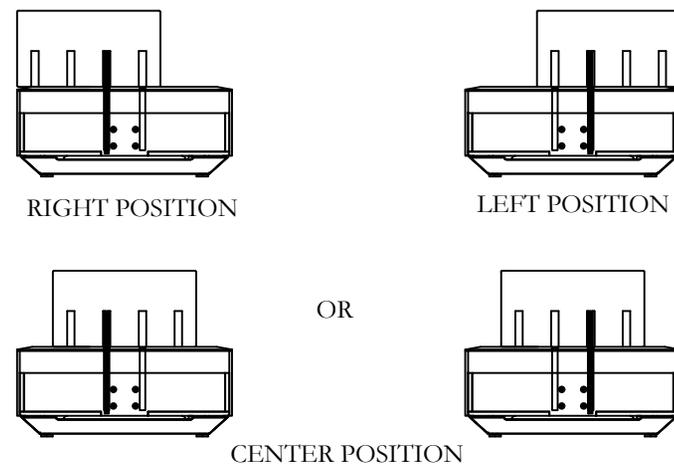

STEP 1: Remove Nut from Threaded Rod as shown.

### LOOSEN BOLSTER

STEP 2: Slide the Bolster off from Seat Posts.

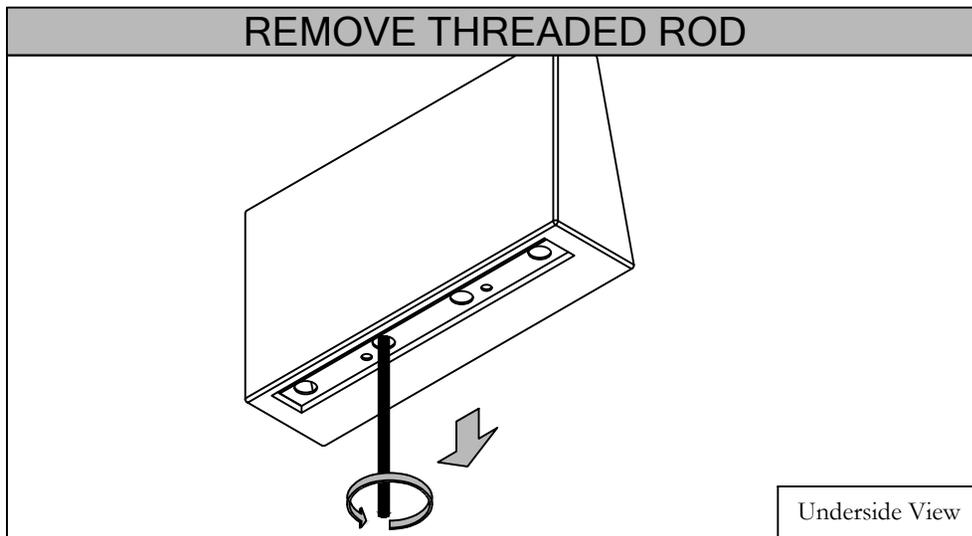

### THREADED ROD SETTING (BACK VIEW)

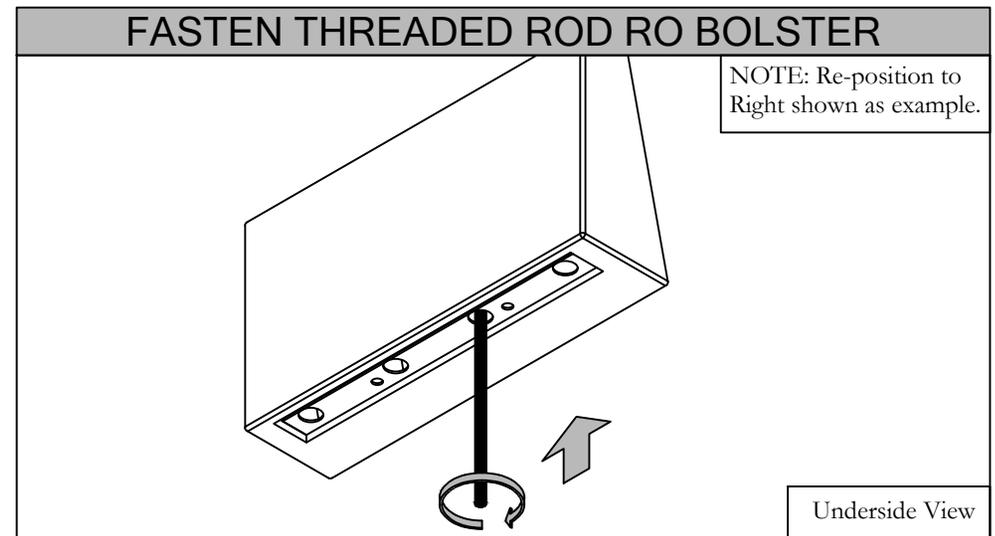

NOTE: Please refer to above diagram for Threaded Rod, Seat Posts and Bolster setting.

Section: **SOFT SEATING**

Description: dna - **REPOSITION BOLSTER**

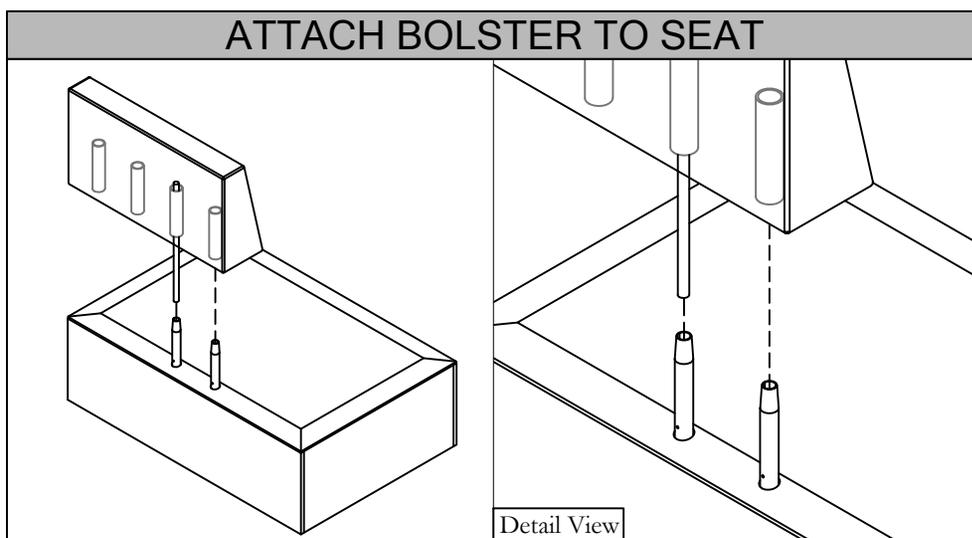

STEP 3: Remove the Threaded Rod from Bolster.

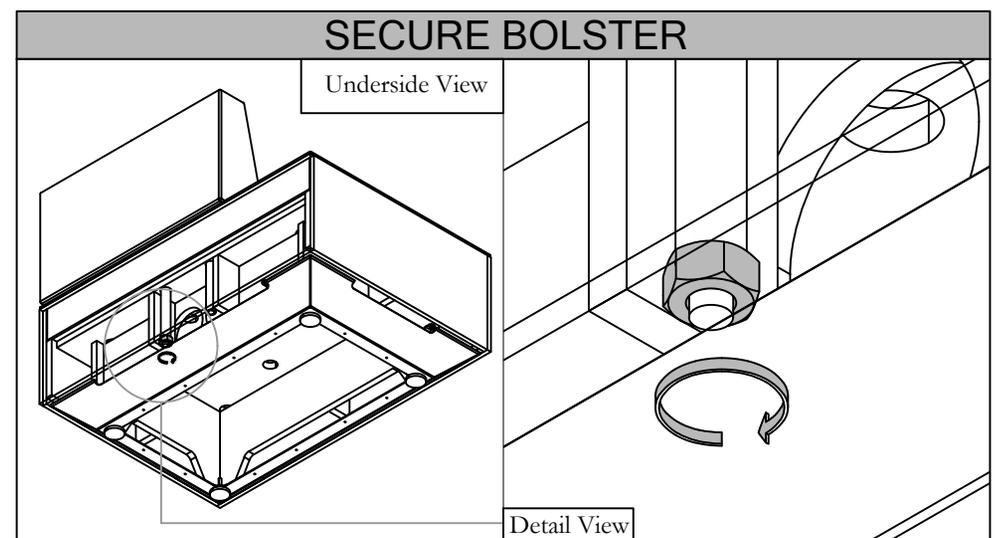

STEP 4: Fasten Thread Rod into Bolster.

NOTE: Please refer to Threaded Rod Setting Diagram. Proceed Step 3 and 4 ONLY if Threaded Rod needs to be re-positioned.

STEP 5: Insert Bolster to Seat Post.

STEP 6: Secure Bolster in place by fastening Nut to Threaded Rod.

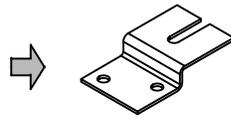

Section: **SOFT SEATING**

Description: dna - **FLOOR MOUNTING BRACKET INSTALLATION**

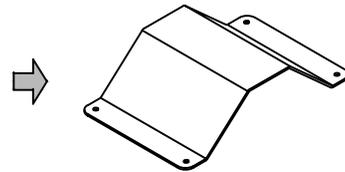

**SECURING UNITS TO THE FLOOR**

NOTES:

Modular Seating Bench or Square Seat and Modular Square Table or Add-On Side Table can be secured to the floor with a FLOOR MOUNTING BRACKET.

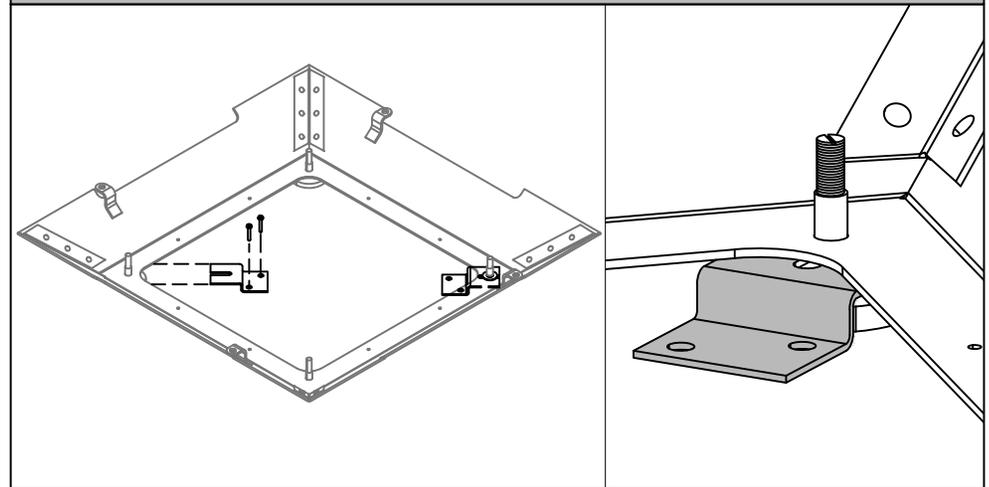

When securing more than one unit to the floor, ONE Linking Bracket (NDNJ) is needed in order to space the metal bases evenly and accurately.

Installing Floor Mounting Brackets and Linking Brackets for every Metal Base (in-line) IS NOT REQUIRED.

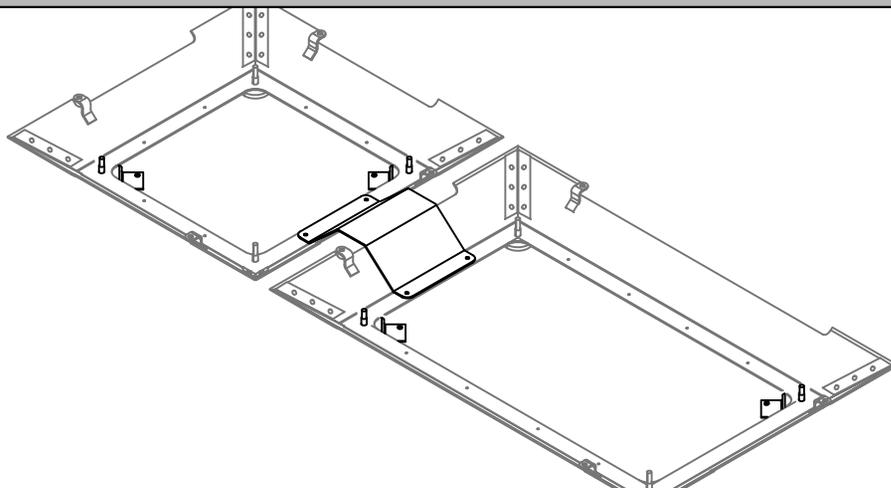

**FASTEN FLOOR MOUNTING BRACKET**

STEP 1: Lay out Bases in their desired location. Use two Floor Mounting Brackets (per unit) in opposite corners as shown. Fasten to the floor.

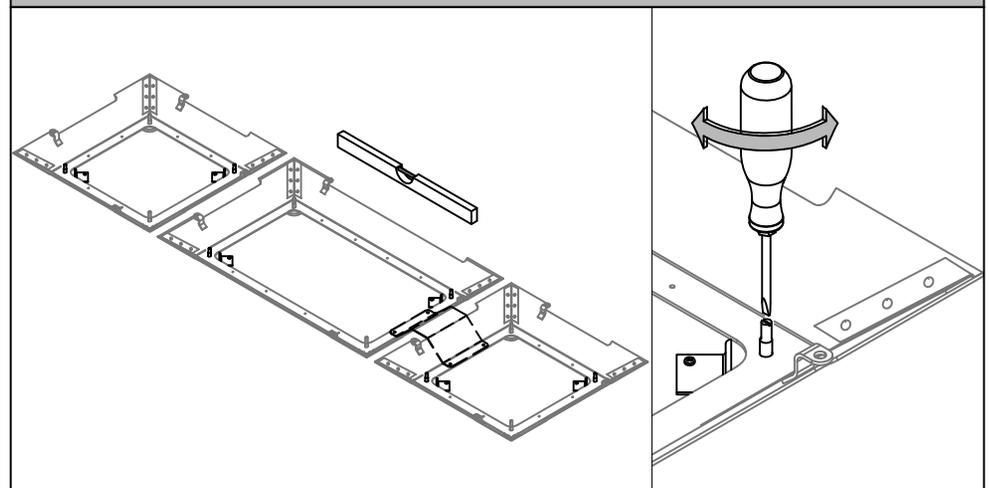

**NOTE:** Selection and purchase of floor mounting fasteners to be determined by the installers based on floor conditions.

**SPACE BASES WITH LINKING BRACKET**

STEP 2: Use a Linking Bracket to space the Metal Bases accurately, then fasten the Floor Mounting Brackets.

**FASTEN AND LEVEL METAL BASES**

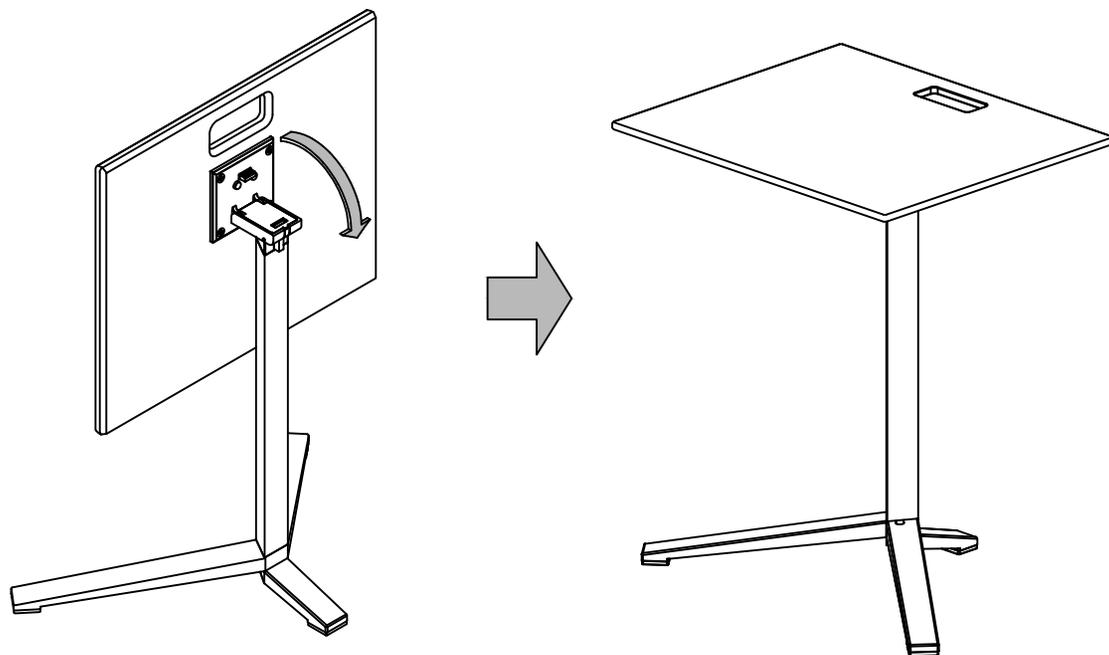

STEP 3: Move the Linking Bracket to space the next Metal Base. Fasten to the floor.

	 <p><b>C4</b> - Screws (Supply with Manufacture)x1</p>
	 <p><b>C5</b> - Wireless Transmitter (AX-WK300-TX) x1</p>

OPEN TABLE

STEP 1: Open dna Square Coffee Table

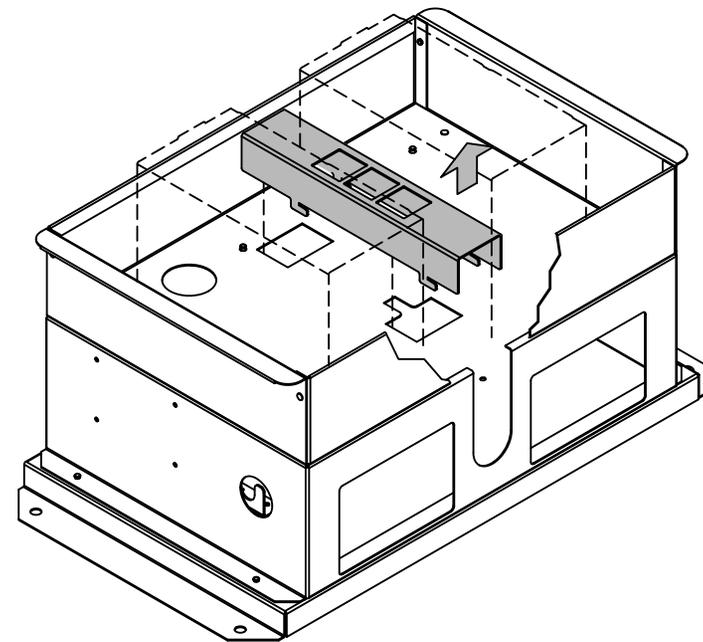

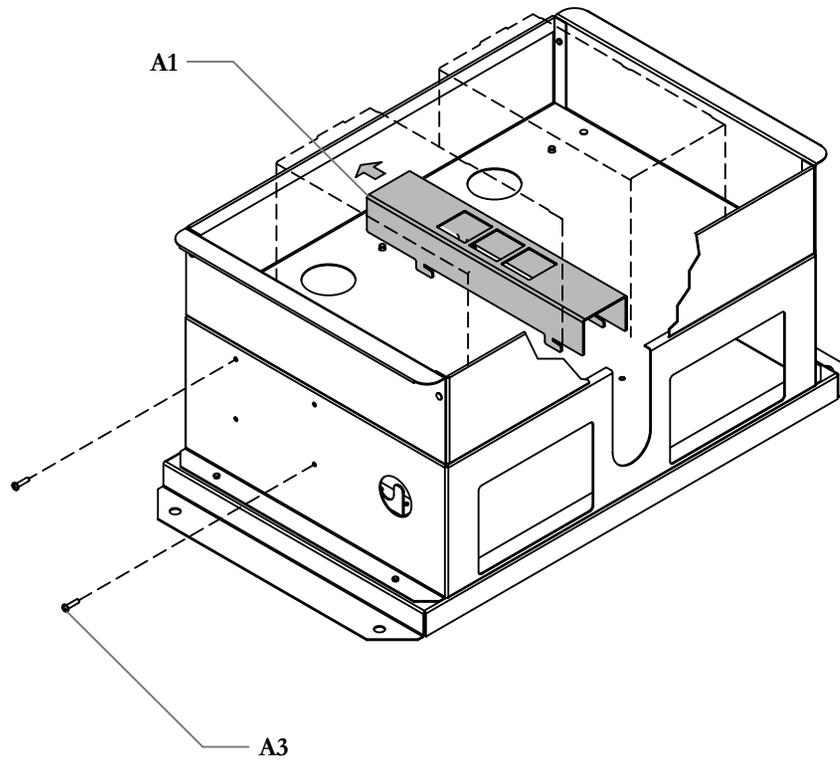

REMOVE METAL ENCLOSURE

STEP 2: Loosen Screws and remove Metal Enclosure from the Table

NOTE: Make sure to keep the Screws for future installation

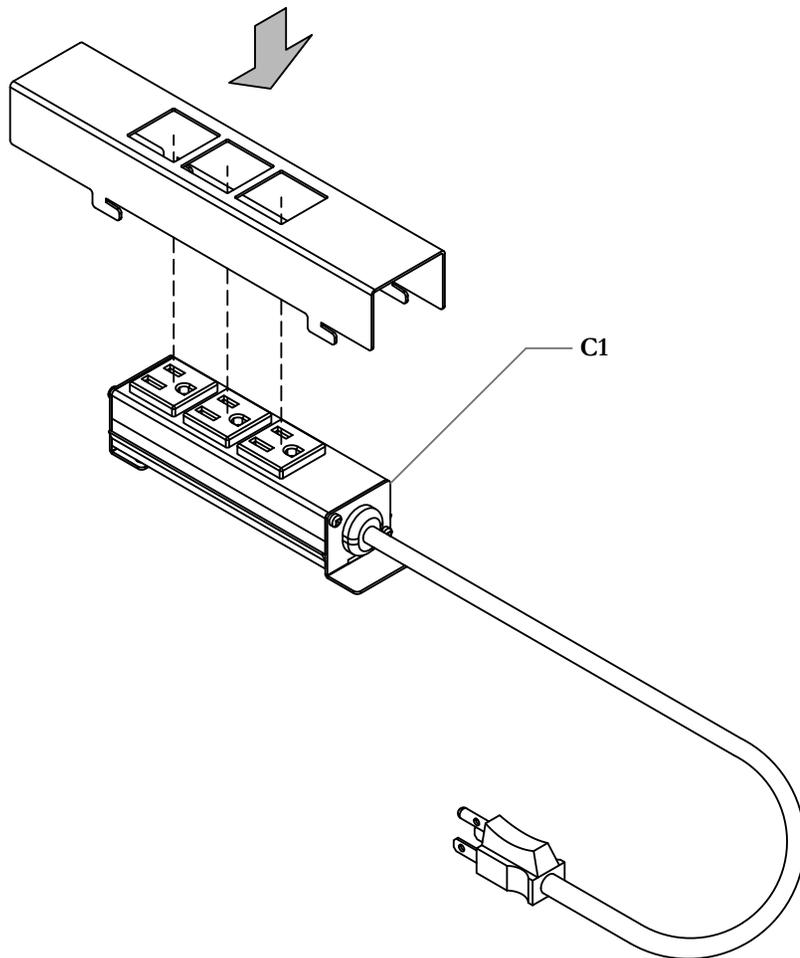

REMOVE POWER BAR SHROUD

STEP 3: Remove Power Bar Shroud and Screws on the side of Enclosure as shown

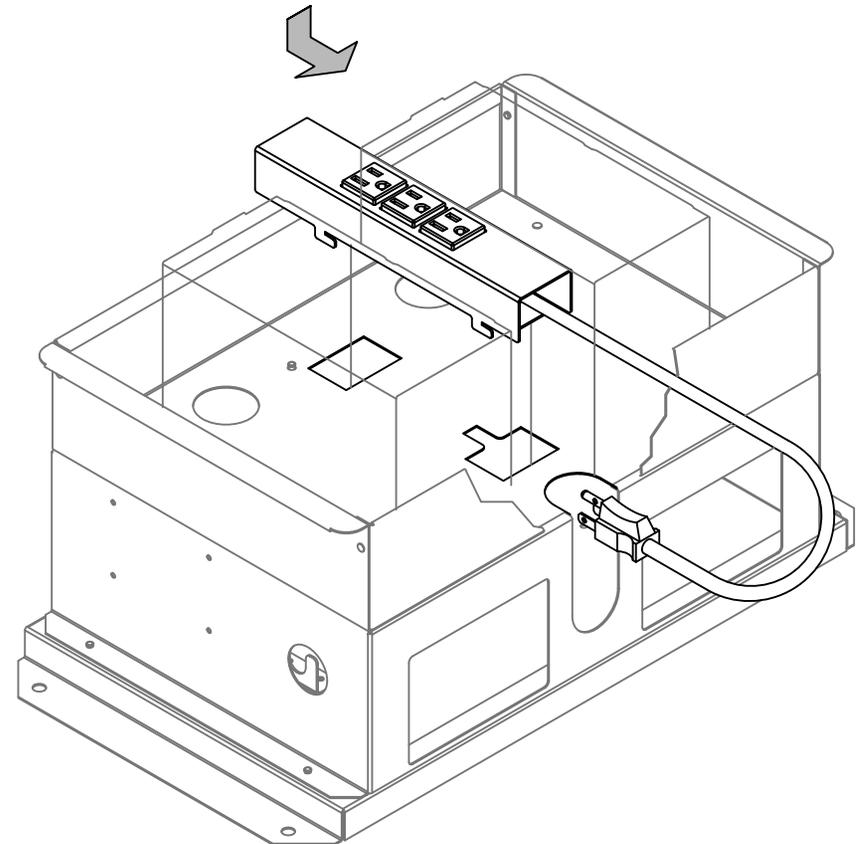

NOTE: Make sure to keep the Screws for future installation

**MOUNT POWER BAR**

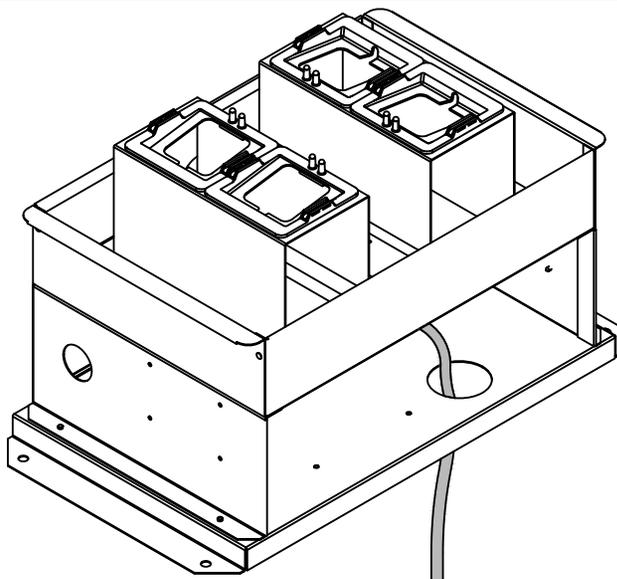

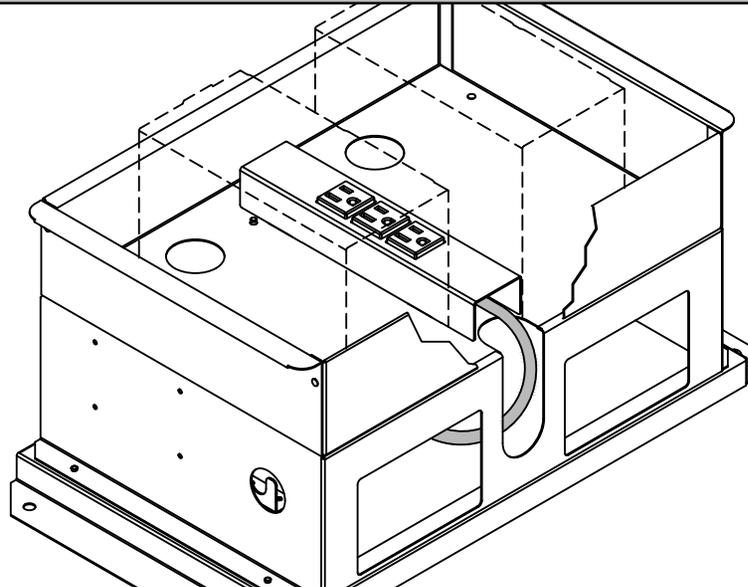

STEP 4: Mount Power Bar Shroud onto Power Bar as shown

**POWER BAR SHROUD ASSEMBLY**

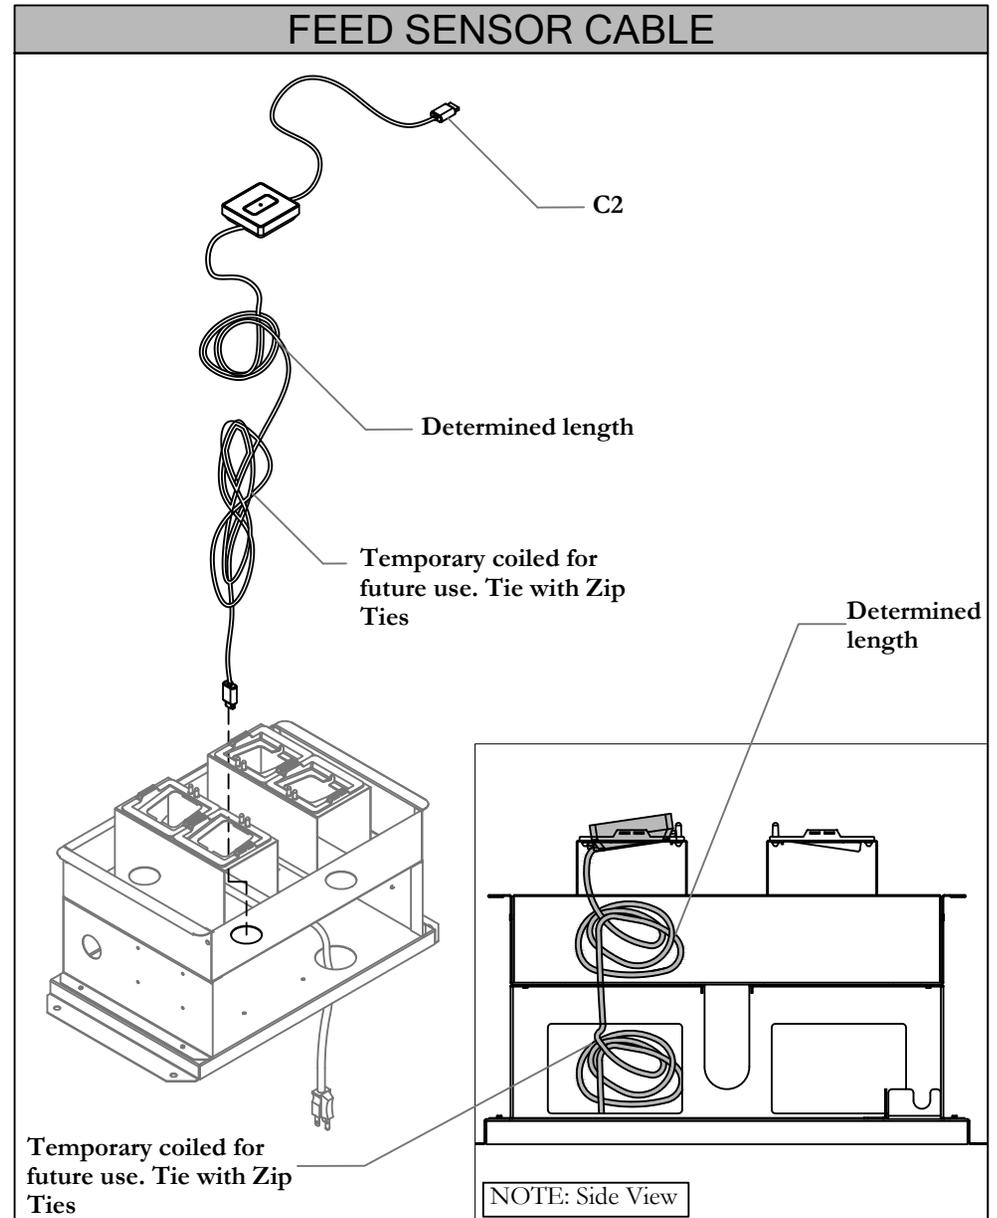

STEP 5: Refer to STEP 3 to remount Power Bar Shroud onto Metal Encloser

**FEED POWER BAR CABLE**

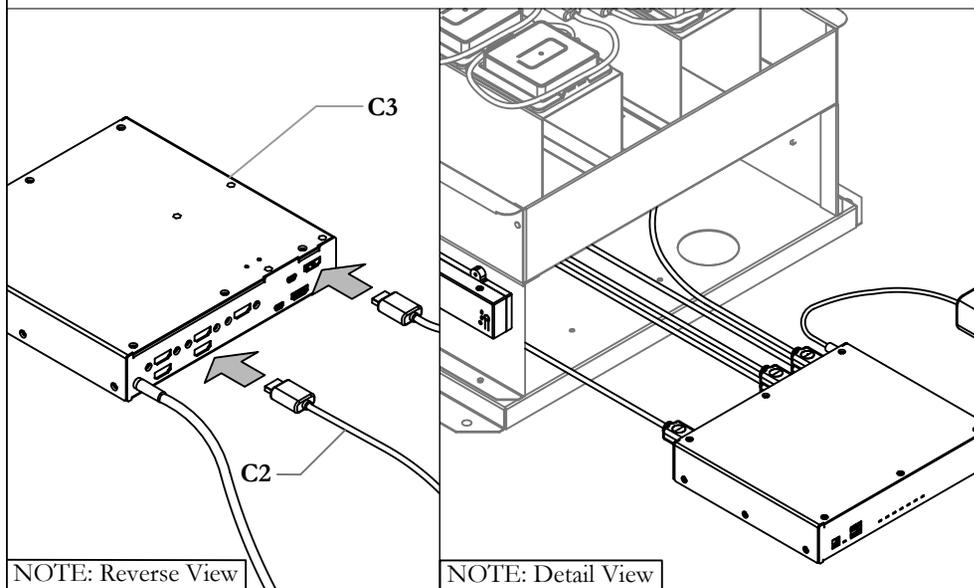

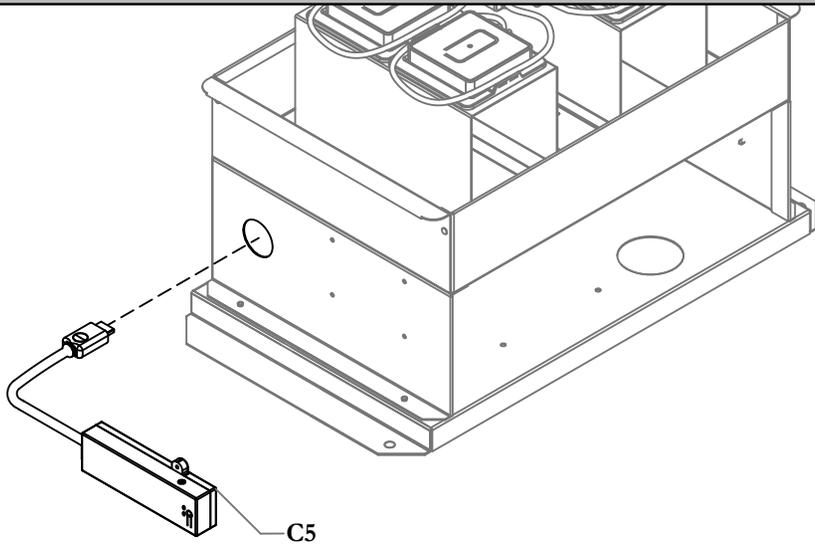

STEP 6: Feed Power Bar Cable into Metal Enclosure and through the cut-out in bottom as shown

**FEED SENSOR CABLE**

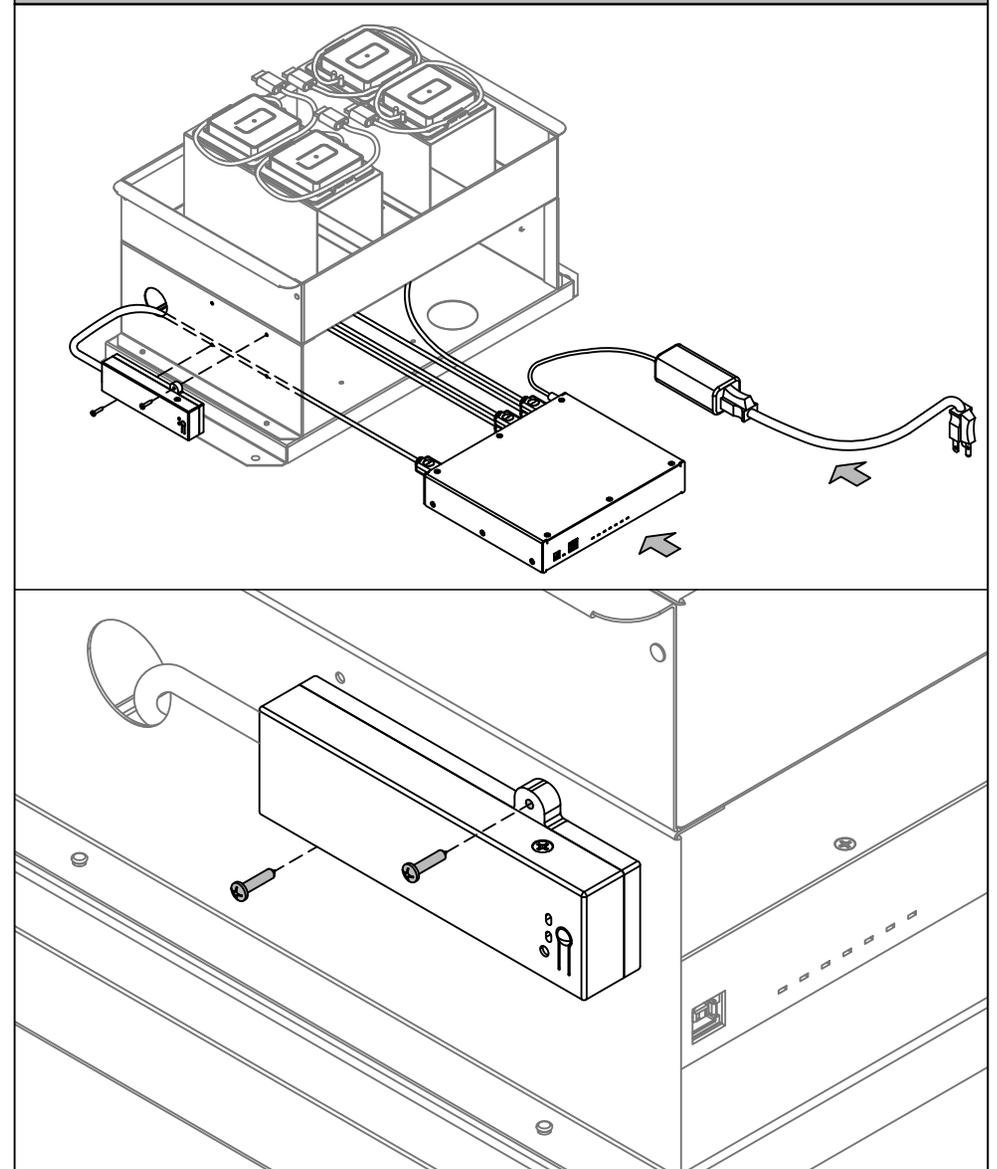

STEP 7: Feed Sensor Cable into the Metal Enclosure and attach Sensor onto the Sensor Holder

**FEED TRANSMITTER CABLE & PLUG CABLES**

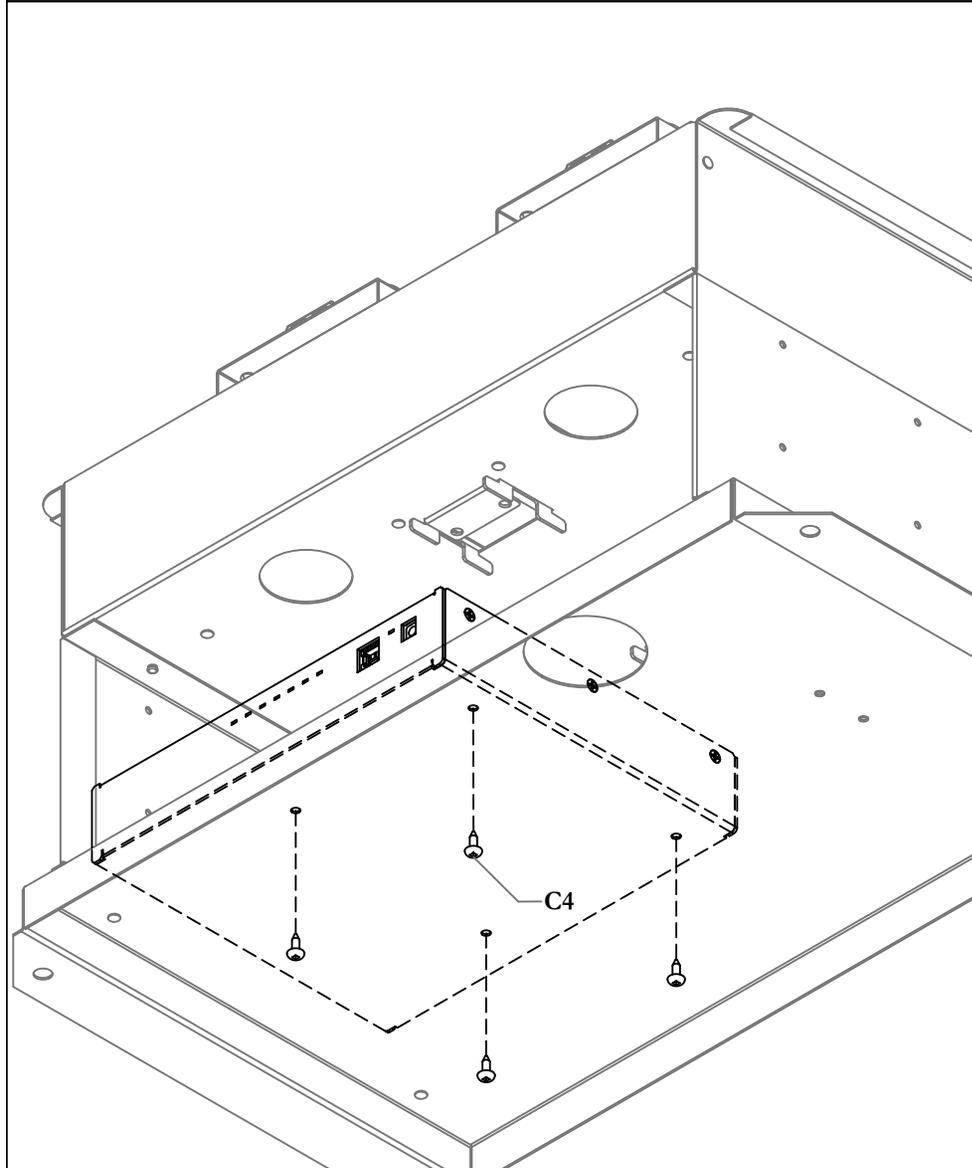

STEP 8: Feed Wireless Transmitter Cable inside the Metal Enclosure. Then connect cables with Switcher

**PLACE SWITCHER & TRANSMITTER ASSEMBLY**

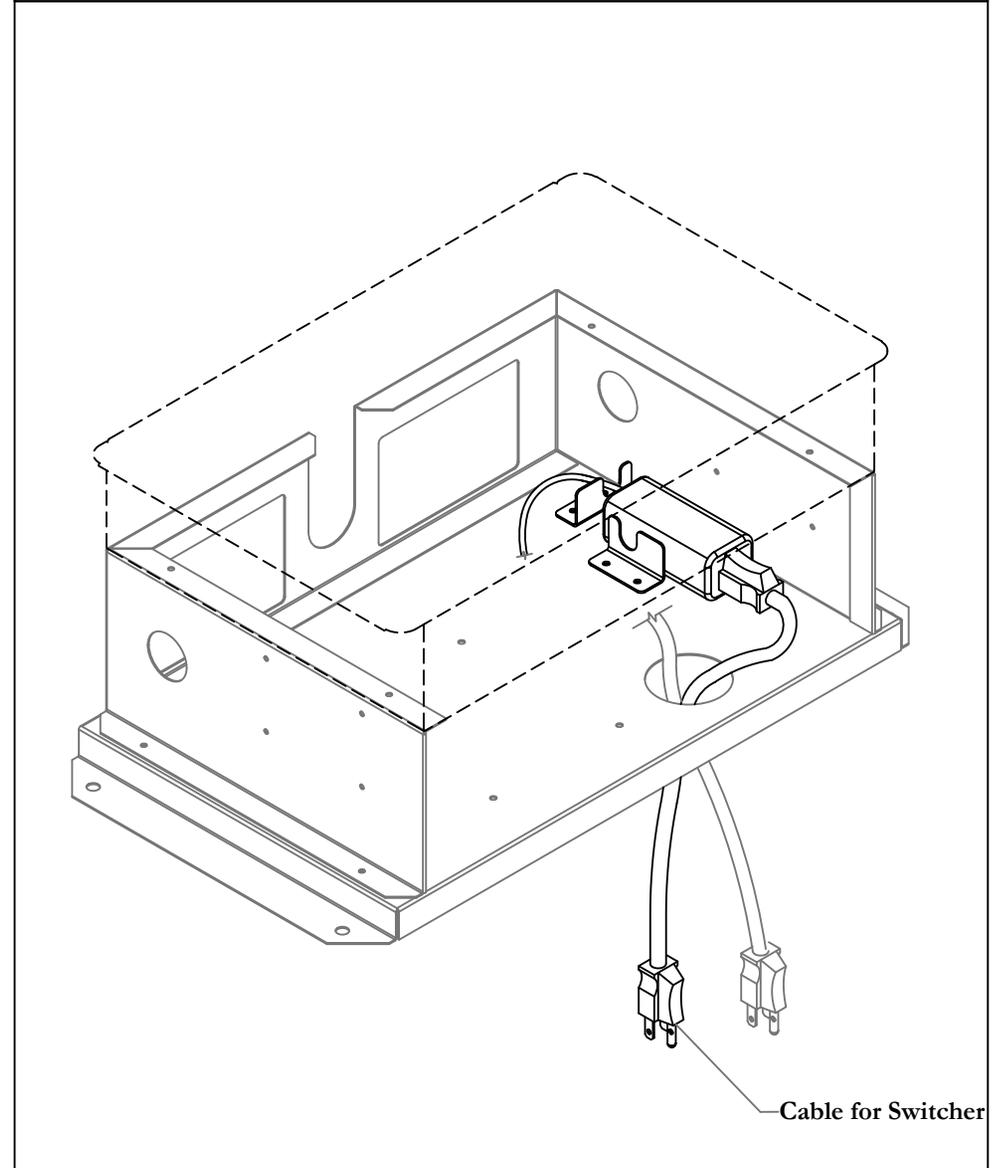

STEP 9: Place all devices into the Enclosure. Align Transmitter with hole on the side of Metal Enclosure then fasten with Screws previously removed.

**POSITION SWITCHER & MOUNT TRANSMITTER**

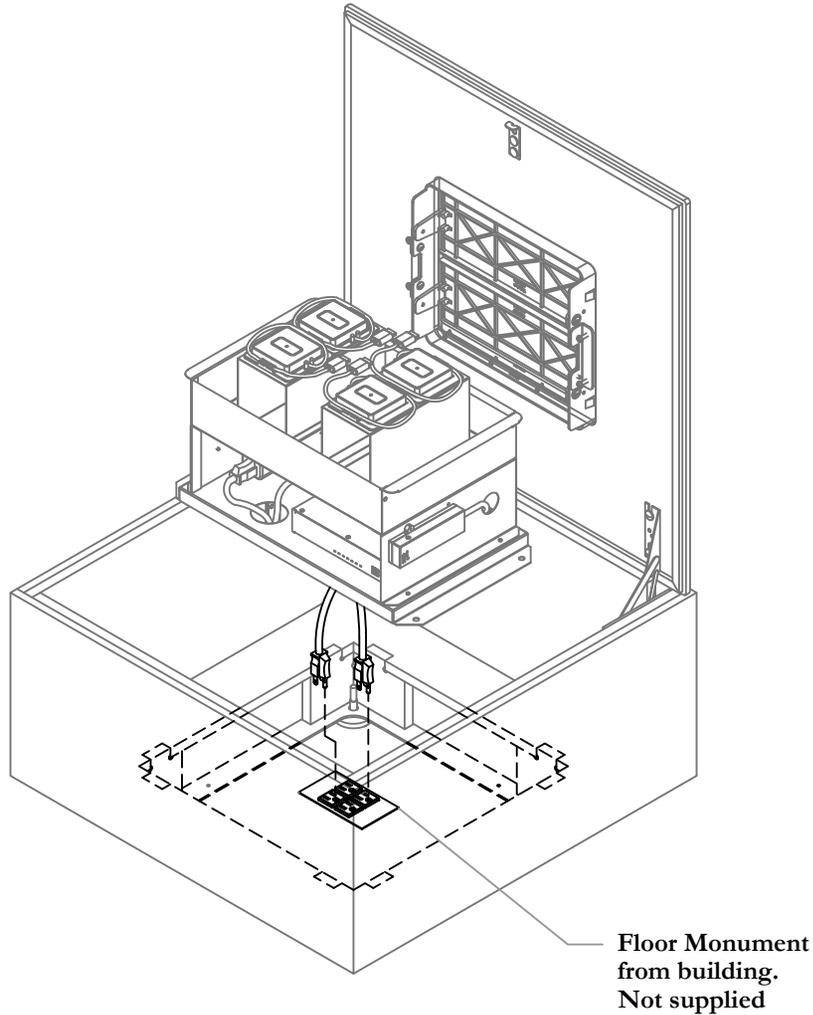

STEP 10: Align holes under Transmitter and Enclosure fasten with Screws provided

**FEED CABLE THROUGH METAL ENCLOSURE**

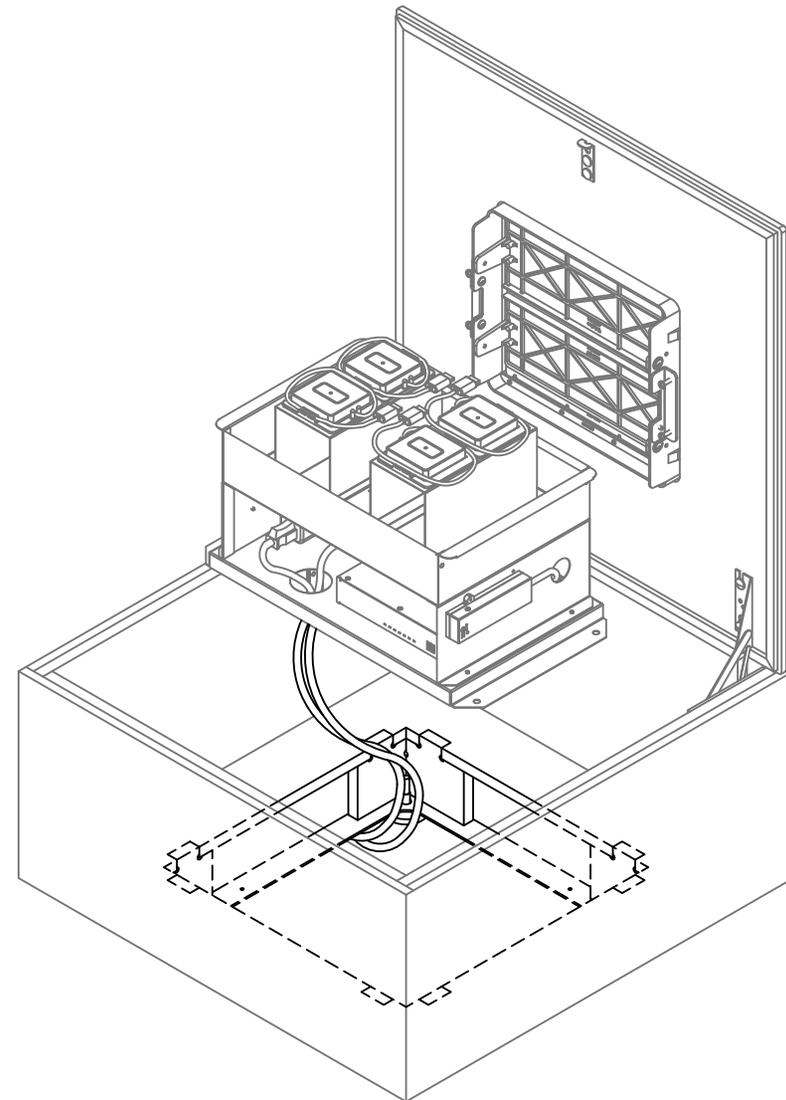

STEP 11: Place Power Brick inside the CLUBtalk Holding Brackets and feed cable through the cut-out as shown

**CONNECT TO POWER SOURCE**

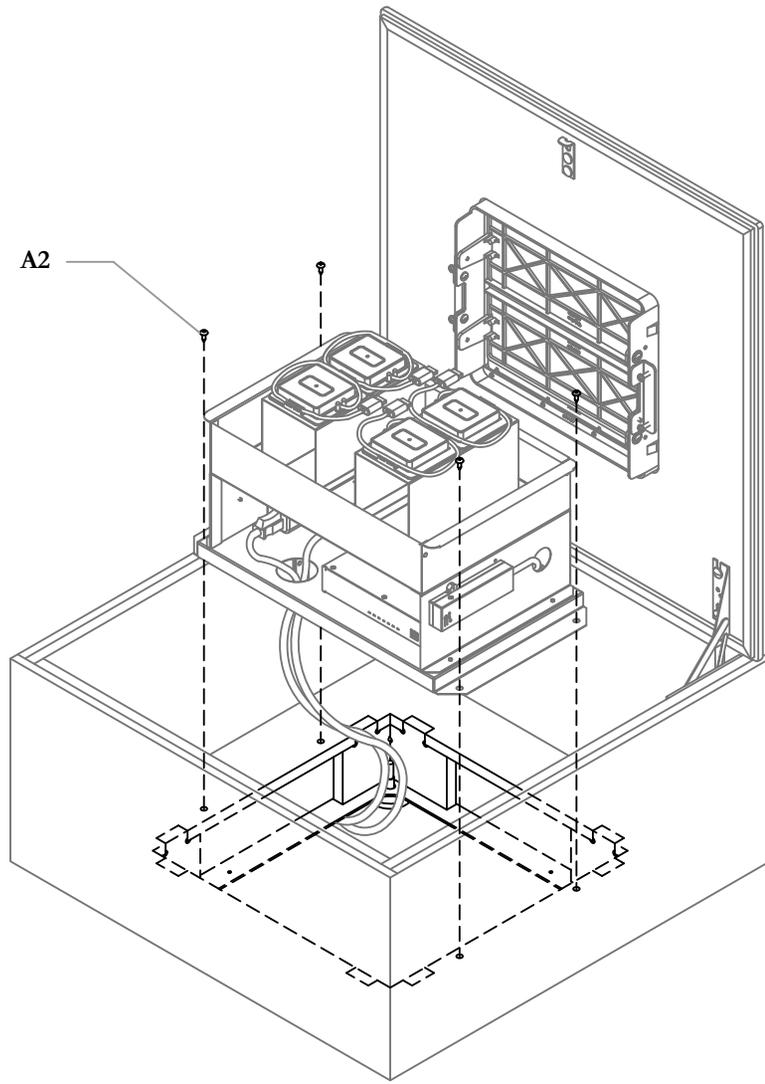

STEP 12a: Plug Cables to power source

**FEED CABLE THROUGH COFFEE TABLE**

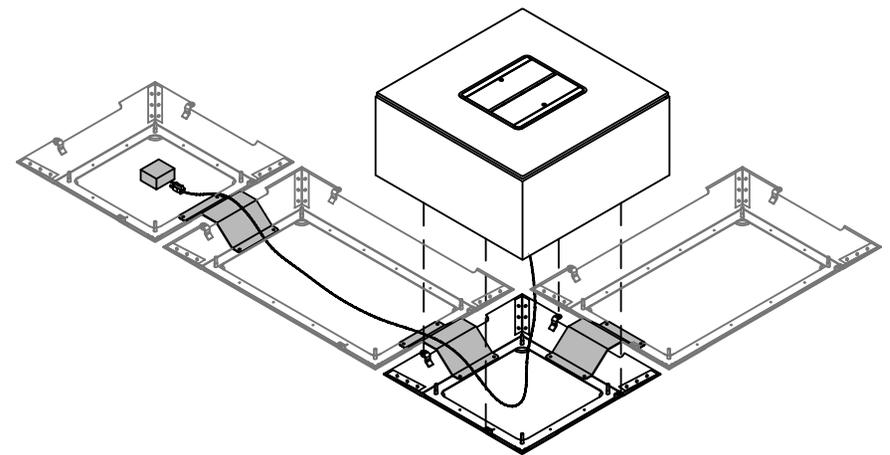

STEP 12b: Feed Cables through the dna Table if power source is not located under the Table

**METAL ENCLOSURE ASSEMBLY**

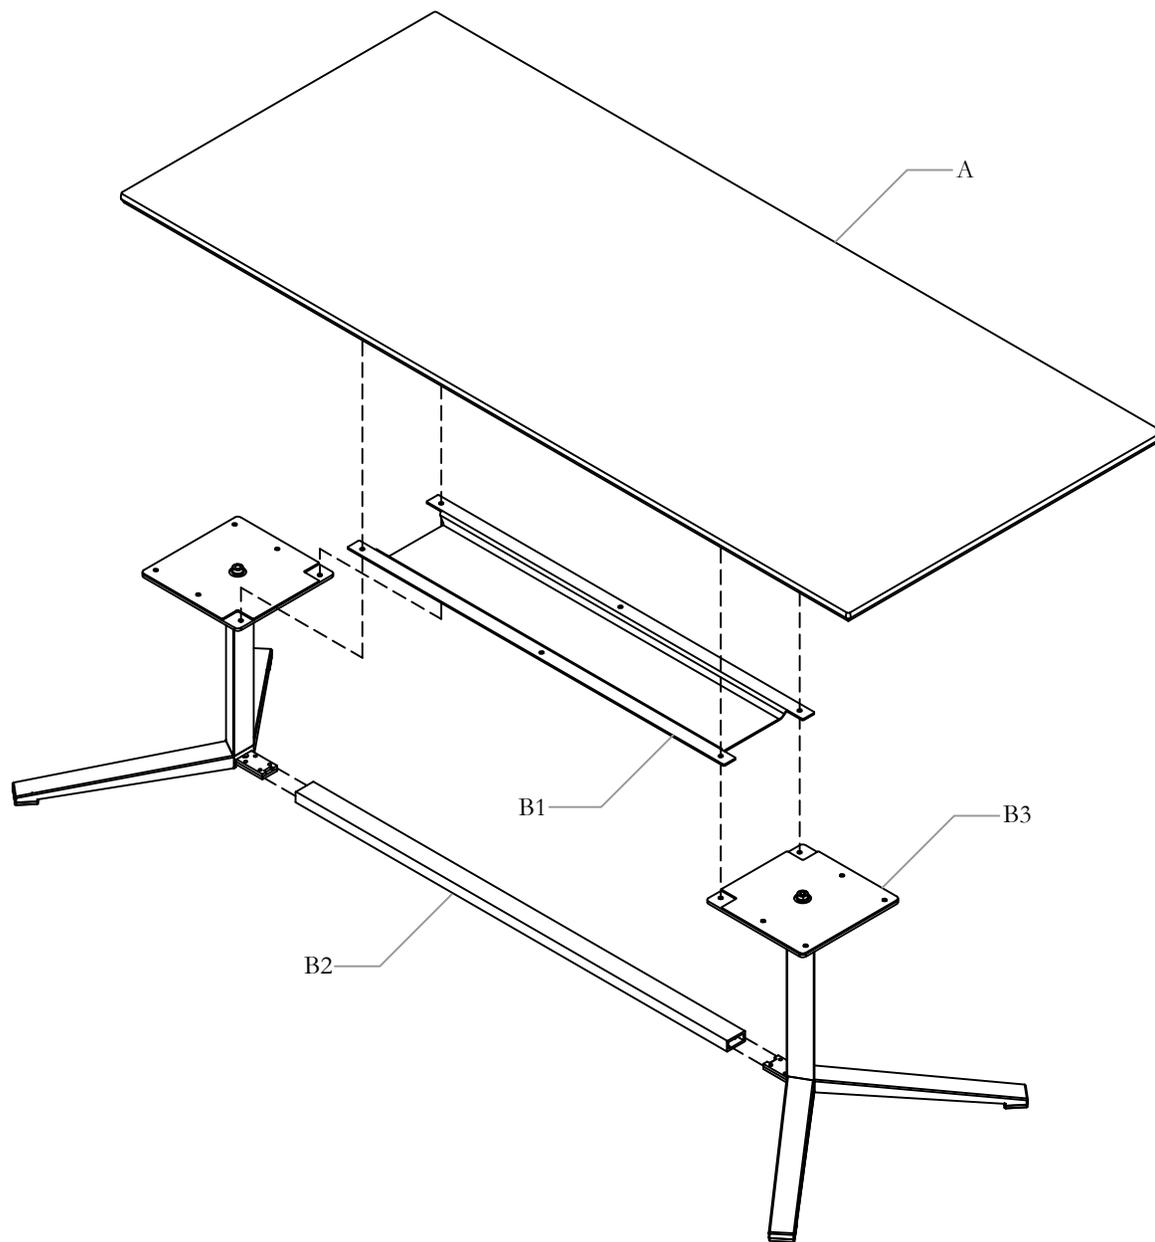

STEP 13: Secure Metal Enclosure inside the Table with Screws

**TABLE ASSEMBLY**

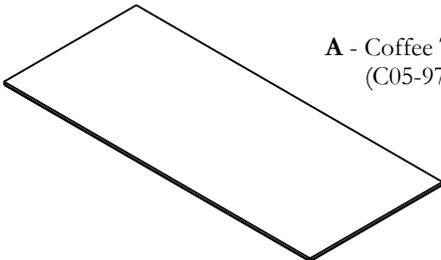

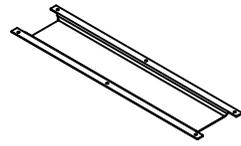

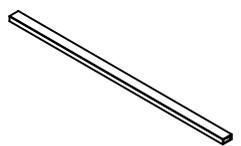

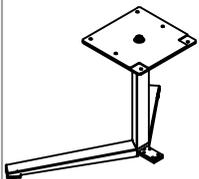

STEP 14: Please proceed with Installation Guide TSC\_302a for further more installation

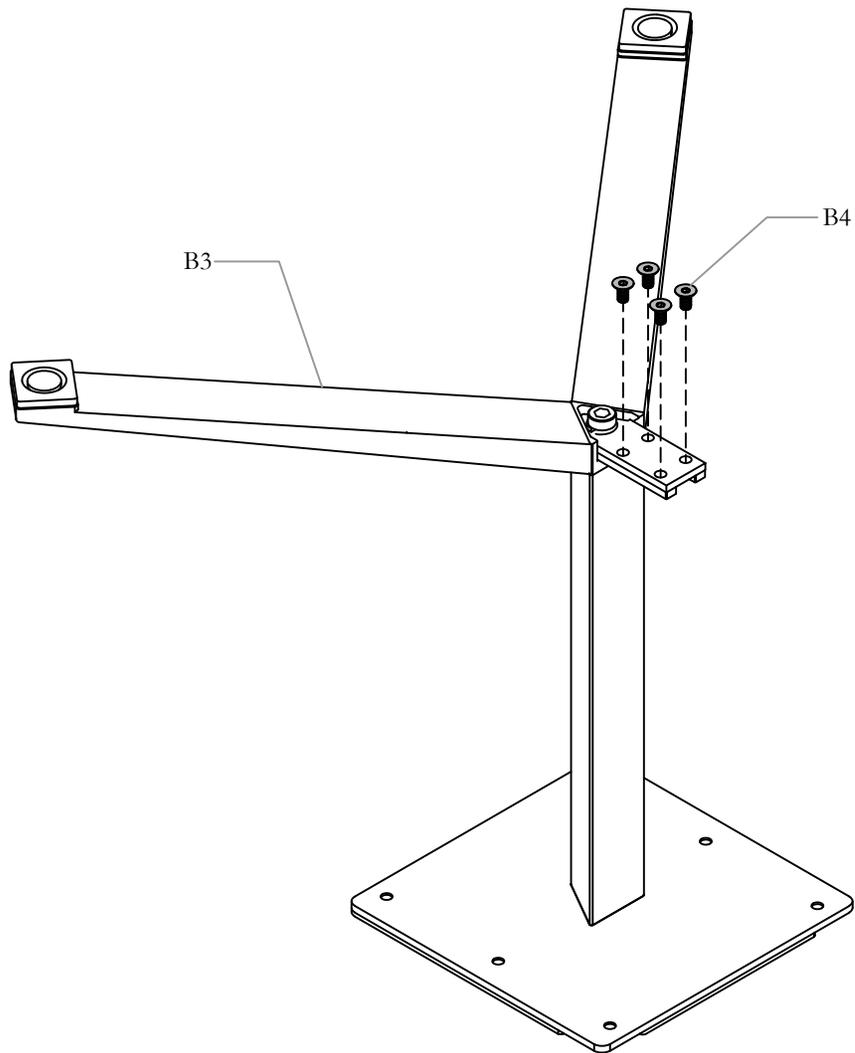

dna - Rectangular Coffee Table (NDNU)

Part and Product Identification

		<p><b>A</b> - Coffee Table Worksurface (C05-9782) x1</p>
		<p><b>B1</b> - NDNU- U-Channel Welded Assembly (N09-5722) x1</p>
		<p><b>B2</b> - NDNU Support Tube (A19-1508) x1</p>
<p><b>B</b> - Base Assembly (N09-5717) x1  Leg Assembly x1</p>		<p><b>B3</b> - NDNU Leg Assembly Coffee Table (N09-5718) x2</p>
		<p><b>B4</b> - M6 x 1 Flat-Head Cap Screw (E01-1038) x8</p>
  OR  		<p><b>C</b> - 1/4-20 x 1/2 Pan Head (E01-1024) x14 Compact Laminate (C)</p>
		<p><b>C</b> - 1/4-20X5/8" Mchn Screw (E01-0113) x14 Wood (W)</p>

**TABLE BASE ASSEMBLY**

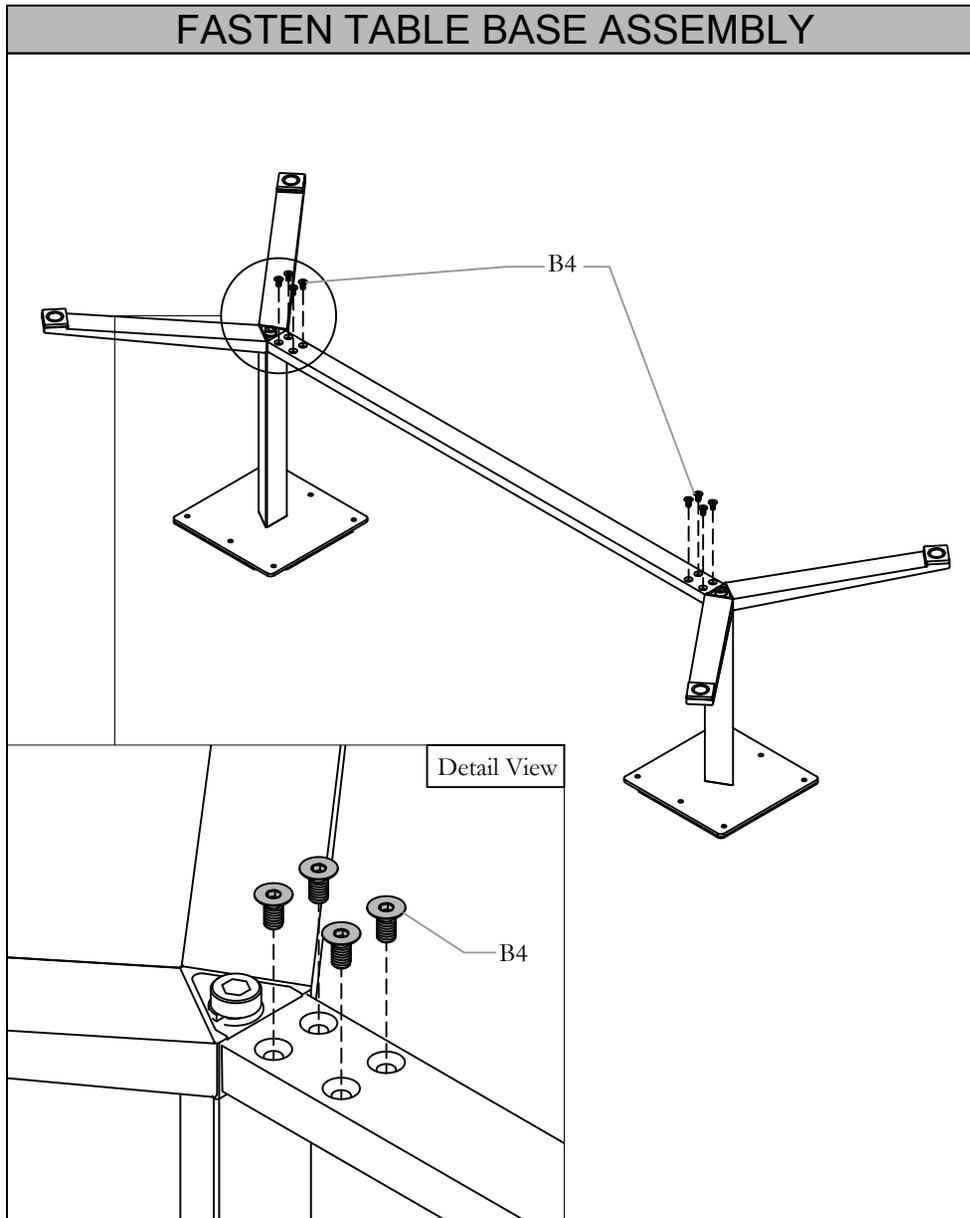

STEP 1: Slide the Leg Assemblies into the Support tube as shown above.

**TABLE BASE ASSEMBLY**

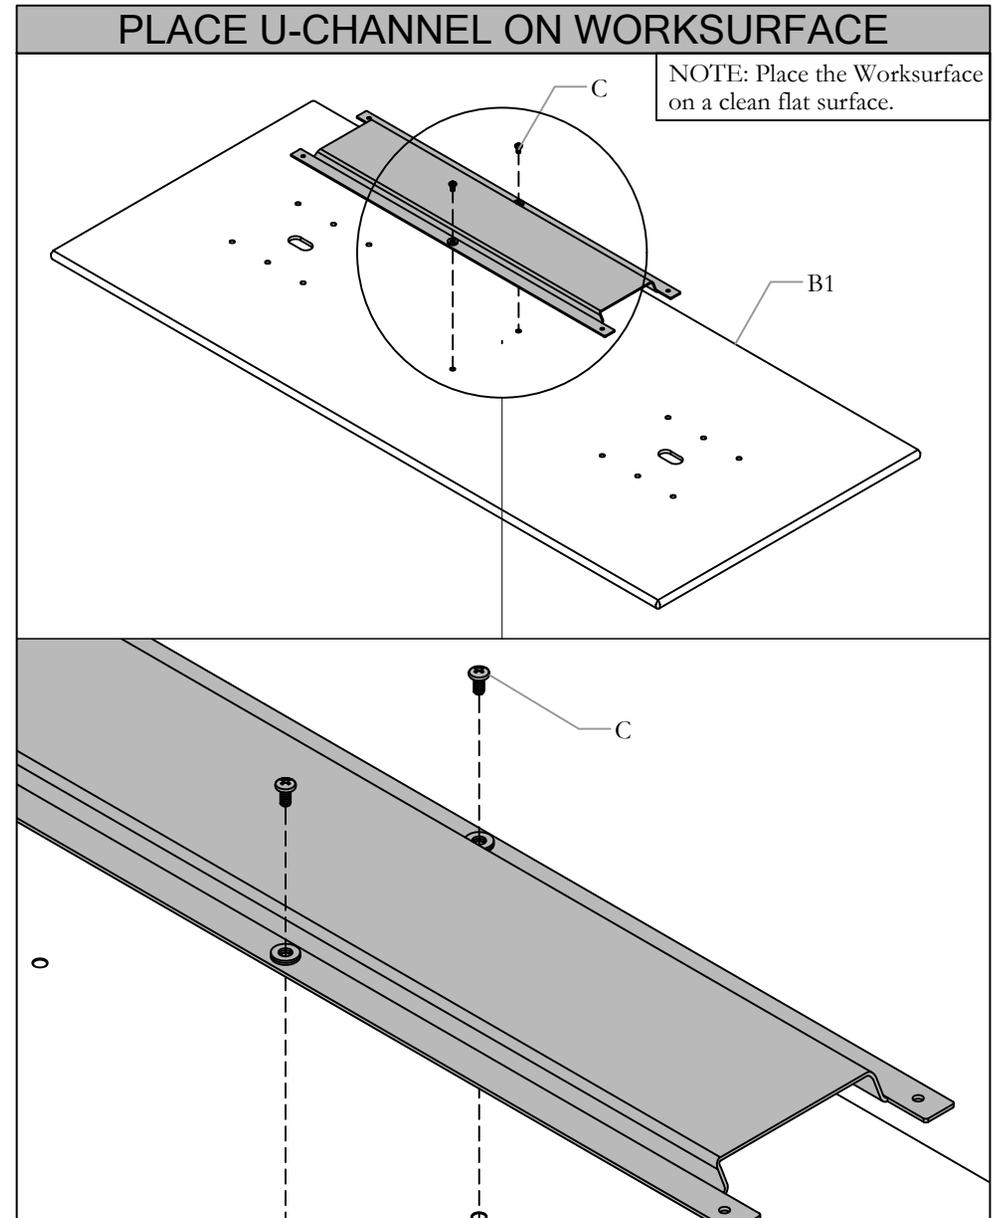

STEP 2: Slide the Leg Assemblies into the Support tube as shown above.

**FASTEN TABLE BASE ASSEMBLY**

STEP 3: Fasten from the underside with the Flat head screws provided

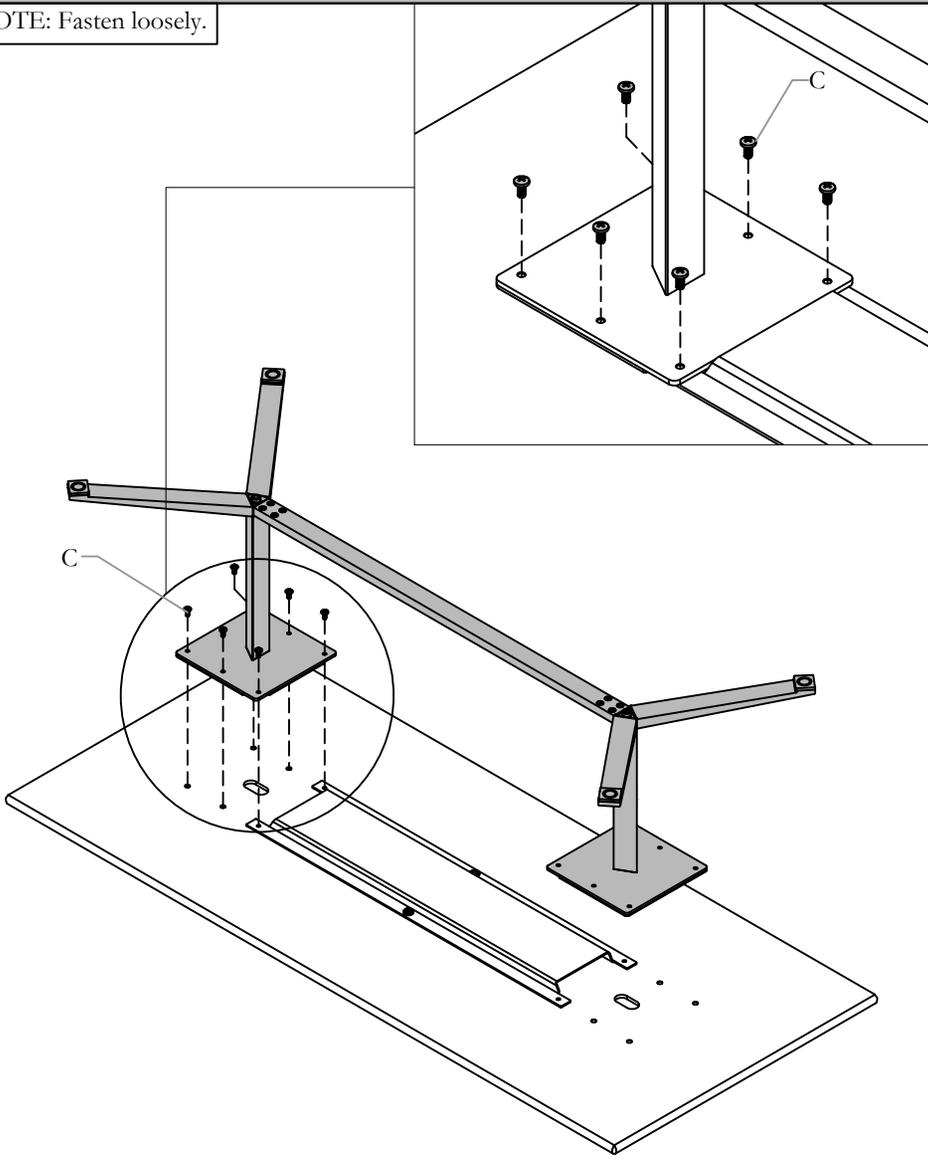

**PLACE U-CHANNEL ON WORKSURFACE**

STEP 4: Place the Worksurface on a clean flat surface. Then, place the U-Channel on the Leg Assembly as shown above then fasten it tightly with two(2) screws as shown above.

**PLACE TABLE BASE ON WORKSURFACE**

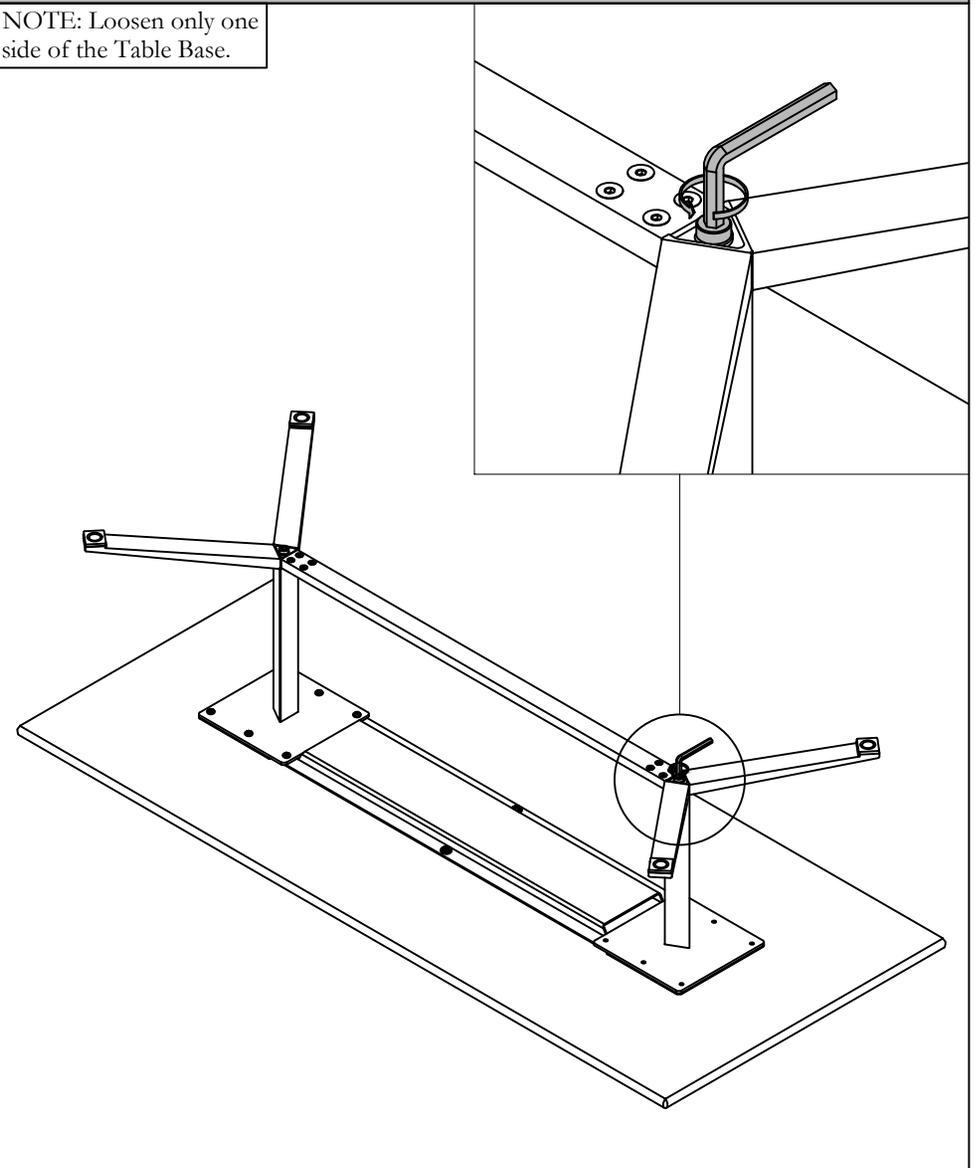

NOTE: Fasten loosely.

STEP 5: Place the Base Assembly and fasten loosely on one side of the Assembly with six Screws provided.

**LOOSEN SOCKET HEAD CAP SCREW**

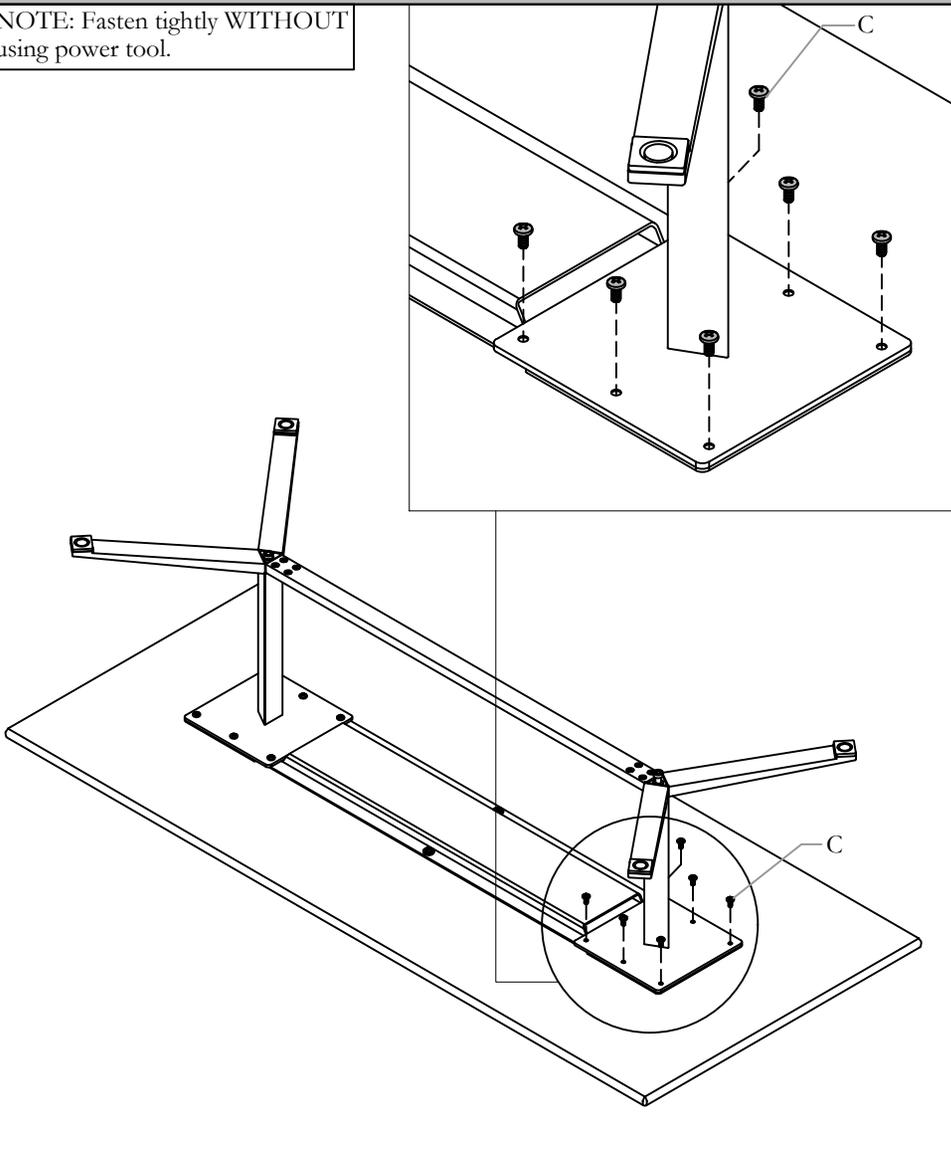

NOTE: Loosen only one side of the Table Base.

STEP 6: Loosen Socket Head Cap Screw on one side of the Table Base as shown above.

**FASTEN TABLE BASE ON WORKSURFACE**

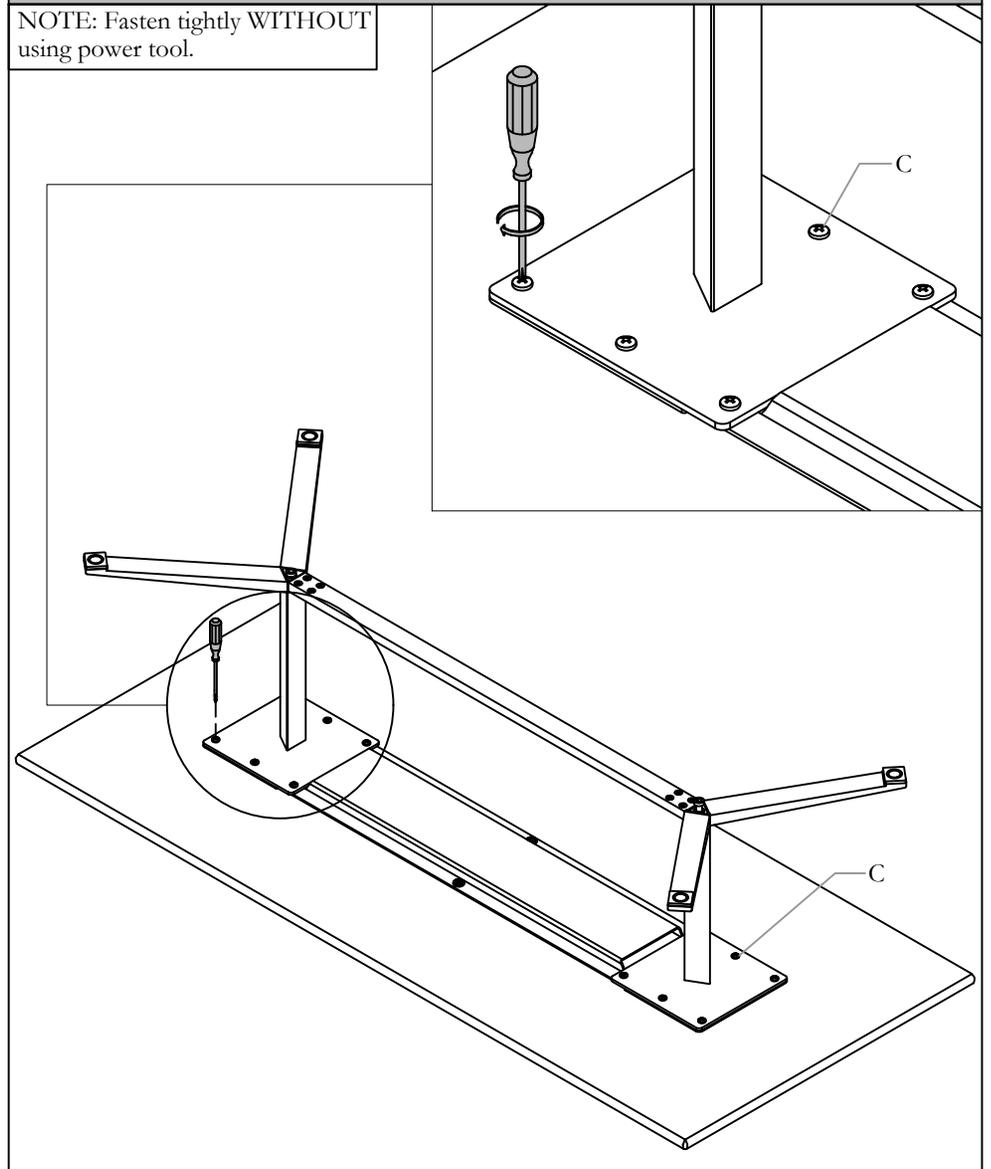

NOTE: Fasten tightly **WITHOUT** using power tool.

STEP 7: Fasten tightly **WITHOUT** using power tool on one side of the Assembly with six Screws provided.

**FASTEN TABLE BASE ON WORKSURFACE**

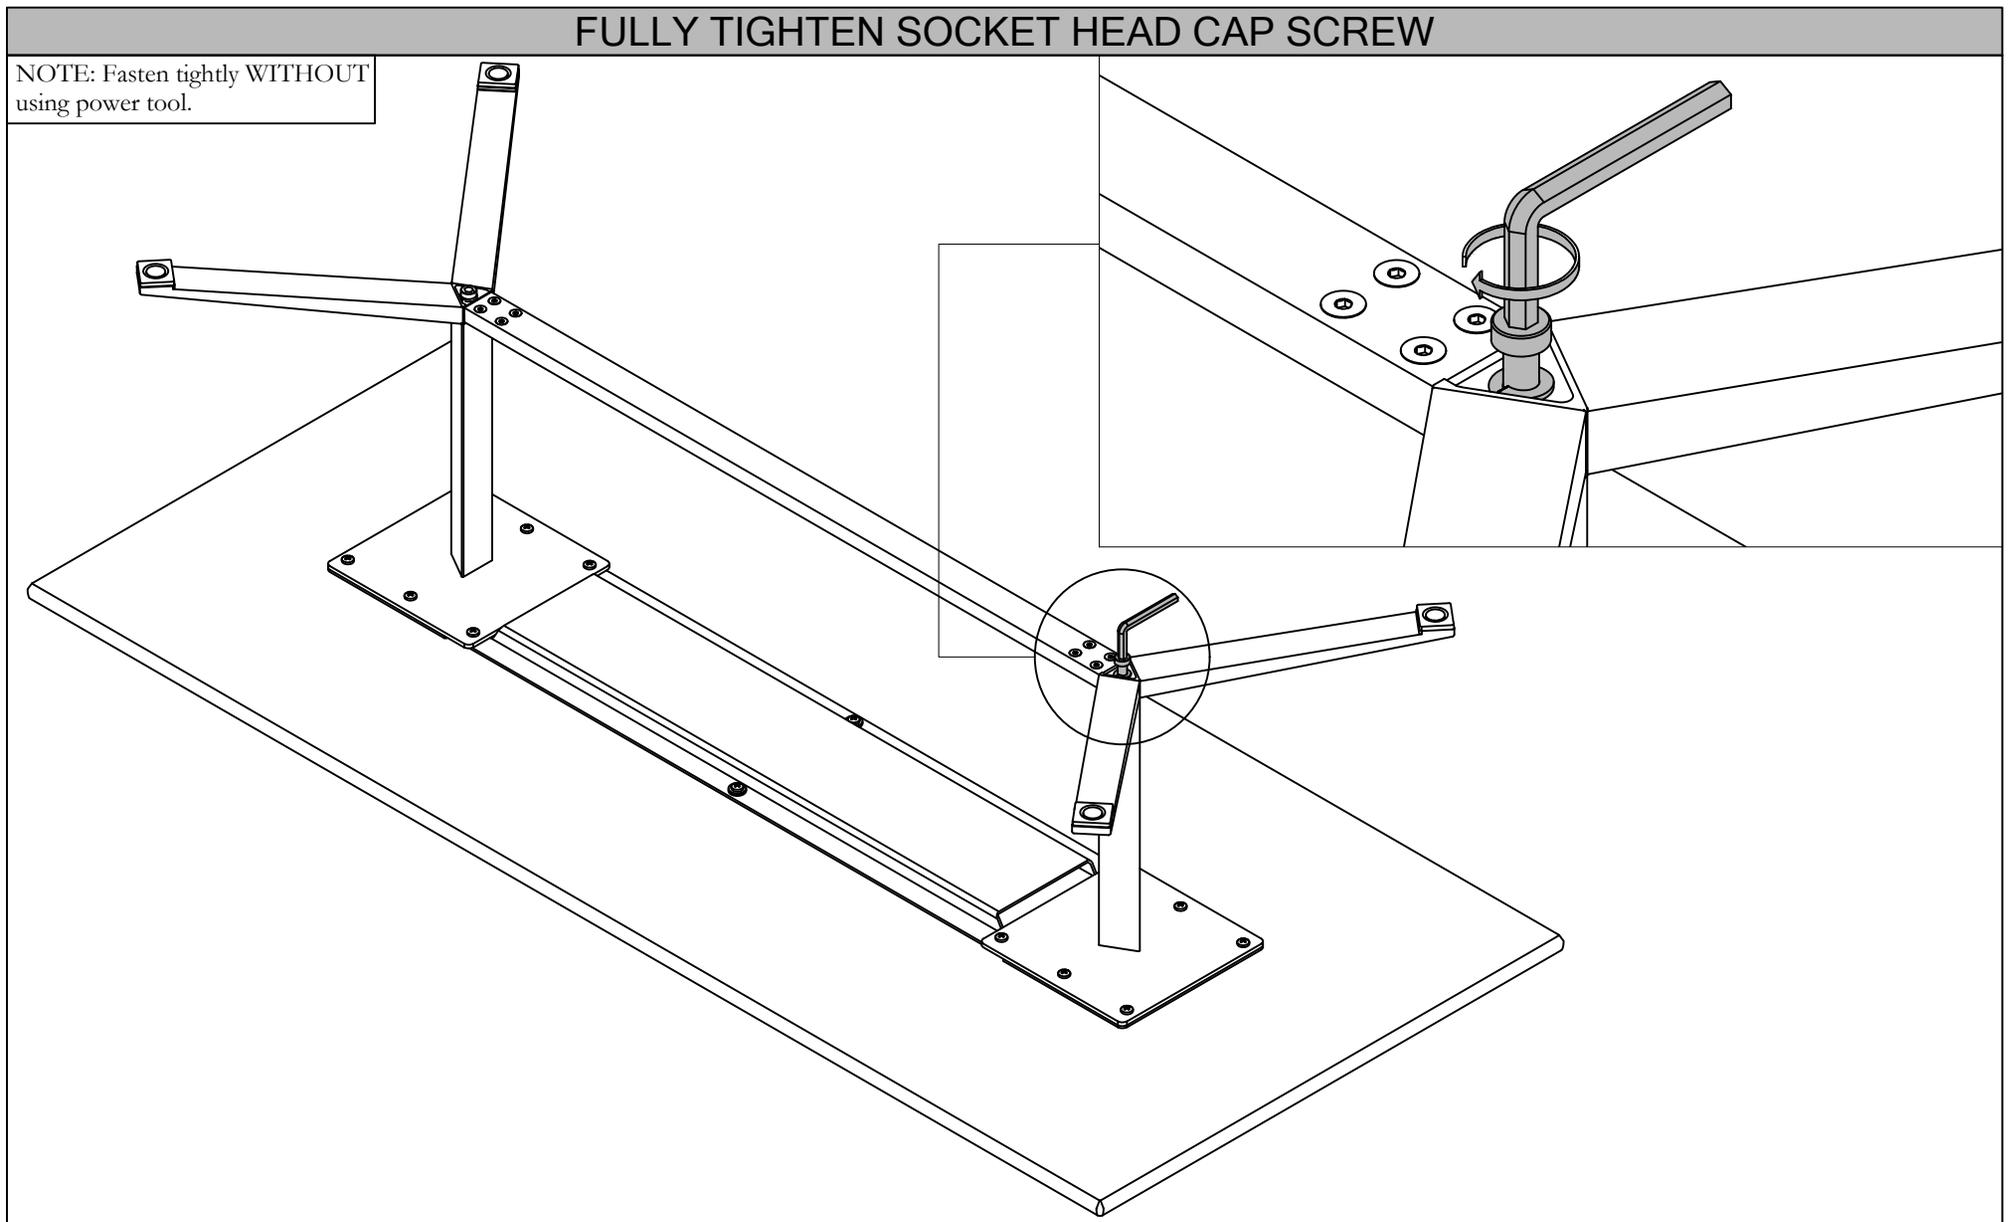

NOTE: Fasten tightly **WITHOUT** using power tool.

STEP 8: Fasten tightly **WITHOUT** using power tool on other side of the Assembly.

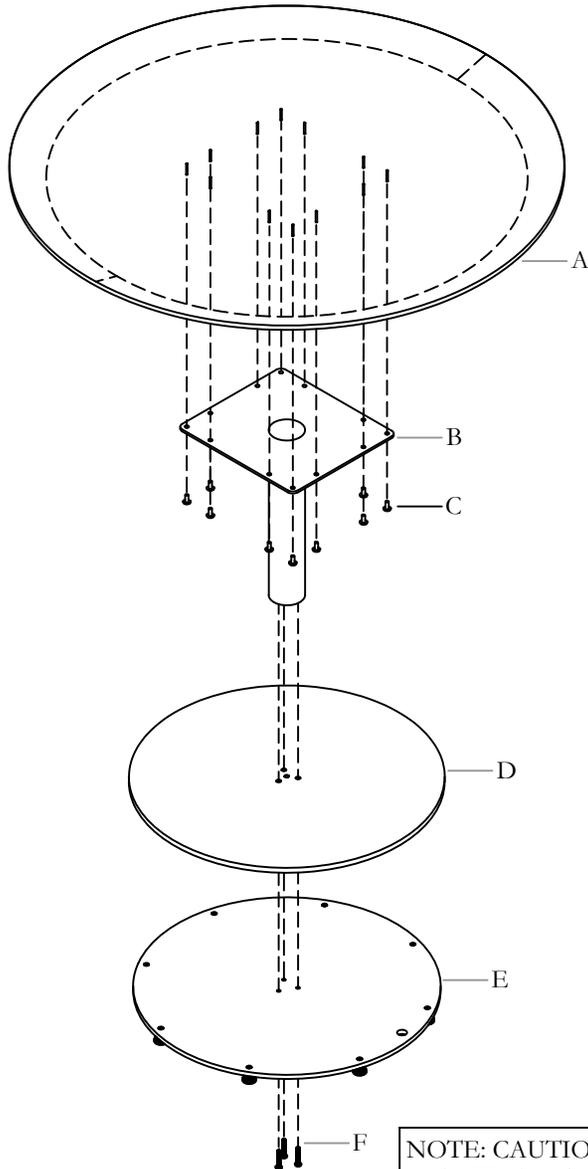

**FULLY TIGHTEN SOCKET HEAD CAP SCREW**

NOTE: Fasten tightly **WITHOUT** using power tool.

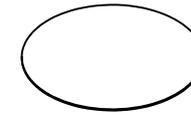

STEP 9: Fully tighten Socket Head Cap Screw without using power tool. When all screws are fully tightened, flip the table right-side up.

Vignette Coffee Table (NVBT\_)

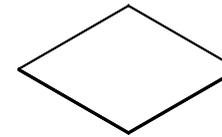

**NOTE: CAUTION!** Proceed with extreme care to avoid injury or damage to the Worksurfaces specially when lifting Solid Surface or Marble Table Tops (item "A"). These are heavy items in excess of 45 kgs/100 lbs.

Part and Product Identification

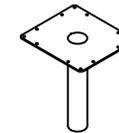

**A** - Round Table Top (x1)  
(C05-4351) Wood Veneer  
(C05-4349) Seamless  
(N09-2450) Marble  
(N09-2447) Solid Surface

or

Square Table Top (x1)  
(C05-4352) Wood Veneer  
(C05-4350) Seamless  
(N09-2451) Marble  
(N09-2448) Solid Surface

**B** - Vignette Table Welding  
(N09-2457) x1

**C1** - 1/4 -20 x 5/8" Machine Screw,  
Quadrex, Zinc (E01-0098) x12  
(For Marble and Solid Surface)

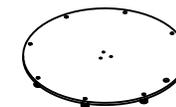

or

**C2** - #10 x 0.875" LG. Quadrex,  
Pan/Washer Head. ZP.  
(E07-0077) x12  
(For Wood Veneer and Seamless)

**D** - Vignette Base Shell  
(A15-8457) x1

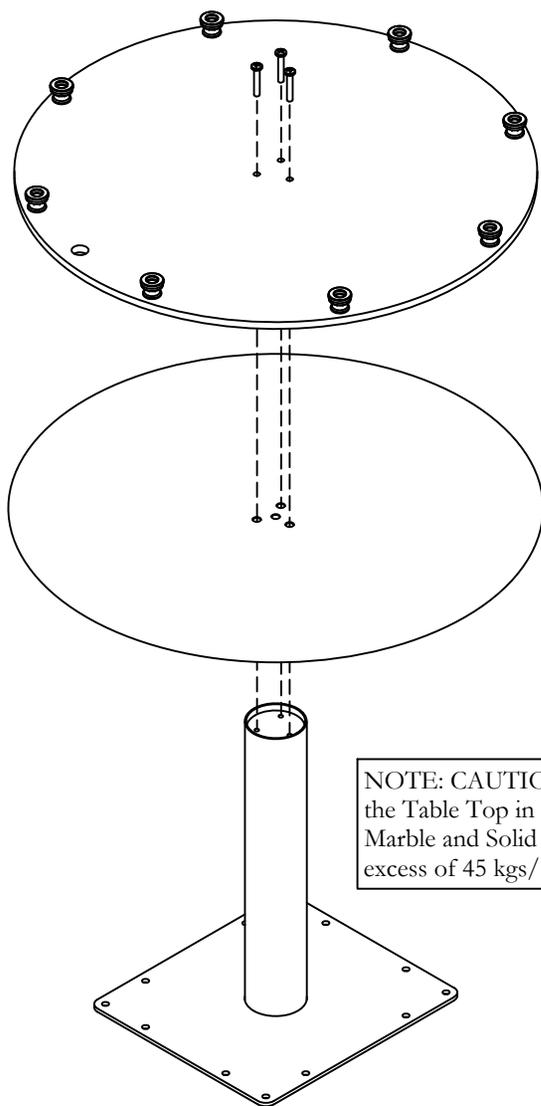

**E** - Casual Table Base Assembly  
(N09-2547) x1

**F** - 1/4 -20 x 1 1/2" Machine Screw,  
Pan, Quadrex, Zinc  
(E01-0018) x3

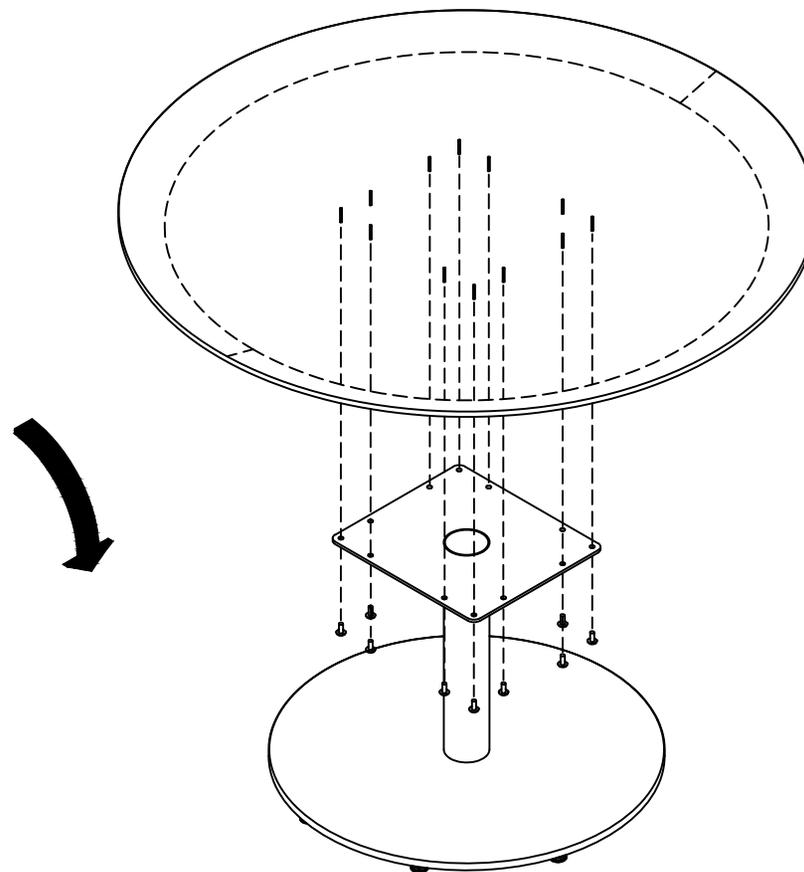

**ASSEMBLE METAL COMPONENTS**

**NOTE: CAUTION!** It is not recommended to install the Table Top in the upside down position, particularly Marble and Solid Surface tops. These are heavy items in excess of 45 kgs/100 lbs.

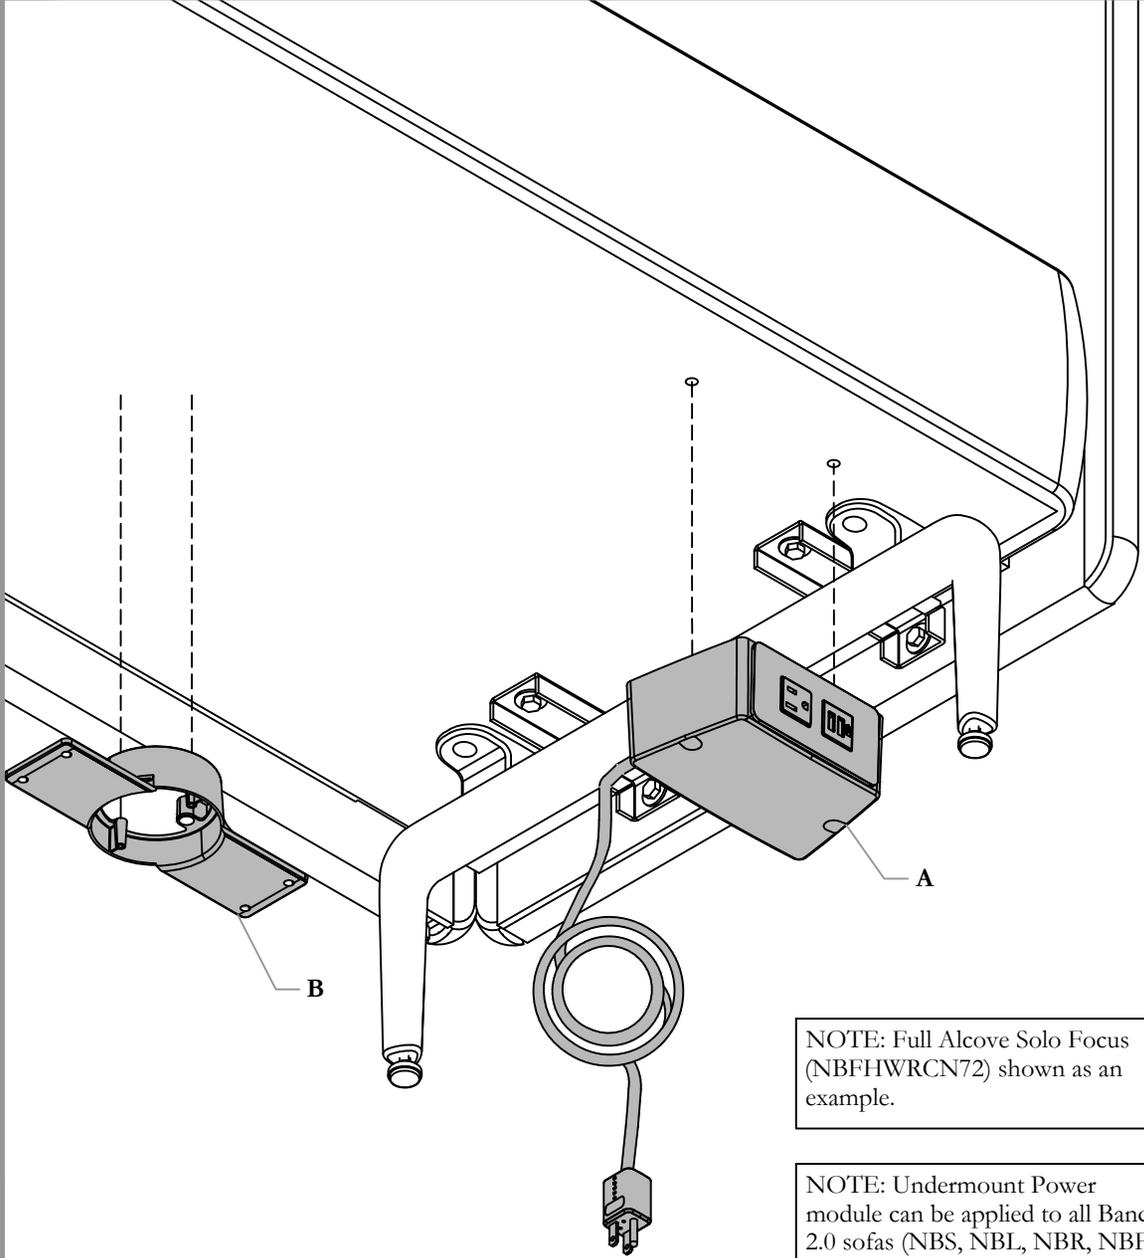

**STEP 1:** Turn the Vignette Table Welding (B) upside down. Mount the Base Assembly (E) with the Base Shell (D) and fasten to the Table Welding with three machine screws provided (F).

**FASTEN TABLE TOP**

**STEP 2: IMPORTANT!** Turn the Table Base to its normal position. Align the pilot holes underneath the Table Top (A) with the Table Welding and fasten with twelve screws provided. Level by adjusting levelers if required.

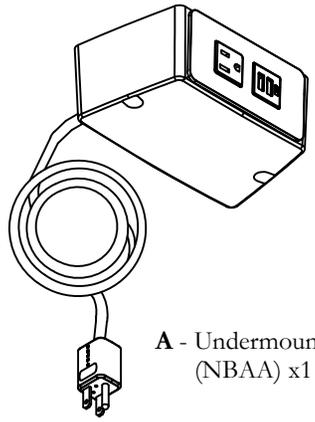

Banqs Sofa Undermount Power (NBAA)

NOTE: Full Alcove Solo Focus (NBFHWRCN72) shown as an example.

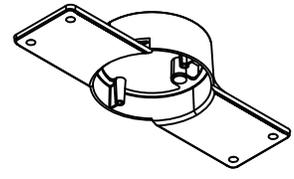

NOTE: Undermount Power module can be applied to all Banqs 2.0 sofas (NBS, NBL, NBR, NBF)

Part and Product Identification

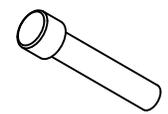

A - Undermount Power Module (NBAA) x1

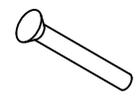

B - Cable Manager (Q14-069) x1

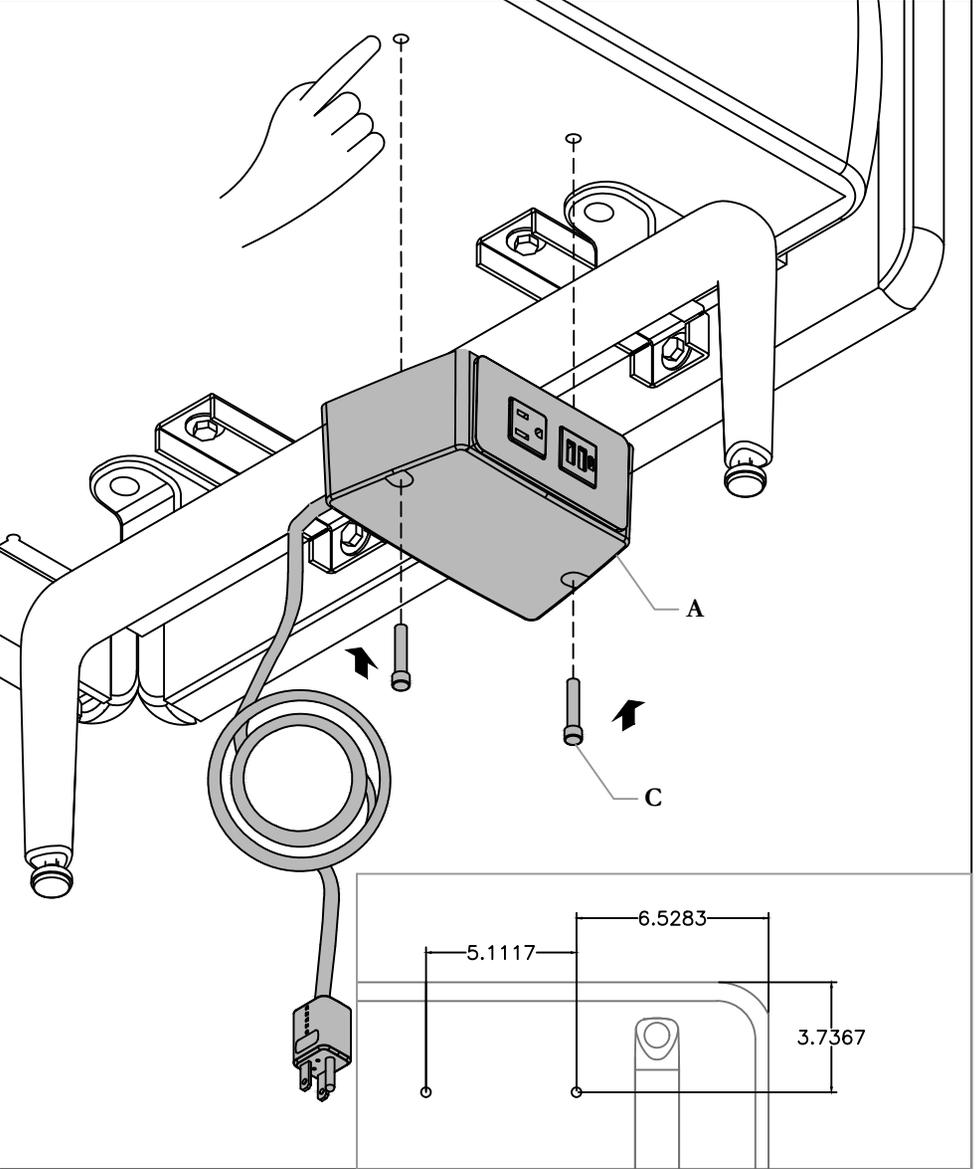

C - Socket Head Cap Screw (Q28-0585) x2

D - #10-24x 3/4" Flat Head Wood Screw (Q28-0114) x2

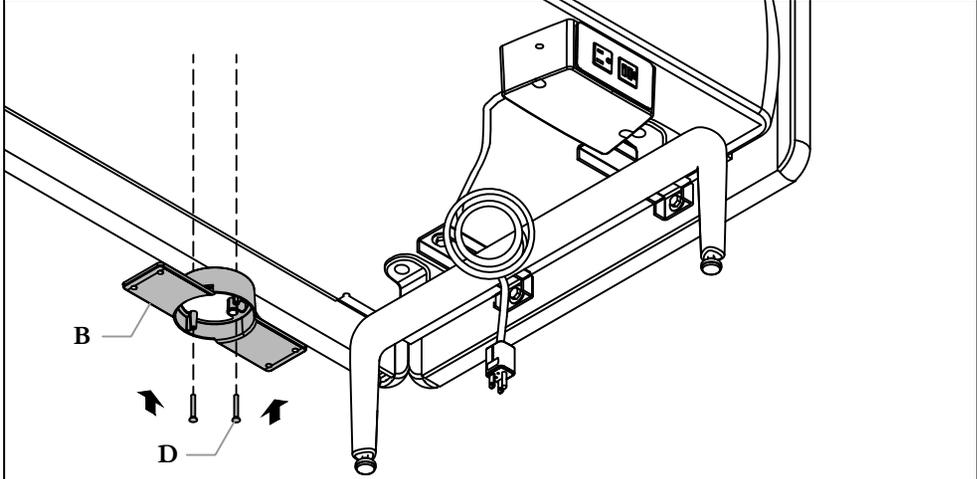

**LOCATE PILOT HOLES ON SOFA**

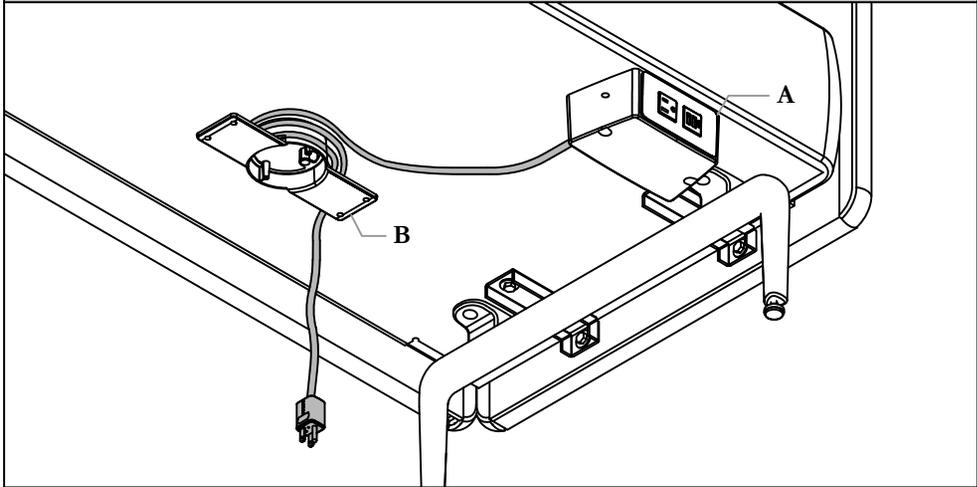

STEP 1: Approaching the Sofa from underneath, locate the pilot holes for the Undermount Power Module by hand, using the dimensions as a rough guide to location. The fabric lining must be removed to expose the holes in the plywood. Use Socket Head Cap Screws to fasten the Power Module to the receiving T-Nuts in the plywood.

**LOCATE POSITION FOR CABLE MANAGER**

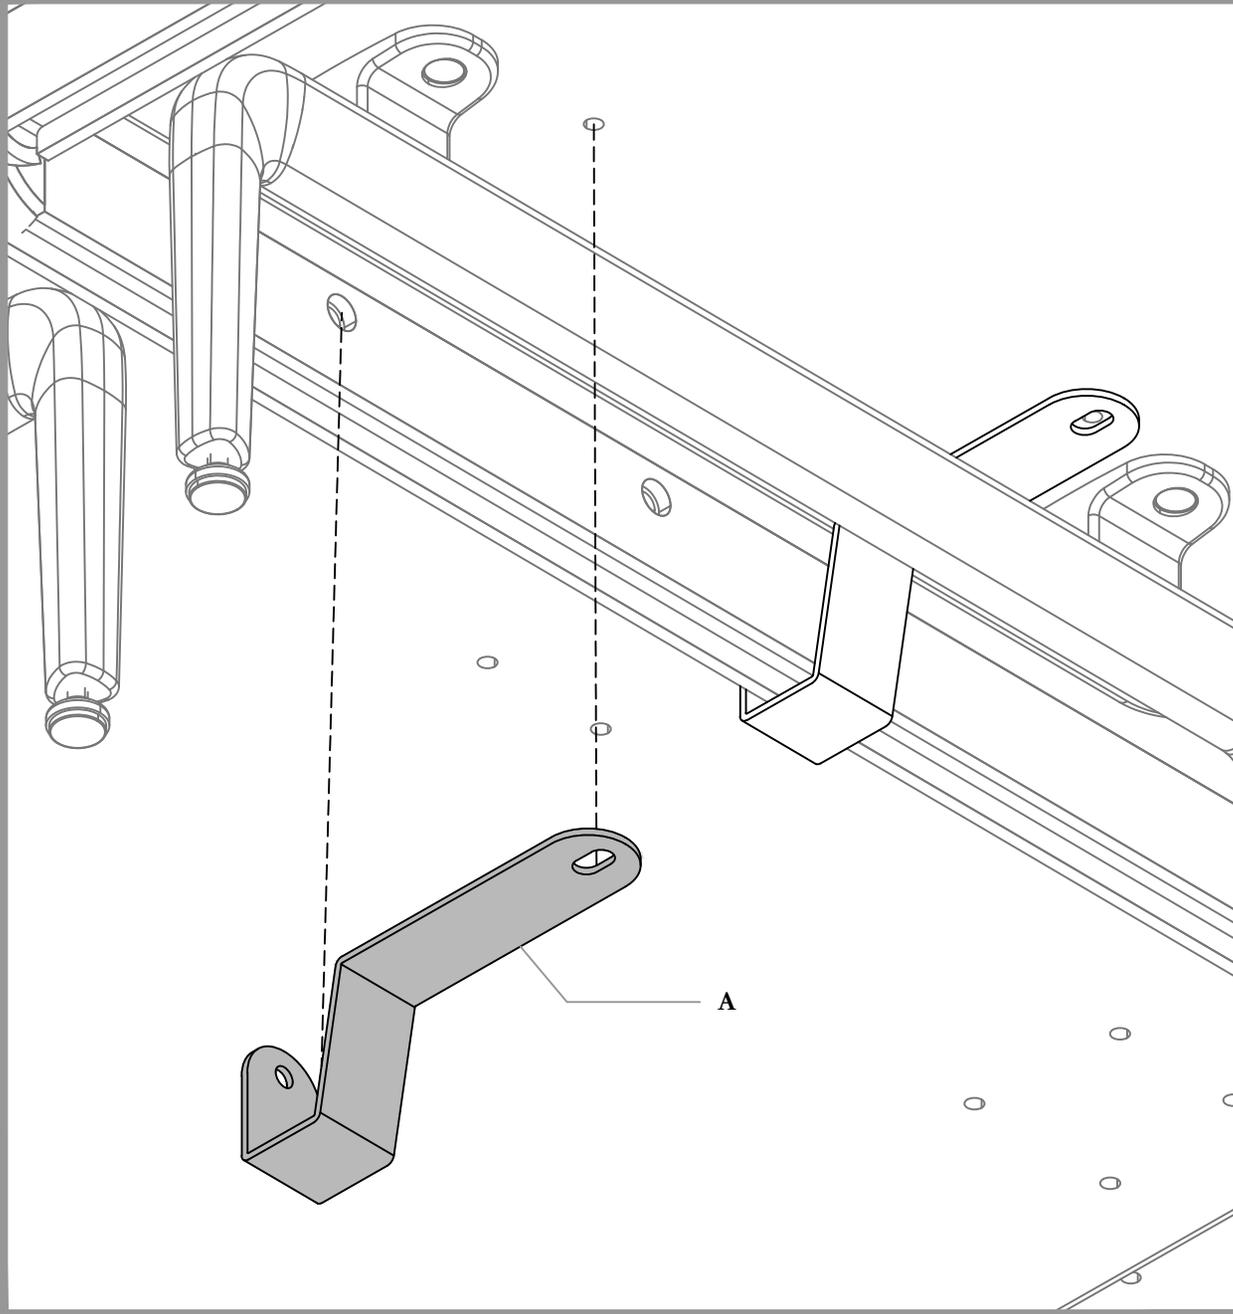

STEP 2: After the undermount power module is installed to the sofa, locate a discreet and accessible location to install the Cable Manager. Use wood screws provided to mount Cable Manager to plywood base.

**ROUTE POWER CABLE MODULE**

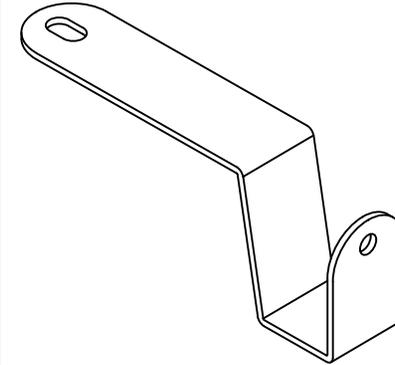

STEP 3: Route the cables from the power module around the Cable Manager

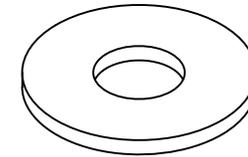

Banqs Ganging Kit (NBAE)

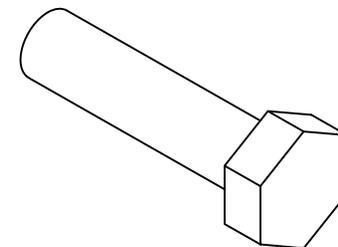

Part and Product Identification

**A** - Ganging Bracket  
(Q26-1116) x1

**B** - Washer  
(Q26-0522) x1

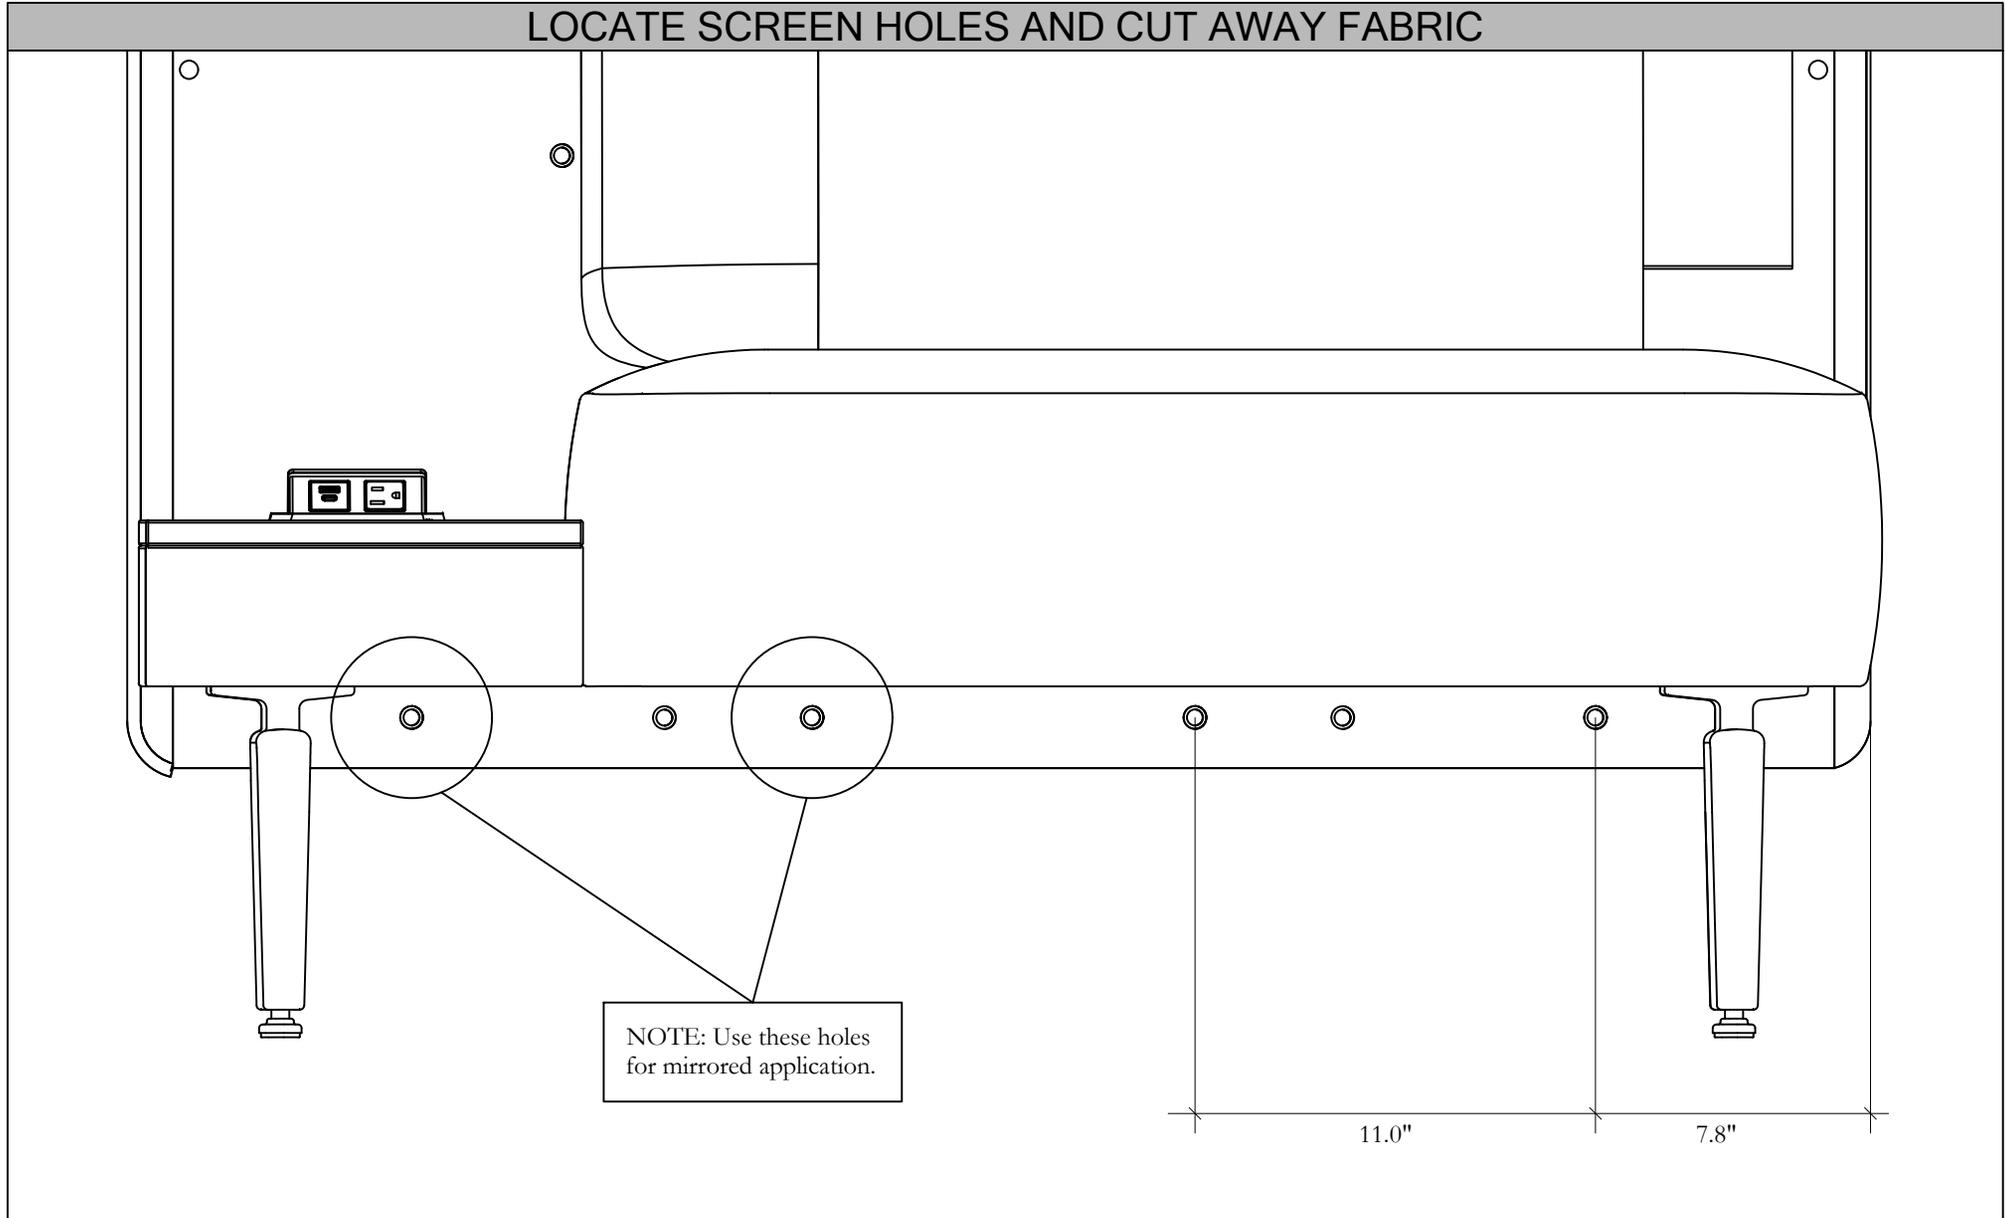

**C** - Hex Screw  
(Q28-0035) x1

Section: **SOFT SEATING**

Date: Sep 2025 Page No: 2 of 5  
TSC\_305

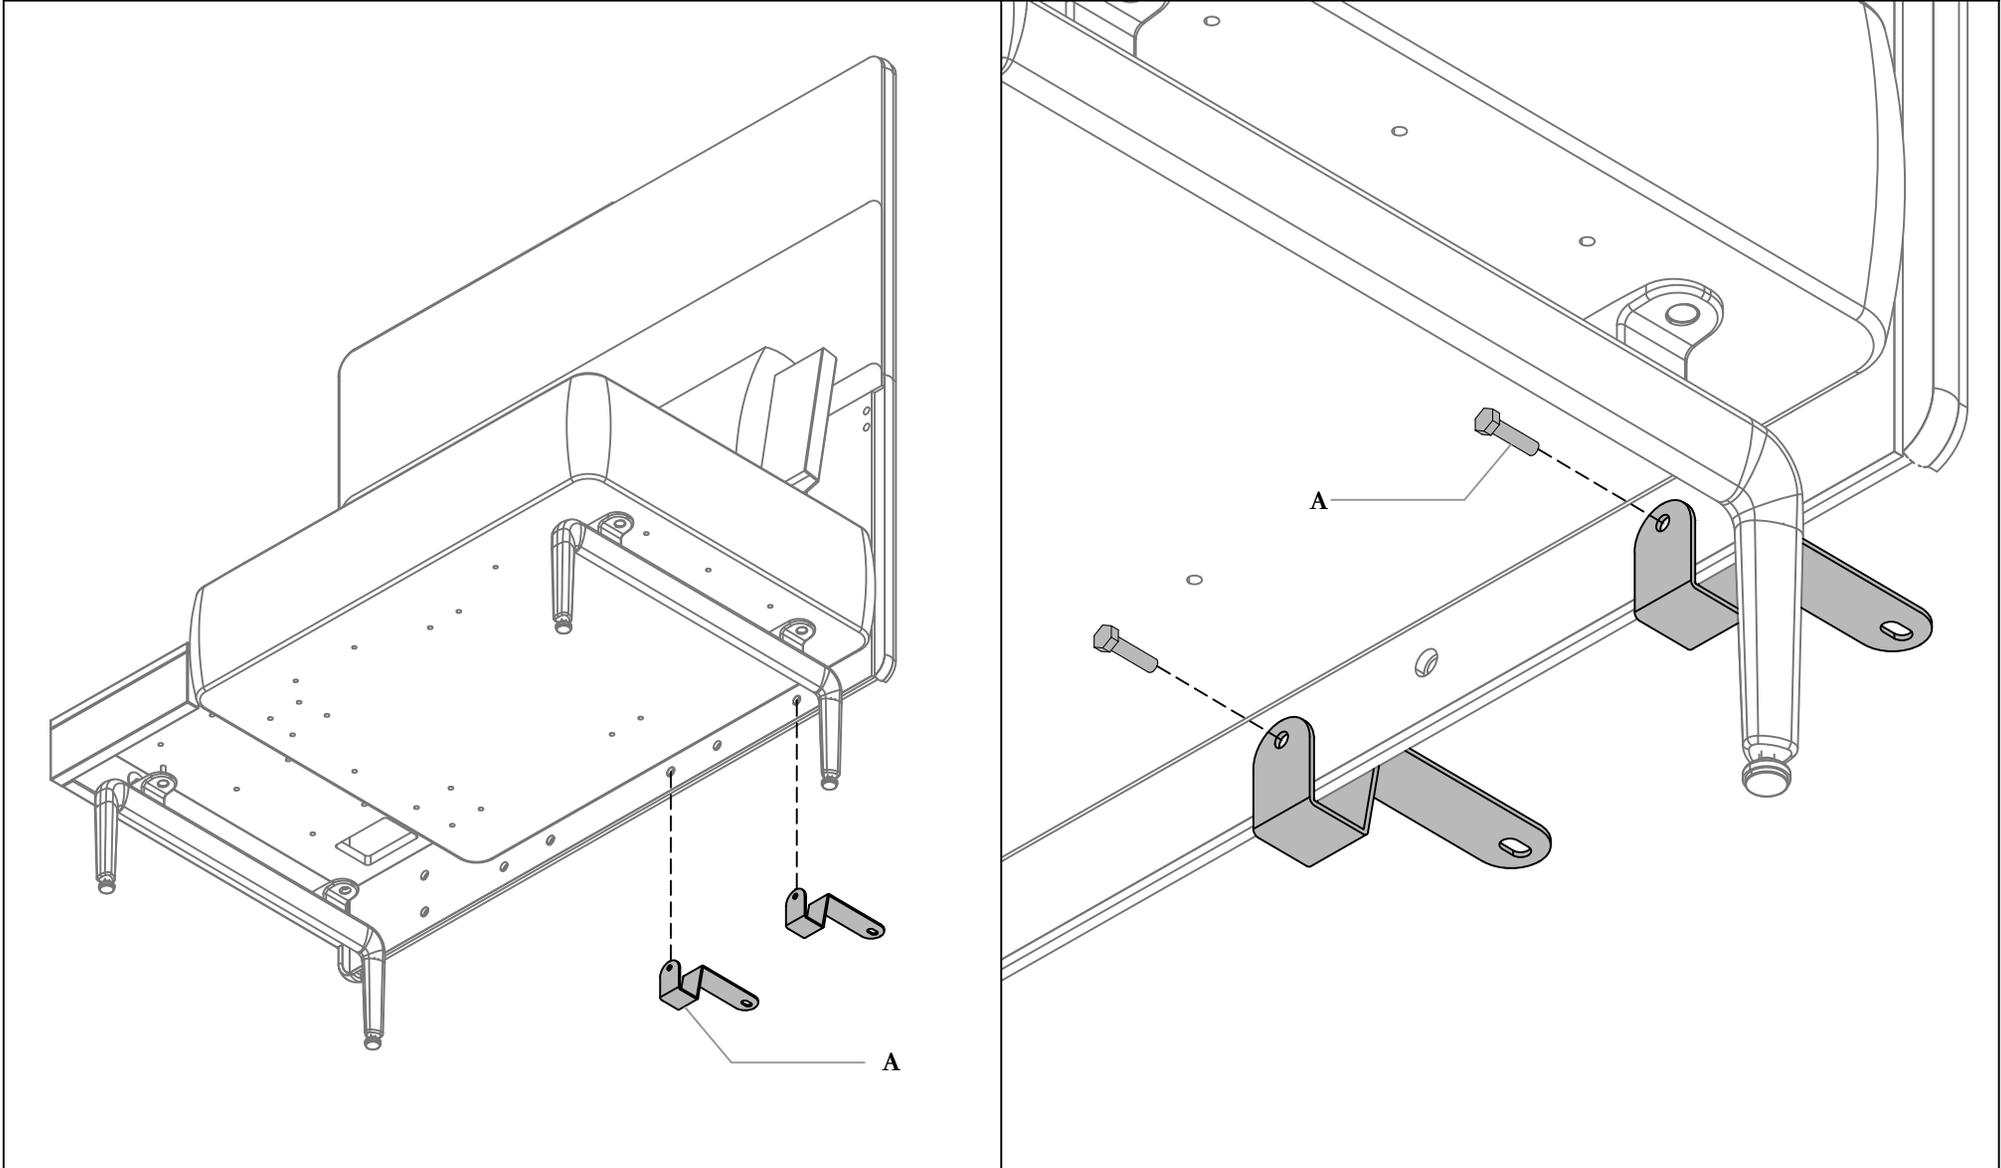

Description: **BANQS GANGING KIT**

**LOCATE SCREEN HOLES AND CUT AWAY FABRIC**

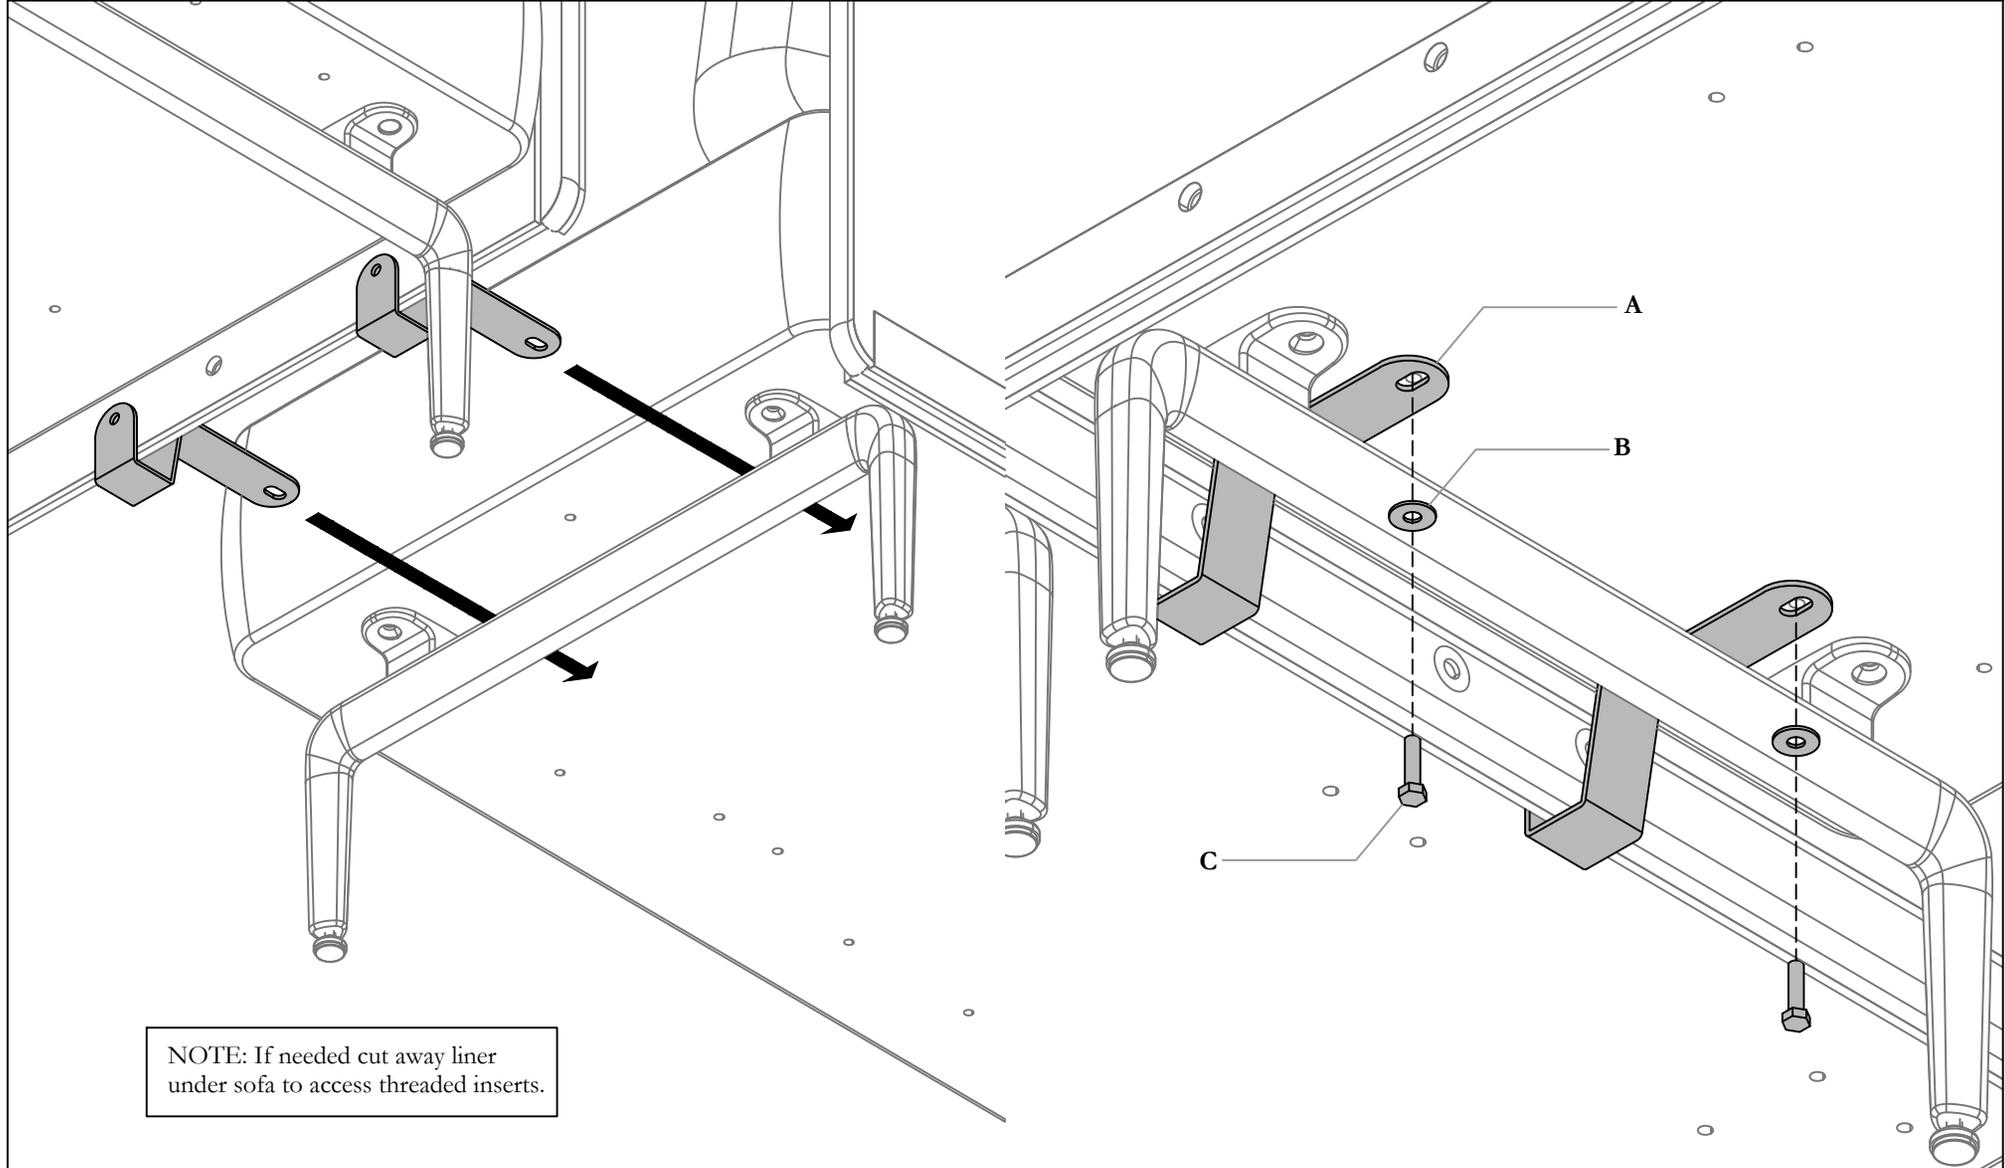

STEP 1: Locate Screen Holes and cut away fabric from under the seat to access threaded inserts with Screws.

**INSTALL BRACKET TO SCREEN**

STEP 2: Install Bracket(A) to Screen using provided Screws(C).

**SECURE NEXT SOFA TO BRACKET**

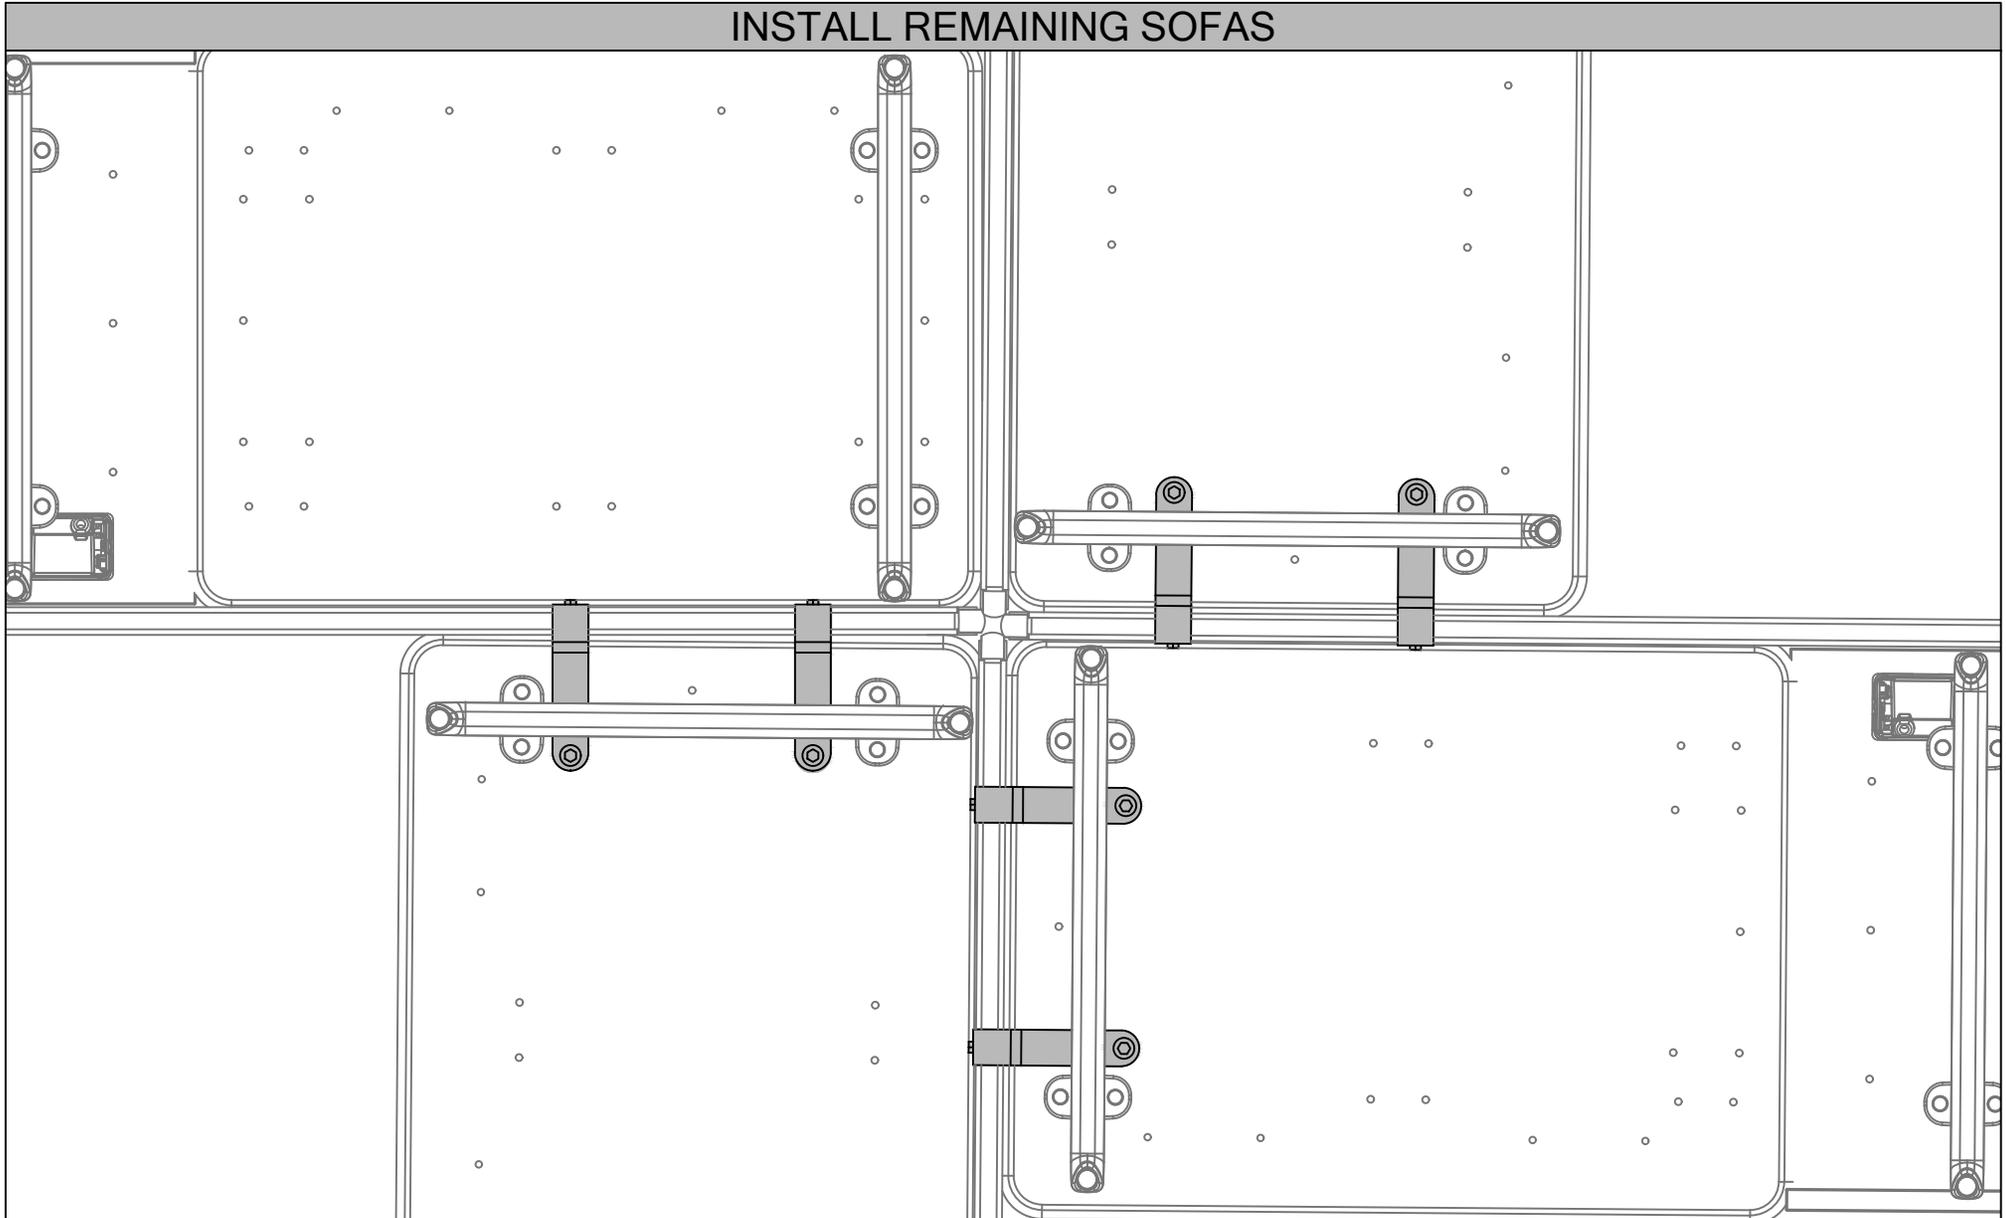

STEP 3: Position next Sofa over Bracket(A) and fasten with provided Screws(C) and Washer(B). Cut away liner underneath sofa as needed to access threaded inserts.

Section: **SOFT SEATING**

Date: Sep 2025 Page No: 5 of 5  
TSC\_305

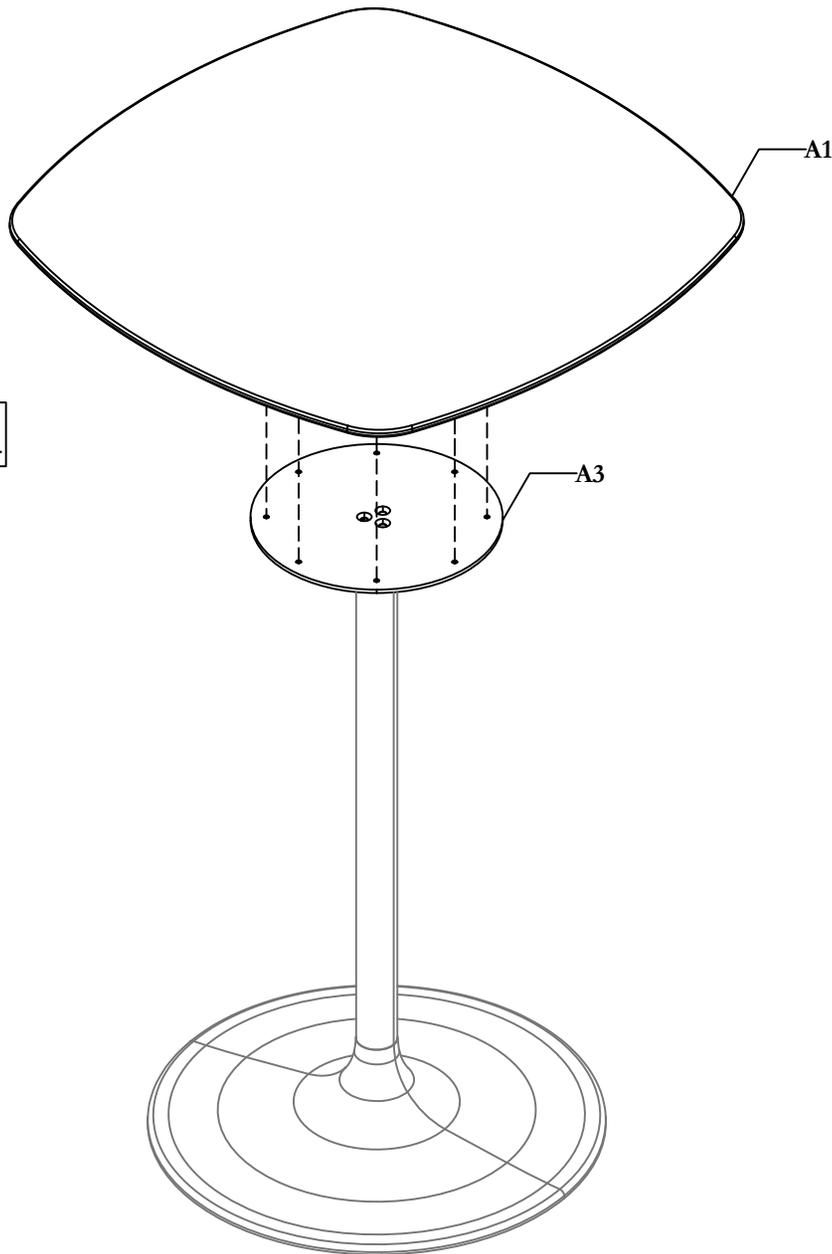

Description: **BANQS GANGING KIT**

**INSTALL REMAINING SOFAS**

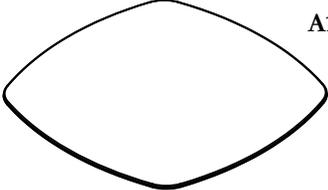

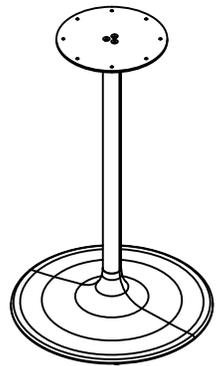

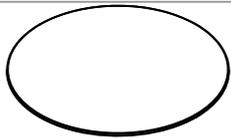

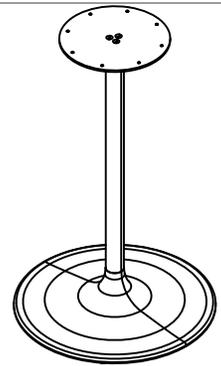

STEP 4: Repeat steps 1~3 to create the Pinwheel. Ensure to locate the correct holes for step 1 to position the sofas correctly.

Sprout Soft- Square Table (NSPT), Sprout Round Table (NSPR)

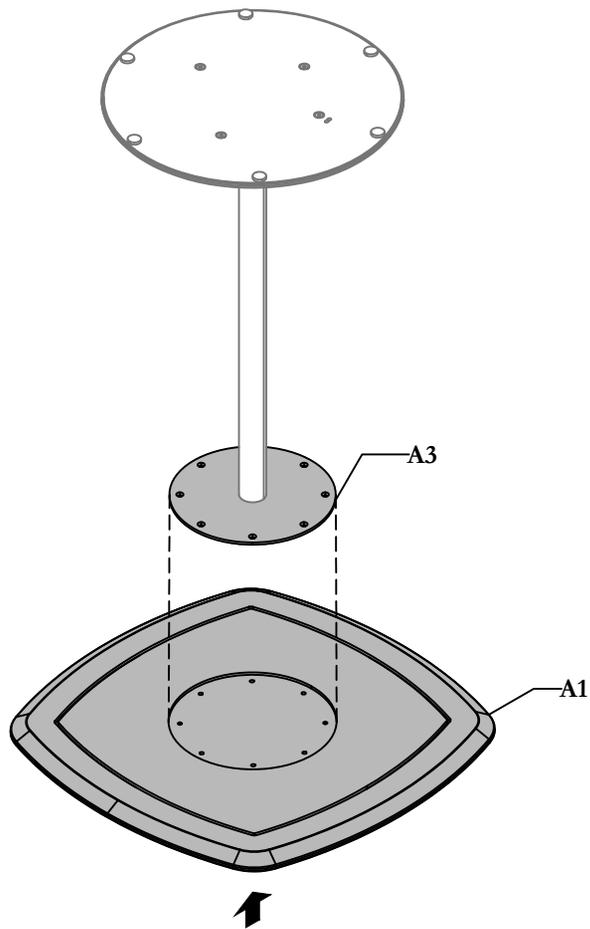

NOTE: NSPTC30 is Shown as an Example.

Part and Product Identification

A - Sprout Soft Square Table (NSPT)x1		<b>A1</b> - Table Top - Square (Q18-1560) x1
		<b>A2</b> - 1/4"x1/2" Long Screw (Q28-0320) x8
		<b>A3</b> - Table Base Assembly (NSP) x1
<b>OR</b>		
B - Sprout Round Table (NSPR)x1		<b>B1</b> - Table Top - Round (Q18-1544) x1
		<b>B2</b> - 1/2" Screw (Q28-0320) x8
		<b>B3</b> - Table Base Assembly (NSP) x1

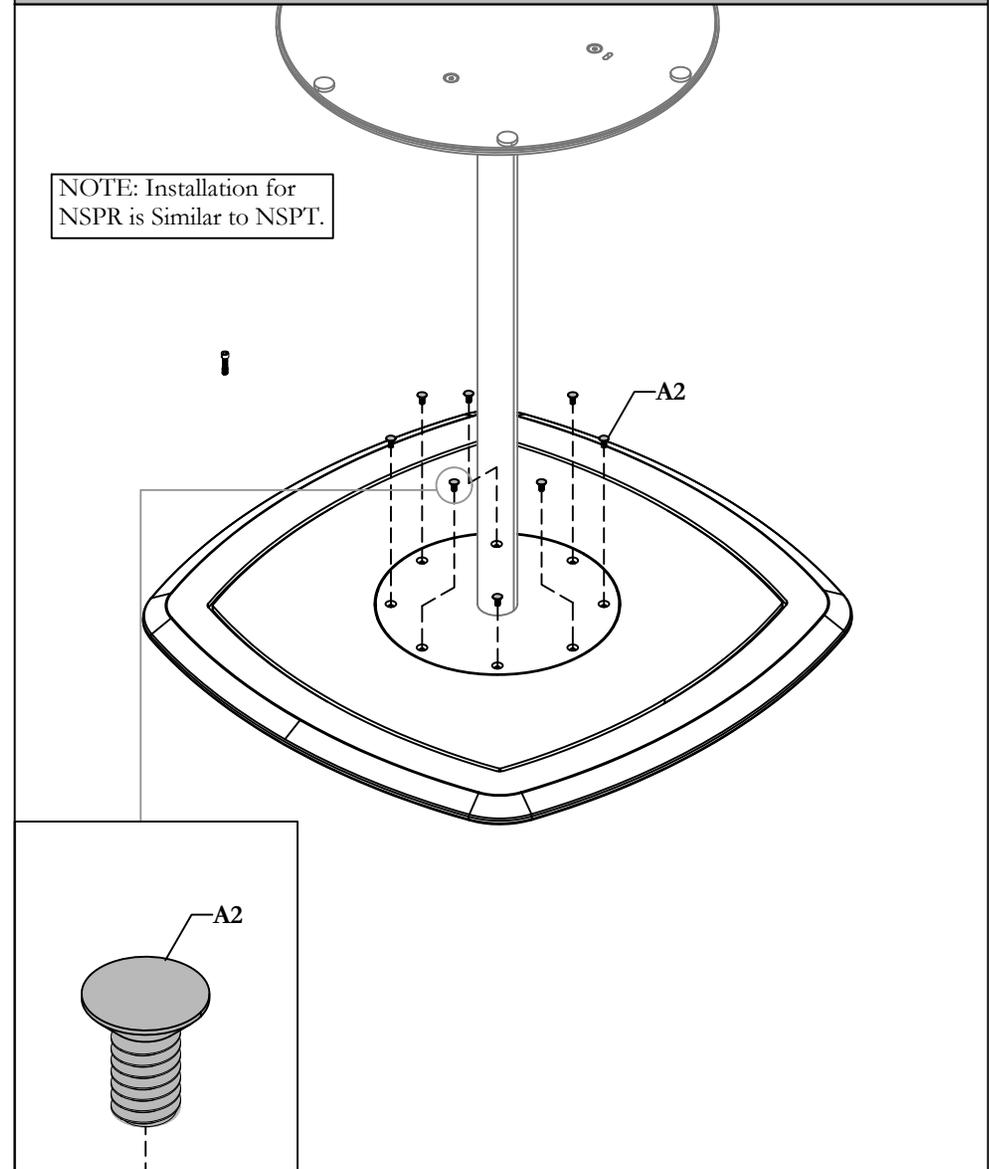

**ATTACH TABLE TOP**

STEP 1: Attach the Table Top onto the Base Assembly.

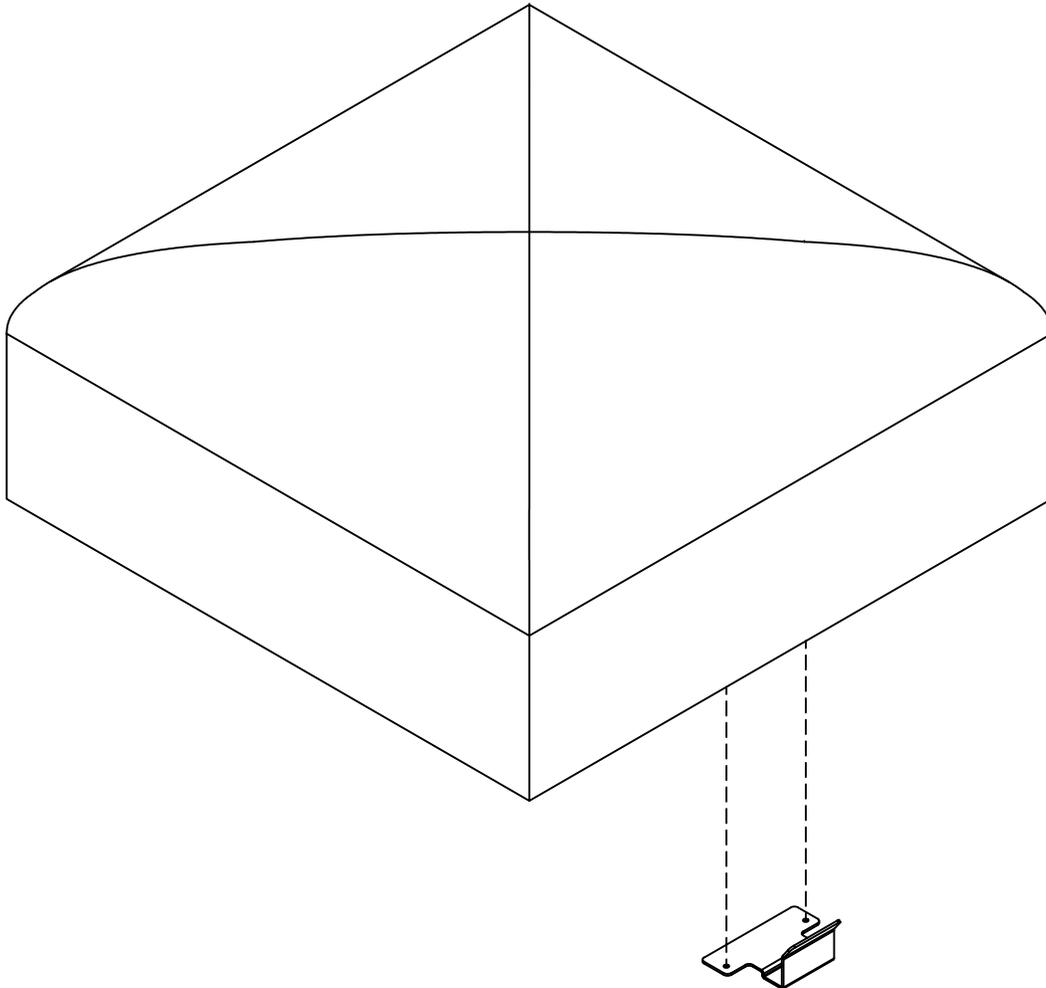

**SECURE TABLE TOP**

NOTE: Installation for NSPR is Similar to NSPT.

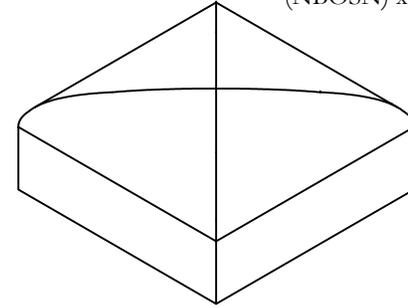

STEP 2: Fasten the Table Top onto the Base using the Machine Screws and Flip the table.

Building Block Seat - Not Strap Compatible (NBOSN), Ganging Kit (NBOSG)

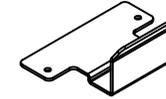

Part and Product Identification

**A** - Building Block Seat  
Not Strap Compatible  
(NBOSN) x1

**B1** - Ganging Bracket  
(A16-8880) x1

**B2** - 1/4"-20 1 1/4" Long Screw x2

**B3** - Locknut x2

**B4** - Washer x2

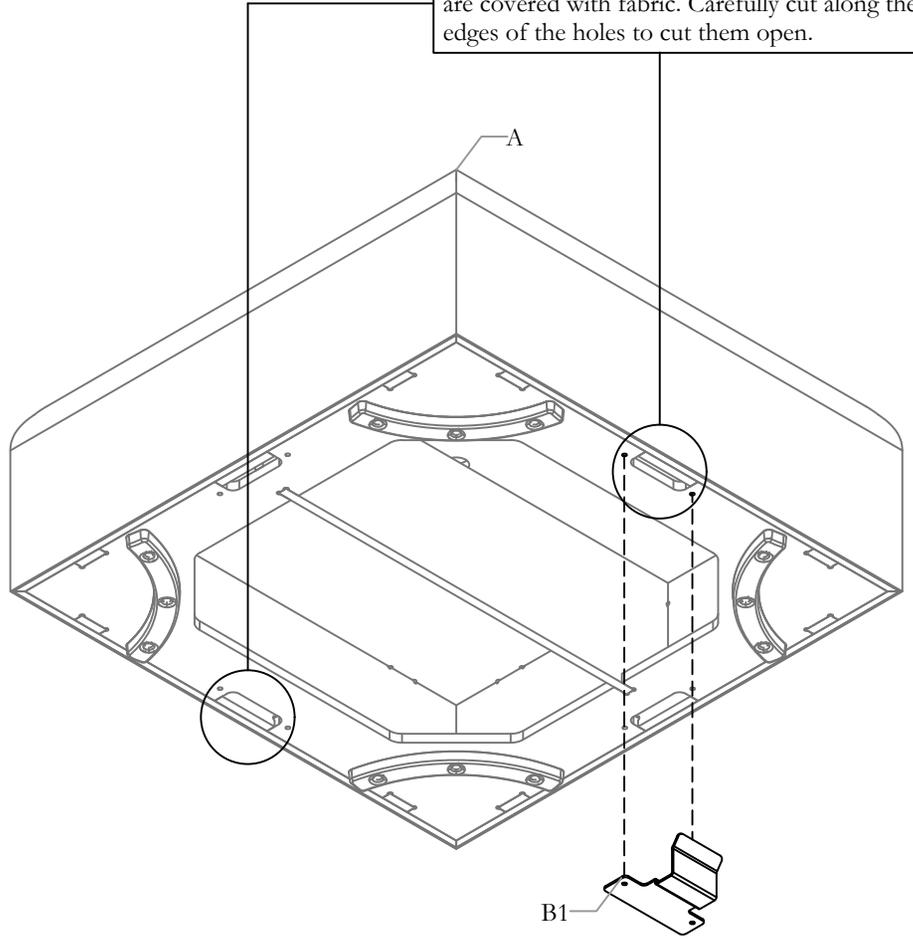

**B** - Ganging Kit (NBOSG) x1

Section: **BONDS INSTALLATION**

Description: **BUILDING BLOCK SEAT - NOT STRAP COMPATIBLE INSTALLATION**

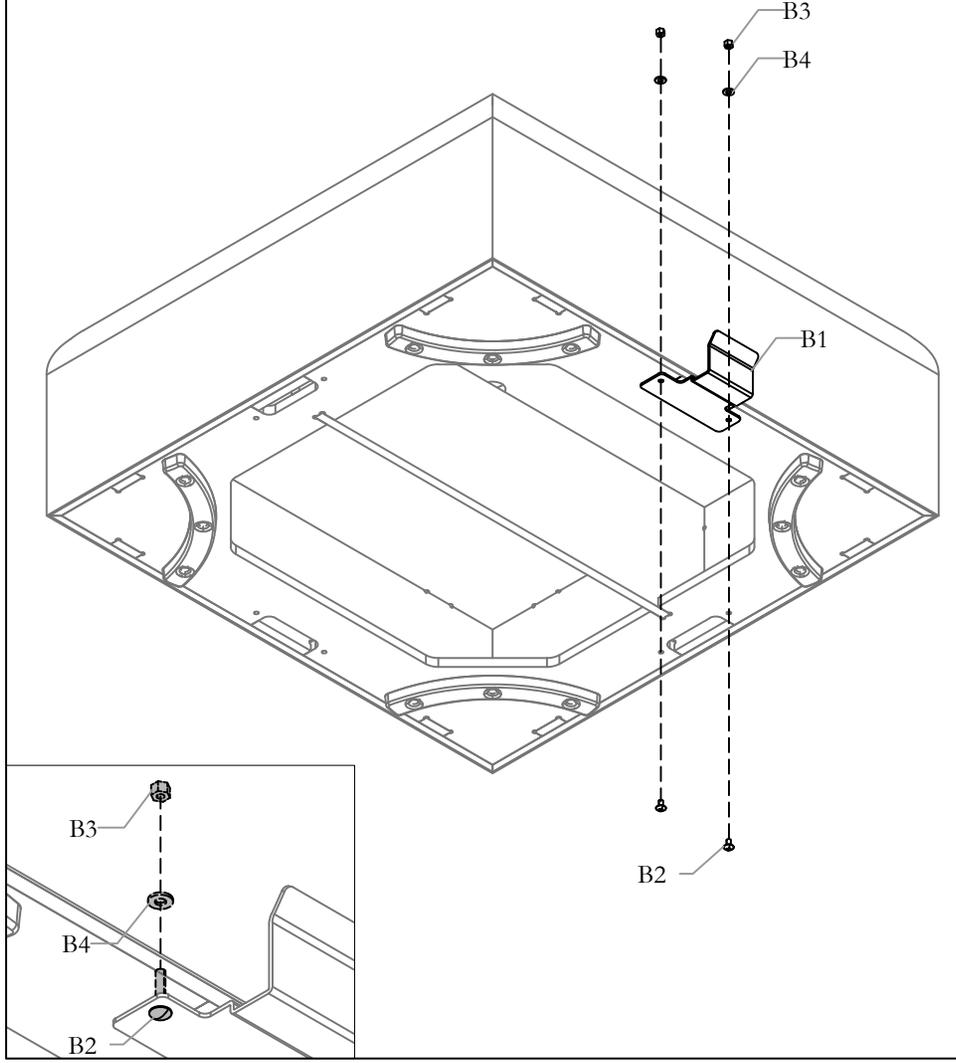

**ATTACH GANGING BRACKET**

NOTE: Holes for installing Ganging Brackets are covered with fabric. Carefully cut along the edges of the holes to cut them open.

STEP 1: Attach Ganging Bracket to the Building Block Seat as shown.

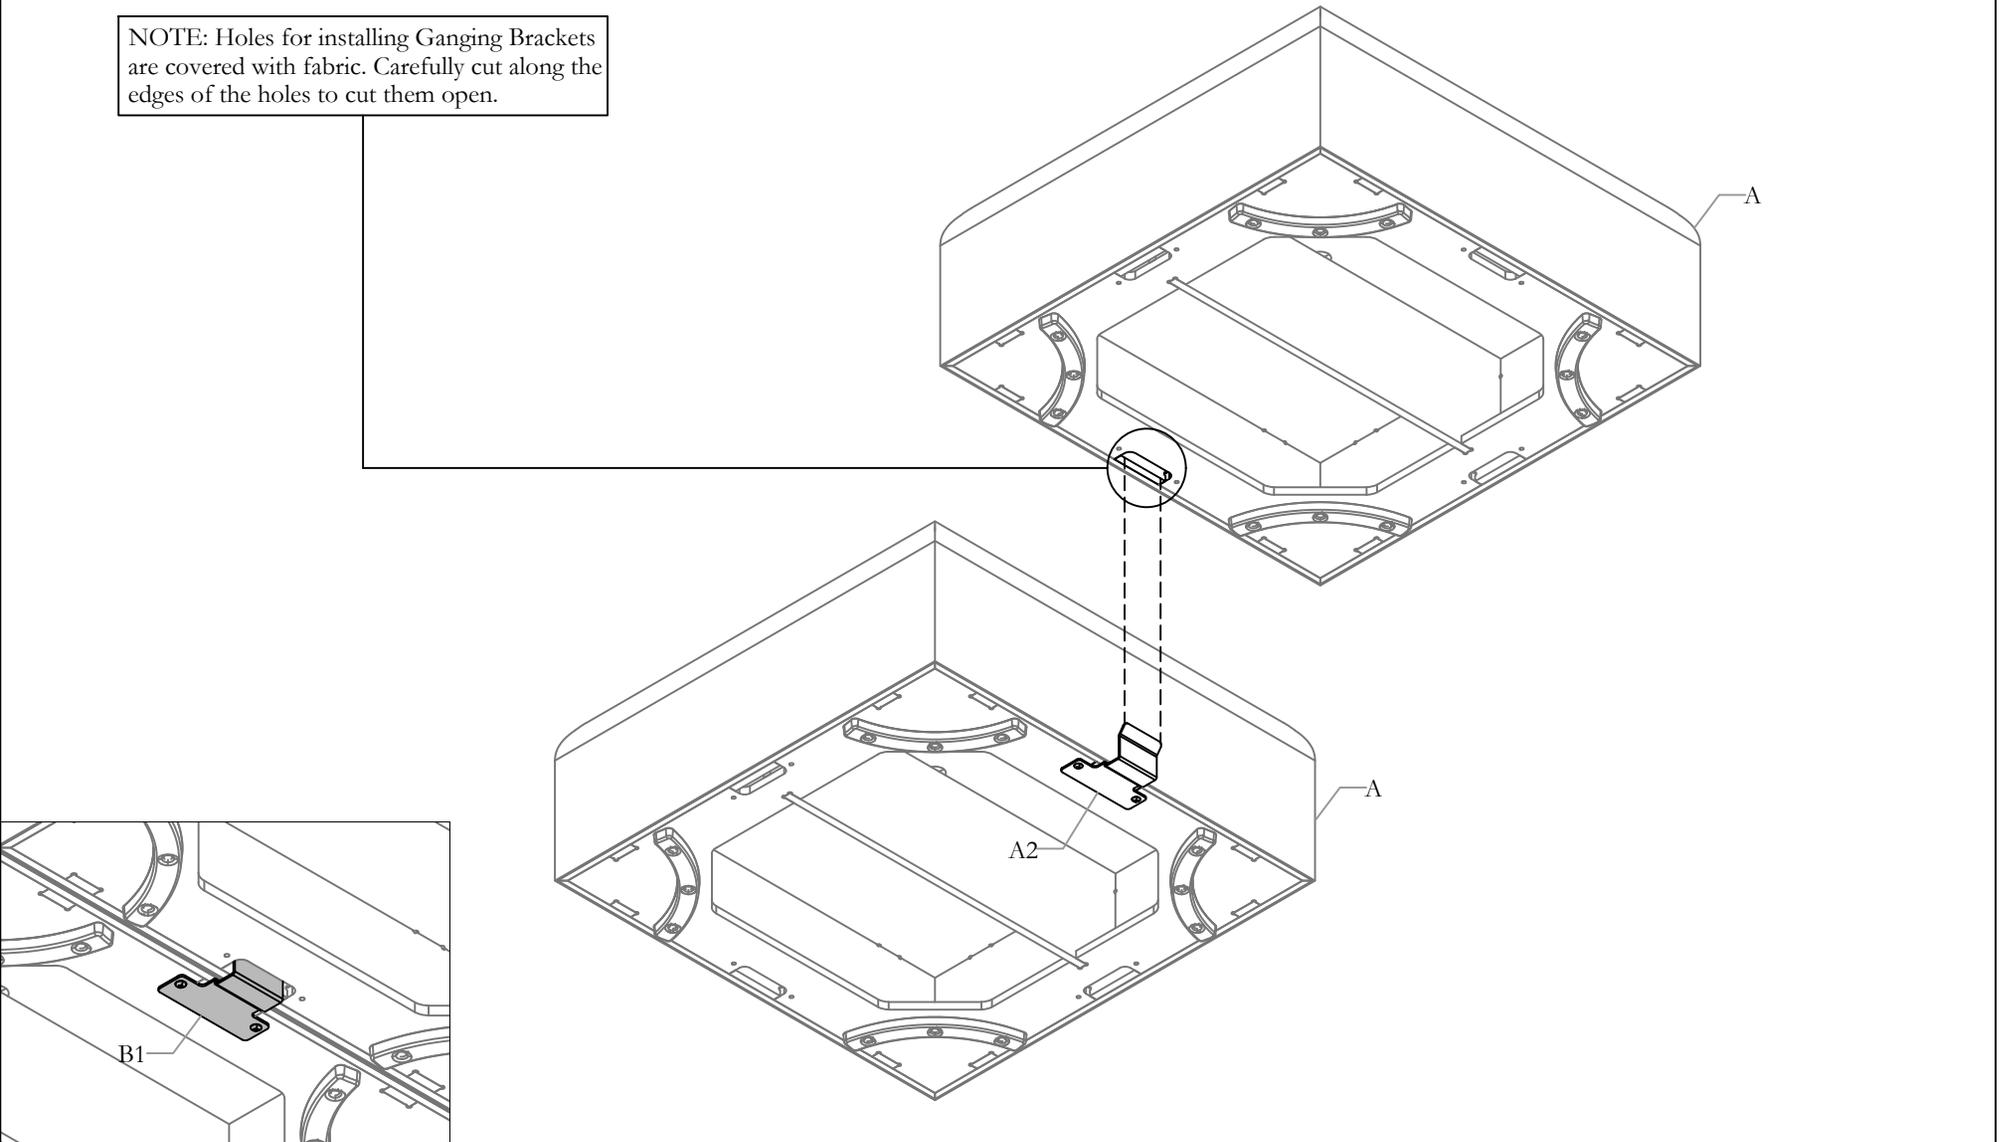

**SECURE GANGING BRACKET**

STEP 2: Secure Ganging Bracket using provided Screws, Lock Nuts and Washers as shown..

**ATTACH SECOND BUILDING BLOCK SEAT**

NOTE: Holes for installing Ganging Brackets are covered with fabric. Carefully cut along the edges of the holes to cut them open.

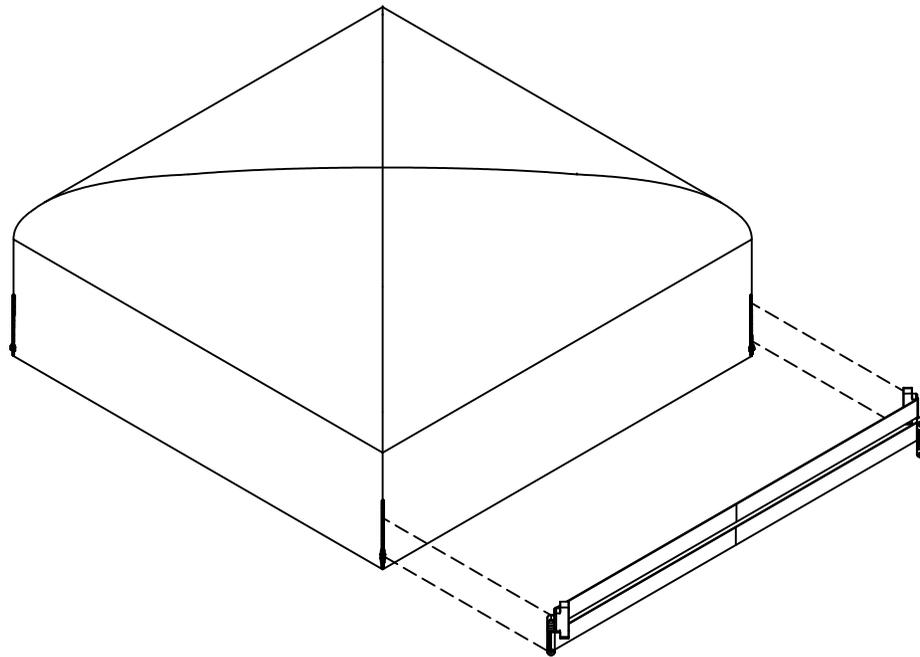

STEP 3: Attach second Building Block Seat as shown.

Section: BONDS INSTALLATION

Description: BUILDING BLOCK SEAT - STRAP COMPATIBLE INSTALLATION

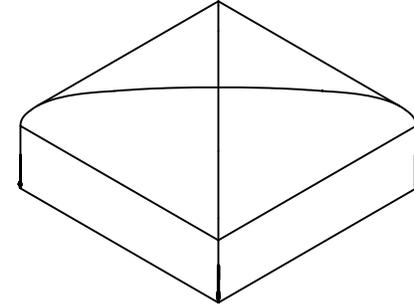

Building Block Seat - Strap Compatible (NBOSS), Ganging Kit (NBOSG), Strap Kit (NBOSK)

NOTE: For Ganging Kit Installation, please refer to Guide TSC\_501

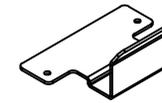

Part and Product Identification

A - Building Block Seat  
Strap Compatible  
(NBOSS) x1

B - Ganging Kit (NBOSG) x1

B1 - Ganging Bracket  
(A16-8880) x1

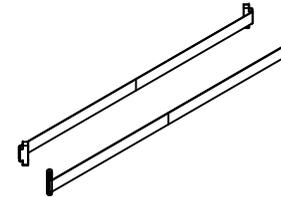

B2 - 1/4-20 UNC x 0.500"  
(E01-0110) x2

C - Strap Kit (NBOSK) x1

C1 - Strap x 2

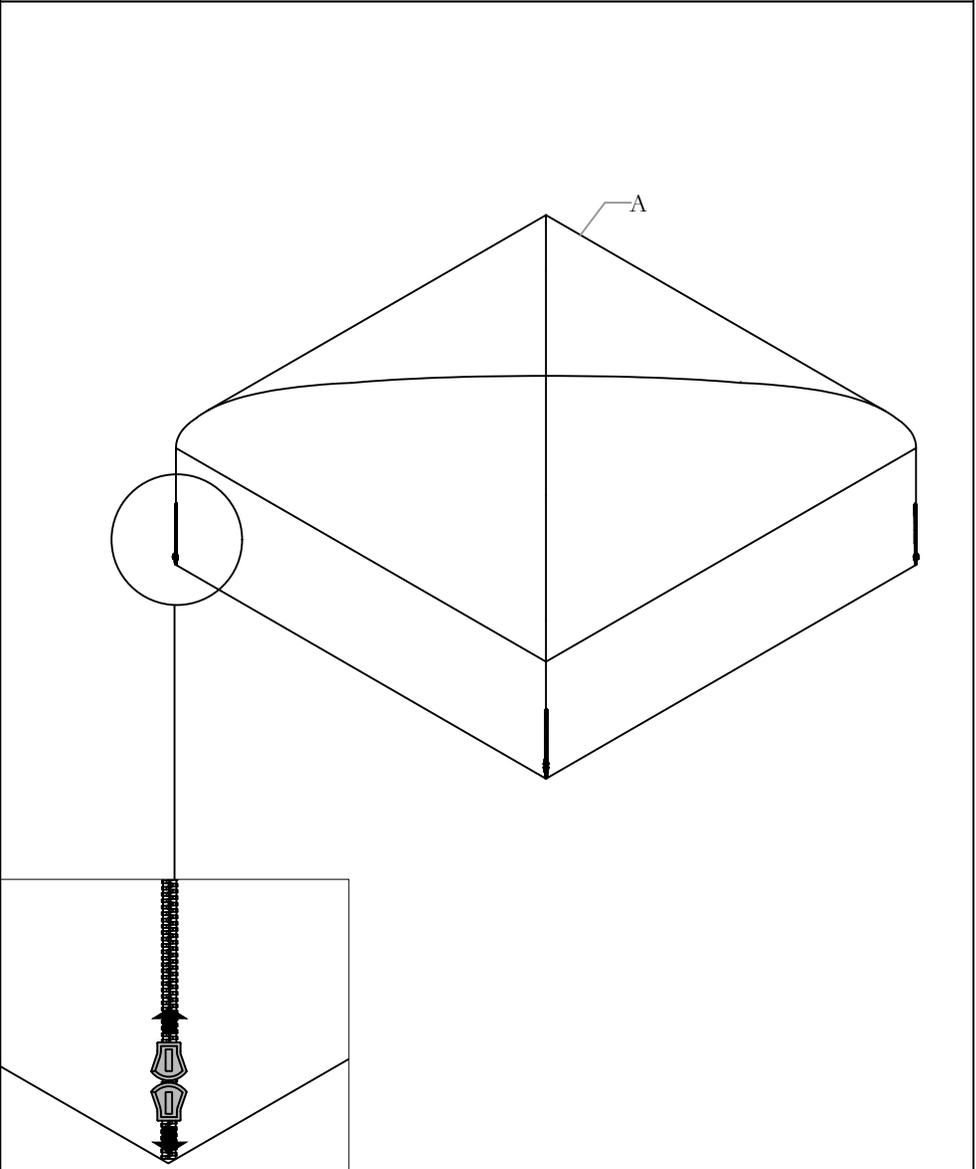

C2 - Q28-0025 Screw x 8

Section: **BONDS INSTALLATION**

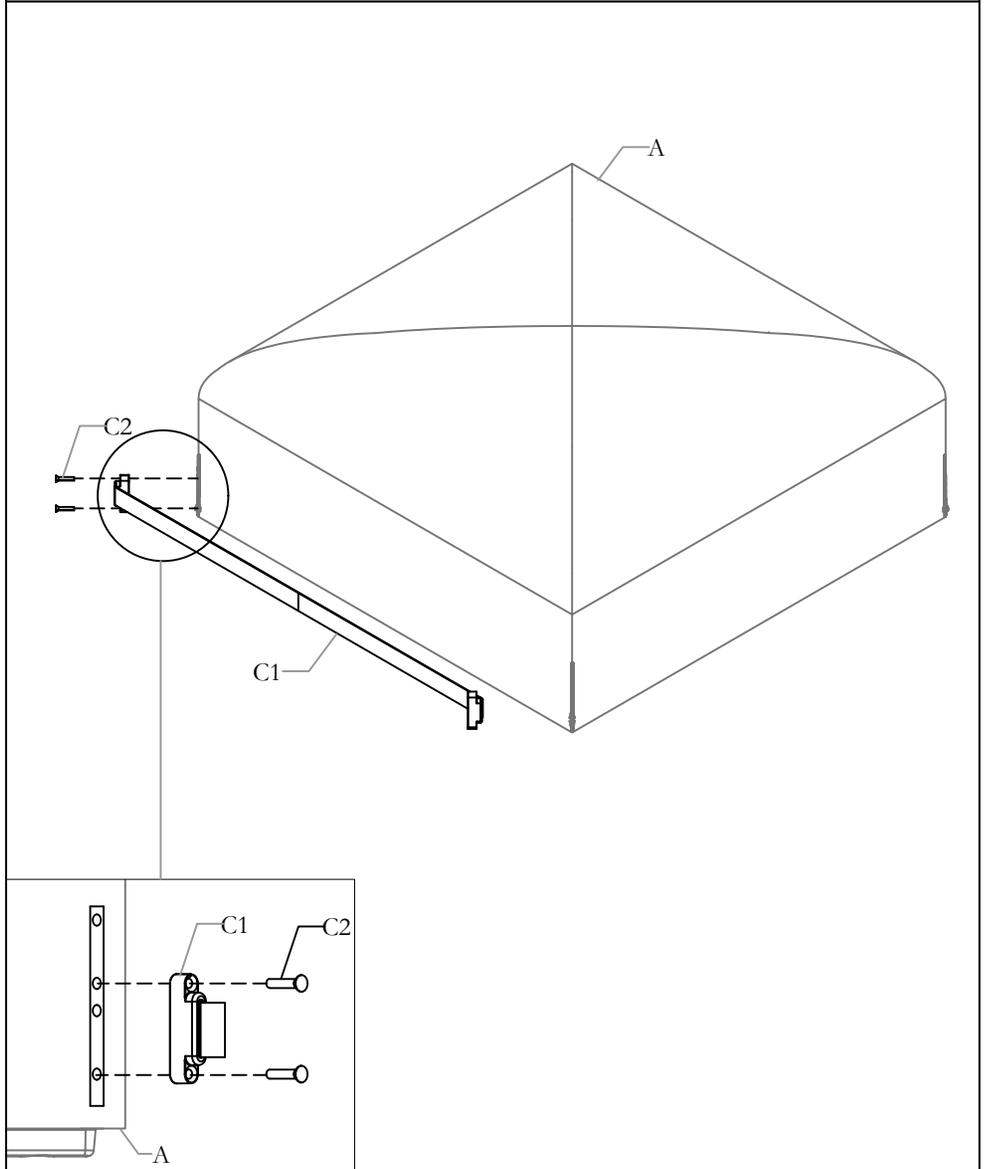

Description: **BUILDING BLOCK SEAT - STRAP COMPATIBLE INSTALLATION**

**UNZIP ONE CORNER OF BUIDLING BLOCK SEAT**

STEP 1: Unzip one corner of the first Building Block Seat as shown.

**SECURE THE FIRST STRAP**

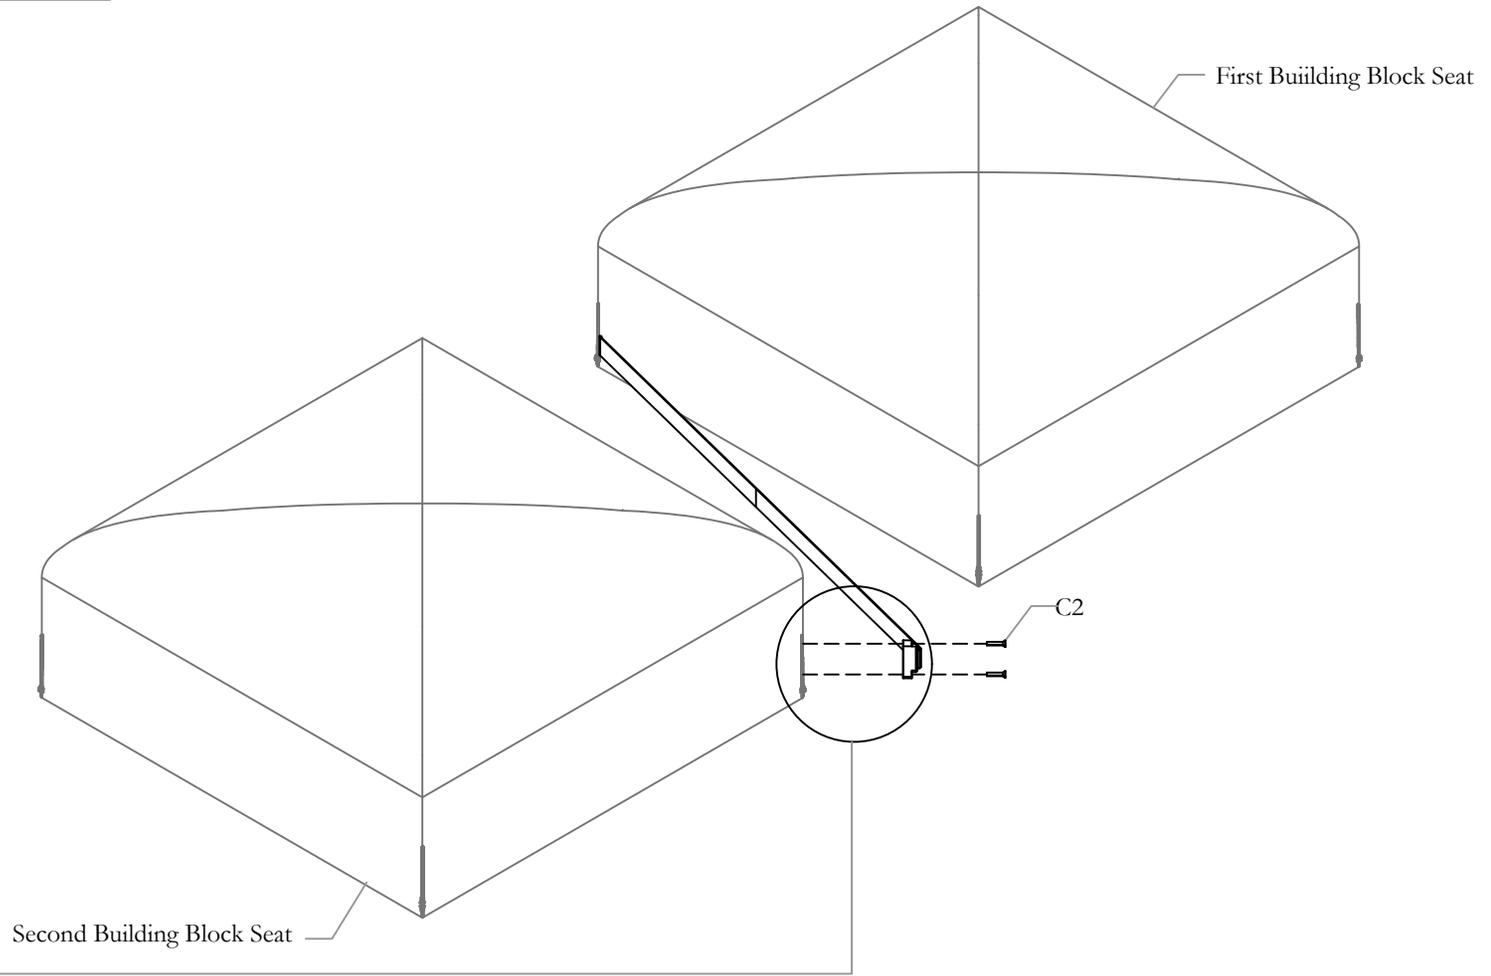

STEP 2: Attach Strap Bracket to the Building Block Seat as shown. Secure the bracket using Screws provided.

NOTE: The bottom hole of the Strap Bracket should be aligned with the bottom hole of Building Block Seat as shown.

**SECURE THE OTHER END OF THE FIRST STRAP**

NOTE: Make sure the Strap is not twisted.

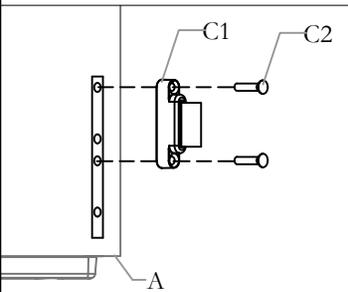

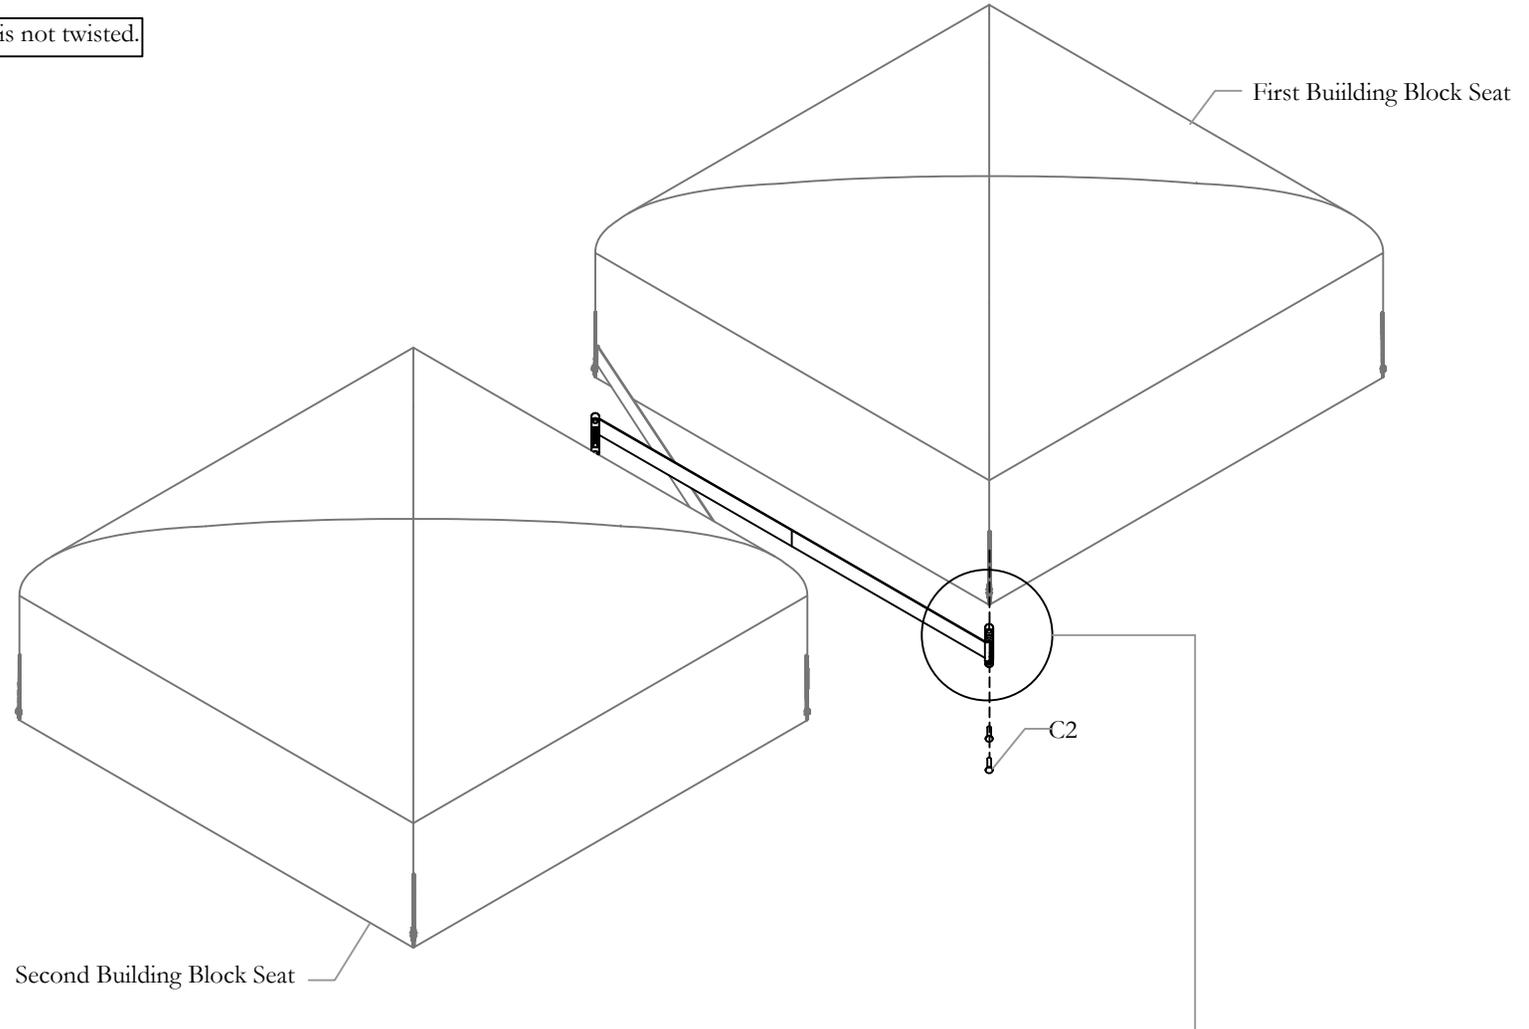

STEP 3: Repeat Step 1 and 2 to attach and secure the other end of the Strap to the second Building Block Seat as shown.

NOTE: The bottom hole of the Strap Bracket should be aligned with the bottom hole of Building Block Seat as shown.

**SECURE SECOND STRAP**

NOTE: Make sure the Strap is not twisted.

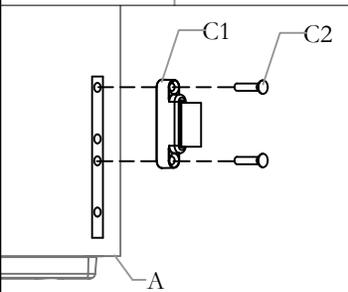

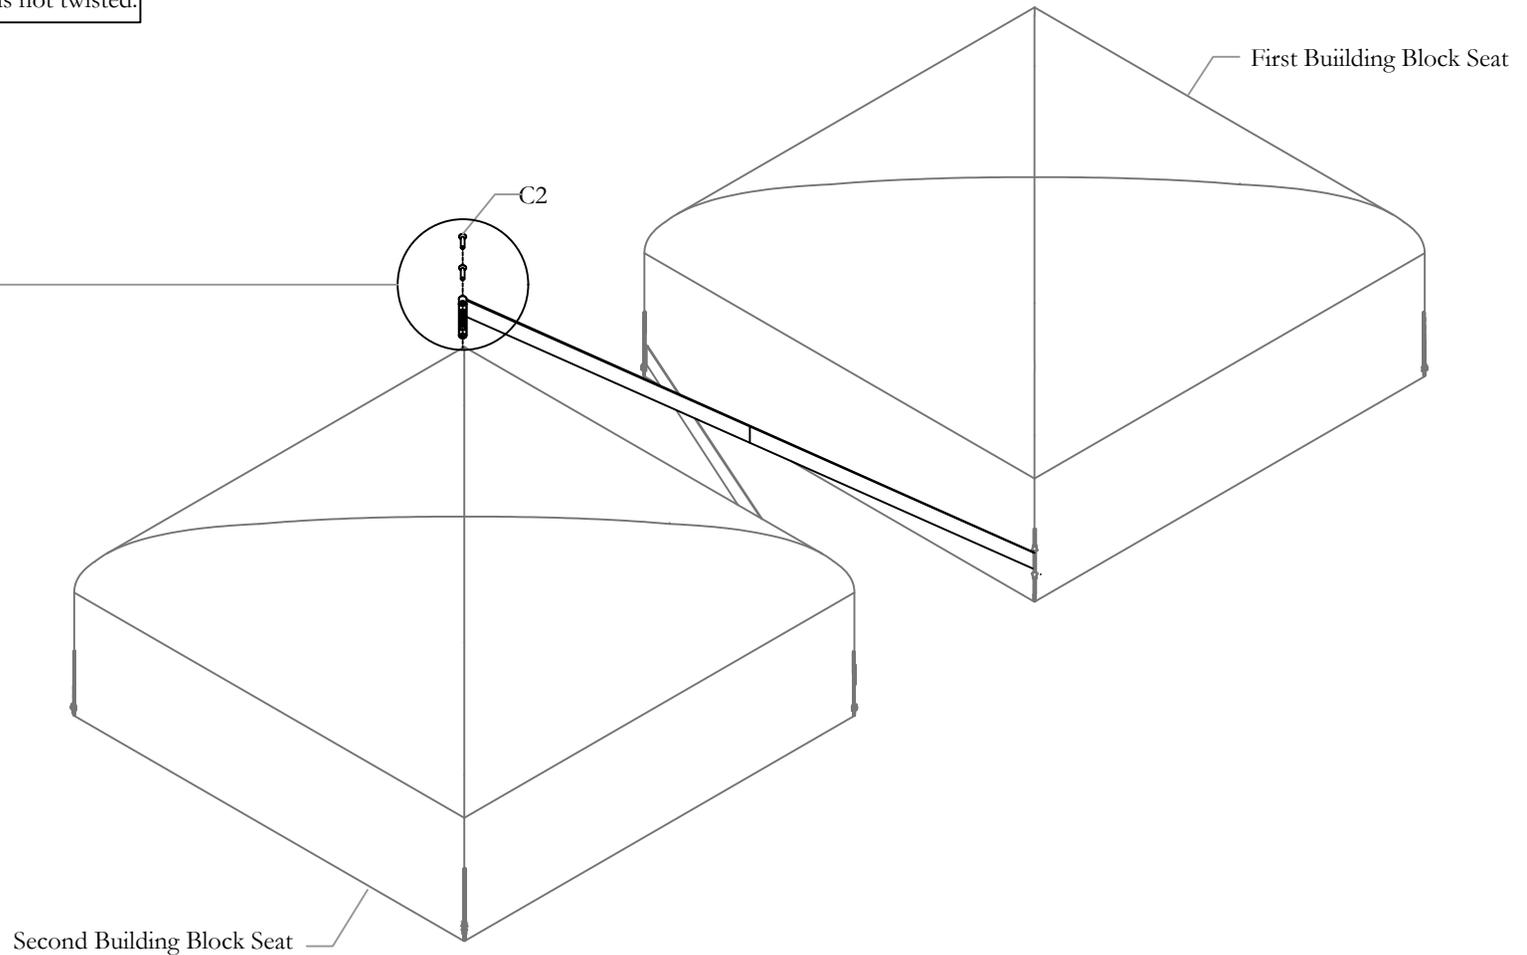

STEP 4: Repeat Step 1 and 2 to attach and secure the second Strap onto the first Building Block Seat in the position shown.

NOTE: The top hole of the Strap Bracket should be aligned with the top hole of Building Block Seat as shown.

**SECURE THE OTHER END OF SECOND STRAP**

NOTE: Make sure the Strap is not twisted.

STEP 5: Repeat Step 1 and 2 to attach and secure the other end of second Strap onto the second Building Block Seat as shown.

NOTE: The top hole of the Strap Bracket should be aligned with the top hole of Building Block Seat as shown.

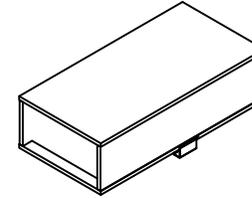

Section: BONDS INSTALLATION

Description: BUILDING BLOCK TABLE INSTALLATION

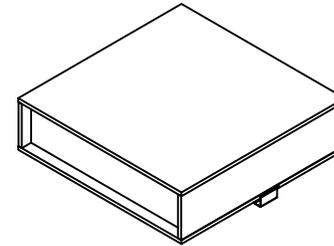

Part and Product Identification

Building Block Table - Rectangular (NBOTR\_), Building Block Table - Square (NBOTS\_), Building Block Table - Triangular (NBOTT\_)

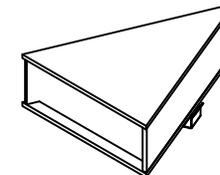

A - Building Block Table - Rectangular (NBOTR\_) x1

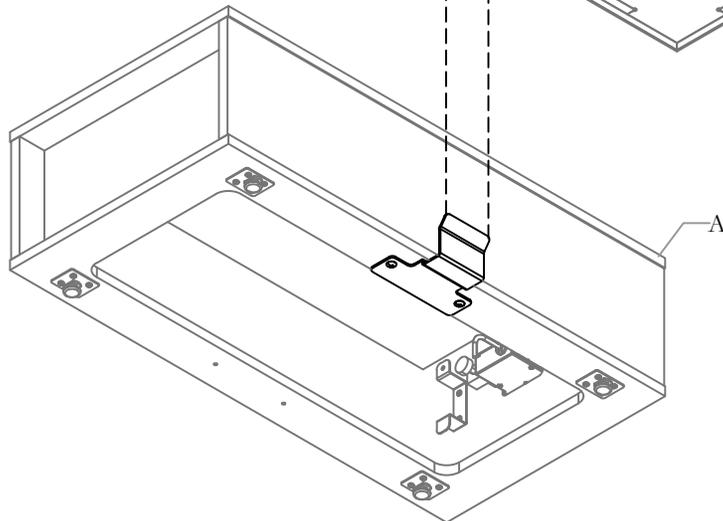

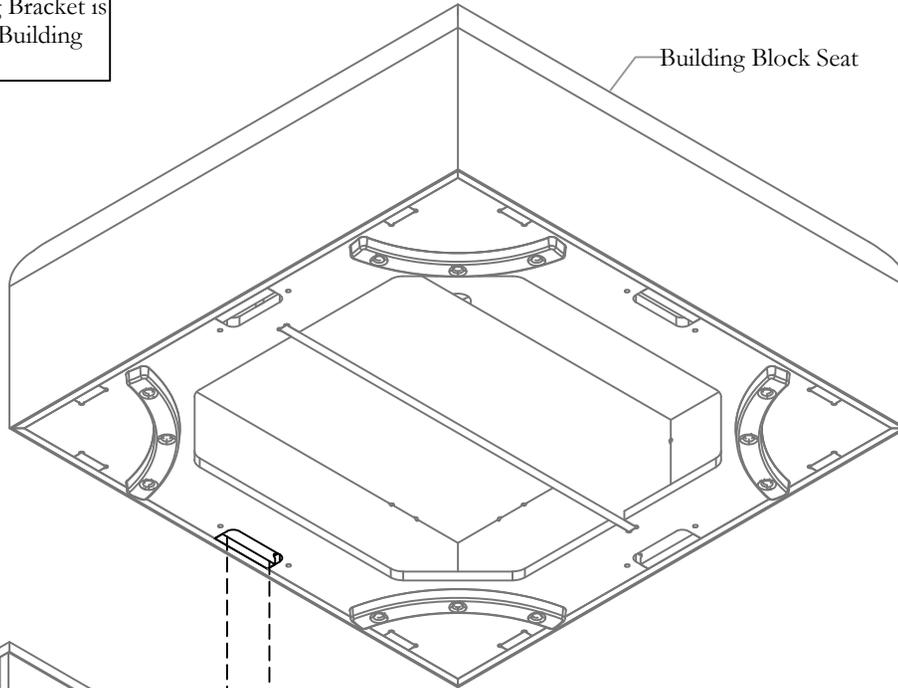

B - Building Block Table - Square (NBOTS\_) x1

C - Building Block Table - Triangular (E01-0110) x2

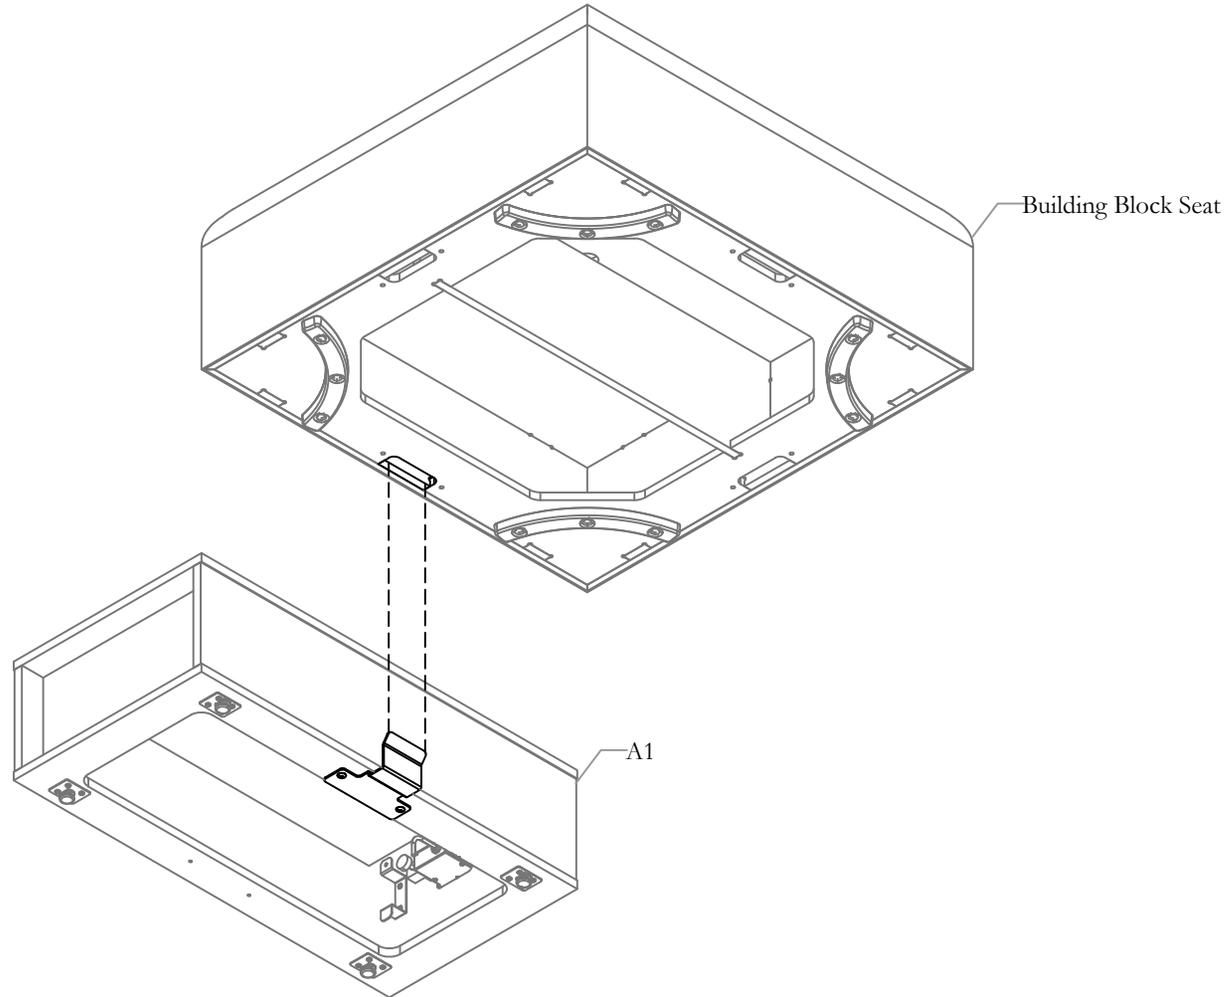

NOTE: One Ganging Bracket is pre-installed for each Building Block Table.

NOTE: NBOTRL12 is shown as Example.

**ATTACH BUILDING BLOCK SEAT TO BUILDING BLOCK TABLE - RECTANGULAR**

NOTE: NBOTRL12 is shown as Example.

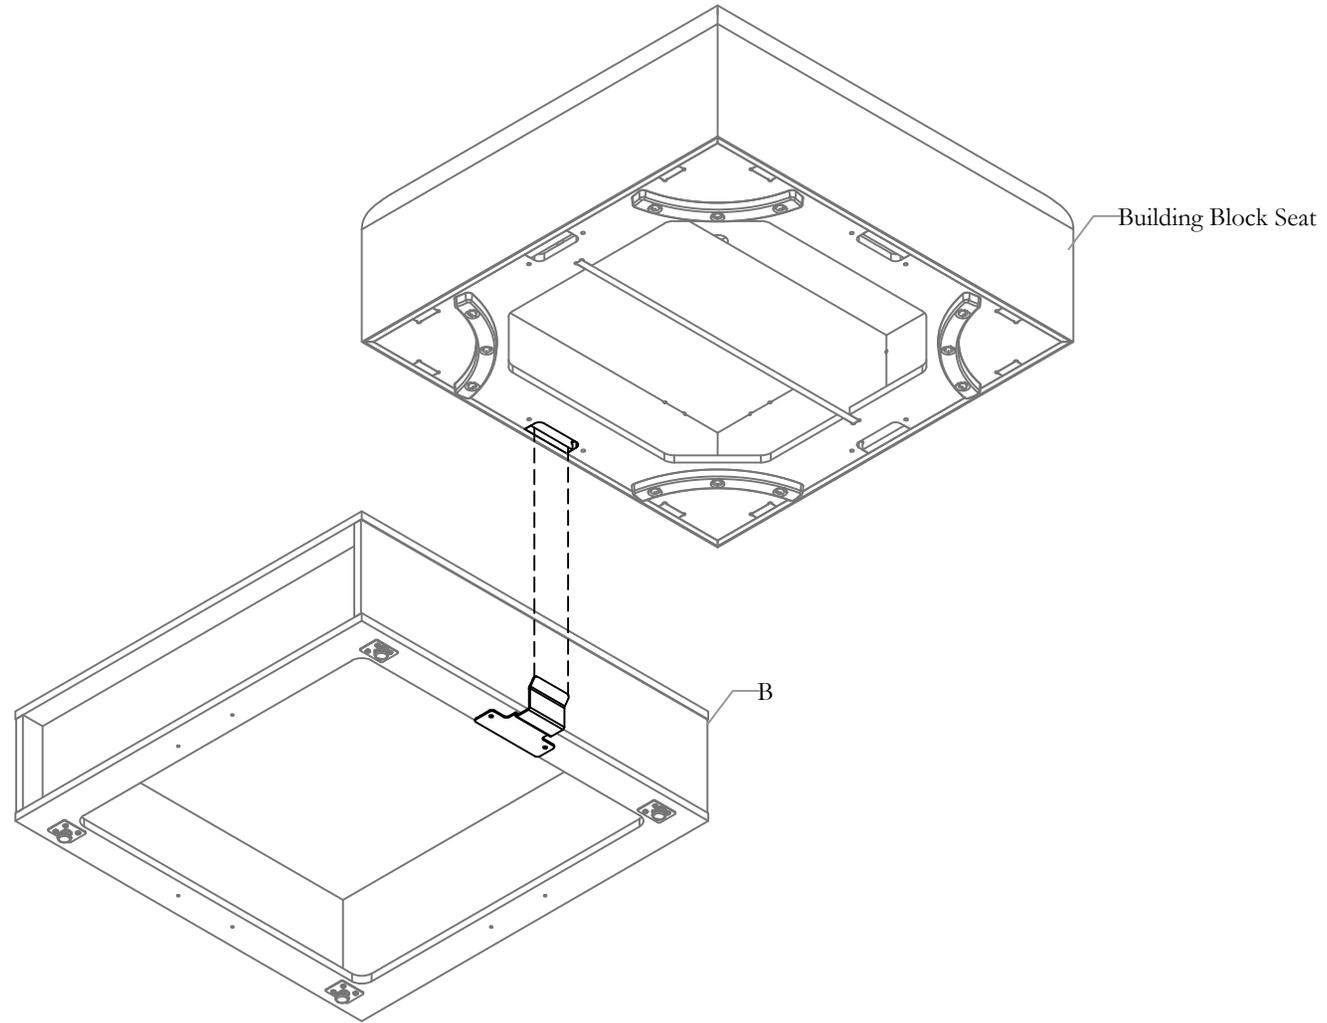

STEP 1a: Attach Building Block Seat to Building Block Table - Rectangular as shown.

NOTE: Ganging Bracket is pre-installed.

**ATTACH BUILDING BLOCK SEAT TO BUILDING BLOCK TABLE - SQUARE**

NOTE: NBOTSL11 is shown as Example.

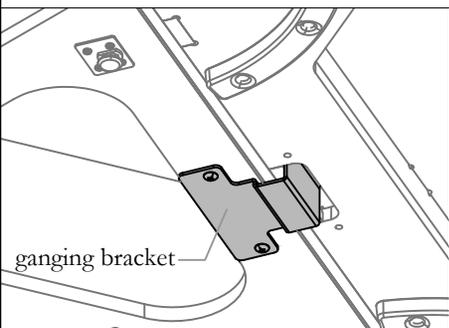

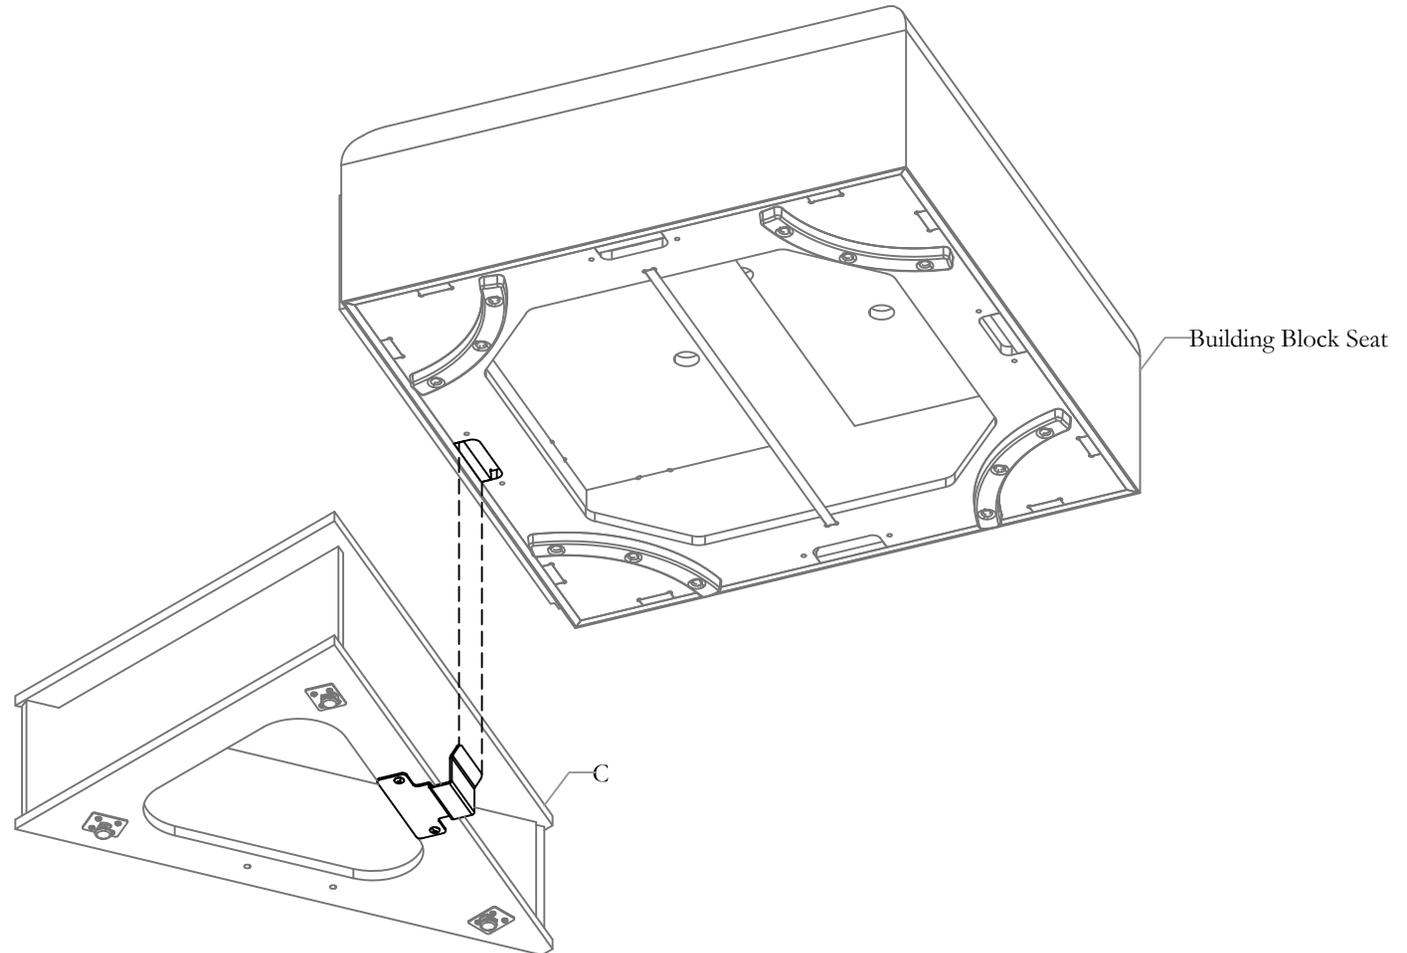

STEP 1b: Attach Building Block Seat to Building Block Table - Square as shown.

NOTE: Ganging Bracket is pre-installed.

**ATTACH BUILDING BLOCK TABLE - SQUARE TO BUILDING BLOCK SEAT**

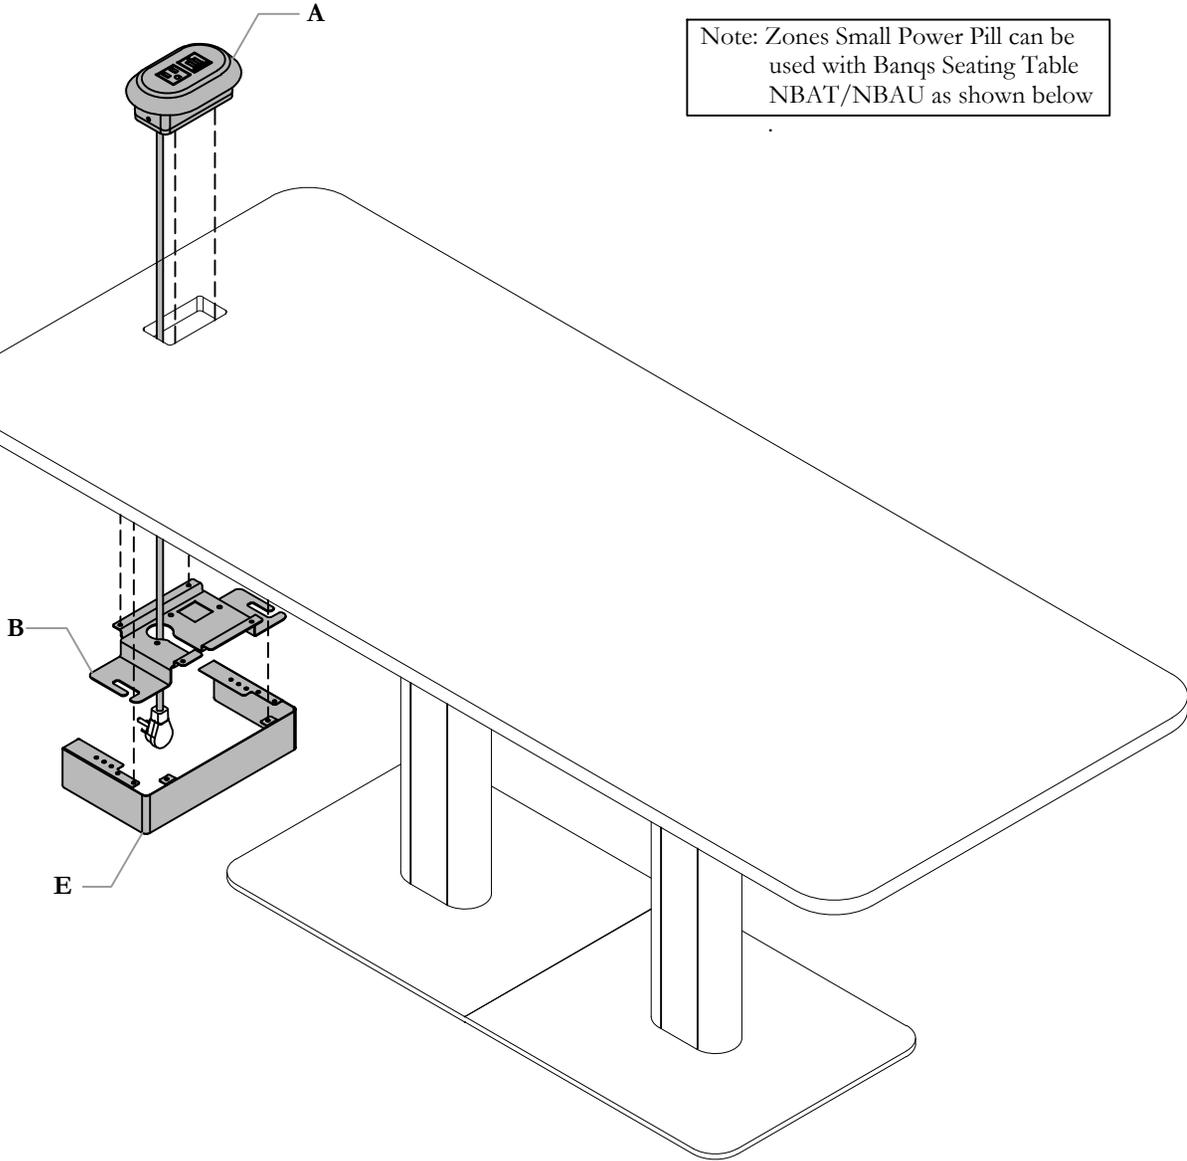

NOTE: NBOTTL1 is shown as Example.

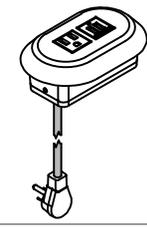

STEP 1c: Attach Building Block Seat to Building Block Table - Triangular as shown.  
NOTE: Ganging Bracket is pre-installed.

Zones - Small Power Pill (ZNEP)

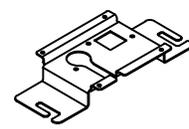

Note: Zones Small Power Pill can be used with Banqs Seating Table NBAT/NBAU as shown below

Part and Product Identification

A - Small Power Pill (ZNEPS) x1

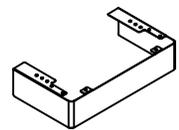

B - Small Power Pill Mounting Bracket (MPA15-E853) x1

C - #8 Screw, Type A, 3/4" (FS8-3-4-QPA) x4

D - TL Hex Soc Cap Screw (FS-10-24 X1-2AC) x2

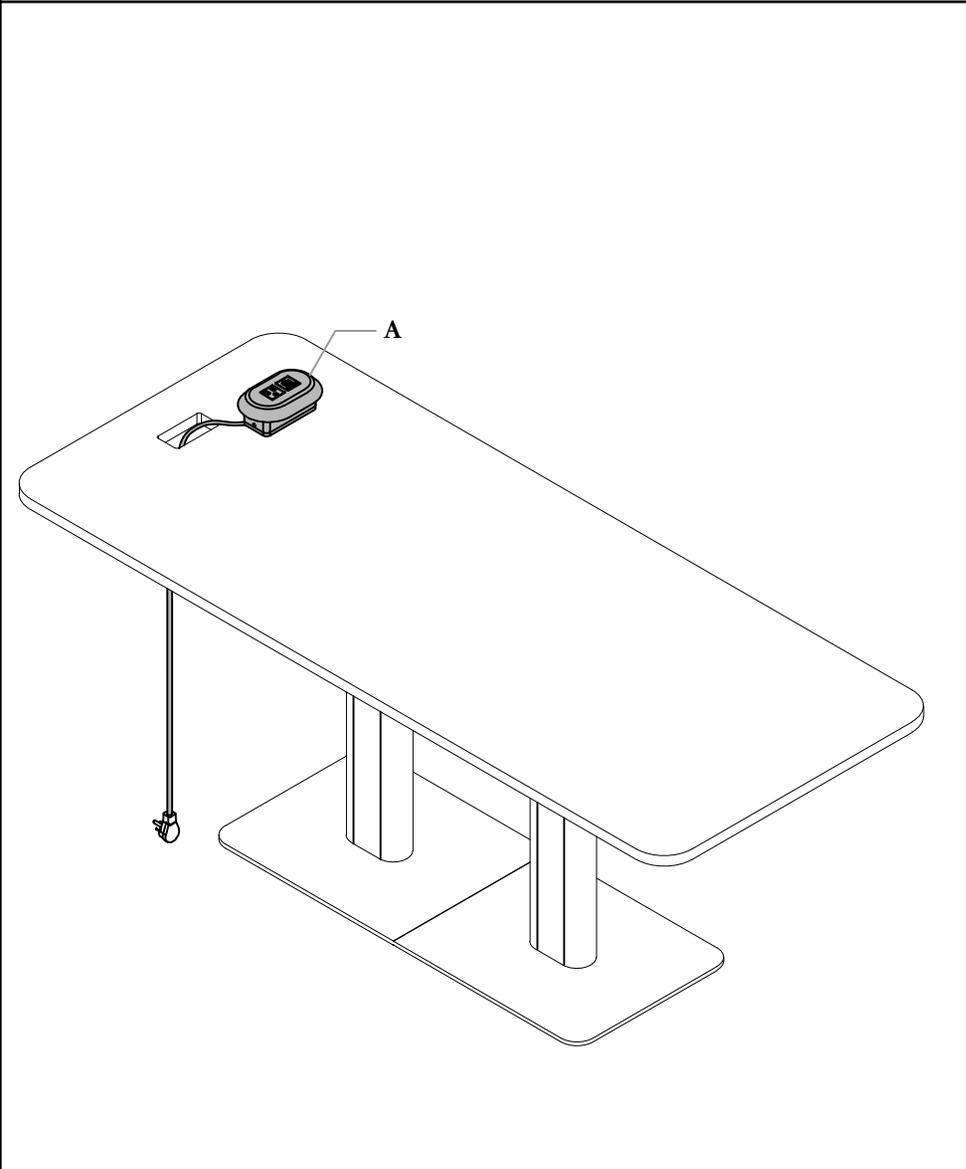

E - Shroud for Banquette Tables (A16-6372) x1

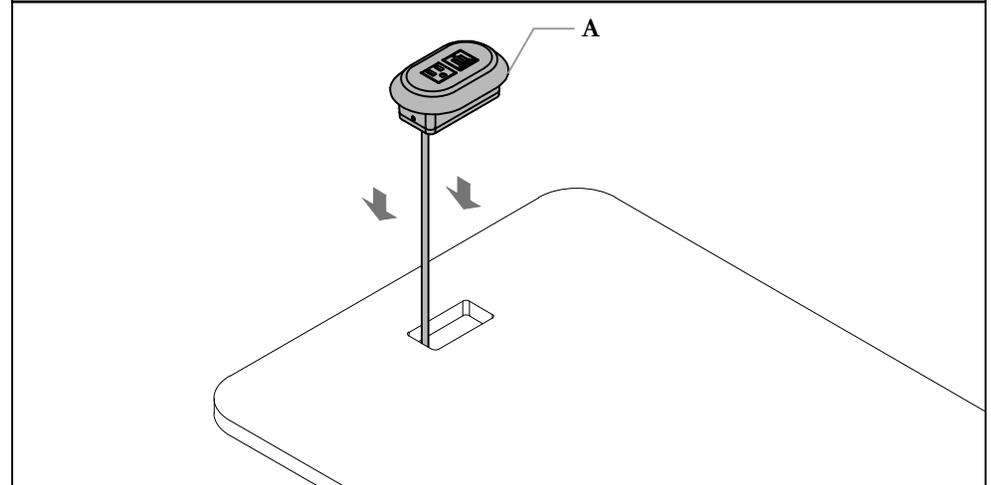

F - #8 Screw, Type A, 3/4" (FS8-3-4-QPA) x6

### SETTING UP INSTALLATION

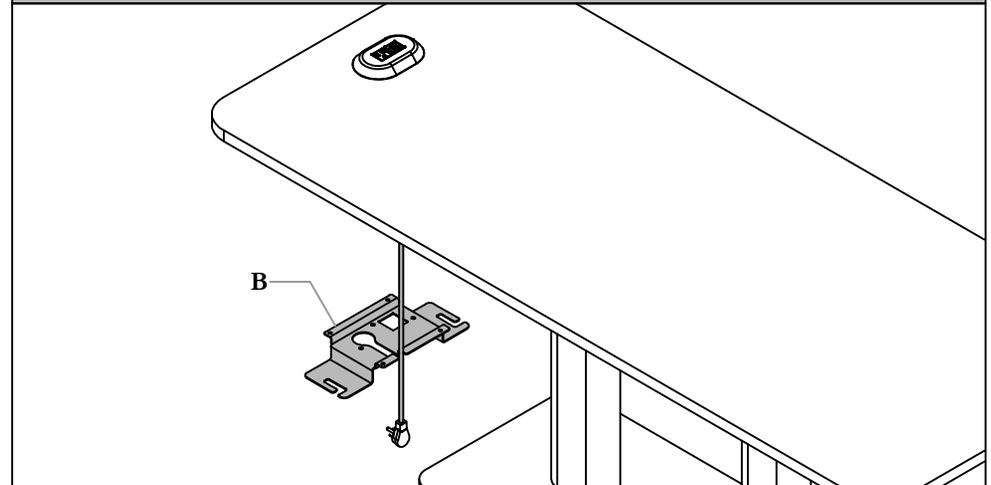

STEP 1: Place the power pill on the work surface and route the power cable through the grommet cut out as shown above.

### INSTALLING POWER PILL

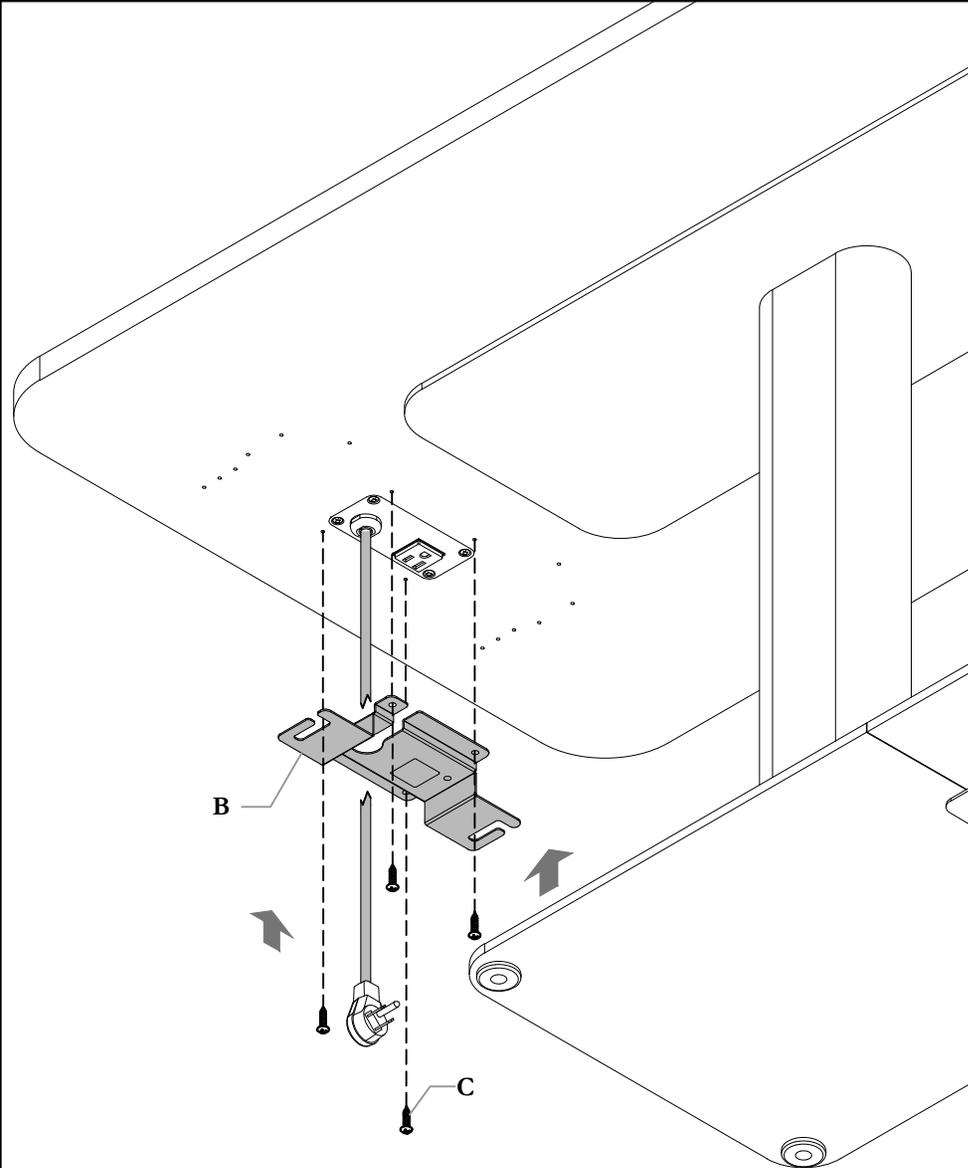

STEP 2: Carefully insert the power pill into the grommet cut out in the work surface.

### INSTALLING MOUNTING BRACKET

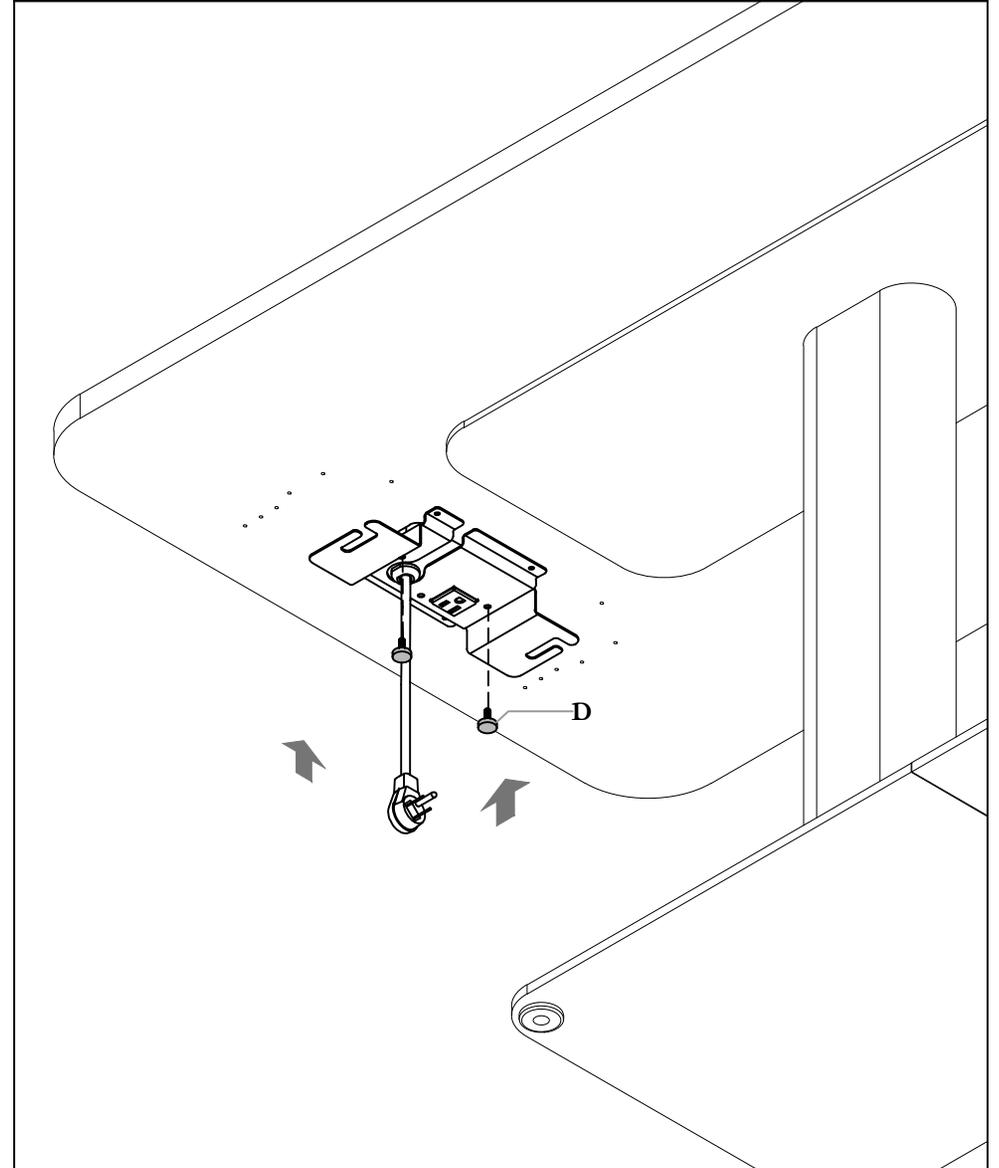

STEP 3: Pass the power cable through the mounting bracket as shown above.

**JOINING MOUNTING BRACKET TO POWER PILL**

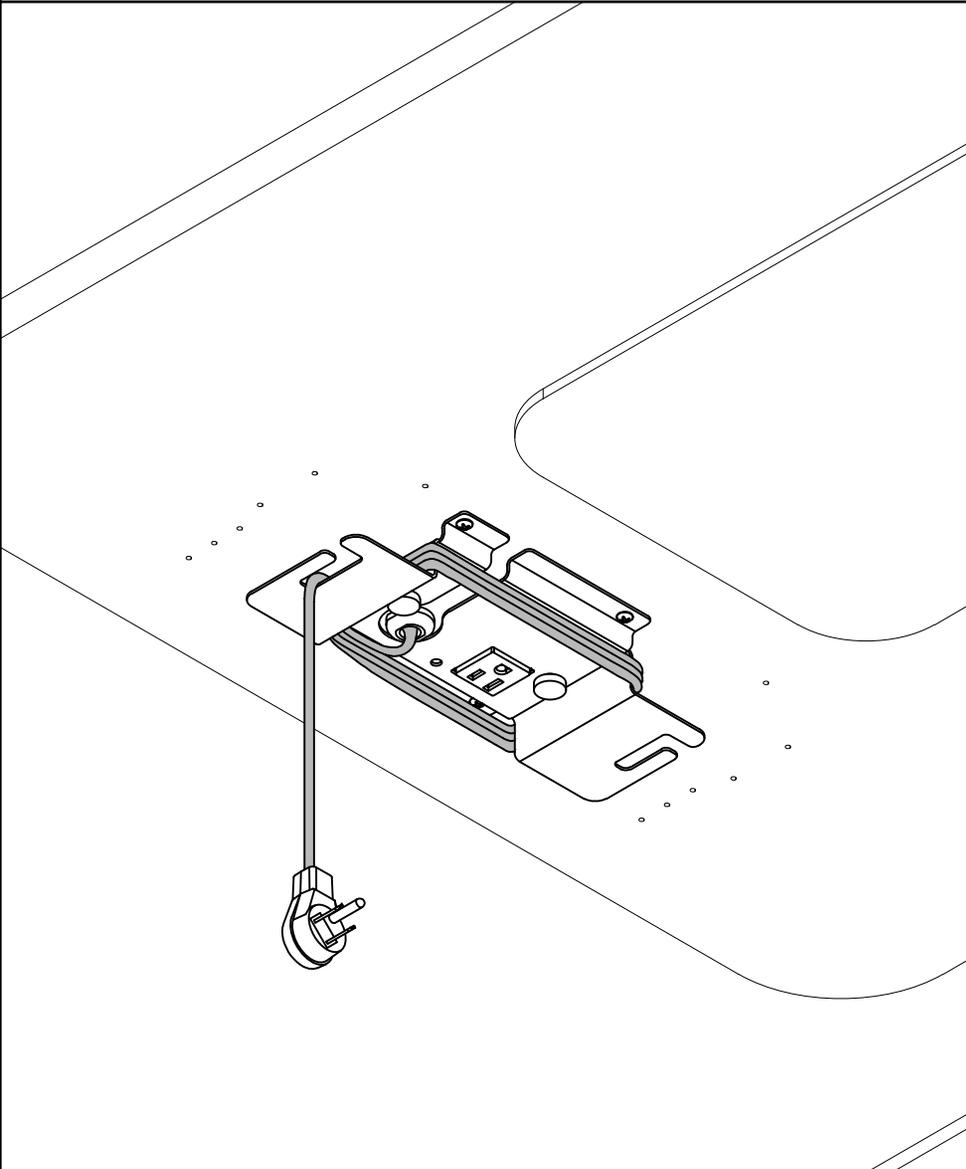

STEP 4: Fasten the screws on the mounting bracket onto the lower face of the worksurface as shown above

**INSTALLING MOUNTING BRACKET**

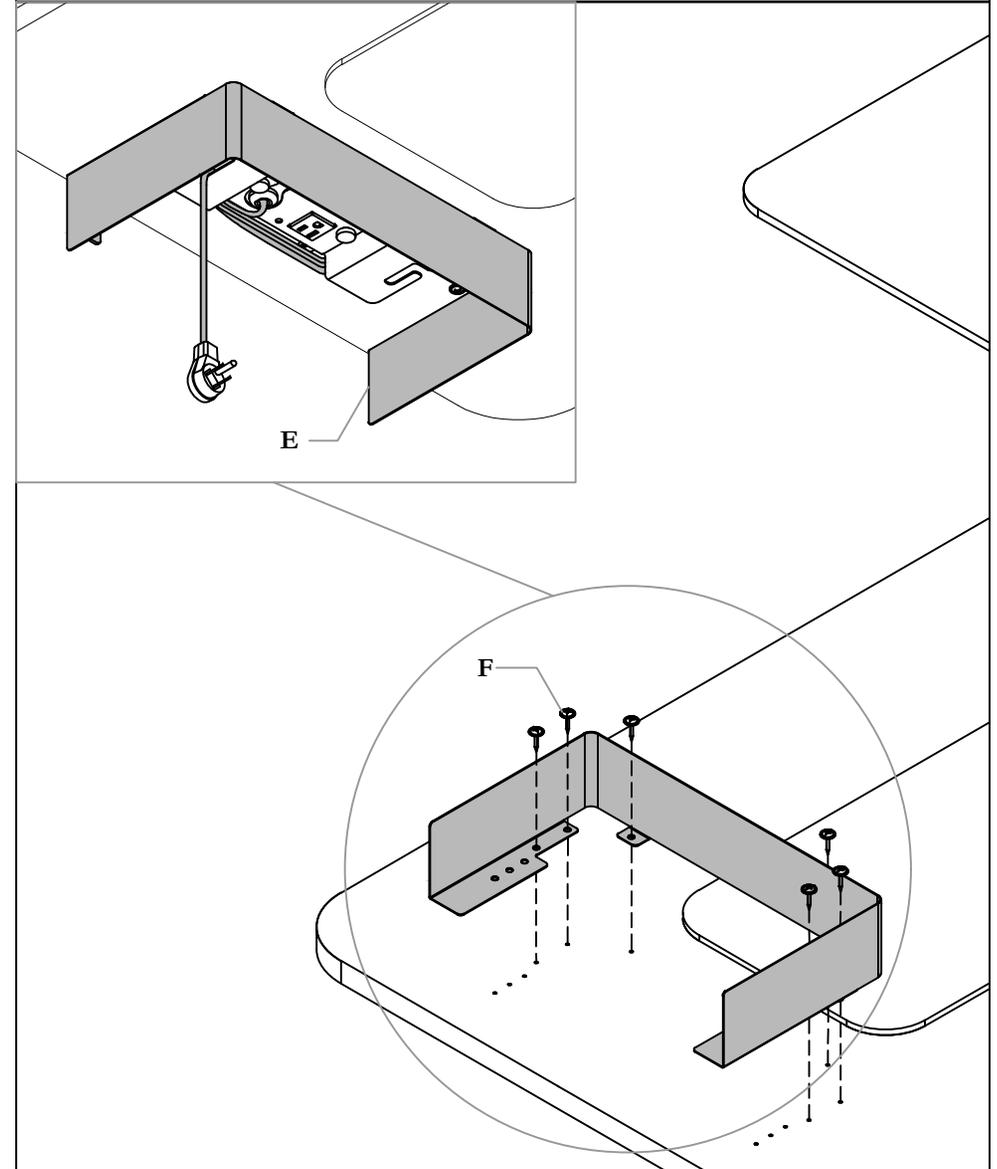

STEP 5: Join the mounting bracket to the power pill with the Knobs as shown above.

### CABLE MANAGEMENT

STEP 6: Wrap Power Pill Cable around the Bracket. Use the slots on the side parts of the bracket to hold the Cable and prevent it from unwrapping.

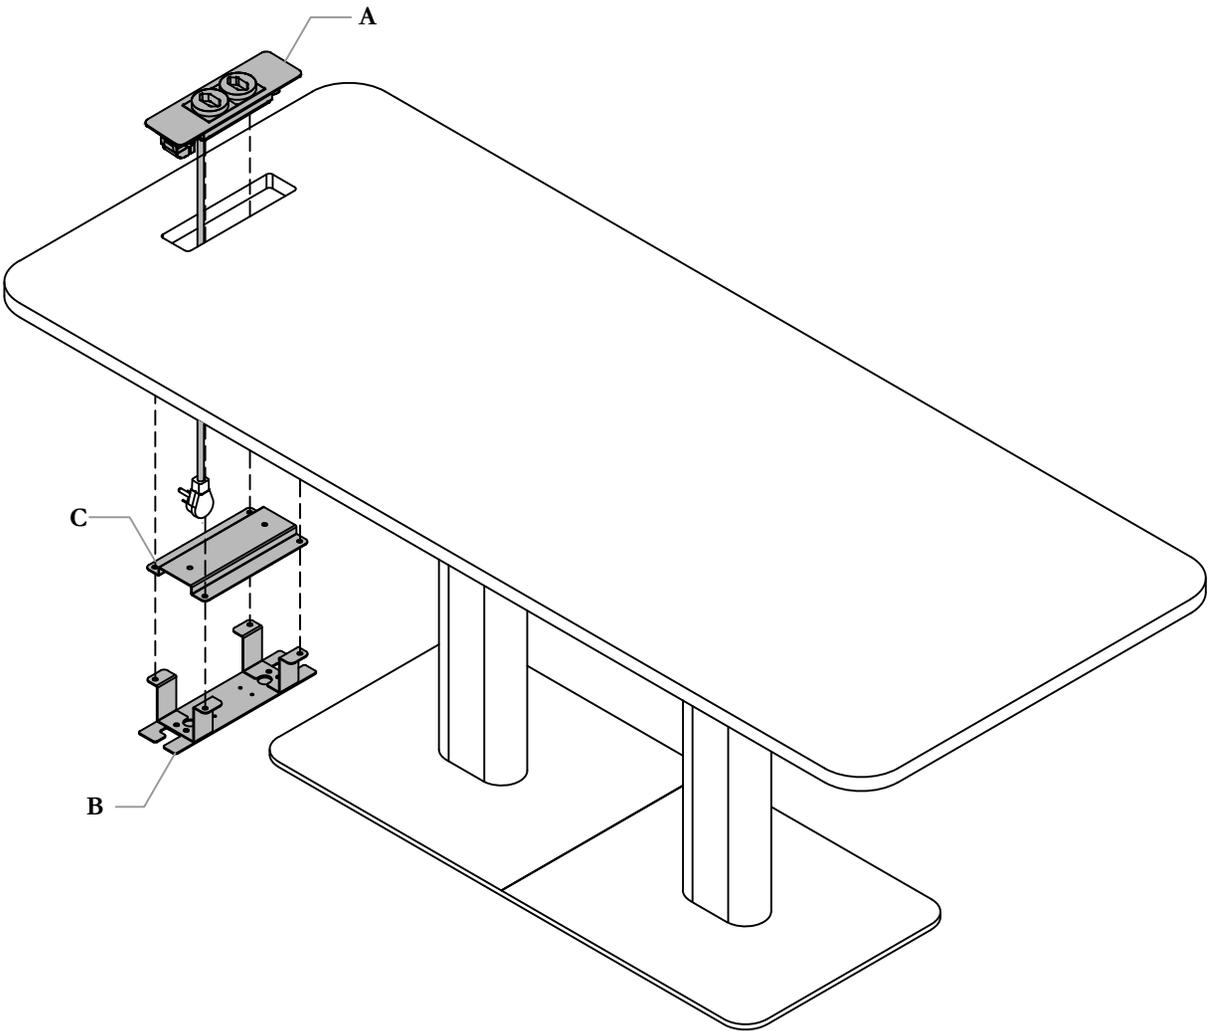

### INSTALLING BANQUET TABLE SHROUD

STEP 7: Install the Banquet Table Shroud onto the worksurface as shown above.

Zones - CALA Power Module Installation (ZNEB)

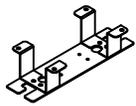

Note: Zones CALA Power Module can be used with Banqs Seating Table NBAT/NBAU as shown below .

Part and Product Identification

A - CALA Single Power Module Assy. (ZNEBS) x1

B- Cable Manager Assy. (N09-7159) x1

C- Locking Bracket (A16-5548) x1

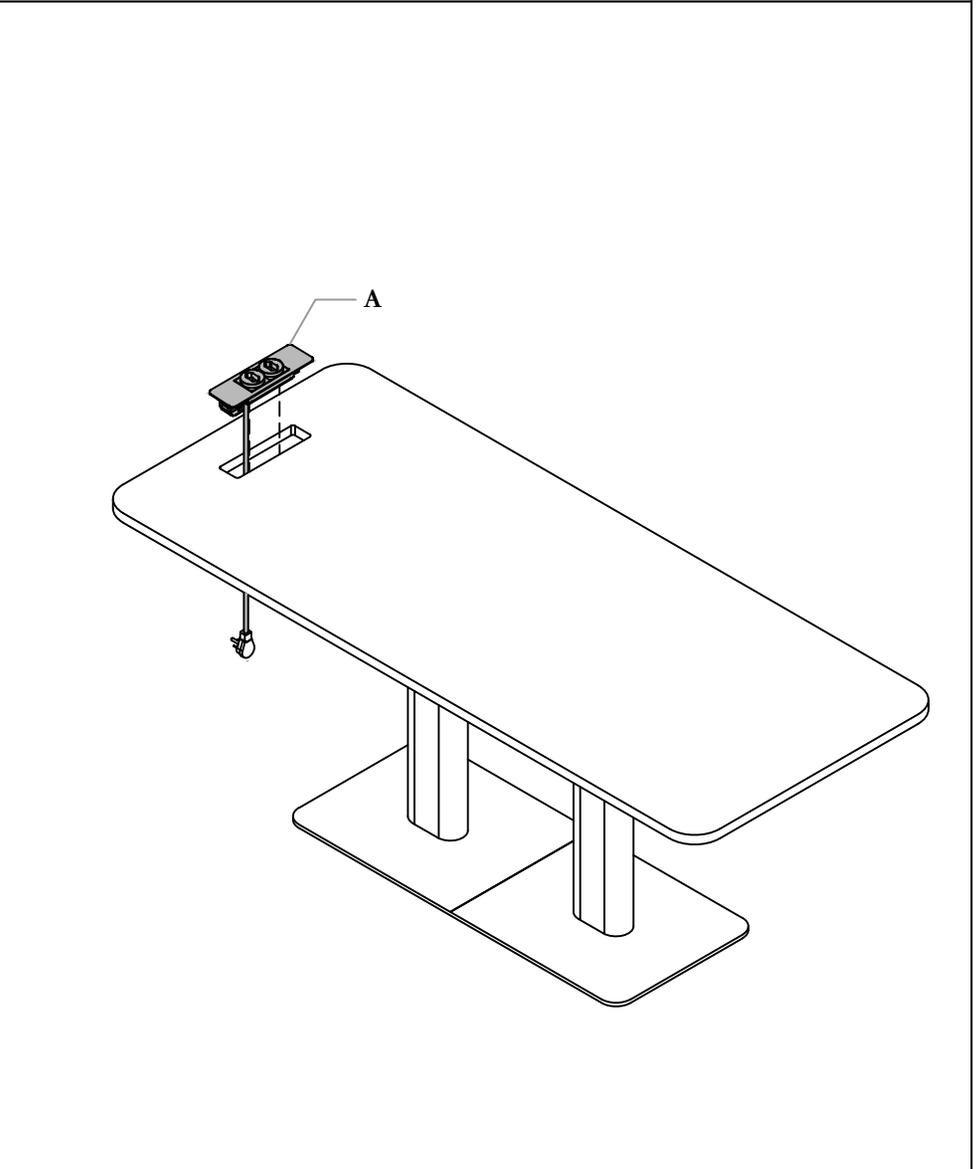

D- #4x3/8" Thumb Screw (FS1 -4x3-8) x2

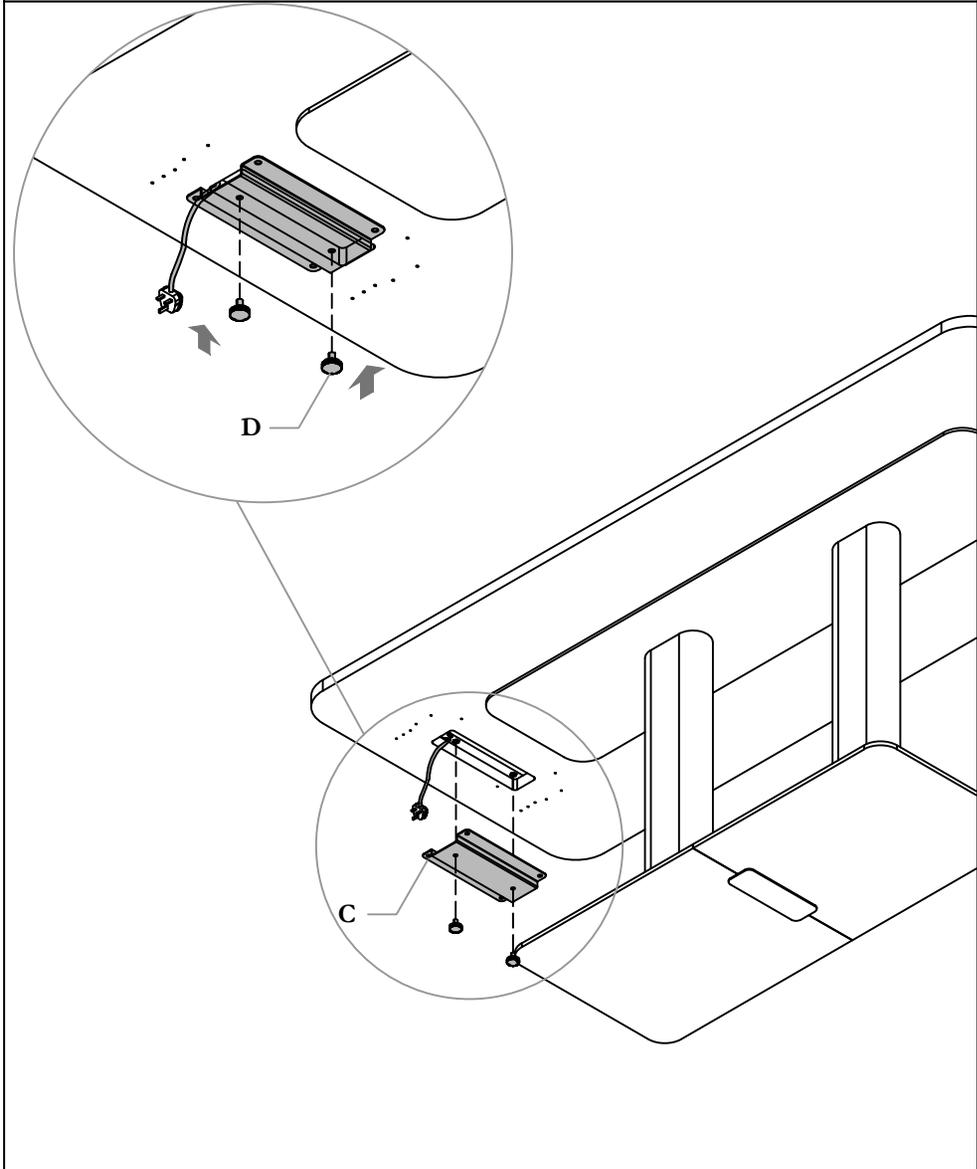

E- #12x3/4" Wood Screw (FS12-3/4-QPA) x4

**INSTALL RECEPTACLE ASSEMBLY**

STEP 1: Install Receptacle Assembly on Cut-out as shown.

**INSTALL LOCKING BRACKET**

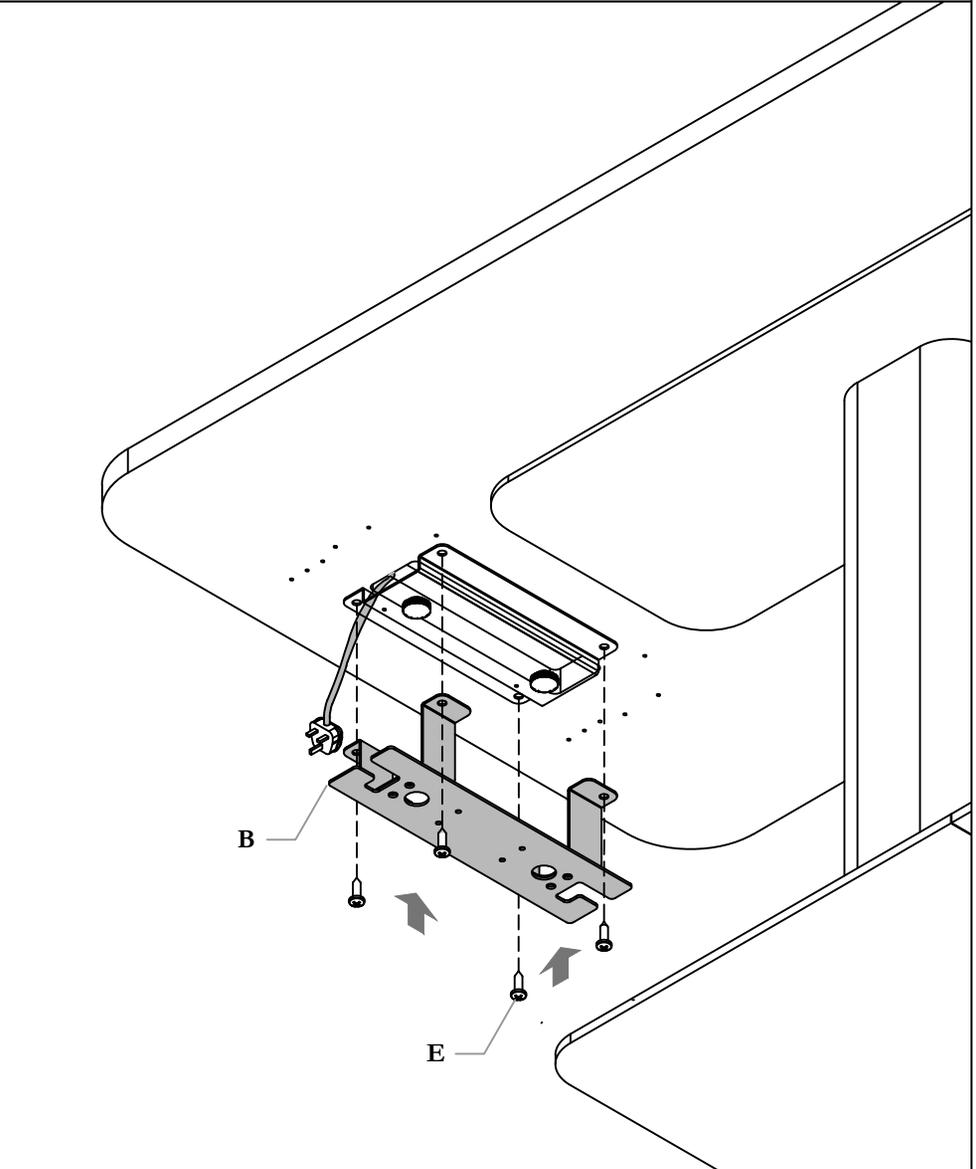

STEP 2: Install Locking Bracket by using the Thumb Screws provided.

Section: **ACCESSORIES & ELECTRICS**

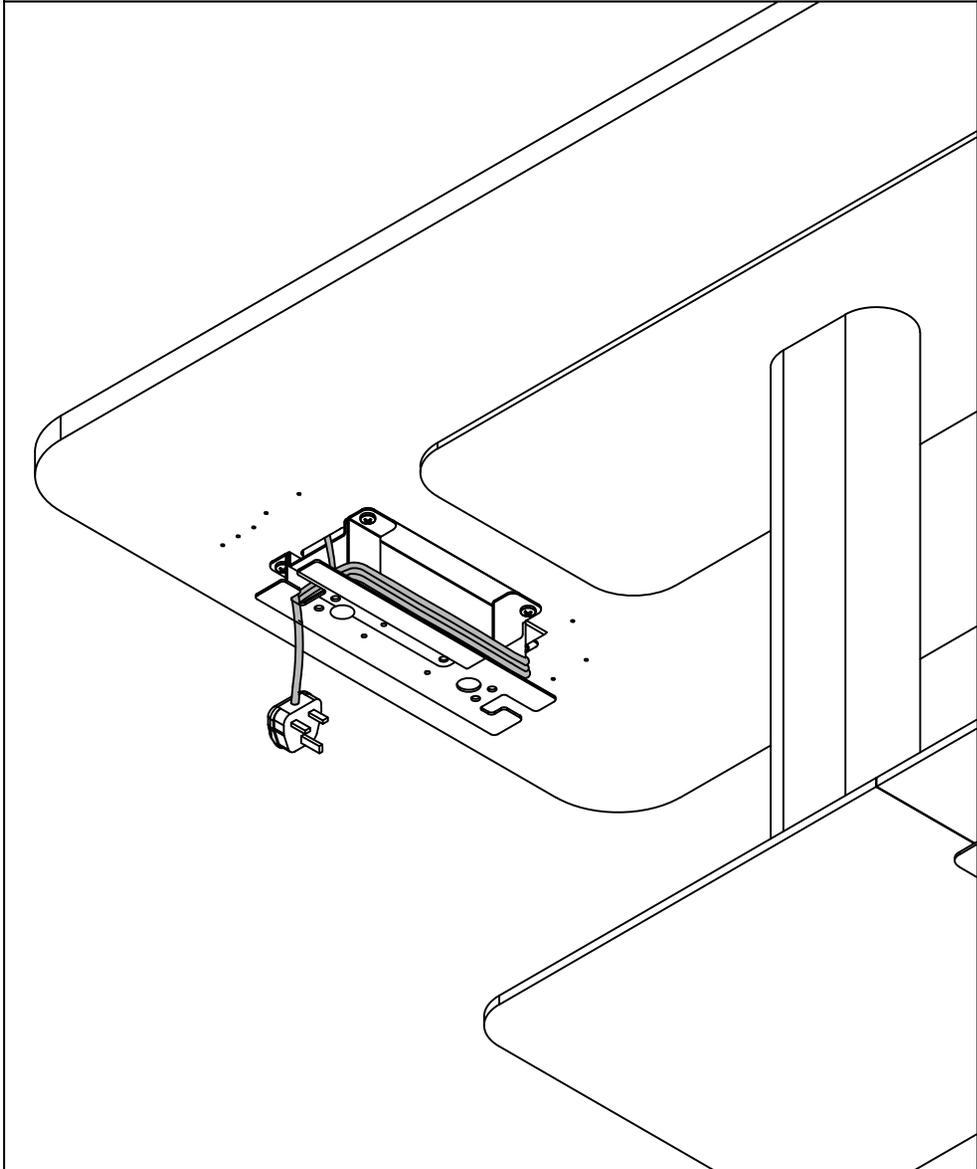

Description: **CALA POWER MODULE INSTALLATION**

**INSTALL CABLE MANAGER ASSY.**

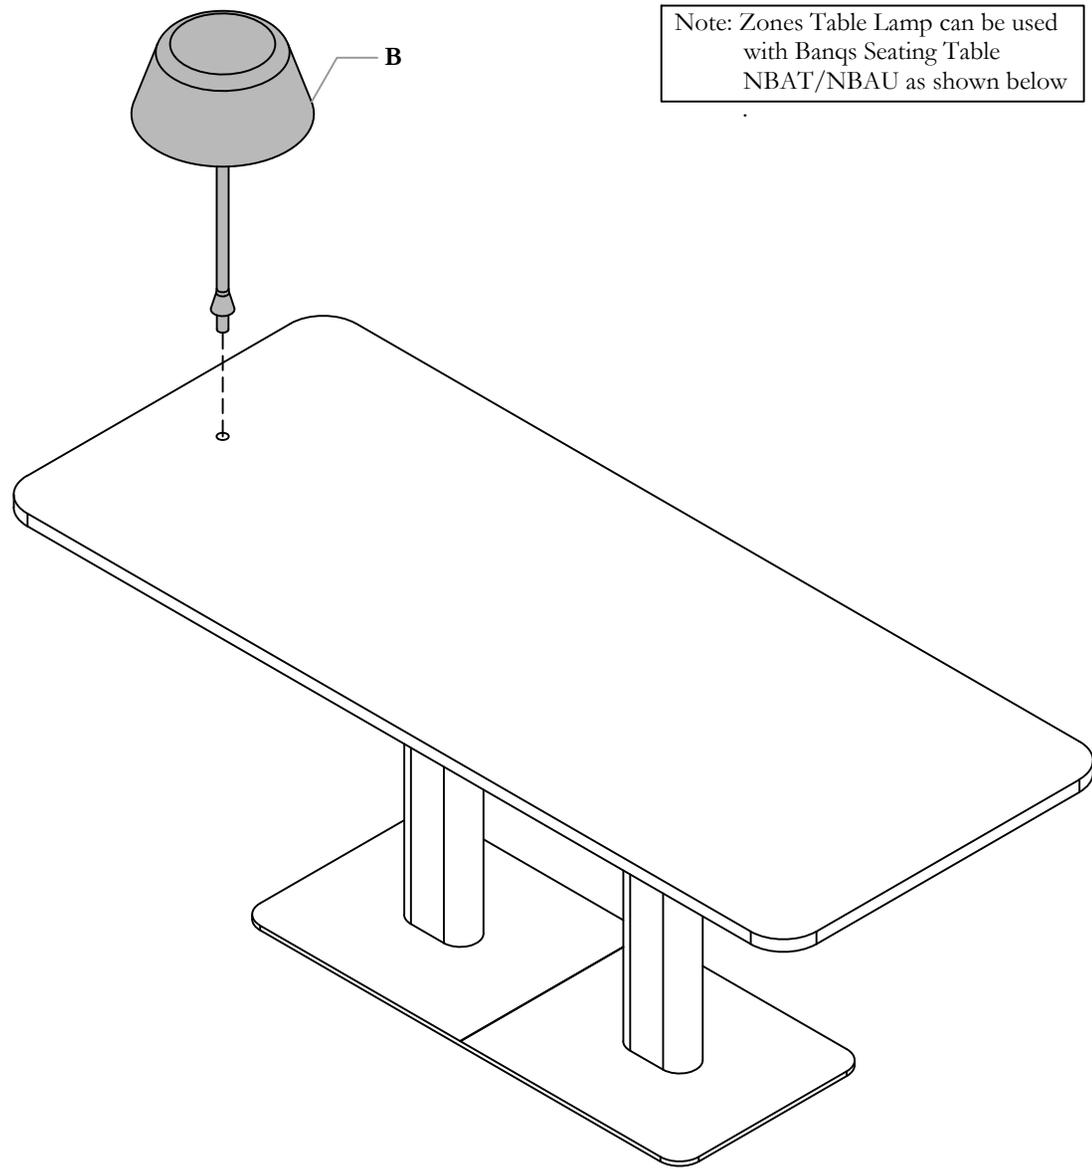

STEP 3: Secure the Cable Manager Assembly to the Worksurface using the Wood Screws provided.

**ROUTE CABLE AROUND MANAGER**

STEP 4: Wrap the Cable around the Bracket as shown. Use the slots provided to keep the wire from unwrapping.

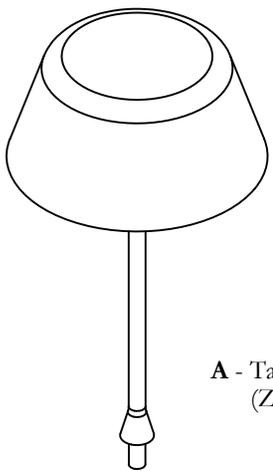

Zones - Table Lamp (ZNETL)

Note: Zones Table Lamp can be used with Banqs Seating Table NBAT/NBAU as shown below

Part and Product Identification

Through-Mount Table Lamp / Table Runner Table Lamp / Modular Seating In-line Table Lamp

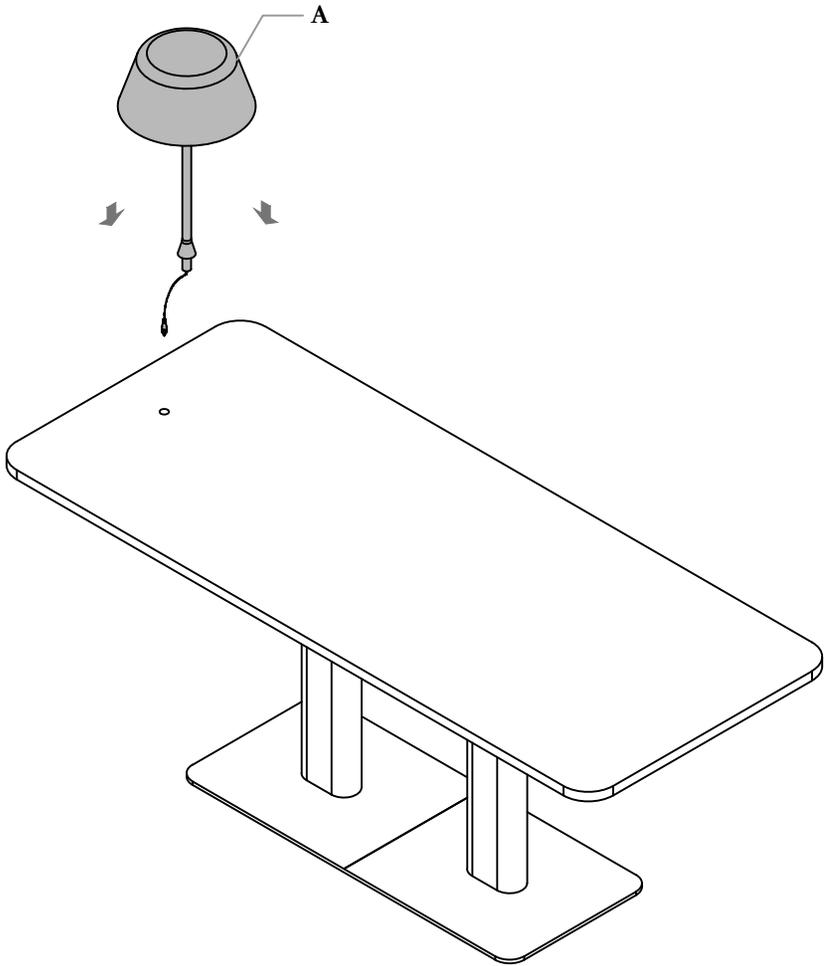

**A** - Table Lamp Assembly (ZNETL) x1

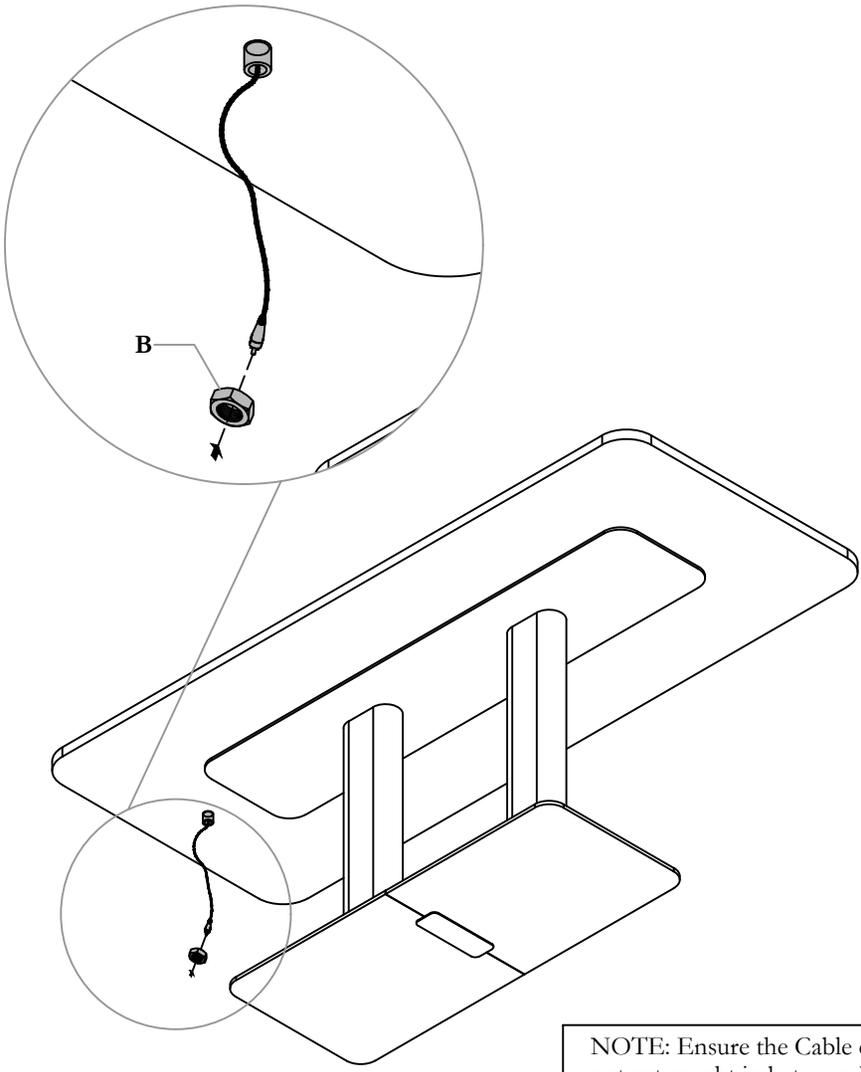

**B** - Thin Hex Nut (91078A240) x1 per lamp

**ROUTE CABLE**

STEP 1: Install Lamp into the hole as shown above

**INSTALL LAMP**

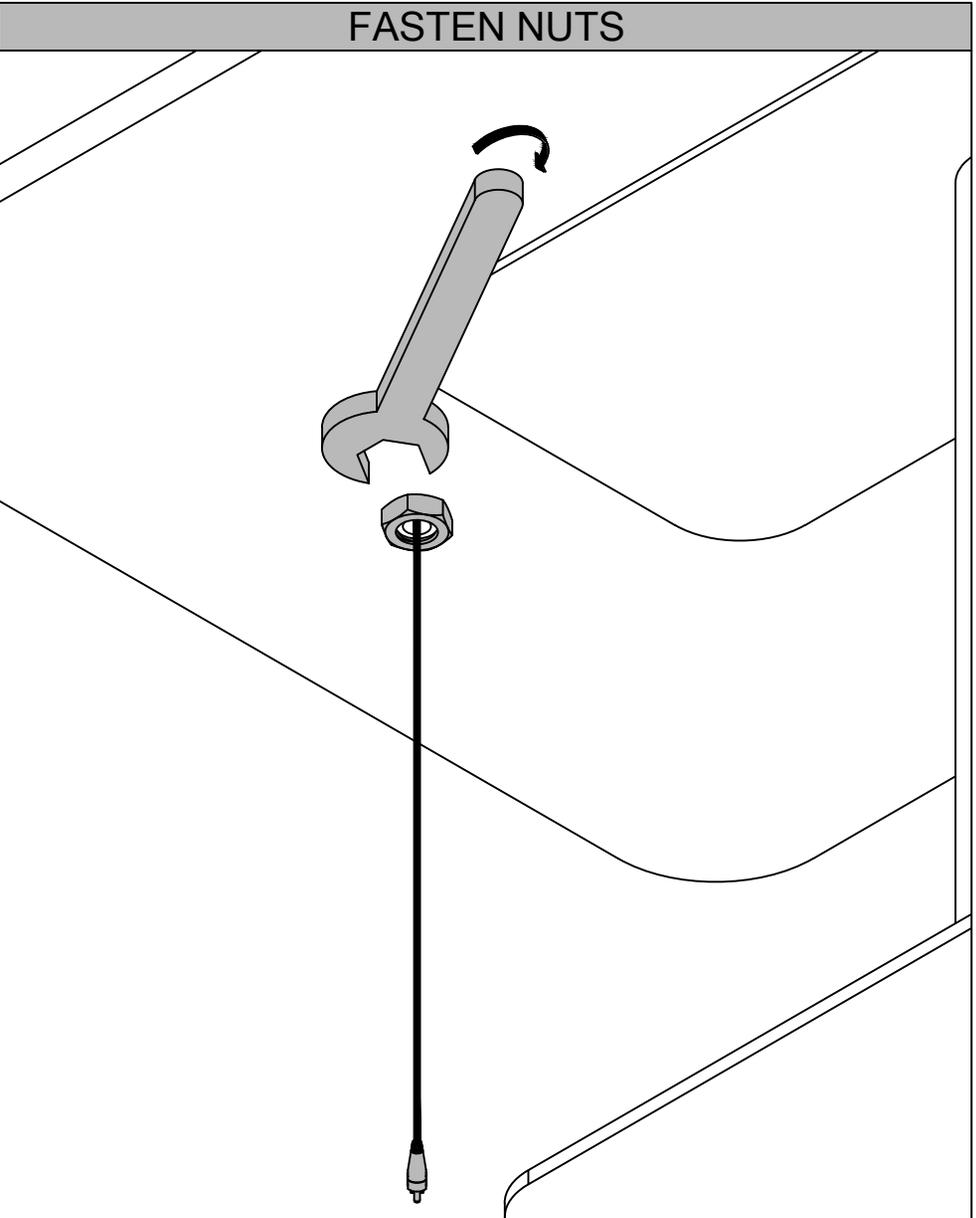

NOTE: Ensure the Cable does not get caught in between lamp and the hole.

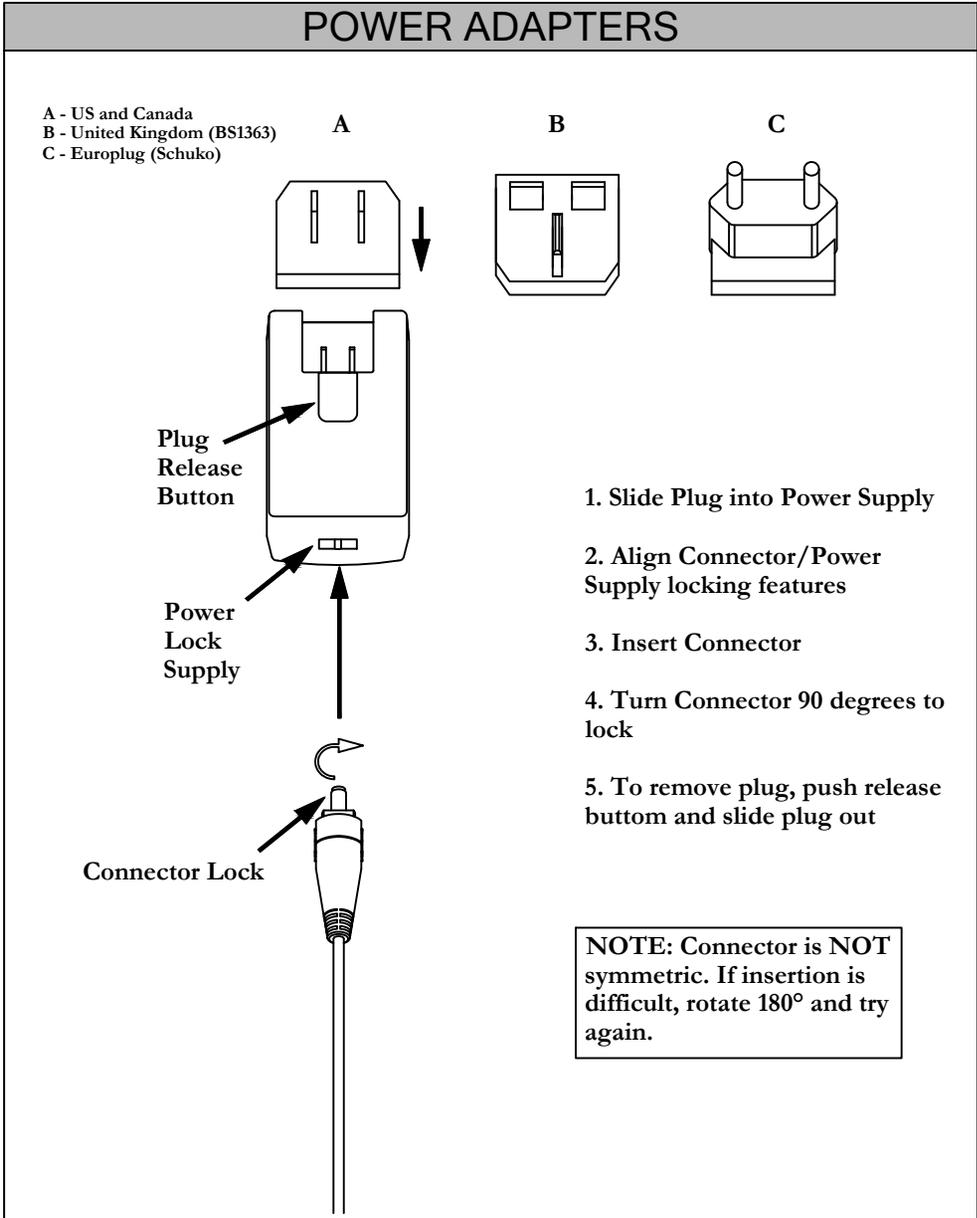

STEP 2: Route the Cable into the Light hole.

NOTE 1: Ensure the Cable does not get caught in between lamp and the hole.

NOTE 2: If Lamp does not sit flush on the surface, check diameter of the hole.

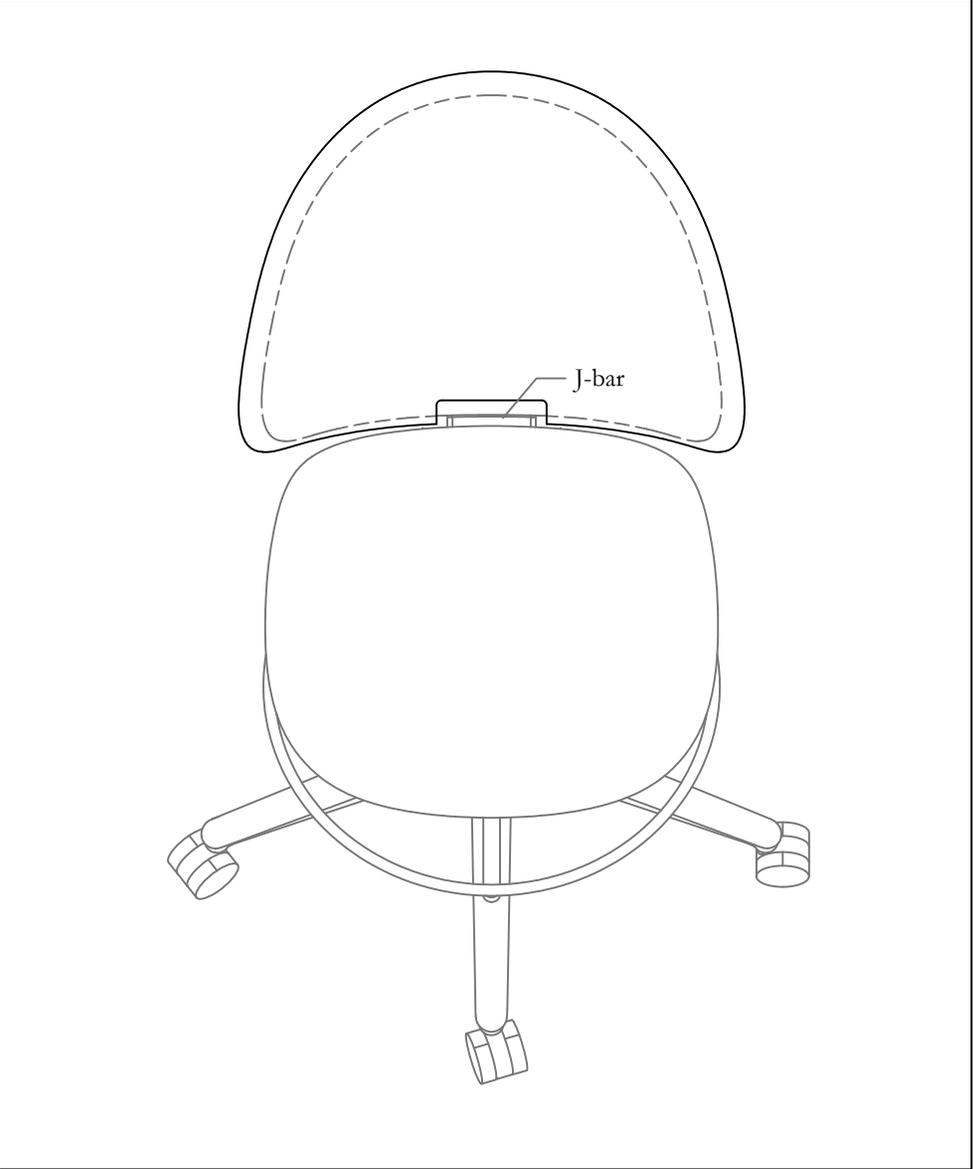

STEP 3: Route the cable through Nut and fasten Nut onto the Lamp as shown above. Tighten Hex Nut with wrench to secure the Lamp. Do not overtighten as it can damage the work surface.

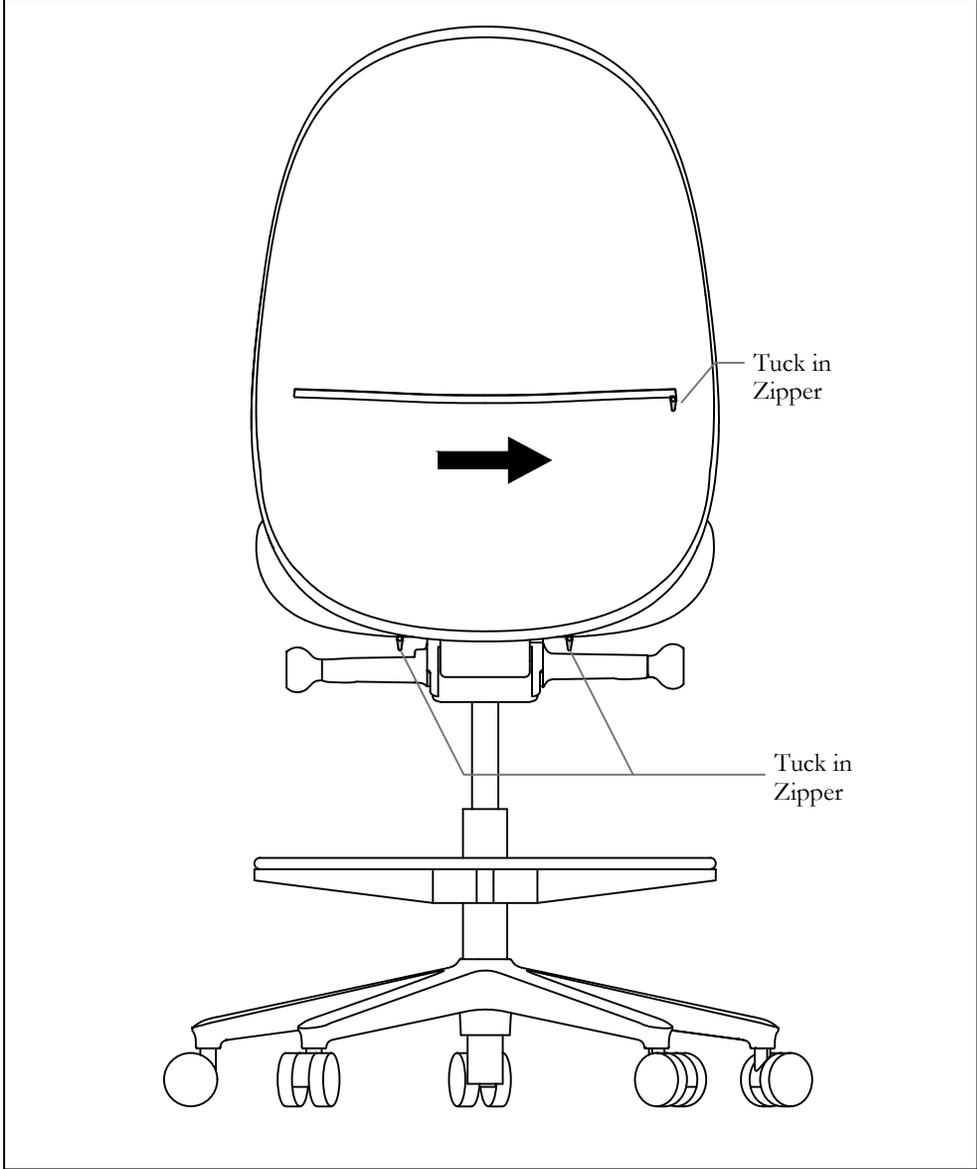

STEP 4: Change in Power Adapter Information.

ALIGN NOTCH ON SLEEVE WITH J-BAR

STEP 6: Do a final check that seams are in good alignment and symmetry. The notch for the J-bar should be correctly aligned.

ZIP THE BACK AND TUCK IN ALL ZIPPERS

STEP 8: Continue zipping until closed. Finesse by tucking zipper pulls up. Zip close back zipper (NTAF). Tuck zipper pull up.
